Cambridge Cattle Market.

By Telegraph to The Caledonian.

WEDNESDAY, May 1, 1861.

At market 1100 cattle, about 400 pairs of oxen, about 300 of them from Western Ohio, the balance from three to seven years old.

Prices—Middling fat oxes sold at $7,000; quality not quite so good as last week, $6,875; extra do $7,125; ordinary do $6,500; common do $6,000; working oxes—$80, 100, 120, 140 and 150; cows and calves—$25, 30, 35, 40 and 45; coarse—$20 & 30.

Yearlings—Two years old—$15 a 16; one year old—$17 a 19.

Spring Lambs—$4 a $5 at market. Extra and fancy, $5,00 a $5,50; in lots, $3,00, 1,50 a 2.

Sheep—300 at market.

Hides—4½ a 5 per lb.

Tallow—7½ a 8 per lb.

Pelts—$1,25 a 1,25 each.

Pork—6 a 6½ per lb.

Calves—$1,00 to $2,00.

Dealers of cattle, owing to the rather short price asking an advance on last week's prices, find it hard to obtain it, as the buyers are numerous, and those not having their droves, as they find trade dull on their hands, are willing to sell about the same as last week. Sales pretty fair at—prices low.

☞ The conduct of the eighth Massachusetts regiment at Annapolis, shows what the northern regiments are made of. When Gen Butler asked if any of them could sail the frigate Constitution, fifty-four men stepped from the ranks, one of whom was the son of the man who built her. A similar instance occurred when the general called for mechanics to put the dislocated engine together. One stalwart Yankee stepped from the ranks and said: "Well, general, I rather think I can do it—I made that engine;" and in two hours the engine was at work drawing trains with the troops toward Washington.

The great central active principle of the Vegetable Kingdom is a true development of the original natural principle. In all cases wherever opinion has been used and the results effects witnessed, no remark of ours can adequately compare the difference, and no decision is equal to a trial. The anodyne combination is a particular opinion, and the most delicate constitution may use it with safety and the severest nature state it keeps and cures as the patient should recommend it to physicians who have long sought this true development, and to patients who want natural results.

The easiest of the Universal Cough Remedy is that freedom to all components which, by the great error in compounding, produce complete merits, instead of real cures. We place no restraint on its use every hour in the day, and ask all patients to make it the natural enemy of all Coughs, Throat or Lung Complaints, by a perfect freedom of application. For Influenza or Sore Throat it is a perfect specific, and for Whooping Coughs checks all the spasms and allows the Cough to have its run in a quiet way.

With the spirit that courts all investigation, and readiness to answer all inquiries, may well turn ask all to be cautious to be cautious in purchasing of those that can rely upon "Prices within reach of all." 3-41

A CARD!

The American Watch Company, of Waltham, Mass., begs to call the attention of the public to the following emphatic recommendation of Waltham Watches, which has been politely given by the leading practical watchmakers and jewelers throughout the United States. The entire list of signatures to it, even in the Eastern States, is quite too long for publication in one advertisement, but the names presented will be recognized by those acquainted with the Trade in this vicinity as being in the highest degree respectable and influential. At their establishments may always be found the genuine watches of the Company's manufacture, in great variety and at uniform prices.

Signatures from many cities and towns of New England, not fully represented in this list, will appear in a future advertisement.

To the Public.

"The undersigned, practical watchmakers and dealers in watches, having bought and sold American Watches for a number of years past, and having dealt in all kinds of foreign watches for a much longer period of time, beg to state that they have never dealt in watches which, as a class or in individual instances, have been more satisfactory to themselves and customers, whether in respect to durability, beauty of finish, mathematically correct proportions, accurate compensation and adjustment, or of fine time-keeping results, than those manufactured by the Waltham Company."
