DYSENTERY POWDER

WHICH CURES

DYSENTERY,
DIARRHEA,
CHOLERA,
CHOLERA MORBUS.

THESE Powders are offered to the world as a perfectly safe and effectual Medicine, for the purposes they are recommended. One Powder taken in the first stages of the disease will usually cure; very seldom are two required. A person does not require physic after them as they do with all other preparations, for they regulate the Bowels, tone up the system, and leave it in a healthy condition.

Price, 50 cents a box—full directions accompanying them. Warranted to give satisfaction.

Palmer's Artificial Leg.

Removed of the Springfield Establishment to Boston.

AT the urgent solicitation of the most eminent Surgeons and Physicians of Boston and New England, the manufacture of the unequalled American invention has been removed to Boston. The "PALMER ARTIFICIAL LEG," is without a rival either in Europe or America, and is now worn by nearly Three thousand persons! with astonishing success, upwards of two hundred of whom are Ladies, and we have thirty individuals each walking upon two Artificial Legs. It so nearly resembles the natural leg, in appearance and action, that the nicest observation often fails to detect "Art" from "Nature." The "Palmer Leg" took the "Great Prize Medal" at the World's Fair in London, over thirty competitors from all parts of Europe. No other Artificial Leg is recommended by intelligent Surgeons and Physicians as the "Palmer Leg" is regarded as the ne-plus-ultra of Surgical Mechanism. They are very durable yet light, the average weight being four pounds. They are applied to the shortest and tenderest stumps with entire success. The "leg" is freely ventilated. In this country it has been exhibited thirty five times, and in every instance received the award of the highest or first premium! The patient is enabled to walk immediately upon its application, with remarkable ease, comfort and naturalness.

Pamphlets giving full information, sent gratis to every applicant. General Office and Manufactories for the New England States including New York and British Provinces, 19 Green st., Boston, Mass., and 578 Broadway New York. Patients can be served at Boston or New York as is most convenient to them.

$100 PROCLAMATION.

TO THE INHABITANTS OF

BURLINGTON AND THE STATE.

I propose to cure, almost instantaneously, individuals affected with Headache, Rheumatism, Neuralgia, Paralysis, Asthma, Piles, Gout, Felons, Swellings of all kinds, Cramps, Deafness, and all Bronchial Affections, and some other cases that I have treated successfully.

I propose to check, and effectually dissipate, more Aches and Pain than can be effected by any other, or all other methods of medical aid, in the same space of time, the masses themselves being Judges.

I do not propose to cure every disease, only a certain class named in my directions. My Electric Oil operates on chemical and electric principles, and is therefore applicable to the cure, or natural restoration of any organic derangements arising from an improper circulation of Nervo-Vital Fluid.

I want the masses to join in this matter—the well and the sick; because, if these things are so, are all alike interested. The cures made by

A. E. SMITH'S

"ELECTRIC OIL"

are so nearly miraculous, so wonderful and instantaneous, so satisfactory and mitigating of human ill, as to call upon public functionaries, and those having charge of the sick and suffering, to look into the well attested merits, the simple efficacacy of this "Electric Oil."

I will forfeit $100 if the Electric Oil, sold at the corner of Walnut and 8th Streets, Philadelphia, fails to cure a single case of Rheumatism, of pains in the Bank or Limbs, Piles, Sores, or Burns, Fever Sores, Ulcers, Caked Breast, Sore Nipples, Felons, stiffness in the Joints or Neck, or Palpitation. To remove all soreness and swellings in from 5 to 20 minutes, if applied to any patient, male or female, in the almshouse, or any public institution in the city.

ROME REMARKABLE CURES.

Alpine Hair Balm.

For Restoring Gray Hair to its Original Color.

WARRANTED to cure baldness, scurf, dandruff, itching and all diseases of the skin.—This Balm gives the scalp a new and healthful action; restores the coloring matter to the roots of the hair, which passes through the hair and gives it a natural color without the use of hair dye.

Hundreds of preparations have been introduced pretending to preserve the hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all to no use. Hair dyes have been introduced that do not give the hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years' trial has perfected this Balm. It is soothing and emollient, allays all irritation of the scalp, thereby stopping that troublesome itching. It cures dandruff and scurf, and when the hair has turned gray it will bring it back to its original color, be it black, brown or Auburn. It makes the hair soft and glossy,—prevents it from falling off as will be seen by using this balm for only a few days;—life will be given to the roots of the hair, and growth will soon appear. Growth does not take place at the end of the hair, as will be seen in persons who have their hair dyed. If you examine gray hair that has been colored for a week, you will find towards the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow and gray. To invent a balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making new the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm, will restore the skin and save the hair of those who have been sick with fever or any disease.

MEDICINAL PURPOSES.

☞ To attain the desired object of placing before the public a reliable article, we have spared neither time nor expense, and the basis upon which we place the virtue of our Whiskey is, (for whatever purposes the purest quality may be recommended) that this is entirely free from any adulteration whatever.

Its purity cannot be questioned, as a thorough analysis has been made, as will be seen by referring to the following Certificate, a copy of which accompanies each bottle.

STATE ASSAYER'S OFFICE,
32 Somerset St., Boston, May 10, 1857.

MESSRS. WILSON, FAIRBANK & CO.

Gentlemen—I have made chemical analysis of the samples of Bourbon Whisky you sent to me, searching them for drugs or adulterating matters, and have to inform you that the samples of Whisky are free from any adulteration, and do not contain any poisonous or injurious matters, and and hence are suitable for medicinal use.

Respectfully, your obedient servant,

ARNOLD'S VITAL FLUID

purifies and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and humors. Hence its power to cure humors that mere medicine cannot cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away whatever clogs and thickens the blood.

ARNOLD'S VITAL FLUID renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and purifies the system, by furnishing the elements which have vitality.

ARNOLD'S VITAL FLUID gives to the system, influence and effect similar to that produced by exercise in the free open air. It exhilarates by strengthening the blood to brighter and better action—doing its work by beginning at the beginning. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID removes biliousness in the most direct and easy manner, by neutralizing the cause. This is the principle of its action in removing illness generally. It neutralizes the cause by restoring the blood from impurities, to its proper fulfilment of its life-giving functions. This principle of neutralizing the cause, is why *ARNOLD'S VITAL FLUID CURES HUMORS* that mere medicine cannot sensibly affect, and why it cures diseases RESULTING FROM POISONS IN THE BLOOD, that mere medicinal preparation cannot alleviate. Humors are poisons in the blood and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULE AND VITAL FLUID* are enabled to cure them

MEDFORD, MASS., May. 1856.

MESSRS. BURR, FOSTER & CO., BOSTON.

GENTS: I feel it incumbent upon me as a duty, which I owe to you and the public, to make the following statement in regard to the remarkable powers of Arnold's Fluid.

For more than a year my wife's mother and three of my children were afflicted with a malignant humor, the character of which eminent physicians were *unable to determine or prescribe a successful remedy for.* After trying many humor remedies, I was induced to make use of Arnold's Globules and Vital Fluid, which I am most happy to say has entire ly cured them. For the benefit of others like afflicted, I would say that no language of commendation which I can use is too strong for the merits of these vastly celebrated medicines. C. B. SHERMAN.

Globules 25 and 50 cents per box. Vital Fluid 50 cents and $1 per bottle.

CONSUMPTION AND Diseases of the Throat

successfully cured, by Inhaling Cold Medicated Vapors.

DR. ANDREW STONE, Physician to the Troy Lung Institute, inventor of the celebrated PULMONATOR or Lung Tester, and editor of the "Invalid's Oracle," is treating with astonishing success, all diseases of the Lungs, the Throat and Heart, Asthma, Bronchitis, Laryngitis, and Tubercular Consumption, with his new discovered system of Cold Medicated Vapors,—which are breathed directly into the Lungs and the seat of disease.

This discovery is based upon true scientific principles, the vapors are so prepared and composed, as to dissolve tubercular matter in the Lungs and cause it to be expectorated,—at the same time it traverses every minute air tube and cell, and ulcerated cavern in the Lungs, causing them to heal, quieting the cough, subduing the night sweats, the hectic fever and chills.

Consumption, that all prevailing disease, which is now carrying one hundred thousand annually in the United States, to a premature grave, and which hangs the black pall over so many families, blights so many young hearts and blasts so many prospects,—is now as curable in my hands under my system of treatment, as any other disease, if adopted in any prudent season, before the vital energies of the constitution are too far depressed.

The Old School doctrine, that Consumption incurable, has caused the death of thousands! No wonder this has been the case, when they assailed the patient by bleeding, blistering, vomiting, making Setons and Tarter Sores and pouring Calomel, Antimony, Blue pill, and nauseating an debilitating drugs into the stomach. They so demolished what little strength he did possess.

In my treatment no drugs are given into the stomach, the appetite is guarded with scrupulous care,—a due portion of animal food, the most nutritious diet, and exercise in the open air, the necessity of breathing pure air day and night, is strictly enjoined.

The great advantages of my system of inhalation is—that patients can just as well be treated at home, when it is not convenient to come to the *Inhalation*, by sending them the Vapors, with an inhaler for their use—on receiving a full history of their case, stating, minutely, the symptoms, age and sex.

Spacious and convenient rooms, furnished in the best manner, with the best of board, can at all times be obtained in the institution, by those coming from abroad for treatment.

Packages of Vapors—with all the treatment and Inhaler, with both written and printed advice for a three months' course, $25,—for one month, $15.

The Patient need not be afraid of being arriving at the true condition of the Lungs, surpasses all conception for its utility, showing to each patient the accurate amount of air taken into the Lungs and the progress made by inhaling in increasing the vital capacity. Without this very ingeniously constructed instrument, no one can with any degree of certainty understand the true condition of the Lungs. ANDREW STONE, M. D.,
