THE HUMAN HAIR.

☞ How many persons about this delicate and beautiful adornment, by burning it with alcoholic washes and choking it with grease, which has no affinity for the skin and is not absorbed. Burnett's Cocoaline, a compound of Cocoa nut Oil, &c., is unrivalled as a dressing for the hair—is readily absorbed, and is peculiarly adapted to its various conditions, preventing its falling off and promoting its healthy growth. For sale by all druggists.

Premature Loss of Hair,

☞ Which is so common now-a-days, may be entirely prevented by the use of Burnett's Cocoaline. It has been used in thousands of cases where the hair was coming out in handfuls, and has never failed to arrest the decay, and to promote a healthy and vigorous growth. It is at the same time unrivalled as a dressing for the hair. A single application will render it soft and glossy for several days. For sale by all druggists. 9p 33

INVALIDS, NOTICE THIS FACT!

For the past Fifty years Dr. S. O. Richardson's SHERRY-WINE BITTERS have been unrivalled as an effective and valuable Spring and Summer medicine. And while almost every one of the thousands of remedies that have been introduced within that period has been abandoned, Dr. Richardson's medicine has been persevered with, increased popularity. For sale at the Doctor's office, No. 34 Hanover Street, and by dealers in medicine everywhere.

A SEWING AND A SINGING MACHINE.—Too often it has been our lot, when we have watched a weary seamstress, to see the a long-drawn sigh accompanying every stitch. Half-blinded eyes, aching backs, and trembling wrists are poor inducements to cheerfulness. Happily, in these days of scientific invention, sewing has been made as pleasant a matter, that the Work goes rapidly on to the pleasant click-click of the admirable implement which never tires. Of all Sewing Machines, the best for family use is undoubtedly Grover & Baker's which does its work more completely than any other; is not liable to get out of repair, and is adapted to all the requirements of a home.

Carpenter's Improved Patent Horse Rake!

TO THE FARMERS OF CALEDONIA COUNTY,

YOUR attention is invited to this useful implement which we are now manufacturing, and a specimen of which can be seen at our works.

This Rake is durable and simple; it being mounted on wheels, is under the easiest possible management of the operator, who rides, provided with a comfortable seat, and operates the machine by means of a single lever.

With this implement, a boy to attend and a horse to draw it, the raking of a large harvest can be accomplished. The owners of this Rake claim for it superiority in every particular. Please call, examine, and judge if their claim be not well founded. HALLETT & THOMPSON.

THE ATLAS & DAILY BEE.

A First Class Daily Newspaper,
PUBLISHED EVERY MORNING (SUNDAYS EXCEPTED),
BY THE
BEE PRINTING COMPANY,
No. 7 & 9 State St., Boston.

WM. SCHOULER, E. S. PORTBORN, J. F. MARSH,
EDITORS.

Price, $6 Yearly, or two Cents Per Copy.

It is the purpose of the Editors and publishers of the ATLAS AND DAILY BEE to make both the one and seven-times-a-week issues of the best attractive, and to that end no expense will be spared, as it is our conviction that we shall make it profitable to the publishers in proportion as we make it acceptable to the public.

In typographical appearance, The ATLAS AND DAILY BEE will be equal to any newspaper, as it will be printed on the best quality of paper and upon new and elegant type from the celebrated foundry of Messrs. Bruce & Nelson.

TO ADVERTISERS.

We offer special facilities for bringing their advertisements before the public to the most attractive, and it will be our purpose to serve them to the best of our ability.

In the amount and variety of reading matter THE ATLAS AND DAILY BEE will not be excelled by any journal. It contains Twenty-Two Columns of matter, and the greatest care will be exercised in securing the most recent, reliable, and the earliest reports of all interesting public events. A corps of experienced reporters devote their time and energies to the collection and preparation of the news, and for TRENCHANT REPORTS of Conventions, Speeches, Sermons and Lectures we have secured the services of Mr. J. M. W. YERRINTON, the most accomplished phonographic reporter in New England.

The news from Ireland portions of the country by Telegraph and Mail will be collated, condensed and given up to the latest moment before putting the paper to press. Our correspondents in Europe and different parts of our own country will contribute to our columns regularly, and the letters will be found reliable and interesting.

IN POLITICS,

THE ATLAS AND DAILY BEE will be the independent and uncompromising advocate of the principles and policy of the great national party, whose motto is "Freedom and Free Labor for all men everywhere." We shall oppose the extension of African Slavery and the assumption by the Government of the Federal Government, believing that the Constitution of the United States is a charter of liberty, and not an instrument which either establishes or tolerates slavery, and that the Union of the States is a consideracy for freedom, and only to be maintained inviolate and perpetual by treating slavery as a local and purely sectional institution.

We shall contend for the purity of the ballot-box, and the security of the right of suffrage from all invasion of corruption, and for its exercise under just and wise institutions. Intelligence and patriotism are necessary prerequisites to the proper discharge of the political duties of the citizens, and the high prerogative of citizenship should not be exercised by those who are the victims of ignorance or the willing tools of demagoguery.

On all moral and social questions THE ATLAS AND DAILY BEE will speak out manfully and independently, and will seek to advance the interests of social and moral welfare of mankind. It will therefore be the advocate of temperance, universal education, and all reforms whose necessity and practicability can be demonstrated. It will never condemn anything old simply because it is old, nor hesitate to give a fair trial to whatever is new or progressive that promises good results. We thus hope to maintain the character of enterprising, candid and impartial journalists.

To the generous and discriminating public, to all who desire to sustain a New England newspaper that shall truly and freely reflect the sentiments of the people, we present THE ATLAS AND DAILY BEE as a candidate for favor and patronage.

Business communications should be addressed to THE BEE PRINTING COMPANY,
No. 7 State Street, Boston.

All other communications to the Editors of the THE ATLAS.

NEW COMBINED

Reaping and Mowing Machine

FOR THE HARVEST OF 1858!

MANUFACTURED AT ST. JOHNSBURY, VERMONT.

THE Subscribers, having had experience in the Western country in the manufacture of Mowing Machines, and having received the right from Western patentees to use their patent, has made some great improvements which he has added to the machine, and which he has taken steps to have patented. The driving apparatus is the same as went to a trial with nine other machines at Janesville, Wisconsin, and received the highest premium and a diploma for being the best mowing machine.

This machine is recommended to the farming public with full confidence that they will appreciate its many good qualities, among which are the following:—

It is light, simple, and has only a slight side draft.

It has great strength, and is easily managed.

It can be changed from a Mower to a Reaper in 10 minutes, and is a perfect machine either way.

It has the most perfect cutting apparatus, and an extra steel Guard to prevent clogging when mowing wet Grass.

It can be raised at the will of the driver to go over obstructions.

A man or boy can now and spread the grass with this machine faster than a man can spread it after it is cut with a scythe.

This machine will work on hilly land, if it has a smooth bottom.

At the great trial of machines in August, 1857, at Janesville, Wisconsin, thirteen machines made by different manufacturers, both at the East and the West, were entered. Five drew off, which left nine for trial, which was witnessed by the largest number of persons ever assembled in this country on a similar occasion.

REPORT OF COMMITTEE.

LOUIS OTIS & CO.'S WM. REAPER AND MOWER CO.—This machine combines more good qualities than any other machine of the kind we are acquainted with and we cheerfully recommend it to the public patronage. The committee, from personal knowledge of the operation of this machine, have been enabled to come to the above conclusion. We recommend the farmers of Rock county to patronize our home manufacturers, as we are sure they will get a better and more durable article here than elsewhere. We therefore award the first premium of $50 and diploma.

Better than a Fig of Tobacco!

A Crazy man gave as a reason why he carried a fig of tobacco in his hat, that it answered three purposes: 1st, it released him from the duty of travelling to wake up ministers to a sense of their duty. 2d, it settled the question whether Saturday or Sunday is the true Sabbath; and 3d, it kept him from becoming crazy!

Now, though the Trichosthene will not produce the above results, yet, when timely and thoroughly used, it *will* produce effects almost as wonderful as the deluded man's tobacco.

It will prevent baldness; and numbers can testify they have twice as much hair on their head as they had before using the article. One Lady, after using a bottle or two, said it was a humbug because it did not produce more rapid effects; but having now twice the quantity of hair on her head, and of a richer color, she now is as earnest in its praise as she was before in its condemnation. We say to the public buy it and you will be satisfied.

AMERICAN WATER WHEEL CO.,
Manufacturers of Warren's Turbine Water Wheel,
[Warren and Damon's Patent.]

HAVING recently made the most valuable improvement yet known in the use of Water Power, as attached to our TURBINE, we solicit the attention of all who are interested in Water Wheels. These TURBINES have been in operation in every State in the Union for the last six years, with unprecedented success. Yet we can safely say that THE RECENT IMPROVEMENT ADDS MUCH TO ITS GREAT UTILITY. The improvement consists ultimately in the SAVING OF ALL LEAKAGE WATER, as long as the wheel is in operation, without having the trouble of taking up the wheel and fixtures to repair.

We have a Pamphlet with Engravings of our Water Wheels, and a Treatise on Hydraulics, containing much valuable information on the science of water power, a description of Wheels, prices, &c., which will be forwarded to any person in the United States, free of expense, by addressing ALONZO WARREN, Agent American Water Wheel Co., 31 Exchange st., Boston.

Coughs, Hoarseness,

BROWN'S BRONCHIAL TROCHES.

Bronchitis, Colds, Influenza, Asthma, Patarrh, or Pulmonary Complaints, are quickly relieved by Brown's Bronchial Troches, or Cough Lozenges. To Public Speakers and Singers they are invaluable in clearing and giving power to the voice.

FROM THE NATIONAL ERA—WASHINGTON.—We go for decent Nostrums not much advertised, but of well tried efficacy. Such we have found those that we have seen from Brown and Lilly to be excellent for coughs, colds, hoarseness, &c.

☞ Public Speakers or Singers should be without them. Sold by all druggists.

FRECKLES.

Burnett's Kalliston contains a peculiar erasive property which will remove these disagreeable stains. It is at the same time perfectly harmless, clears all evidence of impurities and renders the complexion clear and beautiful. For sale by all druggists.
