...ith—the decrease of the expense of litigation ...our courts—and that it would save time as well ...money. The larger share of the litigation ...ising out of small suits was by men who did ...t want to pay their just debts, and if the right ...appeal is cut off as provided by this bill, it ...uld hasten the settlement of cases that come ...thin its provisions. A man can as well get jus...e done him before a justice of the peace and a ...y, when the sum is $40, as when it is only ...0, and he hoped the bill would pass.

The third reading of the bill was then ordered.

Senate bills referred.—S. 26, to authorize certain towns to aid in the construction of the Rutland and Woodstock railroad; to committee on railroads.

S. 30, to provide for the management and sale of railroad stock and bonds held by towns; to committee on judiciary.

S. 19, relating to chattel mortgages; to committee on judiciary.

S. 25, to incorporate the American Horse Nail Company; to committee on corporations.

Special Order.—H. 11, to incorporate the Queen City Fire Insurance Co.

Mr. Abell of West Haven moved to amend by striking out the clause exempting the stock from taxation for the period of five years. He was opposed to the exemption of any class of property from taxation—it was a dangerous precedent to establish.

The amendment was agreed to, and the bill ordered to third reading.

JOINT ASSEMBLY.

The Senate came in and a Joint Assembly was formed in the election of Judges of the Supreme Court, and a Reporter of the Decisions of the Supreme Court.

Hon. Stephen Thomas, President of the Senate, in the chair; Hon. George Nichols, Secretary of State, Clerk.

Senator Hoyle moved that the Joint Assembly adjourn until Thursday, Nov. 12, at 3 o'clock p. m.

Mr. Pingry moved as amend by making the date Nov. 5, which was accepted by Senator Hoyle, and the motion so amended agreed to. The Joint Assembly then adjourned until Thursday, Nov. 5, at 3 o'clock in the afternoon, and the Senate withdrew.

Special Order.—S. 9, to enable the towns in Washington, Caledonia, and Orange Counties to aid in the construction of the Montpelier and Wells River Railroad, was taken up, the question being on the passage of the bill. The ayes and nays being demanded by Mr. Marsh of Bethel, were taken as follows:—ayes 119, nays 83—so the bill was passed.

On motion of Mr. Steel of Rutland, adjourned.

State Matters.

—We hear that the honored and venerable Ex-Governor Hiland Hall, of Bennington, and Mrs. Hall, will soon celebrate their golden wedding, and that the invitations to the interesting occasion will include all the Benningtonians over fifty years of age.

—The fountain on the grounds of Seth B. Hunt, at Bennington, is the highest but one in the world. It is drawn from the hills through a six-inch pipe, throwing a stream 168 feet, presenting the appearance at a short distance of a single silver bar. Its cost was $25,000. The grounds about it are thrown open to the public on Tuesday and Friday evenings.

—A valuable horse belonging to Mr. Joseph Leppo, of St. Albans, was stolen from his pasture last Thursday night.

—The farmers in Westminster have not yet got in their corn or day their potatoes. One-half of their fall work is yet to be accomplished. The crop of apples in this neighborhood is pretty large, and the farmers are piling them up to manufacture into cider. Apples are selling at from $2 to $2.50 a barrel.

—The average receipt of customs at Newport for the past three months have been more than two hundred dollars per day in gold. At Derby Line we learn that the average has been over three hundred dollars per day for the same time.

—Nearly 100,000 pounds of hops were shipped for market at Newport during three days of last week. They were sold at 15 cts. per pound, amounting to $15,000. The greater number of growers are holding on for higher prices.

—Mr. Albert Dunsmick of Walden has a native cow, from which he has made in two weeks, thirty one pounds of butter.

—Butter brought in St. Albans to-day, Tuesday, 20th, from 40 to 45 cents.

—The Lebanon Springs Railroad is expected to be completed and equipped for travel early in December.

—Jos. Page of Charleston has raised about 7,000 bushels of potatoes this season.

—While Michael Tracy, night watchman in the G. T. R. depot at Island Pond, was sweeping out the passenger cars from Portland, he found a bundle of seven fine gold watches.

—N. L. Stafford of Greensboro raised 30 bu. of Chili potatoes on eight square rods of land, being 600 bushels per acre. On 60 rods he raised 75 bushels of corn in the ear, 1000 lbs. Hubbard squash, and one and one-half bushels of beans.

—Last Saturday as Willis Batchelder of Newport and a friend from Danville were out hunting near the shore of the lake they started up a large blue heron. Both fired at the bird while on the wing, both shots taking effect and thoroughly demoralizing the bird. It measured 4 feet 8 inches in height, and 5 feet 6 inches from tip to tip of wings.

—Wm. Wallace Scott of Newport, was thrown from his carriage on Friday last, his head striking a stone wall. The injuries received were very severe, causing great loss of blood and mental derangement. His recovery is yet doubtful.

—The front portion of the Memphremagog hotel is mostly closed, Buck having gone into winter quarters in the old part. He keeps just as good a house there, however, as when the whole of the vast building is open to "summer travel."

—G. Adams, of Stamford, recently trapped a bear, which weighed 268 pounds.

—Mr. I. T. Story of North Fairfax has purchased some 9,000 pounds of wool at an average price of about 40 cents.

—Miss Jennie Robinson, alias Jennie Hurlburt, the "flash young lady" of St. Albans, was committed to jail on the 20th inst., for want of bail, to appear at the next term of the county court, for fraudulently obtaining goods from Messrs. Beck & Wetherbee.

—Mr. E. Root of Shelburn Pointe, has left at the *Times'* office two potatoes of the Jersey Peachblow variety, whose combined weight is three pounds.

—Thieves are "around" in Bennington. Last week the houses of J. C. Cromack and L. P. Norton were entered by burglars. They were alarmed before securing any booty.

—Thursday afternoon while Mr. William K. Taft, of Williston, was engaged in moving a tenement house, he was caught in some way beneath the sills of the building and instantly crushed to death.

—Efforts are being made to have an early hydrographic survey of the State sanctioned by the present legislature.

—We regret to learn, as we do, from the Richford *Sentinel*, that Gov. Royce is in a very feeble state of health, and his condition rendered more critical by a recent fall. He has of late written a history of the town of Berkshire, to appear in the next number of Miss Hemenway's *Historical Gazetteer*.

—A hired man of Mr. Orville Bishop, of Fairfax, while digging potatoes recently, dug up an old Spanish dollar dated 1723.

—Rev. Jay Powell of Richford, is writing history of that town, for Miss Hemenway's magazine.

—The *Vermonter* says that John Brittell, of Weybridge, had a corn husking last week, attended by seventy-five couples of real hale and hearty yankee girls and boys, who husked nearly 400 bushels. Of course a tip-top oyster supper, flanked with luscious pumpkin pies and crispy doughnuts, closed the evening's sport.

—Not less than 6000 bushels of apples have been delivered at Keeler & Ball's mill in Ferrisburgh, since Sept. 20th. The mill is provided with good water power, two of Newell's presses, and has a capacity of 40 bbls. of cider per day.

—While some burglars were ransacking the house of Mr. Edward Rix of Royalton, one evening recently, a hired man crept out of a window and went to the barn, where he had a loaded gun, which he fired at the thieves as they left the house. One of them was wounded, but both managed to drive away.

Religious Intelligence.

—A new sect of religionists has appeared in Russia. They acknowledge a Divine Being, but deny every other doctrine or practice of a Christian sect. They are suffering severe punishment from the Russian government for their unbelief and abandonment of all forms of Christian faith and practice.—About fifty of the leaders are now in prison. But the heresy is not suppressed.

—The Methodist Missionary Board are getting into a bad condition financially. At the annual meeting last November it was in debt $178,524, and since then the debt has nearly doubled. Unless a grand rally is made during the next thirty days the Board will close its next financial year with a debt of $350,000.

—The Iowa and other Western Methodist Conferences have again declared in favor of lay representation.

—Six persons were immersed at Vergennes last Sabbath—making in all fifteen persons baptized during the present revival.

—Dr. McCosh, the distinguished Scotch divine, President elect of Princeton (N. J.) college, arrived with his family in New York on Thursday morning, and was welcomed by numerous friends. He will be inaugurated Oct. 27.

—The Protestant Episcopal Convention is still in session in New York. A large number of petitions have been presented bearing on the points of difference between the High and Low Church ways; but have been decently buried by a reference to the committee on canons. An amendment has passed the lower house, allowing clergymen to officiate in any church on receiving the permission of its rector, without consulting all the other clergymen in the place.

—The Baptist Home Missionary Society has received the past year $135,736, being $6,237 less than last year. This deficiency is in the freedmen's fund, which falls $12,000 short of last year. The society has sustained 331 missionaries, who have baptised during the year 6,712 converts and gathered 11,519 members into the church. A larger number of colored theological students have received instruction than are collected in all the Baptist seminaries of the Northern States.

—The free church movement seems to be finding much favor in the Episcopal Church. A public meeting was announced in New York for last evening, at which five bishops were expected to make addresses in favor of the movement. Many think this the true policy for a Christian church: A free gospel and free pews in which to hear it preached, where the rich and the poor may meet together and acknowledge God as the maker and governor of them both.

—The American Missionary Association will hold its annual meeting in Springfield next week, commencing on Wednesday the 28th inst. There is a probability that its treasury must report itself nearly or quite $50,000 in debt.

—At the recent anniversary of the Methodist Episcopal Sunday School Union, held at Springfield, the Secretary of the Union said that there were at present in the Methodist Episcopal Church, 15,895 Sunday Schools; 182,500 officers and teachers, and 1,152,825 pupils. An increase during the past year of 554 schools, 7521 officers and teachers, and 70,934 pupils.

IN GENERAL.

—Always be particular in observing where the wind drops; you may be called upon to raise it at a moment's notice.

—Dr. Livingstone, the African explorer, is said to be within a week's march of Zanzibar.

—The Austrian government flour mill in Pesth, Hungary, was lately burned; loss 611,000 florins.

—The specie shipments from New York, Saturday, were $193,888, and the total for the week, $410,313.

—The stock of flour at Chicago at present is over ten times as great as it was last year at the same period, being now 95,000 barrels to 10,000 barrels in 1867. Best sorts have fallen 50 cents, and other descriptions from $1 to $2 per barrel. The general opinion is that the role of high prices for the staff of life is about at an end.

—Some clergymen deal in rhetoric, some in logic, and some in common sense. The first are popular with most ladies, and the second with most men, and the third with an uncommonly few of either sex.

—Joseph Hooker's "retirement" furnishes a sad chapter to the service. Three years ago he married a beautiful and accomplished woman. They journeyed through two continents in search of health for him, and found only the seeds of disease for her, which fructified in death, brought on by pure devotion to her husband. Returning to America, no sooner was Mrs. Hooker buried, when a living death struck down the General, and he in the prime of life is now a helpless paralytic.

—The apple crop in the valley of the Connecticut is now being gathered, and proves much larger than was anticipated. In the hill towns in Hampshire county the first quality are selling as low as 50 cents per bushel in the orchards. In the valley towns the price is from $2 to $3 per barrel.

—The Governor General of India receives a salary of $125,000, and money for his general expenses, which amounts to about $130,000, making in all $255,000 in gold per year.

—Four thousand stand of arms, purchased for the State of Arkansas, were thrown overboard from a steamer on the Mississippi River, on Friday last, by an armed company of rebels. Gov. Clayton has called for more troops, expecting further movements of this kind.

—A lady in Baltimore has forwarded two cents to the United States Treasury, the interest on which, she claims, is a thousand years, will pay the national debt.

—Dr. Chalmers once received at his table a distinguished guest from Switzerland, whom he asked if he would be helped to "kippered salmon." The foreign divine asked the meaning of the uncouth word "kippered," and was told that it meant preserved. The poor man in a public prayer soon after offered a petition that the distinguished divine might long be "kippered to the Free Church of Scotland."

—Wisconsin has had a snow fall of six inches, followed by a cold snap when ice formed an inch thick.

—A daughter of Mrs. Muhlbach, the novelist, is a young actress. She lately incurred the displeasure of a Berlin audience and was hissed. She burst into tears, and the audience, seeing her distress, applauded her as heartily as they had before hissed her.

—A small child being asked by her Sunday school teacher, "What did the Israelites do after they had crossed the Red Sea?" answered, "I don't know, ma'am, but I guess they dried themselves!"

—Mrs. E. Cady Stanton reports that, as a baby, Anna E. Dickinson "was cross, sleepless, restless, and crying continually with a loud voice."

—The Chicago board of trade has forbidden its members to take any part in the scheme for getting up "corners" on grain, on penalty of expulsion.

—The Skowhegan (Me.) *Reporter* illustrates the value of advertising by stating that a business man in that town "lost his pocket book containing valuable papers. He sought high and low, but did not find the property until he advertised, when he found it at home behind a trunk."

—A young lady lives in Lansinburg, N. Y. She plays the piano. A flock of geese are in the habit of sporting in the river beneath her window. When they hear the young lady play, if they are ever so far away, they gather near to get the music, and they remain so still throughout it that you could hear a pin drop.

—Striped poplin alpacas and gay plaids or plain serges are now the favorites with the ladies.

Check List.

We once more ask the voters of Montpelier to call at the Town Clerk's office and see that their names are properly enrolled, as no one can vote whose name is not properly recorded on the Check List. The Board of civil authority of the town meet at the Grand Jury Room, on Friday, Oct. 30, at 9 o'clock, A. M., to hear and decide all doubtful cases, and such as may be objected to or challenged.

Caution.—Voters are not safe whose names now appear on the List, as they may be challenged and struck off by the civil authority.

P. P. Pitkin, Samuel Wells, Albert Johonnott, } Selectmen of Montpelier.

Montpelier, Oct. 27, 1868.

☞ VOTES! We are desired to say that Votes for Presidential Electors will be seasonably furnished by the State Committee, and distributed through the several County Committees.

—A. McDonald, of Marshfield, has raised a cabbage which weighs 23 lbs.

—The average price given for wool in Vermont at present is forty cents per pound.

—By a donation of $1,000, Moses Kittredge, Esq., of St. Johnsbury, has founded the "Kittredge" scholarship, in Dartmouth College.

—Herbert Smith, of St. Albans, aged ten years, is under arrest, charged with burning Mr. Rugg's buildings.

—Hon. Calvin G. Tildon, of Middlebury, Judge of Probate for that district, died on Tuesday night last.

—Mr. Edwin Dutcher, of Timmouth, a few days ago, husked sixty-five bushels of corn in one day.

—That Hunter hog was taken to Lyndon depot on Monday by Mr. Humphrey of Barke. Its live weight was 855 lbs. June 11, it weighed 300 lbs. thus having gained 555 lbs. in 4 months and 8 days, or about 4½ lbs. per day.

—Brattleboro' has already raised $20,000 for a $50,000 hotel. The company is to be organized under the charter of 1865, and the hotel is to be called "The Wantastiquet."

To the Ladies of Montpelier,

and those visiting Montpelier during the Session of the Legislature, I have a splendid assortment of Hair Work, which I will sell fifty per cent. less than can be bought in Boston or New York for the next four weeks. Please to give me a call and get my prices before purchasing, as I know that I can sell Switches, Braids, and single and double Curls cheaper than you have ever sold before. Remember the place is McNALLY'S HAIR DRESSING ROOMS, State Street, opposite the "Old Bank."

REMARKS.—About 1100 Cattle and 3300 sheep arrived at Cambridge to-day, in addition to which there were 100 Western cattle in the yards, which were landed at Brighton last Saturday, making some 300 more than last week, and the largest number at market on Tuesday for several weeks past. Mr. Monroe Pike of Hanover, N. H. had a car load of good oxen, and there were a few good animals in other lots, but the bulk of the stock at Cambridge this week is quite slim. The trade at Brighton on Wednesday and Thursday was dull, and prices except perhaps for choice grades was rather lower than the week previous. The market opened this morning with indications of a full day for the drovers, and we think there is no improvement on the closing rates at Brighton. Although the agreement of butchers not to attend the market at Cambridge, on Tuesday, took effect to say there was a full attendance of buyers, though not as large as heretofore; still a good share of the stock was sold. H. S. Lang sold to J. S. Allison four g..od oxen to dress 10½ cwt. at 12½c, per lb., two oxen to dress 900 lbs. for 12½ and steers, heifers and cows for 8½ to 11c. M. T. Shackett sold a very large cow and steer, 2,760 lbs., at market for 9½c, 40 sk., and four 3-year olds at 9½c, 45 sk. to Mr. Jewell. Fields and Smith sold ten heifers and cows, estimated to dress from 450 to 500 lbs. at 8c; eight two and three year old steers for 10c per lb., and a pair of coarse oxen at 10c, 35 sk. Jenks and Young sold two oxen at 12c, 39 sk; eleven good 3-year old steers for 12½ each, or 11c; two 3-year olds for $18.50 or 9½c.

There is little change in the sheep trade. The mutton market remains overstocked, with prices about the same as last week. Good qualities are in good demand, while slim lots are not wanted. Sales of carloads at $3.50, 4c per lb. $150, $250 and $260 are reported. 1100 sold at from $2.50 to $4 per head.

Deaths.

In Plainview, Sunday, Sept. 6, of typhoid fever, GARDNER M. MELENDY, aged 41 years.

Mr. Melendy was a native of Vermont, from which State he emigrated in the spring of 1865.

Stopping in the city of Janesville, Wis., several months, he then resumed his journey and came to Beaver, Minn. Soon after his arrival here, he secured the farm upon which he has spent so many of the precious hours of life, upon which are now seen the valuable fruits of his constant and arduous labor. In 1869 he removed from the town of Beaver to Plainview, where he resided from that time to the hour when God called him from his earthly labors to his rest in heaven.

During his residence in Plainview, the people confided several offices of trust to his care, no one of which failed to give very general satisfaction. During the war he was deeply and actively interested in the welfare of the soldiers and their families. He was always very prompt and true in business transactions, fulfilling his promises exactly. By his death this community has lost a valuable citizen and an honest man.

His funeral took place at his late residence on Tuesday, P. M., the 6th inst., attended by a large gathering of friends and neighbors.

He leaves a wife, a father and several brothers and sisters to mourn his departure; but they have the promising, the consoling influence of the gospel to assist them in this trying hour. "Blessed are they that mourn; for they shall be comforted." A. B. ELLIS.

Plainview, Sept. 16, 1868.

We are requested to say that Messrs. J. W. Perkins & Co. W. F. Phillips & Co., H. H. Hay & Co., W. W. Whipple & Co., and Crosman & Co., are wholesale agents for the sale of Johnson's Anodyne Liniment, and other preparations put up by I. S. Johnson & Co.

PROGRESS.—Columbus sailed to the American coast in a four hundred ton ship and first landed upon the island of St. Domingo. Last week a vessel from St. Domingo unloaded in New York over four hundred tons of St. Croix Rum for P. H. Drake & Co., of that city. This is but a few weeks' supply of this article, which these gentlemen use in the manufacture of the celebrated PLANTATION BITTERS. We are informed by an exchange that Drake & Co. have not advertised a dollar for a year, but that the sales of this article continue at the former enormous figure. In 1861, the receipts of the PLANTATION BITTERS were equal to those of the New York & New Haven Railroad. 37-4w

Special Notices.

CRISTADORO'S HAIR DYE

Is a Single of its Tablet.

It is in demand wherever personal blemishes are monster and of sufficient consequence to be removed.

ITS EFFECT IS PERFECT.

Its Action Instantaneous.

Cristadoro's Hair Preservative

AND BEAUTIFIER is a preparation of equal merit and repute. Its effect upon the hair is electrical. It fastens every loosening fiber, replaces harshness with silkiness and flexibility, semi-baldness with luxuriance, dullness with gloss. Its use will incline the straightest hair to curl, and prevent the driest from turning gray. Its the favorite at every toilet where it has been tried, and as a means of keeping the hair free from scurf or dandruff, and the scalp from exfoliations is perfectly invaluable.

Sold by Druggists, and applied by all Hair Dressers.—Manufactory No. 6 Maiden Lane. Principal Depot, No. 5 Astor House. 36.39-daw

INCOMPATIBLE.

We notice in the published friends of one of the most extensive manufacturers of Sarsaparilla, Pectorals, &c., that a combination of Iodine, from Pelican Island, Florida, is compounded and used under the name of Sarsaparilla, for the cure of chronic diseases. Every educated physician must know that a combination of minerals with vegetables is incompatible; so also, in the combination of a powerful purgative with medicines possessing alterative, diuretic, sudorific properties designed to act on the absorbents and secretories. Also, the use of iodine as a vehicle medium through which chronic scrofulous and skin diseases can be cured. The drastic purgative properties being, as in the case of the Sarsaparilla, rendered so much greater than the alterative, carries off through the alimentary canal, all the medicinal properties of the alterative before the absorbents are acted upon. In cases where it is desirable to furnish satisfaction in chronic diseases, they should be given separately, and at least six hours apart. No physician would give a drastic cathartic at the same time he administered blue pills or calomel. If the skin is affected with chronic disease, use Radway's Resolvent. If you wish a good cathartic, use Radway's Pills. If suffering pain, use R. R. Relief. Sold by druggists. See Dr. Radway's Almanac for 1868. 36.37-daw

Permanent Cure for Catarrh.—*A Wonderful Discovery!*—If you have an offensive discharge from the head, nostrils obstructed or dry, partial loss of hearing or snuffing; pain over the eyes, or a substance sticking in the throat, affecting the voice, get Dr. Kennedy's "*Permanent Cure for Catarrh.*" It completely eradicates all of the above symptoms of this loathsome disorder, and is curing thousands who had become discouraged with using snuffs and caustic solutions. This wonderful remedy is sold by all druggists, and is warranted to cure any case of Catarrh not complicated with other disease. John F. Henry, successor to Demas Barnes & Co., 21 Park Row, New York City, agent.

Dyspepsia sending $1 and a history of their case to DR. A. S. KENNEDY, Auburn, N. Y., will receive his personal attention, and the Remedy, expressly adapted to their condition, will be sent by return mail, postage paid. 35.tu-daw

ALLEN'S LUNG BALSAM.

Charles Farmer, Druggist, writes from Orfd, Mich.: "I have just sold the last bottle of ALLEN'S LUNG BALSAM. It sells like 'hot cakes,' and gives universal satisfaction."

Stanley & Skipper, Chippewa Falls, Wis., writes: "We wish you would send a good supply of Allen's Lung Balsam, as it is getting to be one of the necessary institutions of the country. It sells well and gives entire satisfaction to those using it."

T. L. Allen, a well-known druggist at New London, Conn., writes us that Allen's Lung Balsam is favorably received by the afflicted. He says: "I have retailed nearly four bottles over my counter, and it has given good satisfaction."

Many letters like the above are daily received from all parts of the country. The demand for it from California is large from a single house there. Price $1 per bottle.

NEW YORK, Sept. 17, 1867.—DR. STILWELL was in charge of Union Church Hospital, Alexandria, Va., during the war. I frequently, almost daily, for months, visited the Hospital, and had every means of knowing his reputation, for SKILL and SKILL. It was of the most credible character, and he succeeds in the treatment of patients was remarkable. ROBERT
