☞ We endeavor to make the Caledonian valuable for its news; and our friends in Caledonia, Essex and Orleans counties will confer a great favor to us and add very materially to the interest of the paper by calling in local items in a brief, legible form.

☞ In any of our towns who lack of *Paste or Mucilage* for Printing dues, we invite them to give us a call. We have just put into the Caledonian office several hundred dollars worth of beautiful type of new design, which, together with other material, and skillful hands, enable us to do almost any job of Printing in a tasteful manner. Try us before sending elsewhere.

Brief Locals.

—The Standard says some one stole a wallet containing $150 from the store of Kenison & Pearl at Sheffield on the 30th ult.

—The case of Mrs. Hutchins mentioned in last paper, was genuine insanity, as it has proved since she reached the asylum; so Dr. Bancroft found her case needed immediate treatment. We say thus much to correct a wrong impression which has gone abroad.

—Loren Stone, on Saturday last, dug one hill of potatoes which turned out 106 in number, over 50 of which were good marketable ones.

—The glory of the hills is rapidly departing. The foliage was in its highest beauty one week ago—now the leaves are fast falling.

—We learn that Jonathan A. Hunter of Lyndon is to bear his mammoth hog next Monday. His girt is six feet and eight inches; will give his weight when weighed.

—Persons attending the State convention of young Men's Christian Associations and churches at Brattleboro next week, will be taken over the railroads for one-fare.

—Milo W. Hale has sold his store building and stock in trade on Railroad street to T. Brigham, formerly of the firm of Stone & Brigham, bakers.

—The concerts given last week were very fine. Mrs. Hall was in excellent voice and sung splendidly, while the performance of Mr. Wallach on the harmonica was a marvel of musical sweetness and skill.

—We remind our readers once more that the convention under the direction of Mr. Root, begins at this place next Tuesday morning. Very likely it may be the last time Mr. Root will get so far east, and we shall look for a full chorus of his "pet lambs," as he called his class when here years ago.

—Those who love good pictures, (and who does not?) are referred to advertising columns of scenes in sunset land. Mr. Warren Harris has spent the last three years in travelling on the Pacific slope, and has himself photographed the views he proposes to show. He has been on a visit to his native town (Danville,) and he now returning west he shows his pictures here, and only here.

—Judge Poland returned home on Monday. He has been speaking for Grant and Colfax in Pennsylvania. On reaching home the Judge found letters and despatches announcing that he would be present to address the great mass meeting at Plattsburg, N. Y., on Wednesday, and although worn and weary from his labors of the past two weeks, he immediately took a conveyance across the country, to be present on the occasion referred to. Every effort has been made to make the Plattsburg affair one of the most brilliant of the campaign. Large delegations went over from the west side of the State.

Nasby.

The town hall was well filled on Tuesday evening, to hear Mr. D. R. Locke of the Toledo Blade, better known to the reading public as Petroleum V. Nasby, styled he Canaan," was his subject, and the lecture, from beginning to end, was a scathing satire upon those who from prejudice or ignorance would deny the negro that equality before the law that is given every other race and color. Mr. Locke's picture, like his writings, is humorous in the highest degree; but deeper down than this is there is a strata of philosophy and common sense which is powerful and convincing. His rebuke of the Republican party for its cowardice in its treatment of the negro for so long a time, was deserved, and was a temporary relief to the few Democrats present, who were most unmercifully lashed. The audience listened to the lecture to the end with the greatest attention and marked approval.

Good Yields.

Horace Paddock, Esq., of this place raised 180 bushels of Early Goodrich potatoes on half an acre of land—360 bushels to the acre. Another farmer in this county, who planted Early Rose and Jackson Whites on the same piece, told us he raised two bushels of the Rose to every bushel of the Jacksons, row for row through the piece. They were planted and cultivated exactly alike. It is safe to say that the Goodrich seedlings will yield double the common kinds. Farmers can double their profits from every acre of potatoes they raise, if they will use the right seed, even if they sell their crops at the same price as the old.

Accidents.

As Capt. W. C. Arnold was engaged in raising down a barn frame for J. M. Hanchett, on Monday, he got a fall, bruising himself considerably and breaking a couple of ribs.

As Chas. E. Parks was driving home one of these days since, in company with Rev. Mr. Gilmansey, some part of the harness gave way, their horse ran down the hill by the Plain, and overtaking a wagon in which Mr and Mrs. Parks were riding, there was a collision in which both wagons were badly broken, and all the occupants thrown out somewhat violently, but fortunately no serious damage done.

Peas, not Pears.

A few weeks since we inserted in these columns the fact that H. B. Davis had grown good Tom Thumb peas from seed which was also raised this year. Some industrious itemizer thought he could improve on the original, and in re-writing or putting in type, the word peas was made *pears*. It has gone in this shape all through the newspapers. The consequence is Mr. Davis is burdened with numerous inquiries and letters, requesting sample pears sent by mail—a little of the seed for planting another year, etc., etc. If the newspapers that have thus unwittingly got Mr. Davis into this difficulty will make the necessary correction they will doubtless ease a good many minds.

West Concord.

A. W. Houghton has sold his store and other buildings to L. W. Russell for $3,400. Geo. C. Frye has sold his place to H. O. Frye.

Concord.

J. E. Woodbury has sold his farm to H. W. Cutting for $4,300.

WHO BEATS?—I. P. Woodbury of Concord, threshed for Amos Howard, of that town, 95 boxes—or more than 100 bushels—of oats in 76 minutes. If any one has done better we should like to know it.

A Hardwick Story.

DEAR SIR:—Last spring I planted 5 lbs. of Early Goodrich potatoes on 4 square rods of land; manured and cultivated precisely as the entire acre of potatoes that I planted. I harvested 428½ lbs., or seven bushels and 9½ lbs., being 85 lbs. to one pound of seed. The one who tells the first story stands a poor chance.

H. B.

Wells River.

Rev. Geo. H. Atkinson, D. D. of Portland, Oregon, gave a thrillingly interesting lecture to the people of this place, Tuesday evening, Sept. 29. His theme was "The possession and settlement of our western coast." He multiplied important historical facts before his audience; but so connected them together and so pointed out their bearing upon the result achieved, that he quickened the heart, no less than he enlightened the mind of the hearer. It is greatly to be wished that every church and every Young Men's Christian Association in the land might hear Dr. Atkinson delineate the workings of Providence by which Oregon and California have been made what they are.

Robbery.

The Montpelier Journal says that Henry Hobart, a butcher of Peacham, reports that on Friday last, as he was passing with his cart through Peacham woods, he was attacked by three highwaymen coming out of the bush. One seized his horse, another aimed a blow at him with a club, which he dodged, and the third seized him about the body, whereupon they succeeded in robbing him of $135 in money, and valuable papers. His coat was sadly torn, in extracting the pocket-book from a deep inside pocket, and the covering to his cart was considerably damaged by the blow which he escaped. Mr. H. is confident he has a clue to the robbers.

Grand Army of the Republic.

The following are the officers for the ensuing term: Commander, Geo. W. Bonett; Sen. Vice Com., Lafayette Soper; Jun. Vice Com., E. W. Harrington; Surgeon, Gates B. Bullard; Chaplain, Sam'l W. Hall; Adjt., E. P. Warner; D. Master, H. K. Ide; Sergt. Maj., A. P. Hawley; D. M. Sergt., Abel Roberts.

Island Pond.

The customs officers at the Pond seized 15½ head of cattle and two horses, last week, belonging to N. L. Marshall of Maine, for under valuation. The owner bonded his cattle and took them along, proposing to defend the case.

Assault.

On Thursday last, State's Attorney H. C. Belden caused the arrest of Alonzo Carr for assault upon Newton Hurlbutt. Examination was had before Justice N. N. Johnson on Friday, and Carr was fined $10 and costs. The facts as they appeared at the trial were these: Hurlbutt was driving a team to and from the Fair Ground, for Farr & Hastings, and Carr was collecting taxes on one of Trescott's stages, which was also running to the Fair Ground. On one of the return trips, Hurlbutt drove by Trescott's team, at the lower end of Railroad street, and driving up to Johnson's block, took in a load of ladies and crossed the street to the Passumpsic House. While waiting there Carr came up and told Hurlbutt he wished to speak with him. Hurlbutt bent down his head thinking Carr wished to whisper to him, when Carr seized him by the coat collar, and dragging him off the wagon, pushed him up against the house and struck him one or more savage blows in the face with his fist. No words had passed between the parties, and they did not even know each others names. Hurlbutt said the assault was entirely unexpected, and Carr admitted that it was unprovoked. Since the trial there are street rumors that Hurlbutt grazed the leaders of the other team when he run by, etc., but nothing appeared at the examination to show any provocation for the assault. Neither party would admit that they had been drinking benzine, or any other brain-inflaming or soul-destroying mixture. Carr has been employed by the Fairbankses, and has been called a likely young man. Hurlbutt drives the Waterford stage. He has now sued for private damages.

The frequency of assaults in our town is alarming. A man receives an insult or injury, or imagines he receives one, and proceeds at once to inflict summary punishment upon the supposed offender. Unless the strong arm of the law makes an example of some of these law-breakers and is sustained by the public sentiment of the place, we shall soon have a murder to record. It is time all good citizens were looking about to see where this business is to end.

St. Johnsbury Scale Works.

We think but few of our readers have any adequate idea of the extent of the business of manufacturing scales and weighing machines, in this town by Messrs. E. & T. Fairbanks & Co. We took "a run" through their factories the other day, and were ourselves surprised at the extent of their business. We learn that their orders are very pressing, so much so that they have been obliged of late to run their machinery evenings.

Our readers will perhaps have a better understanding of the magnitude of their business if we give a few figures: They are at present employing in their manufactory 475 men, and the monthly pay roll amounts to over $20,000. Besides the force at their manufactory, a large number of men are employed at their branch houses in the principal cities of the Union, and about the country in selling and setting up scales—in all, at home and abroad over 600 men.

The freight delivered to, and received from the railroad is over ten thousand tons per year. 1200 tons of Lehigh and Cumberland coal 25,000 bushels of charcoal, 40 tons of cast steel, 30 tons of copper; 1,500,000 feet of lumber, are yearly consumed. Also pig iron and bar iron in large quantities; 3,000 gross of screws, 650 dozens of files, &c., &c.; and we might mention many more items of interest, but the above will suffice.

Last week they packed for shipment 408 portable platform scales, and 101 hay scales, besides a large number of smaller scales. Their weekly product varies from 800 to 1000 scales.

When we consider that a village usually requires, for its business, but one hay scale, we are led to inquire, "where do all these scales go," and "how soon will the world be supplied?"

Since the first of May last they have manufactured (only "to order") one hundred and ten railroad depot and track scales, with platforms varying from 12 feet to 112 feet in length, and it built in one continuous platform it would extend nearly *three fourths of a mile*. They are now constructing for a railroad in Pennsylvania two scales, each to be 112 feet long, with a capacity of 125 tons.

Their Foundry is one of the largest in New England. It has all the modern improvements in the way of machinery. It has three large cupolas and the melted iron is running from one or another nearly all day. Eighteen tons of iron are melted each day and poured into the moulds for *scale castings exclusively*.

We were much interested in the forge and large trip hammer where the best quality of hammered iron is made. The scraps are here "puddled" in the forge by means of charcoal, and made into a "bloom" or "loop" which is drawn out, under a large hammer, into shapes adapted to the work for which it is intended. This iron is used for loops and bolts where the greatest strength is required.

The whole establishment is a marvel for order and system. Each department is under a foreman, separate from every other, while these foremen report to others, who see that the work is transferred from one department to another, as it progresses to finishing, so that there is no delay or confusion in advancing the work in as direct stages, from the raw material to the finished scale; and all is under the immediate supervision of the partners of the house.

Besides an increasing demand and sale in all parts of the United States, their orders for shipment to foreign countries (South America, Russia, the German states, Japan, China, &c.,) are steadily increasing. These sales are adapted to the standards of the countries where they are to be used—Chinese characters being used for figures in case shipped to China, and the Turkish characters for the Turkish Empire, Persia, &c. In short there is scarcely an inhabitable country in the world to which the FAIRBANKS SCALES have not been introduced.

St. Johnsbury Y. M. C. A. Lectures.

The course for the approaching season will consist of the lectures—a list of which is now being made up by the committee having the matter in hand—and selected from some of the best talent in the country. We are informed that Miss Anna E. Dickinson is already booked for a lecture in December, and the committee are in active correspondence with a view of securing Rev. Dr. J. P. Thompson, Rev. S. H. Tyng, jr., and Theo. Tilton of New York, Hon. B. F. Dowling of Conn., D. Isaac J. Hayes, the arctic explorer, Prof. Agassiz, Gov. Chamberlain of Maine, and others.

Our citizens will be called upon in a few days at their houses and places of business to subscribe for tickets for the course, the price for which has been fixed at the low figure of three dollars for a package of four tickets for ten dollars.

This course of lectures will cost not less than one thousand dollars, including bills for printing, warming and lighting the hall, &c., which, considering the talent secured, and means of rational and intellectual amusement afforded the community thereby, must be considered an excellent investment. It is hoped that our people will take hold of this matter liberally and with energy, resolved to avail ourselves of this most excellent means for intellectual improvement. It is not a catchpenny affair, but a first-class paying investment, which will furnish wholesome rational enjoyment for our people, their sons and daughters. Invest—and largely—the returns will be ample. Y. M. C. A.

L. L. DEARBORN, Recorder.

Beauregard, F. X., Gained over Twenty Pounds in Weight,

In less than one year. Read how he accomplished it.

This distinguished gentleman was introduced to me by a friend in the city of Montreal. He was then a sickly, weak, and thin man, with a countenance bearing the impress of disease. A few months previously he had been given up by the best physicians in Montreal to die of consumption. He was so weak that he was obliged to walk with a cane. Hearing from the lips of the man himself the wonderful cure effected by the following letter, I had a interview with the gentleman, and was satisfied that the cure was genuine. I then gave him a package of Wistar's Balsam of Wild Cherry.

JOHN RADWAY, M. D.

Post Office, Montreal, Sept. 8, 1861.

Dr. John Radway & Co., 439 St. Paul street:

Dear Doctor:—I have now been twenty-five years afflicted with dyspepsia, and have tried many of the most eminent physicians in the Canadas and the United States, but received no permanent benefit. I was so weak that I was obliged to relinquish a place I had held for twelve months; I had neither strength nor ambition, and suffered considerably; I became very much emaciated, and was in fact, reduced to a skeleton; I had lost the use of my limbs, and was a cripple for a year or so; I was afraid of my life, and, coming to Montreal, I sought your advice according to the information contained in your pamphlet, and am happy to inform you that my health is better than it ever was before; I would recommend your invaluable medicines to all my friends, and you may use my name as you think best. I remain, yours, with gratitude, F. X. BEAUREGARD.

Sold by druggists everywhere. Price $1 per bottle.

Valuable!

One of the most valuable discoveries of the age is the remedy for Epileptic Fits, discovered at the hospital of France and having so great success in this country. Trial bottles at $1.00 have been known to cure. Largest size $5.00. For references as to its merits apply to Dr. C. Clark of Montpelier, one of the large st city physicians in the state. It seldom fails to cure. Wholesale and retail by J. V. BABCOCK, Apothecary and Druggist, State st., Montpelier, Vt. 1t

☞ Many valuable horses die from the effects of colic. The best thing to do in a case of this kind is to pour a bottle of "John-son's Anodyne Liniment" into a long necked junk bottle, and half a pint of molasses and water, then pour the whole down the horses throat. In ten minutes the horse will commence to eat.

"Parson's Purgative Pills" will gently relieve, if not entirely cure, dyspepsia, when everything else fails. They have been tried in some desperate cases and have given more relief than any other medicine.

☞ Let those who have detected the premature evidence of age, the tell tale whitening of the locks, the unnatural thinning of the covering which nature designed to adorn and preserve to a period of dissolution, lose no time in procuring a bottle of "Barrett's Vegetable Hair Restorative," the great antidote to baldness, gray hair and age.—*Buffalo Express.*

To Holders of Government Bonds and other securities and other valuables. Union safe deposit vaults, 32 State street, Boston. LEE, HIGGINSON & CO. offer for rent, Safes inside their Vaults at rates from $20 to $100 per annum. They also offer to receive, on Special Deposit, as Bankers, securities of persons living in the country or travelling abroad, officers of the Army and Navy, Masters of Vessels, and others. Circulars, containing full particulars, forwarded on application to HENRY LEE, Manager.

Boston, March 1, 1868.—ep. no. 1tr.

M. B. Q. S.

Our readers and we thank our patronage for calling the public attention to Morgan Baird's Quieting Syrup, as furnished by the frequency and fatality of the diseases of infancy and childhood. Convulsions and colics are the diseases, that one child in three dies before the fifth yr. These facts afford conclusive argument for enforcing on mothers the importance of using a remedy, which contains no Morphine or Poisonous drugs and never fails when timely dosed, to effect a cure. It greatly eases the child through the months of teething, allays all pain, reduces inflammation, corrects acidity of the stomach, and never fails to regulate the bowels; makes sick and weak children strong and healthy, produces natural sleep for the child, thereby affording rest to the mother. For summer complaints, dysentery and diarrhœa, it has no equal. For wind colic, convulsions, griping, &c., it never fails to give immediate relief.

Morgan Baird's Quieting Syrup, for children, is an original medicine, well established, therefore use no other and you are safe. For sale by all druggists and dealers in medicine.

A. RICHARDS, New London, Conn.,
June 1, 1868. Agent for the United States.

An Invaluable Medicine for the Purifying of the Blood.

DR. J. W. POLAND'S HUMOR DOCTOR,

A positive remedy for all kinds of Humors, such as nerve, salt rheum, erysipelas, scrofula, tetter, ringworm, pimples, and all obstinate affections of the skin; nervous diseases, and every stage of the disease dyspepsia, and these diseases originating in the derangement of the digestive organs, viz: bilious complaints, costiveness, sick and nervous headache, dizziness, loss of appetite, general debility and nervousness. 1m1t

The Great New England Remedy.

[illegible] WILLIAMS' [illegible] for the cure of Diabetes, Gravel, Stone in the Bladder, Brick Dust Deposits, Pain in the Back, Loins and Kidneys, Retention of Water, Incontinence of Urine, Weakness of the Urinary Organs, Diseases of the Prostate Gland, Dropsy, Female Complaints, Nervous Debility, Impotency, Loss of Sexual Power, Premature Decay, Nervous Irritability, Sleeplessness, Pain in the Side, Nervous Headache, Dyspepsia, Costiveness, Piles, Loss of Appetite, Dizziness, Coldness of the Extremities, Cold Sweats, Shortness of Breath, Palpitation of the Heart, Dry Cough, Consumption, Bronchitis, Asthma, Spasms, Fits, Epilepsy, Tremors, Sleeping with Eyes Half Open, Cold Feet, Cold Hands, Cold Sweats, Cold Tongue, Cold Nose, Cold Ears, Cold Breath, Cold Everything, Cold Blood, Cold Heart, Cold Head, Cold Brain, Cold Nerves, Cold Spirits, Cold Thoughts, Cold Ideas, Cold Memory, Cold Reason, Cold Judgment, Cold Fancy, Cold Imagination, Cold Will, Cold Passions, Cold Lust, Cold Sin, Cold Shoulder, Cold Water, Cold Pleasures, Cold Pains, Cold Pills, Cold Medicine, Cold Cures, Cold Comfort, Cold Death, Cold Dead, Cold Hearse, Cold Pall, Cold Pall Bearers, Cold Grave, Cold Tombstone, Cold Epitaph, Cold Dirge, Cold Sexton, Cold Worms, Cold Coffin, Cold Corpse, Cold Mourners, Cold Sorrow, Cold Tears, Cold Hearts, Cold Feelings, Cold Friends, Cold Relations, Cold Shoulders, Cold Cash, Cold Collections, Cold Contributions, Cold Subscriptions, Cold Pews, Cold Sermons, Cold Churches, Cold Ministers, Cold Deacons, Cold Sinners, Cold Saints, Cold Saints and Sinners, Cold Everybody and Everything.

NOTICE TO FARMERS.

POTATOES FOR SEED.

I have a limited supply of the celebrated GOODRICH SEEDLING POTATOES, the Hundred Fold Goodrich and Garnet Chili, which I offer to farmers in the vicinity in quantities sufficient to get them in a few bushels.

The "Goodrich Seedlings" are third, were sent from the wild potato of South America and are the product of years of careful study and cultivation by Dr. Ira Goodrich, of Hardwick. Dr. Goodrich [illegible] the varieties being first introduced by Mr. Goodrich, and the great variety now in use are the results of cultivation with them, are remarkable, 1st, For their early position. 2d, Great productiveness. 3d, Freedom from disease.

It is well known that the vitality of potatoes is so long enfeebled, [illegible] the seed, [illegible] was considerable a fair yield, [illegible] to have a [illegible] crop. Besides, the common kind, for [illegible] are affected by [illegible] to a great loss in the product. The Goodrich Seedling have never been known to rot.

I have in some now offered to sale the ordinary kinds of potatoes [illegible] Early Goodrich, Early Rose and Jackson White, [illegible] Pink Eye or Jackson White.

THE EARLY ROSE.

The Early Rose potato is a seedling from the Garnet Chili, and is considered the earliest good potato. It is matured for use in a kind of dwarf, light stalk. Porter of Maine, a rapid maturity and great productiveness, the stock will yield a heaping of the dimes. I believe price of Three Dollars a pound.

I offer for sale this fall the above potatoes at the following prices:

EARLY GOODRICH.—A large, solid, white potato—early, a great producer, and keeps the year round. With good cultivation, yield 300 to 500 bushels per acre. Grande Cache of Orange, Vt., raised this year 4 bushels from 1 pound, and sold the land—at the rate of 457 bushels per acre. John Bennett of Lee Mass., raised two hundred and three bushels from one potatoes.

Price, 75 cents a peck, $2 a bushel.

THE HUNDRED FOLD.—This is the very best potato known for a late crop. Large, smooth, solid, white, free of disease, yield a wonderful crop. Price of Pickard, "Hundred Fold," and yet the seed makes a fine one. C. F. Tilley of Ludlow, Mass., raised this year 50 bushels from one half pound seed.

Price, 75 a peck, $2 a bushel.

GARNET CHILI.—A large, red potato, enormous producer, and good all over potatoes grow. Price same as the Goodrich.

THE "EARLY ROSE."—A limited supply of this famous potato for sale at [illegible] per peck, $2 per bushel. Now is the time to plant for a late crop. Price [illegible] per bushel.

The Early Rose will be sent by mail when cash accompanies order.

Apply to JAMES B. TILLEY of C. M. Stone's—or direct communications to

C. M. STONE, St. Johnsbury, Vt.

☞ Specimens of the above potatoes can be seen, and orders received, at the Caledonian Office.

☞ Terms for larger quantities given on application.
