The Caledonian.

AGRICULTURAL.

VERMONT.

In several particulars, Vermont is the Banner State of the Union. As a fine wool producing State, it is hard to be beat. As a producer of real genuine men and women—"Green Mountain Girls"—it cannot be beaten. It is far up north, yet as a farming State, it goes ahead of most of its southern neighbors occupying the same area. Vermont can support a million of people. It has a most healthful climate, and the best of pure water; and the country is interspersed with good roads, as the fashion goes, and the people have pretty good schools and colleges. There are so many owners of farms in Vermont sick with the emigrant fever—a sort of itching to move West — that land can be bought cheap. Its productiveness may be seen from the following statement, copied from *The Country Gentleman:*

"From thirteen acres was harvested in Oct. last, 1600 bushels in the ear of sound corn, and 24 of soft corn. Though but little of it has yet been shelled, it is fair to count it at 800 bushels, exclusive of the soft, which cannot be shelled.

Value of corn, 800 bushels, delivered at railroad station, three miles, at $1 12½	$900 00
Value of corn, soft, 24 bushels, at 25 cents	3 00
Value of 28 cart-loads of pumpkins at 75c. per load	21 00
Value of stalks for Winter feed of stock at $3 per acre,	39 00
Total	$963 00
Expense, including delivery of the corn at depot)	$385 36
Profits	$577 64

Within a fraction of $15 98 per acre for taxes on and use of land.

From fifteen and a half acres of oats was threshed by horse power, in November last:

1008 bushels, delivered at railroad station, as above, at 50 cents per bushel	$504 00
15½ tons straw, worth at barn $6 per ton	93 00
	$596 00
Whole cost of production, with delivery at depot, $14 07 per acre.	218 09
Profit	$377 91

or $24 38 per acre. The land on which these crops were grown is valued at $100 per acre which is about the price they command when offered for sale.

A farm of one to three hundred acres, in many localities in Vermont, with good buildings and stone fences, surrounded with permanent roads and bridges, churches, school-houses, and the like, can be bought at a price that counting all these improvements and advantages to the farmer — will hardly leave the soil at $1 25 per acre."

The only object in going West must be to get a great domain for the price of the happy old homestead in Vermont. In real home comforts, the emigrant will never find the equal of the home he parts with.

— How to get Fruit Trees to your Liking — *Mr. Editor:*—In the fall, October or November, take a branch of an apple or a pear tree, such as suits your taste, take off down to the third years growth, cut it smooth and rub it on a red-hot iron so as to scorch and shut the pores of the wood thoroughly: then bury in the ground all but the last year's growth. It placed in good ground, and well taken care of you will have fruit in five or six years. I have sometimes dipped the lower end in melted rosin, but think burning preferable. I have a tree near my door that is nine feet high and well proportioned, that I took from a graft four years ago: to this rosin was applied, and whatever sprouts sprung up the next summer were bent down and became roots. We can get fruit in this way considerably quicker than from seeds, and we know what we have growing and when grown the whole tree is of the same kind, and whatever sprouts come forth from the roots in after years can be transplanted without grafting. In case of a drought the first year they should be watered.—*J. Lockwith in the New England Farmer.*

[For The Caledonian.]

—Black Hawk.—*Messrs. Editors:*—From a paragraph in The Caledonian of Jan. 12th, speaking favorably of a Black Hawk mare owned by F. G. Hartwell of Lancaster, I have thought that perhaps a short account of the original Black Hawk might not be uninteresting.

This widely celebrated horse is owned by D. Hill, Esq., of Bridport Vt., and will be twenty-three years old the coming spring.—He is of a jet black color and weighs ten hundred and twenty-four pounds. Black Hawk is a descendant from the old Sherman Morgan and was bred by W. Twombly of Greenland, N. H. His dam is said to have been an English blood from New Brunswick.

He has been in the possession of Mr. Hill twelve years, who purchased him of Mr. Thurston of Lowell, Massachusetts.

Even in his age, he is a splendid looking animal, firm and vigorous as ever, and still moves with that same royal bearing and wonderful elasticity for which he has been admired.

The last trot he made was at Saratoga, eight years ago. He was in bad trotting condition and very lame. He trotted with "Morse Grey" for a purse of five hundred and made the time in 2:42 in harness. At the Cambridge course in 1842 he won a match of $1000, by trotting five miles in sixteen minutes. He was never beaten. His nice stables, hoods, blankets, harnesses, &c, are quite expensive, but a horse who is a source of $6,000 profit to his owners, in one season can afford to have comfortable things. He has a numerous progeny about him and many that are celebrated for their speed, among which are "Ethan Allen," owned by Mr. Rowe of Shoreham. He is the fastest entire horse in America and drew the first premium at the last National Fair. "Know Nothing, 5 years old, 2:27¼, May 11, 1855, Cambridge Park. Black Ralph, 2:30, Saratoga track. Boole of Saratoga, 2:29¼. Black Hawk Maid, 2:34. Sherman Black Hawk, 2:36. Prince Albert, 2:36. Lady Sherman, 2:40. Felton Black Hawk, 2:39.—Red Legs, 2:40. Cleopatra, 2:42. Lone Star, 2:40. Black Hawk Chief, 2:48."

The last named horse is owned by D. Edgar Hill, Esq. At the New York State Agricultural Fair in '53 he received the first prize.

Mr. Hill, without doubt, has the nicest stock of horses in the State. He has four yearlings and one two years old colt, considered worth one thousand dollars each. These are pretty large figures, but true ones. As far as I have been able to observe, the farmers of Caledonia Co. have much better cows and oxen and raise more produce from their farms than the farmers in this part of the State, but Addison County horses are the best in New England, and Addison Co. sheep are the best in the State. It is a well known fact that Vermont ranks as the first State in the Union for its good breed of horses.

F. A. A.

Bridport, Feb. 12th, 1856.

AUCTION!

THE subscriber is about to close his farming business, and will sell at public auction, at his dwelling house, in Peacham, on Friday, the 29th day of February, at 10 o'clock, A. M., ten tons of Hay, two hundred bushels of Oats, thirty bushels of Corn, three Cows, five two years old Cattle, one two years old Colt, and ninety Sheep, mostly of the Spanish breed. The sheep will be sold in small lots for the accommodation of purchasers who may wish to improve their breed. Also some farming tools.

E. C. CHAMBERLIN.

Peacham, Feb. 11, 1856. 968-69

CALEDONIA COUNTY

GRAMMAR SCHOOL.

THE Spring Term will commence on Monday, Feb. 25, at 1 o'clock, P. M., and continue eleven weeks, under the former Board of Teachers. This School, we trust, needs no *Newspaper puffing* to secure for it a liberal share of patronage. Its past success and present prosperity induce its Officers and Teachers to hope for a full school the coming term.

S. S. NORRILL, Principal.

Peacham, Vt., Jan. 28, 1856. 966-69

LIGHT!

VEGETABLE OIL MIXTURE

THIS mixture is superior to any Oil, Fluid, or Gas ever before invented, for the following reasons, viz:

1st—It gives more Light.
2d—The Light is stronger and brighter.
3d—It will not explode.
4th—The cost is not one half that of common Fluid.
5th—It can be used in fluid lamps with perfect safety.
6th—Every person can easily make it.
7th—The materials may be obtained of any apothecary.

A copy of the Recipe will be sent by mail to any person enclosing 15 cents in silver or stamps to the subscribers.

DANA & CROSSMAN,
967—6m HALIFAX, Mass.

Orleans Liberal Institute

THE Spring Term of this Institution will commence on Wednesday, Feb. 27th, and continue eleven weeks.

ISAAC A. PARKER, A. B., Principal.
Mrs. SARAH A. PARKER, Preceptress.
Miss L. M. SMITH, Teacher of Music.

Such assistance will be obtained as the wants of the school may require. Board can be had for $2 per week, including washing, and rooms will be furnished to those wishing to board themselves. Tuition will be the same as heretofore. No pains will be spared to make the school, in every respect, worthy of patronage.

H. McLELLAN, Secretary.

Glover, Feb. 1, 1856. 967-69

M'Indoe's Falls Academy

THE Spring Term of eleven weeks begins Monday, Feb. 25. The class in Instrumental Music will be under the charge of Mrs. S. S. Cargill, of Lancaster, N. H. For Board or Rooms apply to the Principal.

GEO. DUSTAN, A. M.
W. A. WEARS, Secretary. 967-69

GOODS AT COST!

THE subscribers wishing to repair their store the coming spring, will sell their entire stock of Goods at cost and freight.

FOR CASH!

And I would also say to those indebted to them, that they are requested to settle their accounts immediately, by note or otherwise.

RANDALL & HUBBARD.

London Centre, Feb. 7, 1856. 967—6m

Farm for Sale.

E. MURPHY wishes to dispose of his farm, situated as follows: one mile and a half from the Stanstead Mountain House in Wheelock. There are on the premises about twenty acres of good meadow land. The farm is well watered and well fenced with cedar rails. LUTHER MORRILL.

967—6m Agent, Lyndon.

Try It! Try It!! Try It!!!

G. W. STONE'S LIQUID CATHARTIC

AND FAMILY PHYSIC.

THE most important discovery ever made in medical science, being a compound of herbs and roots, which forms the most powerful, safe and agreeable physic ever offered to the public. The success of such a medicine lasting for ever, both by the testimony of families and physicians. Its advantages over cathartics given in the form of pills or powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual costiveness, leaving the bowels perfectly free. It expels all humors from the blood; is a certain cure for the piles; regulates the action of the liver; frees the skin and complexion from the whole nervous train of impurities; in fact, it is the cleanser of the whole system. Notice just the Dandelion, Gentian, Farrin in the best table, stomach bitters.

I now ask to rely upon in all diseases of the bowels, Dysentery, Diarrhœa and Cholera Morbus. You can depend on its magical influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will do without it after they have properly tested its merits. Remember, if you have tried others without success, do not—relief is now at hand. If you have expended money and time in a fruitless attempt to recover your health, save both by resorting at once to the use of this medicine. A sovereign remedy for Scrofula, Salt Rheum, and all suffering from Scrofula, Six bottles of my Liquid Cathartic will cure you.—Would you be relieved from habitual costiveness, three bottles will effect all that you desire. If you are afflicted with rheumatic, neuralgic, or other local pains, two bottles will free you from them. All humors will be expelled from the blood by the use of one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable one to the taste that has ever been proved within the reach of the public.

Price one dollar. Principal Depot at No. 38 Central street, Lowell, Mass. Fred. E. Smith, Montpelier, General Agent for Vermont.

Sold by J. C. Bingham, St Johnsbury, J. S. H. Weeks, Danville, E. Perry & Co., Calais. 957eop1w08

NOTICE.

Nov. 26, 1854. 905tf

Taylor's Premium Starch Polish.

This article has been tested by the best judges, and pronounced superior to anything of the kind in the market. It not only gives a clear polish to the linen, but obviates many difficulties to which laundresses are subject. It prevents the starch from sticking to the iron, and causes the linen to retain its stiffness. Another important advantage is, that by using the Polish, articles can be starched in either cold or boiled starch, and iron immediately without the unfavorable results which usually follow by the ordinary manner. Price only 25 cents, in large bottles.

Prepared by D. TAYLOR, Jr., 10 Broad street Boston, and sold by Druggists and Grocers generally. J. M. Henry, Waterbury, General Agent for Vermont and Canada East. 950 1001e

Connecticut & Passumpsic Rivers Railroad
