MYSTERIOUS.

A GENTLEMAN belonging to one of the most ancient and wealthy families of this city, who must be well known to an across friends, having since the year 1818 up to recently, been bent nearly double, and for several years confined to his bed, has been restored to good health—has regained his natural erect position—and has quitted his carriage, and now walks with ease! We believe this is the gentleman's own description as near as possible and there is no exaggeration in it. We will give inquirers his address, and doubt not his humane feelings will excuse the liberty; so that any one *doubting*, may *know* these facts—though he requests his name may not appear in print. Among other similar instances, Mr Jas. G. Reynolds, 141 Christie street, has been restored, and will give personal assurances of the facts of his case. Both were rheumatism, and contracted cords and sinews.—How has this been done?

Answer.—By the *Indian Vegetable Elixer* internally, and *Hewes' Nerve and Bone Liniment* externally.—*N. Y. Herald.*

NOTICE TO FAMILIES.

ALL LOVERS OF GOOD BREAD are recommended to make use of *WM. BROWN'S* PORTABLE CAKE *YEAST* as it makes the bread much better than the common mode. The Yeast is free from all impure ingredients makes the bread perfectly white and light is well adapect for ship's use, and will keep in all climates. It is now in extensive use in Boston, and orders are beginning to be received from all quarters. No better evidence is wanting its superiority over all other articles used for rising bread than the following certificate.

Boston, May 20th, 1841,

The undersigned having made use of Wm. Brown's Portable Cake Yeast for rising bread, in our opinions this new prparation of Yeast is far better than any other article we have ever made use of, and will make the bread much whiter and very light, and we believe it to be free from all impure ingredients.

Signed by the Pastry Cooks at the Tremont House, Pavillion, American House, and Marlboro' Hotel, Boston.

It is now in use at most of the Hotels in the city, and on board of all the steamships belonging to Mr Cunrad's line of packets. A note is just received from John Anderson, Pastry Cook on board the steamship Brittannia, who writes that he has made use of Wm. Brown's Yeast, for making bread, during two voyages across the Atlantic, and can recommend it as far superior to any thing else for rising bread.

The above article is now for sale by the proprietor, 481 Washington street, Boston. Retailed by

HAIR! HAIR!
BALDNESS!

Important discovery—The great mystery found out at last!

DR. STERRY'S HAIR REGENERATOR.—Dr Sterry, after much attention to the important subject of preserving the hair, has after many experiments chemical and physical, been able to discover an article which is now offered with the greatest confidence for the toilet, as the quality, to produce a good head of hair—to prevent it from falling off when baldness is apprehended—to restore it when baldness has taken place, and to prevent it from turning grey. It is more nourishing than pomatum, antique oil, or Cologne water. It is a beautiful article for ladies' curls—it makes the hair soft and lively, and produces uncommon brilliancy. Thousands have tested its superior virtues and excellence, and in every instance it stands unrivalled. It is an infallible cure in all affections of the skin on the head—as dandruff, &c. &c.—Every family should be supplied with a bottle of this oil, that by its application to the head and hair of children, the beautiful and ornamental appendage of a fine head of hair, which nature has supplied us may be preserved.

CONSUMPTION AND LIVER COMPLAINT
DR. TAYLOR'S
BALSAM OF LIVERWORT.

HAS been used successfully for eight years in the cure of these diseases. ☞ Remember! the original and genuine is made ONLY at 375 Bowery, N. Y. ALL others are spurious and unauthorized.

CONSUMPTION AND LIVER COMPLAINT.—As a general remedy for these diseases, I am fully satisfied, from long experience, there is no medicine equal to Dr. Taylor's Balsam of Liverwort. Being purely vegetable, it can be used with the utmost safety by all persons in every condition. It cleanses the lungs by expectoration, relieves difficult breathing, and seems to heal the chest. There can be no question, but this medicine is a certain cure for chronic coughs and colds. I have used it for four years in my practice, and always with success.

A. P. ROGERS, M. D.

☞ CONSUMPTION!—The following remarks were taken from the last number of the Medical Magazine—

"The surprising effect produced by Dr. Taylor's Balsam of Liverwort, in consumptive cases, cannot fail exciting a deep and thrilling interest throughout the world. We have so long believed this disease (consumption) incurable, that it is difficult to credit our senses when we see persons evidently consumptive, restored to health. Yet this is a fact of daily occurrence; how then can we question the virtue of the above medicine. In our next, we shall be more explicit; meantime we hope physicians will make trial of this medicine, and report its effect to us."

NOTE.—The original and genuine Taylor's Balsam Liverwort is made and sold at 375 Bowery.

TO FEMALES.—The number of females in delicate health in this city is truly surprising. Weakness, loss of appetite, liver complaints, and many other diseases prey upon them, making them pale and lean of flesh. All this can be remedied by the use of strengthening medicine, that will assist nature in all her movements, restore tone to the nerves and muscular organs. Of this kind is Dr. Taylor's Balsam of Liverwort, which being mild and purely vegetable, answers females admirably. If all will use it, we are confident an elastic step, good appetite, and ruddy cheeks will follow. Once more remember the original and genuine is made at 375 Bowery.

☞ SPITTING OF BLOOD.—This disease consists of a discharge of blood, often frothy, from the mouth, brought up with hawking and coughing, and is usually accompanied with difficulty of breathing, and some pain in the chests Sometimes it is preceded by an oppression at the chest, a dry tickling cough, and slight shooting pains. This disease is always more or less dangerous. The great danger is that these symptoms, and immediate remedies can alone save this end. But Dr. Taylor's Balsam of Liverwort is a sure remedy and to show its unparalleled success, certificates of cures from 423 citizens, and many physicians, will be published in a few days.

☞ NERVOUS DISEASES AND WEAKNESS.—Dr. Taylor's Balsam of Liverwort, made at 375 Bowery, is assuredly an excellent remedy for these diseases. My wife has been more or less ill for ten years. She was extremely nervous, and at times so weak that she could not attend to her domestic duties. By the use of this medicine, her strength is wholly restored and she is as healthy as I can wish her to be. My address is at Dr. Taylor's office.

☞ OBSERVE! Buy only that which is made at the Old Office, 375 Bowery, N. Y., and which is sold by agents: J. ROSS, Jr. Woodstock, Vt.—A. & H. Wardner, Windsor.

P. S. Useful information may be found in circulars, &c. hands of agents. Price 8 per bottle. 6m 29

THE SICK HEAD-ACHE.
EITHER NERVOUS OR BILIOUS.

☞ *An attentive perusal of the following, will, it is believed, fully repay all classes of readers.*

Headache.—This disease is one from which arises more misery to the human family than is generally supposed not being directly fatal, it is often neglected, or persons resort so much to the use of purgatives and other medicines as to impair their general health, and often induce fatal diseases. The article *now offered*, seems to have overcome these difficulties. While its effects are most powerful and immediate in curing an attack or keeping it off, it is so perfectly *mild and innocent*, as to be used for infants with the greatest effect and safety. This has now been tested by so many of the highest members of this community as to require no further proof.

If taken a few times in as many hours, when there are indications of an approaching attack, it is *sure in all cases* to prevent the attack. If used for a few weeks, the premonitory symptoms gradually subside, until they wholly disappear, and *never*, without some great *external* or *predisposing* cause, return. If the person neglects to use it till the headache commences, it sometimes *cures instantly*, but at others the turns will have their turns will have the course for two or three times, and then wholly disappear

This is a fair and candid statement of *facts*, that might be substantiated by the affidavits of perhaps two hundred persons in the city of New-York. It is not pretended that a person who has ever taken this remedy can never against have *headache*. Far be it from me to impose upon the credulity of the community: I am disposed to see it an article of really the highest merit can find its way to the public without the "puffing" usually resorted to, to bring any preparatory medicine into notice. That I am a physician of respectable practice, and flattering medical honors, is so well known to many, that some apology may be thought necessary for my sanctioning such a preparation by my name. I candidly confess, therefore, that I have not the tenacity usually manifested by our profession about using an article, all the component parts of which are not known to me, if I am convinced by such use I could save life or materially alleviate human suffering. Will all our profession do the same? Alas! for poor human nature, I fear not. How often, indeed, have I heard physicians avow the contrary! Am I censured by the profession for issuing a *Preparatory*, or if they will, a *Patent* medicine? Which let me ask, is most culpable, he who issues a remedy knowing its component parts and virtues, or he who *at the head of the profession*, sanctions with his name one of which he cannot know the component parts? For proof that this is done, I need only refer the reader to advertisement of Panaceas, Syrups, Arcanums, Medicamentums, Preparations, Trusses, &c., to which are attached the names of a *Mott*, a *Chapman*, a *Hancock*, a *Dewees*, and a host of others, not to speak of the corps of *officers* of the Medical Society of the great city and county of New York!

Why, may I ask, should the "profession" rail at Patent edicine proprietors and venders, while to such eminent physicians they are at first indebted for the celebrity they acquire. Is there not at this moment vending in this very city, a pill, the component parts of which are the *secret* of a physician of high repute, of a neighboring state? Is not his respectability and also the quality of the article backed by the Bishop of his state, and some of the reverend clergy of the highest standing in New York? Need I add with sorrow, that the combination of ever so useful a medicine made known to the profession at large, they have not the *liberality* or *principle* to use it? I flatter myself, then, that I am sustained in my course by the *thinking* part of the community, while the opinion of others is of little consequence to me. I am at least quite satisfied with my own consciousness of rectitude and propriety, and the virtues of the *Headache Remedy*. E. SPOHN, M. D.

LOOK OUT.—See that the name of L. S. COMSTOCK, is on the splendid wrapper, as all without that name are counterfeits.

Gentlemen—You are at liberty to make such use of the following certificates as you deem will best subserve the purposes for which it is intended.

[CERTIFICATE OF JUDGE PATTERSON.]

I HEREBY CERTIFY that my daughter has been afflicted with sick head ache for the space of about 20 years,—the attacks occurring once in about two weeks, frequently [illegible] which time the paroxysms have And after having tried almost all other remedies in vain, I have been induced as a last resort to try Spohn's Head ache Remedy as sold by you: and to the great disappointment and joy of herself and all her friends found very material relief from the first dose of the medecine. She has followed up the directions with the article, and in every case when an attack was threatened has found immediate relief, until she is near permanently cured. The attacks are now very seldom, and disappear almost immediately after taking the quantity directed. A hope that others may be benefeited by the use of this truly invaluable medicine, has induced me to send you the above, and remain your obedient servent.

COMPOUND PULMONARY BALSAM.

THIS Balsam is now offered to the public from a full conviction that it is superior to any other medicine now in use for the various diseases of the chest. Its effects were first tested in private practice and the medicine more extensively circulated at the earnest solicitation of many who received the most signal benefit from it in diseases the most distressing and alarming.

The preparer of this balsam has for several years paid particular attention to pulmonary complaints, by watching their progress, investigating their causes, and carefully noticing the effects of the numerous and most approved remedies which have been prescribed by physicians of all orders as of most kinds of patent medicines which have been offered to the public.

It has been found to produce most astonishing results in whooping-cough, catarrh affections of the lungs, Hydrothorax, or dropsy of the chest, Influenza, Croup, spitting of blood, pain in the side, shortness of breath, consumption and common colds

It regulates the natural secretions of the system, procures a free expectoration and allays morbid irritability.—Hence its great utility in all diseases of the lungs.

Thousands of certificates might be given if necessary, but all that is wanted for its recommendation is a fair trial. PRICE, 50 cents.

WILLIAM BROWN'S
COMPOUND BONESET CANDY,

MEDICATED—PRICE 6 cts. oz, 19 cts. 4 oz, 62 1-2 cts. lb.—A remedy that has gained a great reputation for the cure of coughs, colds, whooping cough, phthisic, sore throat, and all diseases of the lungs; also it is in extensive use for clearing the voice for Vocalists or Public Speakers; and in consequence of the extensive sale and wonderful efficacy for curing the above complaints, has caused a number of Druggists and Confectioners to counterfeit this valuable cough remedy. An imitation has just been shown me with my name stamped on the candy, evidently to deceive the public. For the genuine you will call for "Wm. Brown's Boneset Candy, Medicated," and see that the direction is signed by the proprietor and the candy stamped "Wm. Brown." SENATE.—Prayer by the chaplain.

Reports—By Mr Starr, of the com. on Executive communications, of a resolution against the abuse of the franking privilege, and in favor of a reform in the Post office department; resolution read and passed.

Bills—House bill in amendment of an act incorporating the Bank of Montpelier, reported by Mr Sowles, with a proposition of amendment, which was adopted, and the bill, reducing its capital stock to $50,000, opposed in debate by Mr Starr, who admitted that the Bank of Montpelier was probably as well, perhaps better, managed, as any other bank in the State. It seemed to him, however, that the large amount of its bills in circulation was an argument against reducing its capital stock. Mr Dillingham explained the amount in circulation, by alluding to the fact that this bank paid a great proportion of the pensioners of this State, for the general government, in their own bills, or in specie when demanded. Deducting this amount, and the circulation was less than of many other of our banks. For the redemption of its bills ample bonds and ample funds were provided. Mr Sprague, after remarks, moved that the bill be laid upon the table: opposed by Mr Dillingham, and negatived, when the bill, reducing the stock to $50,000, was read a 3d time and passed. Providing for a geological survey of the State, called up by Mr Sowles, and advocated by Messrs Smalley and Sheldon, when Mr Hatch proposed an amendment, providing that no money be expended for the purpose until the present indebtedness of the State is cancelled. Mr Smalley hoped the bill would not be defeated by this amendment.—Amendment rejected, when Mr Sprague opposed the bill for the reason that nine-tenths of his constituents, as he believed, were opposed to a geological survey of the State, though personally he was himself in favor, and moved an indefinite postponement of the bill, demanding the yeas and nays on his motion: opposed by Messrs Starr and Eaton supported by Messrs Blodgett and Sprage, and negatived, yeas 6, nays 17, when the rule for engrossment was dispensed with, and the bill read a third time, and, Mr Blodgett demanding the yeas and nays, it passed, yeas 16, nays 5. Adj.

HOUSE.—Prayer by the Rev. Mr Scott.

Listing Law.—The bill in addition to the listing law was read a second time, when Mr Rice moved to put the maximum of assessment of faculty at $30 instead of $50: adopted. Mr Prentiss moved to add "merchants" for assessment for faculty: rejected.

Mr Vilas said he voted for the law last year, as it passed the House, and was in favor of the faculty tax to a reasonable extent; he was also in favor of some of the provisions of this bill; but for various reasons he must oppose it, and among them was the unreasonable increase of the assessment on polls and faculty. He believed that $1 was sufficient for the poll tax.

Mr Pettibone stated difficulties in the practical operation of the bill, especially in reference to taxes for the repair of school houses; he thought no such [illegible] Mr [illegible] an amendment requiring a new appraisal of real estate in the several school districts in 1843, on which school taxes shall be assessed—rejected.

Mr Cobb of S. moved an amendment confining the deductions for military service, to those residing in this state: adopted.

Mr Keith moved to reduce the polls from 3 to $2: adopted.

Mr Vilas said the views expressed by the gentleman from Townshend would lead him to vote against the bill. Mr Shafter responded. Mr Canfield said the complaint of hurrying this bill was not well founded. it had been well considered.—Mr Denison moved an amendment, in the exemption for military services, to correspond with the reduction made on the polls: adopted.

Mr Noyes moved to recommit; supported by Messrs Noyes and Van Sicklin, opposed by Messrs Billings, Canfield and Barton, and negatived.

Mr Field moved an amendment confining the deductions for military service to those who are obliged by law to do military duty: supported by Mr Cushman and adopted.

Mr Cushman moved to strike out the 1 dollar exemption of field and staff officers for furnishing horse for military service: he was for putting officers and soldiers on an equal footing. Supported by Messrs Cushman, Canfield and Rice, when Mr Peck moved an amendment to this amendment, which was opposed by Messrs Keith and McLoud and rejected. The amendment of Mr Cushman was adopted, 81 to 60

Mr Bailey of Elmore briefly opposed the bill: he believed that it increased the burdens of the law of last year.

The bill was then ordered to be engrossed: yeas 171, noes 23.

Engrossed bills—Relating to fees of auditor's referees, &c.; reducing salary of Governor's Secretary.

Petitions—Several remonstrances against the division of Windsor county were referred to the members of that county. The petition of Joseph Wallace was referred to the General committee.

Resolution. By Mr Winslow, for the publication of proceedings of joint assembly in the journals of the House: adopted. Adj.

2 o'clock, P. M.

SENATE.—*Bills*, House bill fixing the salary of the Secretary of civil and military affairs at $150 per annum. To pay John S. Pettibone the sum mentioned, reported by Mr Cutts, with a proposal to fill the blank with the sum of $72, as compensation for services rendered the State in prosecuting the Essex County Bank. Mr Hubbel, after stating the time and expense of the services of Mr Pettibone, moved the blank be filled with $120: opposed by Mr Briggs, and negatived, 15 to 12 Bill laid on the table, on motion of Mr Hubbel.

HOUSE.—The bill chartering the Ascutney Bank was called up by Mr Wardner, supported by Messrs Wardner, and Noyes, opposed by Mr Pettibone, and rejected on the third reading, 103 to 36.

Resolution. By Mr Wardner, directing the auditor of accounts to continue his investigation as to the financial affairs of the State, and that in connection with the Treasurer, he shall enforce the collection of unsettled balances: adopted.

The Senate came in and the joint assembly proceeded to ballot for Superintendent of the State Prison.

SENATE.—*Resolutions*, reported by Mr Briggs of the select committee on the subject of slavery.

Resolved, 1. That as the representatives of the people of the State of Vermont, we do protest against the admission into the Union of any state whose Constitution tolerates domestic slavery; or the annexation of Texas, or any other territory in which slavery exists.

2. That we believe that Congress have the power by the Constitution of the U. S. to abolish slavery and the slave trade in the district of Columbia, and in the territories of the United States; and that if Congress refuse to abolish slavery in the district of Columbia, that the seat of the general government ought to be removed from that district to a place where slavery and the slave trade does not and cannot exist.

3. That we believe Congress has the constitutional power to prohibit the slave trade between the states in this Union, and to make such laws as shall effectually prevent this trade, and ought to exercise that power.

4. That the constitution ought to be so amended, as to prevent the existence and maintenance of slavery in the United States in any form or manner.

5. That our Senators in Congress be instructed, and our representatives be requested to present the foregoing resolutions to their respective houses in Congress, and to use their influence, to carry out the principles thereof.

6. That the Governor of this state be requested to transmit a copy of the foregoing resolutions to each of our Senators and Representatives in Congress.

The resolutions were adopted without debate and without a dissenting vote.

Bills—In alteration of chap. 83 R. S., repealing certain laws licensing the sale of ardent spirits: supported by Mr Plumb, on the ground that raising revenue from the sale of ardent spirits, the sale of poison, was wrong in principle and ruinous in practice. Once it was fashionable to drink ardent spirits; but now a happy change had come over the mass of the people, a great moral reform had been effected, and legislation should not lag behind the march of moral improvement.

Mr Dillingham followed, in favor of the bill, and thanked the gentlemen who introduced it, for the common sense remarks he had made in its support. He would most cheerfully and heartily go for repealing any legislative act on the sale of ardent spirits; but he could not go for withdrawing all restraints, and throwing the traffic open to all. Mr Briggs said he had examined the bill somewhat carefully, and being satisfied that if it passed in its present shape, it would be to throw open the traffic, unrestrained to every one,—and being unwilling to throw open flood gates of rum, he must vote against the bill. Mr Smally thought that to pass the bill would be to place back the temperance reform 15 years in the rear. Mr Bl
