WILSON SHANNON CONFIRMED AS Governor of Kansas.

WASHINGTON, Feb. 12. The Senate to-day, in Executive session, after a very warm debate confirmed William Shannon as Governor of Kansas, by a vote of Forty Yeas, twelve votes being cast in the negative.

☞ We advise purchasers of fancy Goods and Toys of superior Fireworks, to call on Holden, Cutter & Co., extensive importers, 15 and 17 Kilby Street Boston.

ITEMS AT HOME AND ABROAD.

——The Railroads are much impeded by snow this side the Schenectady of Tuesday, and their business is really deranged. The train from Boston Monday morning, only reached here Tuesday evening, and we are told that there was no train from Montreal over the Champlain and St. Lawrence Road from Saturday to Wednesday.

——THE COURTLAND PROPERTY on the East side of Church street, known as the "Dubois property," was, we understand, purchased Saturday by P. Caldwell, Esq., of this place. The price was $2,000, a large portion of which was paid down.

——A Railroad Library has been established at Northfield, by the Officers, Mechanics, etc., on the Vt. & Canada R. Rd. A convenient room has been fitted up, and over $200 invested in useful books. It is designed for the employees of the Road.

——SUICIDE IN MORRISON, Vt., on the evening of the 12th inst., the dead body of Mrs. Mary L. Barney, was found suspended by a pocket handkerchief from her bed post. She had been subject to seasons of mental derangement for several years past. She left a husband and two young daughters.

——FIRE ON the night of January, Tanner's Blacksmith shop in Pittsford was burned. Insured for $120. The saw mill, chair shop, and store house, at West Dummerston, known as the Howard Mills, were burned, Feb. 14th. No insurance. The wheelright shop of Lyman Cleveland of East Fairfield, Vt., together with its contents, was entirely consumed by fire on the night of the 21 inst. Loss covered by insurance. The school house north of Hinson's Mills, in Derby, Vt., was consumed by fire, Saturday morning, 31 inst. The blacksmith shop belonging to Ebenezer Hammond, in West Derby, was consumed by fire on the evening of the 4th inst.

——RUMOR ON RUMOR.—The Repository states that it has received information on the border of Washington County, of a dead man found with a barrel of rum and all going to show that he died from exposure after, evidently taking too much of the contents of the barrel. Most of the rum, however, had run out, leaving the man in a state of intoxication, and he was found in a state of insensibility, with his head in the rum, and his body in the snow. In attempting to move the barrel, it upset and he was drowned in the rum. In attempt last week at Brattleboro, a man named McGraw was found lying on the Railroad track with both his legs and one arm frozen. It was thought he will have to be amputated. The probability is that he will die. If he is not dead already. Intoxication was the cause.

——PERSONAL ACCIDENT.—At a Common school Convention held at Montpelier on the 24th ult., a resolution was adopted in favor of a Normal School, supported by the State, designed especially for the professional training of teachers, some kind of training seems to be needed, for the distinct sound polarity gives in some cases. A Correspondent of the Middlebury Register, calls attention to the peculiar qualifications of one in that town who designed to impart knowledge to his scholars with such "explicit" as "chemistry is the substance of gunpowder" "Insurance is a liberty against fire" and who says "Multiply by that rule," and replies to those parents who express dissatisfaction, "Go home I will leave the school." "But," says the writer "Ignorance is not all. Several school teachers, in the town, are reputed swearers, and several of them are reported to swear at their scholars in school!"

——VERMONTERS AT THE WEST. The Rutland Herald calls attention to the fact that in the Municipal election held last week in Detroit, the rival candidates for Mayor, O. M. Hyde and A. W. Buell, were both Vermonters—both Rutland County men and both from the same town, Castleton. The former is a strait laced Student and outspoken Republican, the latter an equally well known Democrat of the Douglass stripe. He was in Congress in 1850—voted for the compromise measures. Rights have law and all, and has since taken grounds with the Kansas apologists. We are gratified to see that Mr. *Hyde* was elected by 200 majority.

——A FORTUNE FOR SOME ONE.—Geo. D. Prentice, Editor of the Louisville Journal, is very popular in Kentucky. One of his subscribers writes to inform him he has married a young wife in Kentucky, and she has borne him five sprightly American sons in six years. The last two she presented to him on the 1st of January as a New Year's present. I have thought of calling one George and the other Prentice." In reply to this the Journal says: "We suggest to our valued friend that he wait another year. We believe confidently that the 1st January young wife will bear twins—specifically Americans at New Year's or before, and then he can call one George Washington and the second, and the third Prentice."

——DEATH OF A CENTENARIAN.—The following ill mated couplet, however good teachers, were by man—that is by the supreme court at its recent session in Rutland County—pronounced Mrs. Margaret A. Sharp, formerly of New York, against the Hon. Joseph Sharp, formerly of Rutland, Vt.—the Hon. George W. Hunt was for the plaintiff, Thomas Burnes and Andrew Tuttle for the defendant. A Young vs William Crosby, Trespass, Worcester, 18. Allen vs Whittaker—Sarah Walker vs John Walker—Trespass—Ballard vs John Ballard, Debt on Judgment—Fanny Baird Archibald M. Baird vs Antoine S. Davis.

——ON WEDNESDAY last the police of Montreal seized two hundred and ninety loaves of bread as the full and following on account of their being of less weight, and distributed them among the charitable institutions of that city.

——PAY NO TOLL.—Issued to Lucius Pages of Cassadaga, N. Y., for improvement in grinding mills, and to Horace L. Houghton, of Springfield, Vt., for improvement in machines for cutting reeding on metallic metals. Mr. Wade of South Dover, Me., who offered $10,000 for the patent of a machine for sawing or cutting Mica or of machine to cover more than one at once, has met several inventors, who claim that they have invented themselves out of money in the production of a good machine, but none have offered, and one of them sold the right of using a single machine to one of the largest mica manufacturers in Vermont for about the sum offered. It is also, that the mica is now valued at $15,000,000.

——THE AMERICAN PRESBYTERIAN of the Presbyterian and Theological Review, was upon a Committee appointed to report on a memorial of Rev. Dr. Cheever and others in behalf of the Republic of Pemaquid. In his emphatic and stereotype way of the case while the Committee was in session, his last sought, and had it, "Go the general upon a line with the Presbyterian and Congregationalists of the rails that are laid down to the Pemaquids, near the East and Pacific, and then about the rail to his Independent Church, and then go under the entire system of Congregationalism upon any part of the person any more whatever."

——THE EXPANSION of the Ohio river has given the slaves living near the Kentucky shore a chance to show how much they love slavery, and numerous escapes are reported. Levi Dougherty, of Covington lost six of these valuable chattels, Sunday night week, and his neighbor Gage lost two—total loss of both about $2,000.

——TALKING about big women, the following good thing is told of Sidney Smith:—"Going to marry her," he exclaimed, bursting out laughing: "going to marry her! impossible! you mean a part of her; he could not marry her all himself. It would be a case not of bigamy, but trigamy; the neighborhood or the magistrates should interfere. There is enough of her to furnish wives for a whole parish. One man marry her! it is monstrous. You might people a colony with her; or give an assembly with her; or read the riot act and disperse her; in short, you might do anything with her but marry her."

COLD WEATHER.—Patrick Va., Jan. 24th, 1856.—The snow is deeper than it has been at any period within the last sixty years—at one time there was 27 inches in depth on the ground in the woods. Such has been the intense cold and the great fall of snow, that nearly or all of the sparrows or grey snow birds have died. The blue or slate colored snow birds have flocked into the houses or barns. The partridg, hares and many of the chickens have been frozen to death—in short, the cold has been dreadful in the extreme.

——BETTER TIMES AHEAD.—On Friday last over 200 bushels of potatoes were sold at Wilmington, in lots to suit purchasers, for from 16 to 17½ cents per bushel, and from a shilling to twenty cents is all that is asked for them in that vicinity. There is a fair prospect that the day is coming when poor people can once more afford to live.—*Bellows Falls Argus.*

——TOO BAD!—The Treasurer of Grant county, Wisconsin, was going up the Capitol with that county's State tax ($16,0 0) in specie boxes at his feet in the stage, when he discovered that the bottoms of both the stage and the boxes were broken, and all the specie gone! Like other "good seed" sown by the way side, "the fowls of the air," or something more ponderous, gathered it up before it took root." Famous as the soil of Wisconsin is for the rich harvests, so rich a crop had never before been gathered in the State. The misfortune is, that no one seems to know who was the fortunate husbandman.

——*A Sad Warning.*—A young gentlemen in the loafing business was found dead on Christmas day at Gallatin, having evidently died under particularly shocking circumstances. In swallowing a lump of molasses candy, the sticky edible had caught the end of his moustache and pulled down his throat, and a painful death was the consequence, though the jury could not agree as to whether it was the result of strangulation, or poison by the nitrate of silver in the hair dye with which the moustache was colored.

——LADIES' DRESSES.—De Trobriand in the Courrier des Etats Unis, speaks of a lady now in Paris who wears upon one dress fourteen hundred metres (a metre is over a yard, of fringe trimming. Fourteen hundred metres'—a full mile, that is to say, the dimensions of a race course! If it were not for something to attach the fringe to, the robe itself might be omitted without inconvenience. He says also that a young lady in New York city has adorned a single dress with seven hundred and fifty yards of ribbon!

A MELANCHOLY CASE OF POISONING.—A little daughter of Dr. Jennings, of Richmond, Mass., recently died from the effects of poison, administered through mistake. The Pittsfield Eagle gives the following particulars: It seems that Dr. Jennings had occasion to administer strychnine to a patient on Thursday, the 31st ult., and on his return home left his medicine case containing the powders which were unused, in his study, a room which the family are not allowed to enter. At the time, the only daughter of Dr. J., a beautiful child of nine years, was ill with some slight disorder, for which Dover's powders had been prescribed. Her little brother, thinking to play doctor, ventured into the proscribed room, took out the fatal powders, and offered them to his sister, who refused them. One of them however dropped on the floor by the table, and Mrs. Jennings supposing it to be and of Dover's powders, picked it up, placed it with them, and afterwards gave it as such to her daughter. The result was of course, her death in a very short time, and before the physician who had been summoned could arrive."

☞ The Concord (N. H.) Independent Democrat explains, that Mr. Hale did not offer to shake hands with the President at the White House, and therefore Gen. Pierce did not have the opportunity to refuse to perform that pump-handle ceremony. Mr. Hale went to the White House, not by any manner of means to pay his respect to the President, for he does not owe him anything of the kind. Some country cousins of Mr Hale wanted to see the man who voted the French Spoliation bill, and bombarded Greytown. Mr. Hale, misled by his courteous feelings, instead of dissuading them from going to see what was not worth seeing, conducted them in to the presence. He made no advances to the President, and fortunately for Mr. Hale, the President made no advance to him. This is the whole story.—*Atlas.*

News of the Week, BY TELEGRAPH.

TO THE FREE PRESS.

Later from California and Nicaragua.

NEW YORK, 13.

Steamship *Northern Light*, arrived this forenoon with California dates to Jan. 21st, and $248,000 in treasure. An extensive coal mine has been discovered in Bosteranga, near Stockton. The canvas in the Legislature on the U. S. Senator was very exciting. There were several American candidates, but it was thought they would all be dropped for a new man. The market was without marked change—the mines yielding largely.—Heavy rains had injured the agricultural prospects. At the Walla Walla battle, several whites were killed and wounded and many indians. The Oregon Capitol building had been fired by an incendiary and burnt down.

Matters were quiet at Nicaragua. Gen. Walker's force now numbers about 2000 men. President Rivas has issued a decree suspending all official communication with the U. S. minister and recalling Parker H. French.

Gen. Walker has commenced a march upon Nicaragua with 2000 men. It was presumed that Costa Rica would concert with him, and every preparation is being made in Granada for active duty. The outposts on the Isthmus and San Juan River were being strengthened. At Granada, business is completely stagnant.

From Washington.

NEW YORK, Feb. 14th,

The Herald's Washington Correspondent telegraphs "A move is on foot here to secure Mr. Crittenden's nomination by the Philadelphia Convention."

The announcement of the Committees to-day seems to give general satisfaction. Some of the most ardent Republicans manifest a slight disappointment. There are many rumors relative to the mission of the British and French naval forces in our southern waters. Gov. Shannon of Kansas arrived here today."

From Havana.

The steamer Quaker from Mobile via Havana, the 9th, arrived this morning. Accounts of the failure of the Sugar Crop are confirmed. The continuous rains are fast destroying all hopes of a large crop.

From Washington.

WASHINGTON, Feb. 15.

Mr. Galleges has presented to the President through Mr. Cushing the resolution of the territorial Legislature of New Mexico, asking for the removal of the Hon. Perry E. Brochus, one of the U. S. Judges, for said territory. The protracted absence of Judge B from the territory is stated as the cause.

Governor Shannon was telegraphed at his residence in Ohio by President Pierce to appear in Washington without delay. In obedience to this dispatch, the Governor is here. His nomination has not been called up in the Senate.

A New Presidential Candidate.

NEW YORK, Feb. 15.

A project is on foot in some of the leading in this city, to drop Law and Fillmore as Presidential candidates, and unite on Hon. Erastus Brooks, one of the editors of the Express.

A Cruise among the Cannibals.

PANAMA, Feb. 5.

The U. S. Sloop of War, John Adams, arrived at this port early on Sunday morning from the Fejee Islands. The John Adams left this port in July last, bound to the Fejee Islands to enquire into, and seek reparation for many cruelties committed by the natives, and demand indemnity for the plunder of several American ships trading and fishing in the Fejean Archipelago. Five sharp engagements took place between her crew and the cannibals of Polynesia. Five of their largest towns were burnt, and all the houses therein reduced to ashes. An important treaty was also ratified between Commander Boutwell and the King of Fejee, on behalf of the American Government.

Meeting on Kansas Affairs.

CINCINNATI, Feb. 15.

Judge Conway and Samuel C. Smith, of Kansas, addressed a crowded assembly at Indianapolis on Wednesday evening, on Kansas affairs. Unbounded enthusiasm prevailed and resolutions were adopted for a Mass Meeting of the whole country, to be held without reference to party, to render assistance to the Free State men of Kansas.

From Washington.

WASHINGTON, Feb. 16.

The Republican Association of Washington are making strenuous efforts to establish similar societies in every City, Town and Village in the United States. They design, also, to scatter broad-cast, Speeches, Documents, &c., on the Slave question, and have already prepared 162,000 copies in English, and 20,000 in German of the speeches and writings of Messrs. Seward, Hale and others.

Gov. Shannon will leave this afternoon, direct for St. Louis, and thence to Kansas. Immediately on his arrival he will remove his office from Shawnee Mission to Lecompton, the centre of the prevailing difficulties.

Orders will be issued from the War Department this afternoon, and will, probably, be conveyed by Gov. Shannon to Col. Sumner, of Fort Leavenworth. There are 800 troops at Fort Leavenworth, and 500 at Fort Riley, who are to be called out, if circumstances shall demand it.

From Kansas.

ST. LOUIS, Feb. 16.

The Fort Leavenworth *Herald*, of Feb. 9th, says, that a Pro-slavery Meeting was held there on the 24 inst., at which it was determined to offset the influence of the Free State agents abroad, by despatching Gen. ——— to the Southern States to give the people the Slavery side of the question.

The Topeka Herald appeals to the friends of the North and East, to hold themselves in readiness to march at a moments notice—that the struggle begins to show itself in earnest, and invokes the people to die in preference to surrendering.

The Herald of Freedom says that the Forts are guarded day and night, and that munitions of war were being collected in readiness for instant service, an attack being expected.

The President's special Kansas Message had reached Leavenworth but not Lawrence.

WASHINGTON, Feb. 16th.

A report prepared at the general land office but not yet published, shows the amount of territory subject to the Act of August 1854 to graduate and reduce the price of lands to actual settlers and cultivators. Of the first class, one dollar an acre, there are 18,768,759 acres; second, 75 cents, 15,654,148 acres; third, 50 cents, 11,940,930 acres; fourth 25, cents, 64,850,027 acres; fifth, 12½ cents, 25,114,353 acres.

One Week Later from Europe.

Angry words between Mr. Buchanan and Lord Clarendon.

Peace Negotiations,

HALIFAX Sunday 17th.

The Canada from Liverpool Saturday the 2d inst arrived here at 4 o'clock this morning.

The Canada brings no information whatever of the missing steamer Pacific. The London morning Advertiser has the following intelligence. "We regret to hear that at an interview which Lord Clarendon and Mr. Buchanan had together at the foreign office on Tuesday, very angry words passed between them relative to the Central American question.

The dispatches of the Russian Government completing the telegraphic announcement of the unconditional acceptance of Austrias propositions were received at Vienna on the 23d ult., Couriers immediately conveyed them to Paris and Lolnon.

A memorandum embodying the proposition has been signed at Vienna and sent to Paris and London and it is reported that the Congress will meet at Paris Feb. 17th; that very little time will be lost in the discussion and that the whole will be brought to a Conclusion by Feb. 25th. The signing of preliminaries prior to opening the Congress now only awaits the arrival of the Turkish Plenipotentiary.

It is stated that Prussia refuses to agree to the conditions accepted by the allies, preliminary to her admission into the peace conference and that consequently she will be excluded from the conference, but be invited to sign the final deed of settlement. Baron Brunow and Count Orloff are the Russian Plenipotentiaries, assisted by Messrs. Titoff and Fenton. Lord Clarendon represents England, Marquis Da Zeglio, Sardinia, Count Buol, Austria, M. Walewski France, Denish Pasha Turkey.

Letters received to the 30 ult. speak of mild weather in the Baltic and resumption more or less of navigation. At Pillau, Memel and Cruxhaven ice was breaking up. Correspondent of the English Camp of Jan. 18th, reports the army healthy. No incident except that the Russians continue to fire from the north forts. Gen. Gortschakoff has handed the command to Gen. Luders and issued a new valedictory to his Crimean Commanders. January 9th, The Russians made an expedition over the Ice to attack Kertch, but Gen Vivian being on the alert they retired. Good Williams was at Tiflis December 1st, being, handsomely treated and awaiting orders from St. Petersburgh as to his destination. We know nothing of Kars except that the town is occupied by the Russians.

MARKETS.—The Brokers circulers quote Breadstuffs considerably lower and the demand limited and prices irregular. Flour is variously quoted at a decline of 1s a 1s 6d. Wheat 3d a 6d and Corn 1s a 2s, prices are called nominal.

From Washington.

NEW YORK, Feb. 18.

Mr. Greeley of the Tribune lectured last evening "Senator Wilson will open the case for the Freemen of Kansas tomorrow if an opportunity be offered. An attempt will be made in the House to reconsider the vote of Thursday by which the Kansas message was sent to the Committee of the whole.—Success is doubtful.

Dental Surgery.

DR. E. WESTON, JR.,

RESPECTFULLY INFORMS HIS FRIENDS And the Public, that he is now practicing his profession as Surgeon Dentist, in Burlington.

Having devoted the last four years to the practice of Dentistry, in the firm of Childs, Shepherd & Ridgway, Boston, he confidently hopes to merit the patronage of the community. All who favor him with their custom, may be assured of prompt and skilful attention, and on reasonable terms.

The constant demand for his TOOTH POWDER, leads him to inform the Public, that during the past twenty years it has been made *exclusively* by Dentists for their own Patients. This in itself is sufficient guarantee for its superior quality. All who have used it, freely acknowledge its merits over any other dentifrice.

A New Book.

THE Rev. D. Doble, of Plattsburgh N. Y. being through ill health obliged to lay his pastorship aside, proposes to publish by the help of his friends, a Book on the Interpretation of the Bible. It is an attempt to lay down and illustrate the fundamental principles of common sense by which all men are to be governed in the interpretation of the Scriptures. It has been prepared with care and received the approbation of the first Biblical Scholar in this Country, the Rev. Dr. Robinson of New York.

Dr. Robinson says, "I have examined the general outlines of a work on the Interpretation of the Bible, by the Rev. D. Doble, and cheerfully express my approbation of the same, so far as submitted to me. I cannot but hope it may be generally useful to all students of the sacred volume, (signed) EDWARD ROBINSON.

Nov. 10, 1855. *Prospect Union Theo. Sem. N. Y."*

Subscriptions will be received by E. A. Fuller for the above work; price $1,25, on delivery; the book will be 350 or 400 pages, in the best style, and ready at the opening of spring.

All Bible Class and Sabbath School Teachers will find the Book a great help. d&w2t

Hinesburgh Academy.

A. E. LEAVENWORTH, *Principal.*

THIS next term will commence on Wednesday, March 5th, 1856.

Sally Russell's Estate.

STATE OF VERMONT, } The Honorable the
Distrit of Chittenden, ss. } Probate Court for the District of Chittenden, To all persons interested in the estate of Sally Russell late of Richmond in said District, deceased,

GREETING.

WHEREAS, said Court hath assigned the 8th day of March next for the settlement of the administration account of the Administrator *Dr. Bonis Non*, of the estate of Sally Russell late of Richmond in said District deceased, and ordered that public notice thereof be given to all persons interested in said estate, by publishing this order three weeks successively previous to the day assigned, in the Burlington Free Press, printed in Burlington, in said District.

Therefore, you are hereby notified to appear at the Probate Court rooms, in Burlington, on the day assigned, then and there to contest the allowance of said account, if you see cause.

Given under my hand, this 20th day of February A. D. 1856.

A New Book.

FOR OLD AND YOUNG.

Gathered Sketches.

FROM the early History of New Hampshire and Vermont, containing vivid and interesting accounts of a great variety of the adventures of our forefathers and of other incidents of olden times.

ORIGINAL AND SELECTED.

EDITED BY FRANCIS CHASE M. A.

This is a book which cannot fail to be read with the greatest interest by all—particularly by those who claim for their fatherland the green hills of New Hampshire and Vermont.

To the old it will recall the scenes and stories of their childhood; for the young it is a work that will be read and re-read in the long winter evenings.

This is one of the cheapest works that has lately been issued from the press. As to the character of the work it will speak for itself. Illustrated with fine wood engravings. Size 12 mo. price 60 cts.

Active and enterprising Agents with a cash capital of $10 to $15 wanted to canvass for the sale of this and other publications. Copies will be forwarded by mail free of postage to any one sending the price of the book either in P. O. stamps or money.

NEW JEWELRY STORE.

Church St., Burlington, Vt.

HAVING fitted up my South store and rented it to Mr. W. W. Partridge, for a Music store, I have altered over and enlarged my North store next door, formerly occupied by Mr. Amos Pangborn and myself; and have put in new Cases, and fitted the store up convenient and pleasant for customers, and filled it with an almost entirely new stock of Goods in the

WATCH AND JEWELRY LINE,

And an extensive variety of Fancy Articles, to which additions are made

EVERY WEEK

in the year.

Watch work, Clock Work, Engraving, and all work in the line executed with neatness and promptly Coffin Plates of pure silver and silver plated, ready made and engraved at short notice. Customers can rely on getting GOOD goods and at as low prices for goods of same quality as in any other quarter. All visitors to the town are invited to examine the New Store and new and extensive variety, whether wishing to buy or not.
