LADIES GAITER BOOTS

A little glove size on my heaving sides sat in the moat, a snow-white mustin, when it fits, makes many a curious motion.
All sorts of my frame thrill my feelings as they [illegible]
But little female gaiter boots are touch and nothing shoes!

And glad as you put on your gaiters,
I'll give you, short and brief,
A small time experience
Which filled my heart with grief.
Last summer, in the Pavilion hotel,
I tarried a week or more,
And married two "[illegible]" every morn
Before my neighbor's door.
Two boots with silver leather tips,
Two boots with silver leather tips,
[illegible]
They stole my heart away
And often in my nightly dreams
They creep before my face.
A lady growing out of them
As flowers grow from a vase.
But at one morn I saw a sight
Which struck me like a stone
Some other name was on the boot
Those boots were too alone
A great tall pair of other boots
Was standing by their side.
And if they walked one afternoon
And with them walked—a bride.

Ladies, comment is unnecessary.
These Gaiter Boots came from

Great Remedy for Coughs, Colds and Kidney Difficulties.

WHITE PINE COMPOUND,
PREPARED BY
DR. J. W. POLAND & CO.,
SOUTH-TOWN CENTRE, N. Y.

THE following testimonials will tell something about a medicine that is now becoming popular faster than any other article ever did in Vermont.—

Rev. J. K. Chase, of Rutland, N. Y., under date of April 9th, 1860, says:—"When your agent was here he left me a bottle of White Pine Compound. My son was much suffering from a most severe cold. I gave the Compound, and was able to present it two days. * * * I believe the Compound is an invaluable medicine. I do what thousands who know nothing of its virtues, would become better acquainted with it."

Rev. L. Clemons, Pastor of the Baptist Church in Southtown, writes:—"In a letter dated Feb. 1860, says:—"Some of my family have used the Compound with signal success. I believe it to be one of the best Cough Medicines ever prepared. Besides its virtue as a Cough medicine I have good reason to believe it to be all it claims to be for Kidney Diseases and Dyspepsia."

Mr. Jos. Hamilton, of New York, writes:—"Some time in March, last, I was induced to purchase a bottle of your Compound for my son, who was much troubled with a cough, and was fast wasting away. The cough was so severe that it was thought he would not live through the night. I gave him a dose of the White Pine Compound, and before I had given two doses he was in a deep sleep, from which he awoke in the morning much better. The cough left him, and he grew rapidly well. I have used it in my family for all coughs, colds, and pain in the side, and have found it a sure remedy. I have also used it for Kidney Difficulties, and have found it to be the best medicine I ever used. I have recommended it to many others, who have used it with the same success. I have no doubt it will do as much for others as it has done for my family."

Amongst the cases of Kidney complaints which are cured by taking the White Pine Compound, have been those of a most alarming character. Some have expected to die in agony, but have been relieved by the use of the White Pine Compound.

An agent was in Southtown, Orleans County, last September, and he was so much pleased with the Compound that he purchased a bottle for his wife, who was very sick with Kidney Complaint, and was thought by her friends to be in a dying condition. She had been under the care of a physician for a long time, but was growing worse every day. She had taken but a few doses of the White Pine Compound when she began to mend, and she is now in good health.

The Proprietors are in receipt of letters from all parts of the Union, testifying to the virtues of their Compound. One will remember how [illegible] was in the [illegible] stage of Kidney Complaint, and was given up by his physicians. He was induced to try the Compound, and it cured him. Another complained of a pain in the side, and was induced to try the Compound, and it cured him. Another was troubled with a cough, and was induced to try the Compound, and it cured him. Another was troubled with a cough, and was induced to try the Compound, and it cured him. Another was troubled with a cough
