Marble Work.

THE Place to purchase the Best Quality of Marble Work, and of superior finish, is at the Marble Shop of

E. D. WOOD,

one door east of Vinchester's stores, and the other at Stowe, where may be found at all times a full assortment of marble and specimens of work.

While thankful for patronizing a generous increase of custom for the past three years, I would still earnestly solicit persons in want of

Headstones, Monuments &c.

who reside in towns adjacent to Waterbury and Stowe, to call and examine for themselves before purchasing elsewhere. It shall be my purpose to furnish good work at low prices.

CARRIAGE MANUFACTORY.

THE subscriber visiting to give notice to those in want of a superior article of open and top

BUGGYS, WAGONS,

SLEIGHS AND SULKYS,

made of the best materials that can be obtained, and that shall be satisfactory in the building formerly used for the manufacture of paper, on

Main street, Montpelier.

All those acquainted with the work formerly done by Gilman & Dana, are assured that they will find coming to good by calling on the subscriber, where he has facilities for

Doing Work Superior

to any other shop in the State. I would also say to the friends of F. S. Gilman, that he is now to be found with the subscriber.

All orders promptly attended to. Repairing done with neatness. Cash paid for pine and lumber.

ATWOOD'S QUININE TONIC BITTERS,

The Best Aromatic Tonic Ever Offered the Public.

RECOMMENDED BY THE FACULTY

For its superior Medicinal qualities.

THIS elegant compound, which has acquired the good will and commendation of most of the leading Physicians in New England, is a palatable and efficacious form of Quinine, combined with the peculiar tonic properties of Calisaya Bark, carefully combined with aromatic cordials and stomachics, and pleasant to the taste, so that the invalid will not reject it from fastidiousness.

As a mild tonic in the stomach, increasing the appetite, and giving vigor and strength to the digestive and nervous systems, it is unrivalled. It is also a specific for those complaints which are the result of a disordered state of the stomach and liver, such as Dyspepsia, Liver Complaint, Costiveness, Loss of Appetite, Nervous Debility, Fever and Ague, and Intermittent Fever, and all those diseases which are the result of a disordered stomach and torpid liver.

For intermittent fevers and malarious districts, the profession may rest assured that it will be found a valuable remedy.

THE undersigned, in announcing to the public the introduction of the above named Stove, would say that it is the result of long experience and study, and is the most perfect article for the purpose ever offered to the public.

1st. The arrangement of the cooking or top heater, is such that the heat is equally distributed over the whole surface, and the cooking can be done in any part of the oven, or on the top, with equal facility.

2d. The baking oven is large enough to take five common baking pans at one time, and is so constructed that the heat is equally distributed over the whole oven, and the cooking can be done in any part of the oven, without moving the pans.

3d. A thorough draught is secured in the oven, by a direct draught from the fire to the chimney, thereby carrying off the gases, which are so injurious to health, and which have been the cause of so many complaints, and which have been so long a nuisance in cooking stoves.

4th. The arrangement of the water heater, is such that it can be used for a bath, or for a large quantity of hot water, at a moderate expense, and without injuring the stove.

5th. The ventilation of the oven, is such that the cooking can be done without the annoyance of the steam, which escapes from other stoves, and which is so injurious to the health of the cook.

6th. The cooking boiler is large enough to do the family cooking, including the boiling of the pork, without the inconvenience and annoyance of having to take off the top of the stove, and put on the boiler, in the middle of the cooking.

7th. The baking oven is so constructed that it can be used for a pastry oven, and will bake pastry in a superior manner.

8th. The improvements in the oven, by which the heat is equally distributed over the whole surface of the oven, and the baking can be done in any part of the oven, without moving the pans, is a great improvement over other stoves.

9th. The oven door is so constructed that it can be used for a pastry oven, and will bake pastry in a superior manner.

10th. The oven door is so constructed that it can be used for a pastry oven, and will bake pastry in a superior manner.
