nicely drained. The supply of Ames' long-handled shovels have been exhausted, and the price advanced, within the past few weeks, five hundred per cent. The article of Russia iron has also advanced three hundred per cent, and the supply is quite limited.

The California news is unimportant. The Supreme Court had decided the Sunday law unconstitutional, and all prosecutions based on that law had been abandoned. One hundred houses in the Chinese district in Oroville, had been burned. Loss, $90,000. Several buildings at Stockton were burned July 4th, including the Massachusetts House and Bowen & Brother's warehouse.

A terrible tragedy had occurred in Nevada county. A Dr. McMurtha and his brother owned a quartz vein there, which was "jumped" by 12 men. On the 2d instant, the jumpers entered a tunnel on the vein, barricaded the mouth of it with pine logs, and declared that they would kill the first man who should throw any dirt into the mouth of the tunnel. Dr. McMurtha threw a shovel full of dirt into the tunnel, and forthwith one of the jumpers shot him dead with a rifle. Thereupon the surviving brother drew his revolver and fired all the charges, then took the revolver from the body of the dead brother and fired all the charges among the twelve. The result was that four were killed and seven wounded. Mr. McMurtha then gave himself up to the officers of the law, and after an examination he was held to have acted justifiably, and was discharged.

California, great in her vegetable products, has produced a big baby. Mrs. Brady, a lady residing at Bear Valley, Mariposa county, gave birth on Sunday, 5th of June, to a baby weighing nineteen pounds, and a half.—A lump of gold was recently found at Salt Spring Valley, Calaveras county, which weighed eighty pounds.

The people in the southern counties of the state are still busied with hunting out and hanging the members of a band of banditti that has long infested that region, and committed numberless murders and robberies.—These miscreants are principally Mexicans, headed by a famous American desperado called Jack Powers. Seven have been already captured and hung, and others have been driven away.

Advices from Oregon state that the Indians of the Upper Columbia are collecting in large numbers, the object unknown. Advices from both Oregon and Washington territories mention a general gathering of Indians in that region, with evident hostile intentions. The commander of the Pacific army is hurrying thither all the troops at his command, but their number and equipment are said to be wretchedly inadequate.

WHERE AND WHAT IS THE FRAZER RIVER?—A California correspondent of the N. Y. *Evening Post*, in describing the Frazer river excitement which is carrying off thousands of its citizens, thus speaks of this heretofore almost unknown river:

"Up in one of the wildest countries on the face of the globe, its sources hidden in perpetual snows, its courses running through a wilderness of huge rocks, precipices, forests, lakes and quagmires, explored only by white men accustomed to the frozen solitudes of Mackenzie river and the great hunting grounds of Northern America, and explored by those men only when thoroughly equipped with all care and completeness which the wealth and experience of the Hudson's Bay Company enable them to command—inhabited by stalwart and courageous tribes of Indians, hostile to all white men except the employees of their allies, the Hudson's Bay Company—guches a turbulent river in the bed of which the Indians and some white men have found gold."

A HINT.—Mr. James B. Clay, in a late address, pretends to be defending his father.—If he wishes to render his father's memory a real service, let him remind the public of his own relationship to him as seldom as possible.—*Louisville Journal.*

VIOLATION OF THE GAME LAWS.—Two young men of this city were arrested on Friday last at Kingston, arraigned before Hon. Elisha R. Potter, plead guilty to the charge of catching trout contrary to law, and were fined about forty dollars each,—paying pretty dear for the whistle.—*Providence Post.*

☞ On the night of the 3d inst., while two young gentlemen, in company with a couple of young ladies, were promenading in New Orleans, the party encountered a huge alligator, also out for a promenade. The monster was killed with crowbars, though not before he had sent one of the young men a-kiting, some dozen feet or more by a blow from his tail.

☞ The Indianapolis *Sentinel* thinks that on the whole, the crop of wheat in Indiana will exceed that of last year. In Laporte county alone it is estimated there will be a surplus of 200,000 bushels for shipment.

☞ On the night of the 23d ult., bears attacked the cattle of Ransford Cannedy and Oliver Yaw, in West Readsboro Vt., killed and partly devoured two calves, besides badly mangling a cow.

☞ Henry St. Clair of East Haverhill, N. H., went on a fishing excursion on the 29th ult., and became so chilled by wading about in the water that he was seized with severe pains and nearly lost the use of his limbs. Physicians were called in, but nothing could be done to save his life. A post mortem examination disclosed the fact that he died of inflammation, the result of long exposure to the chilling effects of the water.

FLOUR LOW.—One thousand bbls. flour are contracted for in Cincinnati, to be delivered in September, at $3 per bbl., by parties in Indiana.

THE HARVEST MOON.—The Harvest Moon this year occurs in August, rising six successive nights at nearly the same hour.

☞ A newly married man thus registered himself at a New Orleans hotel: "S. B. Jones and lady on a *bri lle tower*."

☞ A butcher at Princeton, Ohio, named Daniel Elliot, in a fit of playfulness and to amuse his children, put his neck into a noose used for drawing up cattle, and set his children to turning the wheel and hoisting him up. But they drew him off his feet, and could not let him down again on account of the ratchet holding the wheel, and when they got their mother out to help them, he was dead—hung in fun.

ANOTHER NATIONAL HOTEL VICTIM.—Gen. John A. Quitman, who died a few days ago at his residence near Natchez, was one of the victims of the National Hotel poisoning, having dined there on that fatal day, which has cost thirty-one persons their lives, and destroyed the health of sixty or seventy more. Since that day Gen. Quitman had not a well hour.

☞ Ex-President Pierce and wife arrived at Gibraltar on the 12th of July, and were there on the 14th, waiting for a steamer to take passage up the Mediterranean.

THE HARRISON LOG CABIN BURNT.—The Gen. Harrison house, near Cincinnati, was destroyed by fire last week.

LATEST NEWS!

The Atlantic Cable Successfully Laid!

By Telegraph to The Caledonian.

By a special dispatch from White River Junction at 1 1-2 o'clock P. M. on Thursday, we learn that the Atlantic Cable is successfully laid, and that messages are now being received on this side of the Atlantic. The news is almost "too good to be true," but our readers may take it at what it is worth. We received the *telegram* through the politeness of Mr. Ellis, the operator at this place.

The Republican District Convention, Morrill Re-nominated.

At the Republican District Convention held at White River Junction, Thursday, August 5th, Hon. JUSTIN S. MORRILL was re-nominated for Congress by acclamation, there were from three to four hundred present.

"FLYING TIGER" DEAD.—The celebrated trotting stallion, Flying Tiger, died in Manchester, N. H., on Saturday. He was nine years old, was valued at $10000, and was owned by Mr. Cyrus Dunn. Inflammation of the stomach was the cause of the death.

The London Times exclaims "how shall Great Britain get rid of the war in Asia?"—Why don't she carry it into Africa?—*Louisville Journal.*

☞ The stomach of a cow recently killed in Kentucky contained a brass ring, a lot of hair pins, hooks and eyes, pieces of steel hoops, and a high heeled shoe. "Old Brindle" had probably swallowed the milk-maid.

☞ We understand that the Society of the Tremont Temple have, by a nearly unanimous vote, made a call upon the Rev. I. S. Kalbach to return to his old position as their pastor, which call we understand, he has accepted, and will recommence preaching there in September next.

☞ A society has lately been formed at Bordeaux to put down the superstitions of evil omens. As everybody knows, it is bad luck to begin anything on a Friday—or to sit down at a table with thirteen—or to balance your chair on one leg, or to spill salt between yourself and a friend. The new society proposes to have regular dinners on Fridays, to have just thirteen guests, and to turn on one leg and spill salt all a round before commencing! In the one whole year during which Ill Luck has been thus defied, no single fatality has occurred to any member.

PRESENTATION OF BOOTS!—The Detroit Advertiser is responsible for the following:

"The administration editor of the Washington Union is Sim Johnson. He used to live at Grand Rapids. Old Rix Robinson, Mt. Ada, Kent county, once presented him with a pair of stout boots, but in the hurry of the presentation he forgot to take them off his own feet. They were presented endwise.

A MAGNIFICENT ELM.—The Salem Register gives the following description of a magnificent elm in North Andover on the Hubbard farm, and which is supposed to be some two hundred and fifty years of age:

"The distance around the spreading roots as they appear from the ground, is 70 feet. The circumference of the trunk, one foot from the ground, is 34 feet; 4 feet from the ground, is 22 feet 10 inches; 6 feet up, 17 feet 8 inches; 12 feet up, at a bulge in the trunk, 19 feet 7 inches; just above the bulge, 46 feet; 25 feet from the ground, 12 feet. The lowest limb is 27 feet from the ground, and measures 12 feet 8 inches in circumference. After growing some three feet this produces two branches, measuring respectively in circumference 8 feet and 9 feet 5 inches. There is a limb to the south measuring 4 feet 5 inches, which would be considered a very large trunk to any tree. The branches of this limb measure respectively 9 feet 3 inches, 9 feet 2 inches, and 8 feet. The distance from the ground to the third crotch is 38 feet, to the fourth, 51 feet. The tree is exactly 100 feet high, and spreads over an area of about the same diameter.

SARSA.—We have long supposed the celebrated drug had come to be an exploded humbug, but we are assured by those skilled in the healing art, that not the Sarsaparilla itself is to be blamed for this conclusion, but the miserable worthless preparations of it, that have been palmed off upon the community—preparations which contain about as much of its virtues as their dead gold dust. It is a common opinion among the wise men of the world, that the Sarsaparilla gathered in the forests of Honduras, and manufactured into a decoction by the old sachems of Honduras, where the science of medicine has reached its highest perfection, and where they know the best what to employ for the benefit of the sick, these virtues are alleged to reside. We are ready to believe a compound of this excellent alterative, which can be relied on and our community will not be long without it, if they can be assured Dr. Ayer makes a worthy object of their confidence. He has been engaged in ellucidating this remedy ever since he graduated, designing to make it the chief object of his life to place in the enduring place to his already enviable reputation.—American Cab. New York

Poor Wood's Hair Restorative.—In our advertising columns is to be found an advertisement of this popular restorative. We know nothing of its merits save what we see, but that is sufficient, particularly when we see such testimonials of its efficacy as the following, which we clip from the Ottawa Free Trader:—

"Having tried successively sundry highly recommended hair tonics on our own half denuded crown, we about lost all confidence in them. Some time ago, about one week ago we met a distinguished politician of this State who had not seen three years ago with him hair and so stated as a fact. Before we parted we had a head of hair one could wish. We demanded the secret of his improved appearance, when he readily accounted for it by ascribing it to the virtues of Prof. Wood's Hair Restorative. We shall try that next."

Sold by all respectable Druggists. 98

A REMEDY THAT CURES.—When suffering from any disease of the throat or lungs, rest assured that speedy relief can be obtained by using Dr. Wistar's Balsam of Wild Cherry. Its success in such cases is unparalleled. 97

For the Complexion.

Burnett's Kalliston imparts to the skin a peculiar soft tone of texture, so desirable during the prevalence of harsh drying winds as a protection. It will, with a few applications, remove tan, freckles, sunburn, and all cutaneous eruptions. It is extensively used for those purposes, and before it was apparent it can be relied on in the open air as freely as they please, and experience no inconvenience from rough or irritated skin. This article can be had of all druggists and perfumers of any reputation. JOSEPH BURNETT & Co. are the Proprietors.—Boston Transcript.

INVALIDS, NOTICE THIS FACT!

For the past Fifty years Dr. S. O. RICHARDSON'S SHERBY'S NUX BITTERS have been universally as an effective and valuable Stimulant and Summer medicine. And while almost every one of the thousands of remedies that have been introduced within that period has been abandoned, Dr. Richardson's specific has been sustained with increased popularity. For sale at the Doctor's office, No. 34 Hanover Street, and by dealers in medicine everywhere.

For sale in St. Johnsbury by H. P. Hoyt and J. C. Bingham.—Druggists. 79-106

READ

☞ B. B. CARTER & CO.'S advertisement, Boston, Mass.

☞ DEAFNESS CURED, HOWEVER CAUSED. Letters addressed to DR. BOARDMAN, 12 Suffolk Place, Boston, answered. Remedies sent by express.

Extract from a Letter

☞ Written by a lady in Nap Bedford, to her sister in Boston. "Send, in the parcel, two of three bottles of Mr. BURNETT'S Cosaine; it is the very best thing I ever used for preserving my hair. I use it only once a week, and my hair is beautiful." For sale by all druggists.

Coughs, Colds, Cosumption.

Statistics show that from twelve to fifteen persons die of Consumption weekly in this city, but one-half that number would be reported if invalids would use Wilbor's Compound of Cod Liver Oil and Lime. For sale by Alex. B. Wilbor, Chemist, 166 Court Street, Boston.

Mosquitoes.

☞ An antidote for the poison of mosquitoes, bees, wasps, and other annoying insects, has been found in Burnett's Kalliston, prepared by Messrs. Joseph Burnett & Co. This preparation contains a peculiar property which instantly neutralizes the poison and allays the inflammation caused by bites and stings of insects. For sale by all dealers, at 50c and $1 per bottle. 94-97

Wanted Immediately.

Local and traveling agents. Salary $50.00 to 150.00 per month. Here is a rare chance for a few young men to make a large salary without investing a capital. For all details, enclose stamps for postage, and address

H. B. CARTER & CO., Boston, Mass.

The above is no "humbug and catch-penny," or business to introduce Patent Medicines, Books, Lottery Swindles, &c.

THE HUMAN HAIR.

☞ How many persons abuse the delicate and beautiful ornament, the human hair, by using alcoholic washes and plastering it with grease, which has no affinity for the skin and is not absorbed. Burnett's Cocoaine, a compound of the cocoa nut oil, &c., is recommended as a dressing for the hair—is readily absorbed, and is peculiarly adapted to its various conditions, preventing its falling off and promoting its healthy growth. For sale by all druggists.

assisted by such other Teachers as the interests of the school may demand.

Whole special care will be given to the Classical Department of the School, it will also be the aim of the Teachers, to furnish the means of acquiring a thorough, practical and business education. For which purpose, particular attention will be given to the Natural Sciences, Bookkeeping, Surveying, and Mercantile and Mechanical Studies, in general.

A Teachers class will be formed during the term, for the special benefit of those intending to teach, the coming Winter.

Superior advantages will also be offered for the study of French, Music, Painting and Drawing, and all other Ornamentals. Board can be had, in good families, for $2.00 per week, including wood, lights and washing. Rooms will be furnished at reasonable rates to those wishing to board themselves.

Scholars, at a distance, wishing to secure Board, or Rooms, can do so by applying, by letter, to Hon. James Gilchrist, or Dr. Enoch Blanchard.

It is exceedingly desirable that every scholar should be present at the commencement of the term.

McIndoes Falls, Vt., July 17, 1858. 95-100

AUCTION!

NOTICE is hereby given, that I will sell at public auction, on

MONDAY, SEPT. 13, 1858,

at 2 o'clock, P. M., at the Depot of the Connecticut and Passumpsic Rivers Railroad, in St. Johnsbury, the following described personal property, viz:

150 Sets Window Blinds, Unpainted.

Said Blinds were brought from Boston, and deposited in said depot in St. Johnsbury, on the 20th day of May, 1856, consigned to Lindorf Morris.

105 Thousand No. 3 Pine Shingles.

Said shingles were brought from Wells River, and deposited at said depot at St. Johnsbury, on the 2d day of July, 1857, consigned to Robinson & Thompson.

The above personal property has remained at said depot, unclaimed by the owners or consignees to the present time, and the legal charges for freight and storage remaining unpaid, said Railroad corporation causes the same to be sold according to the law in such case provided.

O. P. WAKEFIELD, Sheriff Caledonia County.

96-98

ORDER OF NOTICE of SETTLEMENT.

ALFRED P. BONNEY'S ESTATE.

STATE OF VERMONT, Caledonia District, ss.

At a Probate Court held at St. Johnsbury, in said District on the 4th day of Aug., A. D. 1858.

WHEREAS, Abel Guss, Executor of the last will and testament of Alfred P. Bonney, late of Waterford, in said district, deceased, proposes to render an account of his administration and to present his account against said estate for examination and allowance for the purpose of making partition and distribution of the residue of said estate, by order a decree of said Court, among the persons and in the law entitled to the same. It is therefore ordered by said Court that the same come under consideration and be heard at the Probate Office in St. Johnsbury, on the 23d day of August, A. D. 1858. And it is further ordered, that all persons interested be notified hereof by publication of a copy of the record of this order in the Caledonian printed at St. Johnsbury, three weeks successively previous to said time of hearing, that they may appear and contest the allowance of said account, if they see cause, and also be heard by said Court, in the matter of partition and distribution of said estate. By the Court.

Attest, ASA L. FRENCH, Judge of Probate.

A true Copy of Record.

97-99 Attest, ASA L. FRENCH, Judge of Probate.

TRIUMPHANT SUCCESS OF BUCHAN'S

Hungarian Balsam of Life.

The great English remedy for Coughs, Colds Asthma and Consumption.

CASE FROM THE WOONSOCKET, R. I., FACTORIES.

The following case is one of great interest to the operatives in cotton Factories.

PROVIDENCE, R. I., March 21, 1846.

This may certify that I, the undersigned, formerly a weaver at the Woonsocket, R. I., factories, was been confined to my chamber since the 10th of June last, and was supposed to a confirmed Consumption. The history of my case is as follows: While engaged at my work in the mill the room being very hot and dusty, I was suddenly seized with violent pains in my chest, followed by a sense of fullness, and a flow of blood from the lungs. The pains returned at intervals, and the raising of blood continued. I had much cough, sweats and chills, and no appetite. Being placed myself under the care of Dr. H. G. Brown, of Providence. Various remedies were tried with little or no benefit, until Dr. B., considering my case almost hopeless, advised me to try the Hungarian Balsam; and this, as I believe has been the means of my restoration to perfect health. It is now six weeks since I commenced taking this Balsam. The fever and sweats have ceased—the flow of blood has been checked—my strength has visibly increased—and I feel nearly as well as ever. I can also state, for the information of the afflicted, that this Balsam has been used in the Woonsocket factories, by many persons who have been troubled with Coughs, soreness and pain in the chest with excellent effect. SARAH A. BROWN.

The undersigned Physician, cheerfully gives his certificate in confirmation of the above statement, which is strictly and entirely true. H. G. BROWN.

97-100

To the People of Caledonia County and Vicinity:

GREAT IMPROVEMENT IN

MECHANICAL DENTISTRY!

DR. KILBOURNE

HEREBY announces to the public that he has purchased the right to use Dr. Blandy's new method of inserting ARTIFICIAL TEETH by the CHIOPLASTIC PROCESS. This method is far superior to all others now in use, and is used and highly recommended by the most eminent dentists in the United States. There has long existed a void in Mechanical Dentistry which scientific men have studiously endeavored to supply, but without success until about two years since Dr. Blandy (one of the Professors in the Baltimore College of Dental Surgery) discovered this process of making sets by cheoplasty, and published it to the world, since which time over two hundred of the most skillful Dentists in the large cities are now using it, almost to the exclusion of all other methods.

Among the advantages which this process has over all others, are 1st, an *absolutely accurate fit to the mouth*, thereby rendering its *firm retention* a matter of course.

2d—By this mode the teeth and plate are united in one solid piece, and as no spaces are left for the lodgment of food, or the secretions, this work is *remarkable for* CLEANLINESS; a property which it retains unimpaired as long as it is worn.

3d—The ease and *comfort* with which it is worn—requiring no time to get used to it—will strongly commend itself to those who are under the necessity of wearing artificial teeth. By this process also, the mouth and cheek where they have sunken away can be fully restored to their original contour and fullness.

4th—By this method the teeth are *not liable to get out of repair*, which is a matter of no little expense, and a source of great annoyance to those who have teeth inserted by the old methods of gold or silver plates. In fact as to its STRENGTH, DURABILITY, and BEAUTY, I challenge for it a comparison with any known process for inserting artificial teeth.

And lastly, but not least in these hard times, it can be made MUCH CHEAPER than sets by the old method, thereby putting it within the reach of both rich and poor.

Persons in want of whole or partial sets of teeth are invited to call at my office and examine the work; and if desired they will be referred to persons in this village and out of it, who are wearing whole sets manufactured in this way by myself.

DR. KILBOURNE is the only dentist in this county who has the right to, or does, use this cheoplastic process. Teeth will be inserted in the usual way, on gold or silver plate, as formerly, if desired by the patient, and on reasonable terms.

Office over J. Boles' Clothing Store, corner of Main and Central streets, St. Johnsbury, Vt.
