—ALSO ON HAND—
A splendid assortment of Cloths, Doeskins, Cassimeres and Vestings, and every variety of Goods, suitable for Spring and Summer Wear, which will be made up to order in the most fashionable manner, and will be sold at prices as low at any establishment in the Union. Please call early at
BROWN, LAWRENCE & STICKNEY'S
Nos. 6, 7, 9, 11 & 12 OLD STATE HOUSE,
Fronting State-Street,
BOSTON.
☞Gentlemen about departing for California, can be supplied with every article of Clothing which they may want, by calling as above.
March, 1849. 9tf

CHARLES A. SMITH, & CO.
No. 1, Old State House,
WASHINGTON STREET,
HEAD OF STATE STREET, BOSTON.
WOULD respectfully invite the attention of gentlemen visiting Boston, to call and examine their
Superior Stock of Goods,
adapted to FALL and WINTER wear. CLOTHS of rare and beautiful fabrics, combining every variety of colors.
Beavers,
of English and French manufacture, some of which are of entirely new designs, imported expressly for us. Samples of Top Coats made in London and Paris, may be seen, made from the same Goods.
Pilots and Duffell.
The latter an entirely new article for heavy Top Coats, for Riding or Traveling in cold or wet weather. Sample of the Top Coats made from the same goods may be seen, which have been much admired by those who have seen them.
Pantaloonery.
Every desirable style that has been imported this Fall, as well as the choicest American, may be seen upon our counters.
Vestings.
The variety of Styles and quality are pronounced to be superior to any imported for years.
Clothing Department.
Gentlemen preferring to purchase their garments ready made, will find a large assortment of custom made clothing to select from.
Our TOP COATS, in style and finish, are pronounced superior to anything ever offered in the way of clothing.
☞And at prices to meet the wants of the Times.☜
OUR FOREMAN
In the Coat Department
is acknowledged by all who have tried him to have no competitor.
And the reputation of our
Pantaloons and Vest Cutter
stands unsurpassed by the testimony of thousands whom he has fitted to those garments.
Having enjoyed the high reputation for many years of manufacturing
The Most Fashionable, Best Finished and Durable Clothes,
it has given the impression to some that we charge higher prices than others in the trade. But having made a change since January 1, whereby our expenses are lessened, and our facilities are now such that we are determined
NOT TO BE UNDERSOLD
by any establishment in the City. 44tf.

WIG AND HAIR WORK.

Bogle's System of Measuring the Head.
OBSERVE THE DOTTED LINES.
No. 1. The circumference, or round the head.
No. 2. Forehead to the neck, or as far as the hair goes.
No. 3. Ear to ear, over the top.
Removal.
WILLIAM BOGLE,
First Premium, Ventilating & Gossamer
WIG-MAKER and Ladies' HAIR-DRESSER,
HAS the honor of announcing his removal to the Store No. 277 WASHINGTON STREET, (Four doors South of Winter Street,) BOSTON, and nearly opposite to his Old Stand, where he manufactures
HAIR WORK in all its Branches,
in the same finished style of excellence, for which he has been awarded the first premiums at the seve al Massachusetts Mechanics' Fairs held in Boston.
Persons residing at any distance from Boston, can measure their heads according to the above instructions, send it with a sample of their hair, describing the style they usually wear it, and they will be fitted with a Wig or Top piece so as to defy detection.
Also on hand and constantly manufacturing for sale, a beautiful assortment of both Ladies' and Gentlemen's
Wigs, Half Wigs, Top Pieces,
and every article of Ornamental Hair Work. Also, for sale Rich FANCY GOODS, PERFUMERY, COMBS, BRUSHES, SOAPS, RAZORS, and
Bogle's Hyperian Fluid—for the Hair.
The just superiority of this celebrated article for promoting the growth and beautifying the hair, besides eradicating scurf and dandruff, has produced a host of counterfeits—be cautious, therefore, and purchase of none but the appointed agents (a list of whom accompanies each bottle) or of the inventor. Remember the address—
277 Washington Street, (Four doors South of Winter St.) Boston 277
Agent's name hereafter to be added for Montpelier. 24-1y

GREAT IMPROVEMENT
IN
Planing, Tongueing and Grooving LUMBER.
JOSEPH P. WOODBURY'S
Patent Planing Machine.
THE subscriber having received Letters Patent for a Stationary Cutter, Planing, Tongueing and Grooving Machine, now offers for sale Machines and Rights to use the same. This Machine will plane 6,000 feet of Boards in any uniform thickness in one hour; producing a better finished surface than it is possible to produce by any other means now known, not excepting the hand plane, and is peculiarly adapted to plane and joint clapboards, or weather boarding, and will do the work faster and better than any other machine heretofore invented. This machine is so arranged that it planes the board with an unbroken shaving the whole width and length of the material, and does not take more than two thirds the power that is required to do an equal amount of work by the rotary Cutting Cylinder now in common use. The construction and organization of this Machine is different from any other now in use. Communications for further particulars cheerfully responded to by addressing the subscriber (post paid) Boston, Mass.
One of the above Planing Machines may be seen in operation by calling on the Patentee.
JOSEPH P. WOODBURY,
20-1y Dorrer Street, East Boston, Mass.

Insurance.

Now is the Time for Farmers!!
The unprecedented success of the
Farmers' Mutual F. Ins. Company,
enabled it to commence issuing Policies on the 9th of this month, with nearly THREE TIMES the amount of Applications required by the Charter!! This fact abundantly demonstrates the necessity of such an institution, and places the question of its success beyond all rational doubt.
Now is the time for Farmers to be insured by THEMSELVES, as there is no longer any necessity for their suffering in connection with hazardous property.
For further information, inquire of travelling agents, or of the Secretary, post paid.
Office in Kemp's Building, opposite the Brick Church, Main street. AZEL SPALDING, President.
JOS POLAND Secretary.

J. M. RICHARDSON, Westfield.
The Hartford Life & Health Insurance Company
Announces to the public that by the liberal provisions of its Charter it is enabled to offer advantages superior to those presented by any other Company in the United States.
It has three distinct departments, combining the privileges of three separate Companies, with only the expense of conducting a single institution, and controlled by one Board of Directors, thus securing harmony, fidelity and safety.
ON THE MUTUAL PLAN.
This Company will insure at the usual rates, and in three particulars claim the superiority over all mutual Companies.
1st. Deducting only ten per cent. commission from the Mutual Insurance Fund, instead of the ENTIRE EXPENSES of the Company annually.
2nd. Giving scrip certificates of profits each year, payable in cash when two hundred thousand dollars has accumulated as a reserved mutual fund, such scrip bearing interest from date and transferable.
3rd. In addition to the Mutual Fund and reserved Fund, received from Mutual Insurers, the capital stock, one hundred thousand dollars, and all the reserved fund of the Joint Stock insurance is pledged for the payment of losses.
ON THE JOINT STOCK PLAN.
The rates are reduced one third the amount charged on the mutual plan,—the Company taking such WHOLE RISKS, to insure a fixed given amount, for a given time, instead of taking more than an equable sum and afterwards paying back a part of such OWN MONEY AND CALLING IT SO MUCH PAID. The advantages of this mode of insurance over the mutual plan may be thus illustrated:—Suppose a lad, at the age of thirty two years, resolves to expend twenty five dollars per annum for insurance on his life. On the Mutual plan it would secure him a policy of nine thousand dollars. On the Joint Stock plan, the same twenty five dollars will secure him a policy of one thousand dollars! Mark the difference!! All that is contributed in excess of profits (so called) on the mutual plan cannot exceed one half the yearly payment, viz: twelve dollars and fifty cents; so that in the years he can gain in profits only one hundred and twenty five dollars, and in fifty years one thousand dollars.—Thus it will be seen that if a person of the above age should die within a year, his family get SIX TIMES AS MUCH again on the joint stock plan, with the same annual premium, as on the mutual plan, and DO THEY LIVE FORTY YEARS TO MAKE IT EQUAL.
ON LIFE AND HEALTH COMBINED.
The rates are as favorable to the insured as safety to the company will permit. Insurance in this form is of great importance to all who have others depending upon them for support.
An industrious and hard laboring man, who is able while in health to earn from nine to twelve dollars per week, can thus provide for the wants of himself or family, their support, the best of sickness, or disabled by accident, half the wages he earns, or dies, and leaves his family in comfortable circumstances. The support of a cut off by fountain is dried up; now comes anxiety, distress and sorrow! How shall this be avoided? This Company provides a sure and speedy remedy. A small premium while in health, secures a weekly payment of two dollars, to be received every week while sickness or disability prevents, and if death does its work, then a sum of 200 or 1000 or 2000 dollars, paid to survivors, will prove to be a friend sticking closer than a brother.
This Company is the first and only one in the Union, or in the world it is believed that has thus combined its risks, and offered to grant insurance with benefits PERMANENT and PROSPECTIVE. Those for whom this branch of the business is intended, will appreciate its advantages.
For full details with regard to terms and conditions, reference may be made to the pamphlets to be had gratis at the office of the Company and at all the agencies.
☞Application may be made to any of the above named Agents or Medical Examiners, who will forward the same to the home office at Hartford.
California Life Risks taken on the most reasonable terms.
☞This Company are doing a very large and successful business under a charter which most carefully guards the rights and interests of the insured.
January, 1850. 5tify

NATIONAL LIFE INSURANCE COMPANY.

DENTIST.
Dr. L. HUBBARD, Surg. Dentist.
RETURNS his grateful acknowledgements to the inhabitants of Northfield and Vicinity for their liberal patronage for the past year, and would inform them that he is permanently located at Northfield Center, and prepared to perform all operations in the line of his profession, equal to any part of the U. S. A. All operations warranted. Teeth inserted without pain, and those that are decayed can be filled in such a manner as to remain for many years.
Northfield, January 15th, 1850. 57:6m

MECHANICAL ARTS & SCIENCES.
D. APPLETON & CO., NEW-YORK,
HAVE IN COURSE OF PUBLICATION,
In Parts, Twenty-Five Cents each,
A DICTIONARY
OF MACHINES, MECHANICS, ENGINE-WORK, AND ENGINEERING;
Designed for practical working men and those intended for the Engineering Profession.
EDITED BY OLIVER BYRNE,
Formerly Professor of Mathematics College of Civil Engineers, London. Author and Inventor of "the Calculus of Form," "the new and improved system of Logarithms," "the Elements of Euclid by colours," &c. &c.
This work is of large 8 vo. size, containing nearly Two Thousand pages, upwards of Fifteen hundred Plates, and Six Thousand wood cuts. It will present working drawings and descriptions of most important Machines in the United States. Independent of the results of American Ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine-work and Engineering; with all that is useful in more than one hundred thousand dollars' worth of folio volumes, Magazines and other Books, among which may be mentioned the following:
1. Bibliotheque des Arts Industriels (Masson, Paris.)
2. Civil Engineer and Architect's Journal. (London.)
3. Engineer and Mechanist's Assistant. (Blackie, Glasgow.)
4. Publication Industrielle. (Armengaud Aine, Paris.)
5. Jamieson's Mechanics of Fluids.
6. Treatise on Mechanics. (Poisson.)
7. Allgemeine Bauzeitung mit Abbildungen. (Forster, Wien.)
8. Organ für die Fortschritte des Eisenbahnwesens in technischer Beziehung (Von Waldegg,
