**Delano & George vs Rufus W. Smith.**

*STATE OF VERMONT.*

Caledonia County, ss.

At the June Term of the County Court, within and for the County of Caledonia, began and held at St. Johnsbury, on the first Tuesday of June, 1858.

Present, Hon. LUKE P. POLAND, Chief Judge
JAMES D. BENJ. } Asst. Judges.
Chas. C. Newell } Asst. Judges.

LEWIS W. DELANO & John H. George, of Hardwick, late partners under the firm of Delano & George, have petitioned their action against Rufus W. Smith, late of Greenfield Gore, in Caledonia County, aforesaid, wherein they declare in a plea that the defendant owed to the pltfs. the sum of two hundred dollars which the plaintiffs are to justly due from the defendant, to balance book accounts between them, as by the pltiffs original book ready to be produced in Court may appear. Now the plaintiffs say that the defendant though often requested, has ever refused, and still does refuse, to settle and adjust the account of the plaintiffs, or to pay the balance thereupon due. To the damage of the pltf. two hundred dollars, for the recovery of which, with just costs, the plaintiffs bring suit.

Whereupon it appearing that the said Defendant, was absent from the State, at the time of the service of the writ and has not had legal notice of the pendency of said suit, It is ordered that said suit be continued to the next term of said court to be holden at St. Johnsbury, on the first Tuesday of December, 1858, and that the plaintiffs cause the said Defendant to be notified of the pendency thereof by publishing the material parts of his declaration and the order of court, three weeks successively in the Caledonian, a newspaper printed at St. Johnsbury, in said County of Caledonia, the last of which to be at least twenty days previous to the term of court to which said action is continued. All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

*Testimonials.*

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON," Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, than the undersigned, in putting their applications in a form secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE," Late Commissioner of Patents.

"Boston, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications on all but ONE of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on the cases, and at very reasonable charges.

JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on a who, rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

## TRUE TIME.
## American Watches.

THESE superior Watches are made by the aid of new and original machinery, expressly designed to secure, at a low price, a FINE SUBSTANTIAL AND UNIFORMLY RELIABLE time-keeper. The movements are new in construction, have been pronounced by the highest authorities to be faultless in principle and quality, and have been proved by the most exacting tests to be unfailing in action. These watches are made entirely from the crude materials, in a single establishment, by connected and uniform processes—the factory being organized upon the same system that has been adopted in the production of the unequaled American fire-arms,—which enables us to produce a movement at one-half the price of a foreign movement of the same quality. Each watch is carefully tested, and is accompanied with the maker's certificate and warranty for two years.

All foreign watches are made by hand, the American watches being the only ones made by machinery upon a uniform system throughout. Nearly all hand-made watches are defective, and are continually getting out of order in many parts of the country it is impossible to find good watch repairers, and watch repairing is always uncertain and expensive. The introduction of American watches disposes of this difficulty, and country merchants, as well as watch dealers can keep watches as a part of their miscellaneous stock, and thus supply their customers with a new staple, which may be used as any other article, without mystery or humbug. Sold by the trade generally. Salesroom in Boston, 163 Washington Street. General Agents, Messrs. Robbins & Appleton, New York.
