THE CALEDONIAN.

LOCAL AND STATE ITEMS.

ST. JOHNSBURY, VT., FRIDAY, NOV. 8, 1867.

☞We endeavor to make the Caledonian valuable for news of events; and our friends in Caledonia, Essex and adjoining counties will confer a great favor to us and very materially to the interest of the paper by sending us local items in a brief, legible form.

Brief Locals.

—Mercury at zero the 7th of November is a rather severe introduction to winter—especially so after a month of so beautiful and warm weather as we have had this fall. The hills are white with snow.

—Mr. Hiram Hill of the St. Johnsbury House, lost one of a valuable pair of grey horses, one day last week, of lung fever.

—John M. Weeks has been chosen president of the Lyndon National bank, *vice* E. B. Chase deceased.

—George Green of Waterford, threshed 700 bushels of wheat and 700 bushels of oats for Thomas Mason and Andrew J. Hunter, in three days—moving his machine three times in the three days. Those who should know call this good work.

—The big fan that furnishes wind for the new foundry of the Scale Works, broke on Monday, and work has to be suspended for several days until it can be repaired. It is a serious interruption at this time.

—The last Star says that on Sabbath day, Oct. 27, George, aged about four years, son of Luther Kittredge, of Danville, was playing near the house, where the horses were feeding, when the boy went too near them, one of the colts kicked him severely on one side of the lower jaw, causing a serious fracture of the skull and jaw, extending to the middle ear.

—We learn that Andrew E. Rankin of this place has been appointed secretary of the Board of Education, *vice* J. S. Adams, of Burlington, resigned. Mr. Rankin is a graduate of Middlebury College, clerk of Caledonia County, and has been a highly successful teacher. He will, no doubt, be successful in his new sphere.

—P. D. Blodgett of this place is local agent of the New York Mutual Life Insurance Co. The business of this company is constantly increasing. At the rate policies already issued in '67, they will exchange thousand this year, against thousand last year. We believe this is the largest business done by any insurance company in the world.

Runaway.

On Lunenburg, Oct. 25th, Mrs. Arundal Morse, having been making a visit to her father's, started for home, but when within about one-half mile of her home, the horse commenced running, throwing her out and breaking her arm in two places, and severely injuring her otherwise. The injury to her head is so great that she has been insane since, and does not realize her injury. It is thought that she may recover. The carriage was badly broken, but no one knows from what cause the horse took fright.

G. T. at Lyndon Centre.

Passumpsic Lodge No. 49, of Good Templars elected the following officers for next quarter, Oct 30, 1867. Wm. H. Clough, W. C. T., Kate McVicar, W. V. T., W. D. H. Dickinson, W. S., Chas. Ladd, W. A., Luella Easterbrooks, W. M., Jennie Green, W. I. G., C. J. Bundy, W. O. G. Good Templarism is thriving in Lyndon Centre.

Lyndon Items.

Mr. Wm. Henderson (Scotch) has sold his farm to John Gibson for $5000, and has bought the residence of the late Dr. Perry at Ryegate corner, for which he pays $3000.

A man fell off a load of turnips at A. B. Blake's, somewhat injuring his shoulder, but what was most remarkable, one wagon wheel ran over both legs and they were not broken. He must have had stout legs.

The crops are all in, and in general are very good.

Wells River.

Mr. Kilburn the well known Photographer of Littleton, has recently taken a very interesting stereoscopic views in this vicinity. One represents the Montpelier & W. R. bridge between here and Groveville. The picture gives us a very good view of the bridge itself, and then stretches a view of the island just above the bridge beyond the bend in the river, Bald mountain, and a portion of the sky are all mirrored in the smooth surface of the Connecticut. Another represents the valley of the Connecticut as seen from the Passumpsic R. R. track, just above the bridge at the Wells River. Either of these pictures will bear a favorable comparison with the productions of any stereoscope manufacturer in the land. They not only illustrate the degree of perfection to which the art has been carried, but, quite as strikingly, they show how much of beauty there is in nature's landscapes on every hand.

Barnet Items.

The first saw mill built in Caledonia County was built in this town, at the falls on Stevens' river in this village, in the year 1771. The saw mill and a grist mill were both built the same year by a Col. Bedel of Haverhill, N. H., by a contract made with Enos Stevens, one of the original grantees of the town, for one hundred acres of land lying on the Connecticut river, and running back half a mile and inclosing the falls. Stevens furnished the mill irons, having them on the spot. They were drawn here from Haverhill the winter before on a hand sled. The old iron crank that was in the saw mill, has been in several mills since, and for a few years past has been lying about here, and out of use. It was very large and heavy, containing enough iron to make two or three cranks for the same use, like those made in modern days, and was made of the best of iron, and almost as good as steel. This same crank, is now being cut off, and forged over, to be used for the same purpose, in the saw mill at West Barnet. It was so hard on the surface that it could not be turned in the lathe, to make it the proper shape, until it was heated through in a blacksmith's forge, and allowed to cool slowly, to take the temper out of it. It will probably last longer now than any iron they could get, and may wear out quite a number of saw mills yet. This is really one of the relics of by gone days, and if it could write its own history, it would make a much more interesting article than could be obtained from any other source.

Business, here seems to be increasing, if any thing can be judged, by the appearance at the store of Messrs. Abbott and Clement. It is but a short time since they made a large addition to their store, and they are now making another addition, to better accommodate their lady customers. They are also soon to put up another, quite a large building, joining at the north of their already large store, for an additional store house. They keep a larger assortment of wares than has ever been kept in this part of the county before, and almost any article that a person needs in the country can be found at this excellent store, and customers can be waited upon by the gentlemanly proprietors, or as polite and attentive clerks as any of the best stores in the city.

The Hazen Brothers are also doing a large business, and keep an excellent assortment, but have not so much room as they need, although an addition was made to their store awhile since. They keep a nice quality of goods and sell very cheap, and draw a great many customers from a long distance. Any one wishing to purchase any thing in their line will not do better than to give them a call. Their clerks having had the advantage of doing business for themselves, thoroughly understand their business.

It is understood that a grocery is soon to be opened in the building formerly occupied by L. Mason.

Mr. Watts, the Congregational minister has decided to not move into the large building under the hill, as was talked before. He is repairing the house formerly occupied by Miss Hannah Moore and is to live in that.

Misses Moore & Brock are about to open a Milliner's shop in the building known as the Potts' office. They went to Boston last week, to purchase their stock of goods.

Miss Abbie Wallace has opened a dressmaker's shop, in the same building occupied for a tin shop, at the west end of the bridge on church street. Any one wishing business done in that line if they will only call, they will not go away dissatisfied, for she does her work very cheap, very quick, and very thorough, and more than all the rest is very pleasant to her customers, whether friends, or strangers.

Andrew J. Lackey has bargained his farm to Peter Shanty for $2500. The writings are not yet made but they expect to make them this week.

ORLEANS COUNTY.

A. M. Harriman of Craftsbury, a few days since lost a pair of oxen. They were bowed up in the stable, the floor gave way and left them hanging.

Geo. W. Jenness, of Barton, has sold his farm to Thaddeus Drew, for $11,000.

ORANGE COUNTY.

The last Opinion, at Bradford, announces that A. A. Earle has sold that paper to D. W. Cobb and H. H. Earle. Mr. Cobb has been editor of the Opinion for about a year, and has made an acceptable county paper. Our friend of the Standard will feel better now he has got the Bradford elephant off his hands.

The Beedle Bridge over the Connecticut river, near South Newbury, which was blown over in a gale, in July, 1866, has been rebuilt.

The opinion learns that Rev. Wm. S. Palmer, of Wells River, has received a call to the pastorate of the Free church of Providence, R. I.

Unlocking the Rocks.—The great cost of silver and gold arises not so much from their scarcity in the earth, as the difficulty of extracting them from their matrix or combinations. Dr. J. C. Ayer, the well known chemist of Massachusetts, has cut this gordian knot. After having merited and received the gratitude of half mankind, by his remedies that cure their disease, he is now winning the other half, by opening for them an easy road to the exhaustless treasures of the hills. He has discovered and published a chemical process, which renders at little cost, the hardest rocks and ores friable like chalk, so that the precious metals are loosed from their confinement, and easily gathered. Mines too poor to pay, may be worked at a profit now, and the yield of rich mines is largely increased, while the cost of extracting the metals from the ore, is diminished. Either is a great achievement, to enrich mankind, or cure their diseases. But we are informed our celebrated countryman adheres to the latter, as his specialty and chief ambition. *English Sentinel.*

☞Difficulty of passing urine, or thick water. The horse strains in attempting to urinate; the effort is painful and he is able to pass only a small quantity at a time. Give Sheridan's Cavalry Condition Powders.

☞P. L. L. means, simply, license. A. L. D. means license to health and long life, but a rigid prohibition of everything that tends to destroy the one or shorten the other; they are the symbolic letters of that great Pain-Killer, for external or internal use, American Life Drops; It

Estray.—Came into the enclosure of the subscriber in Peacham, on or about the 23d day of October, a light red OXEN, medium size, the owner is requested to prove property pay charges and take her away.
PHILEMON TAYLOR.
Peacham, Nov. 1, 1867. 8-82*

R. R. R.—90 out of 100 of Deaths that annually occur, are caused by Preventible Diseases, and the great part of those complaints would if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by the Ready Relief. In case of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Headache, Toothache, Cramps, Spasms, Bilious Cholic, in fact all pains, aches and infirmities either in the Stomach, Bowels, Bladder, Kidneys or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life saving remedies in the house; can be used on all occasions, where pain or sickness suddenly seizes you or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how old, or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868. R. R. R. sold by Druggists. 8-84

Extract from a complimentary letter: "a fellur in our place spraind his ankul badley, and it paind him badley, so he got a bottle of Renne's pane Killin magic liv at the stor and used it awl up on his ankul at one onion and it cured him right smart." Go and do likewise.

Sold by BINGHAM, and RANDALL, St. Johnsbury, Vt. 1t

Boston, Aug. 26, 1867—sp. notice 1 yr.

Turner's Tic Douloureux or Universal Neuralgia Pill is a safe, certain and speedy cure for Neuralgia and all nervous diseases. The severest cases are completely and permanently cured in a very short time. Neuralgia in the face or head is utterly banished in a few hours. No form of nervous disease withstands its magic influence. It has the unqualified approval of many eminent physicians. It contains nothing injurious to the most delicate system. Sold everywhere. Sent on receipt of $1 and two postage stamps. TURNER & CO., 120 Tremont street, Boston, proprietors.
Boston, July 1, 1867.—1y.

☞One needs to try its virtue to be convinced of the efficacy of Johnson's Anodyne Liniment. No cure, no pay.

Dr. S. S. Fitch's "Family Physician." Seventy-six pages; price 25 cents. Sent to any address. No money required until the book is received, read and fully approved. It is a perfect guide to the sick or indisposed. Address DR. S. S. FITCH, 25 Tremont St. Boston. 1y4jan

Among the many restoratives which nature has supplied to relieve the afflictions of humanity, there is no more favorite one for a certain class of diseases than the "medicinal gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe, to relieve and to cure, is enhanced ten fold by scientific and judicious combination with other ingredients, in themselves of equal worth. This happy mingling exists to a remarkable degree in

Dr. Wistar's Balsam of Wild Cherry,

whose value in curing coughs, cold, bronchitis, whooping cough, croup, asthma, pulmonary affection and incipient consumption is inestimable.

FROM J. D. HOSMER, ESQ. OF TOPSHAM.

TOPSHAM, VT., April 24, 1860.

Messrs. S. W. Fowle & Co.:

Gentlemen: I take a great pleasure in adding mine to the mass of testimony in favor of that invaluable cough remedy—Dr. Wistar's Balsam of Wild Cherry. During the past winter my wife was affected with a severe cough and inflammation of the lungs. After suffering severely for many days, Wistar's Balsam was recommended, a trial of which have immediate and permanent relief. I have known of the Balsam having been used in cases of asthma, with the most favorable results. I am sure that if the community were as well acquainted with the merits of this great remedy as I am, you would be unable to supply the demand. I would advise all who suffer from coughs, colds, &c., to give this medicine an early and thorough trial.

Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by druggists generally.

The best known remedy for

Scrofula,

in all its manifold forms, including ulcers, cancers, syphilis, salt rheum, &c., &c., is Dr. Anders' Iodine Water, a pure solution of Iodine without a solvent, discovered after many years of scientific research and experiment. For eradicating humors from the system it has no equal. J. P. DINSMORE, 36 Dey St., N. Y.
Circulars sent free.
Sold by druggists generally. 77-80

Mother Bailey's Quieting Syrup for Children.—Allays all pain, cures wind colic, convulsions griping, &c. Large bottles only 25 cents. Sold by druggists. 77-82

E. & T. FAIRBANKS & CO.

GENTS' UNDER GARMENTS

Now opening, at prices never so low before, at

E. & T. FAIRBANKS & CO.

THE VERMONT RAW BONE

SUPERPHOSPHATE of LIME

Is made of **raw** bones, with the other necessary constituents of the **best quality**, and with no other adulteration whatever at the works of the Company, at St. Johnsbury, under the direction of HORACE PADDOCK, LL.D., well known as an agriculturist, and also by his position long held as an officer of the Caledonia County Agricultural Society. Its preparation is conducted with **skill and fidelity** and it is the determination of the Company to **fully maintain its high standard of excellence.** Testimonials from many of our best farmers show it to be the cheapest and best fertilizer ever offered in our market:

"The Vt. Raw Bone Superphosphate is the best every way." JONA. LAWRENCE, Sec. of Caledonia Co. Wool Growers Ass'n.

"The most satisfactory of any I have used." HON. EZRA A. PARKS, Pres't of Caledonia Co. Agricultural Society.

"Has proved all that can be desired." S. S. GOULD, West Concord, Vt.

"Contains the most Bone Phosphate of any I have tried." J. P. FOSTER, Passumpsic, Vt.

"Is altogether the best in market, it hastens maturity so as to secure **secure from frost** much earlier than otherwise." HON. BARON MOULTON, St. Johnsbury, Vt.

"Has a marked and beneficial effect on rutabagas and potatoes." I. W. SANBORN, ESQ., Sec. of Caledonia Co. Agricultural Society.

"It stands at the head of every thing of the kind ever used here." J. & L. R. VARNUM, Peacham.

"There was two bushels where it was put, to one where it was not used. Tried side by side with "Coe's Improved Superphosphate of Lime" (manufactured by W. L. Bradley of Boston) in crops under similar condition of soil and treatment, there was **a marked difference in favor of the Vt. Superphosphate."** L. C. MATHEWS, ESQ., East St. Johnsbury, Vt.

"I had a better yield and earlier crops than neighbors who used yard manure or other brands of Superphosphate. Tried on a portion of my oats, they ripened **two weeks** before the rest of the field." CAPT. H. PERKINS, Cabot, Vt.

"I got one fourth more bushels where I used the Vermont Superphosphate **alone** than where I used alike amount of "Coe's Superphosphate" and 5 cords of well rotted manure to the acre—soil, crop and treatment the same." HIRAM HILL, Prop'r of St. Johnsbury House.

"It is cheap, concentrated and efficient, it greatly increases the yield and matures the crop **two or three weeks earlier** than yard manure. It was entirely **devoid of the disagreeable stench** put in by other manufacturers and I am much of the opinion, **it is the best we get."** GEO. GALBRAITH, Barnet, Vt.

It is, and shall be, sold as cheaply as **such an article** can be afforded. If a lower priced Superphosphate, and yet of good quality, be desired, let the genuine article be sold by the Company, be mixed with an equal amount of dry muck or fine old compost, and a good article is the result, and at a cost of less than two dollars a hundred.

"Those who buy and use it will lose nothing. I tried it upon my field without any. The result was, VERY MUCH in favor of the Phosphate all through the season. A neighbor had one barrel of what I ordered, and calls it better than "Coe's." LONSON L. RICE, Fairlee, Vt.

"Seven dollars worth brought me in an acre of extra good corn which I certainly should NOT have got without the Superphosphate, as it was a very late, poor piece on poor land. Other brands of Phosphate had not done well with me and I had still less faith in applying after the corn was up—but I put it on at the first hoeing—and was astonished to see how quick and vigorous it took hold of the crop." W. D. GOULD, ESQ., Concord, Vt.

"I have taken some pains to observe the effects upon various crops of the Superphosphate of Lime manufactured by Paddock, Dean & Co. They use a new material for a dryer which is my judgement is much better than those used by manufacturers generally. It is Plaster of Paris. I had no doubt this would prove an improvement for clayey soils; but to my surprise it proves equally useful on loamy or sandy soils. I have seen its effects on several pieces of corn and potatoes. The corn when about fifteen inches high AVERAGES ONE THIRD GREATER in weight than that in the same vicinity where no Superphosphate was applied. On potatoes its stimulating power is most strikingly manifested the growth in one instance was NEARLY DOUBLE that where none was used." HON. A. G. CHADWICK, St. Johnsbury, July, 1867.

A genuine article of Superphosphate supplies those elements of growth which are most difficult to be obtained, and which exist only in scanty amount in the best farm yard manure.

It **gives a quick, vigorous start to the young plant.**

It promotes luxuriance of growth throughout the season.

It greatly **increases the product.**

It matures the crops two or three weeks earlier so as to **secure it from frost.**

In a great measure it prevents the ravages of worms, insects and other enemies. It contains no barn yard grass-seed. It is transported to distances with ease, and applied with trifling labor, and as home made manure must always be insufficient for the needs of agriculture, **genuine Superphosphate is an invaluable auxiliary.**

The Vt. Raw Bone Superphosphate.

TRY IT! USE NO OTHER!
