WINER'S

PATENT WASH-TUB.

THE subscriber would respectfully call the attention of the inhabitants of Burlington, Vermont, Ellsworth and Franklin, that he has procured the agency for the manufacture and sale of the above articles in those counties, and currently solicits a candid investigation of its merits. It is generally conceded by those who have used it in the Eastern and Middle States, and is now very extensively used by the people of Vermont, for them to be a most valuable and great superiority over anything ever before used for washing. The fact that it is but a little more than the price of the old tubs, and that it can be used in washing machines, together with its well known durability, are giving it a rapid introduction wherever it has been tested, to be an sufficient evidence to the public of its merits. Any person who purchases this article from any agent, and finds it not as represented, can return it to the agent and receive back the money paid for it. Agents will be supplied with the tubs at the manufacturer's prices, and will be required to give a bond with approved sureties for the faithful performance of their contracts. Persons who have purchased rights in the above counties will please call on the undersigned, or address him at Plattsburgh, N. Y., and receive the tubs.
