FRAUD!
ALL who want AXES of the real COLLINS & CO. make should be particular to inquire for the genuine, as there are various counterfeits and imitations stamped COLLINS and labelled much like ours, which are frequently sold in some parts of the United States as and for genuine.—They are made in all and some of the country by various manufacturers, who have established a superior quality. The genuine COLLINS AXES, which have acquired such an extensive reputation, are invariably stamped "COLLINS & CO. HARTFORD," and each ax has a private label with fac signature. It is now more than twenty one years since we commenced the business, and the stamp of "Collins & Co. Hartford," has been known as the other manufacturers of the name of Collins in the United States.

FIRE PROOF SAFES,
ANOTHER TESTIMONIAL!
Dover, July 9th, 1853.
☞ Mr. Kershaw—Dear Sir: I have received the safe you made for me in good order, and am highly pleased with it. I never had any expect from the construction and style of locks, and the locks I think is a wonderful safe.
I not being acquainted with Mr. Kershaw, had only seen one of his advertisements, and wishing to get one a Salamander Safe, I enclosed a draft to the order of Mr. Kershaw, requesting him to send me a safe, such a one as he could for the sum expended for the draft; he promptly filled the request by sending me the above mentioned safe, which was three times I could not have got for the price paid for it, if I had bargained with him at his factory for it. If I was wanting to get another safe I should not take the trouble to go to the factory to bargain with him, but I should send a draft to his order, and should get full confidence to know that he would send me a better article for the price than I could get by making a bargain with him if I went to his factory. BENJAMIN BARKER.
