DR. ISRAEL DELEMATER'S
NERVE & BONE RHEUMATIC LINIMENT AND INDIAN SPECIFIC.
A warranted cure for Inflamatory and Chronic
RHEUMATISM.

It gives immediate relief, and strengthen weak limbs, extends contracted cords, cures all numbness, takes down swellings, and removes inflammation.

It is frequently urged that Rheumatism cannot be cured by external applications. But it is certainly true, that it can be not only reached but entirely cured by external and internal remedies, used at the same time. This the proprietor of the Liniment and Specific is prepared to prove to the entire satisfaction of every one who is afflicted with this most distressing complaint, by a literal and unequivocal warrantee, that whoever will faithfully use one bottle of Dr Delamater's Rheumatic Liniment externally, and one bottle of the Indian Rheumatic Specific internally, and return the empty bottles to where they were purchased, it not *cured* shall have the purchase money refunded in full. COMSTOCK & TYLER,

DR. LIBBY'S VEGETABLE LIFE
Pills & Bitters.

DR. LIBBY'S BITTERS are a certain cure of Dyspepsy and Nervous Affections: they are peculiarly adapted to remove those distressing complaints, not by constantly physicing, but by strengthen the system. No greater mistake can be made than to suppose that Dyspepsy, or any other disease, arising from debility, can be cured by frequent forced action on the bowels with purgative medicines. Where these complaints exist the system is already too weak and every aditional dose tends to make it more so. The Bitters, on the contrary, acting as a tonic, strengthening the digestive organs and assist them to perform their functions as nature designed. Hence it is found to be efficatious alsoin those diseases peculiar to females, which arise more frequently from weakness than any other cause. The aged and infirm of both sexes, and persons of sedentary habits, prone costiveness, who suffered from loss of appetite, have experienced great benefit from them In convalescence from fevers, and other acute disorders, it restores strength: and individuals afflicted with Nervous Headache, and other derangements of the nervous functions, have been entirely cured by this remedy.

Dr Libby's Vegetable Life pills are anti-bilous, anti-dyspectic, and anti-mercurial, and may be justly considered a universal medicine, but they are peculiarly beneficial in the following complaints—yellow and bilious fevers, fever and ague, dyspepsy, croup, liver complaints, sick headache, jaundice, asthma, dropsy, rheumatism, enlargement of the spleen, piles, cholic, female obstructions, heartburn, furred tongue, nausea, distention of the stomache and bowels, incipient diarrhea, flatulency, habitual costiveness, loss of appetite, blotches or coffee complexion and in all cases of torpor of the bowels, where a cartharic or an aperient is needed. They are exceedingly mild in their operations, producing neither nausea, nor griping debility COMSTOCK & TYLER,
Wholesale Agents, New York.

Sold also by J. ROSS, JR., Woodstock; Geo. Lyman, Norwich; Adams, Smith & co, Ludlow, Gilson, Smith & co. LIN'S
CELESTIAL BALM OF CHINA.

For the cure of all diseases of man or beast, that require external application.

FELLOW-CITIZENS—Perhaps you think this Balm is intended to cure too many diseases. but we assure you that all the diseases of this character, and many others that might be mentioned, are speedily cured, or in truth persons greatly relieved, by the use of this medicine We earnestly request the afflicted to give it a fair trial

Have you a pain or weakness in the small of your back? If so, apply the Balm freely morning and evening with the flat of your hand, and occasionally rub the part well with a rough cloth, and it will certainly relieve you.

Have you the rheumatism? If so, wash the part affected with cold water and castile soap, then bath it with warm vinegar, and rub well with a rough cloth, and then apply the Balm with the flat of your hand before the fire. Wash every third day, and use the Balm twice a day, and you will soon be free from this troublesome disease.

Have you a numbness or coldness in your legs, arms or feet? If so, rub the affected part well with a rough cloth and then apply this Balm freely twice a day, and in a short time it will be removed.

Have you the Piles? If so, apply the Balm three times a day, and in a short time you will be well.

Have you the Nettle Rash or Erysipelas? If so, apply the Balm three times a day, and all unpleasant sensations will soon disappear.

Have you sprained yourself? If so, apply the Balm three times a day, rubbing well with your hands and it will soon be removed.

Have you Bruises or Burns? If so, apply the Balm three times a day, and you will soon be well.

Have you a cut or wound? If so, apply the Balm with a feather two or or three times a day.

And are your limbs or joints swelled? If so, apply the Balm three times a day, and the swelling will soon disappear.

Have you the Tetter? If so apply the Balm every morning and evening, wash ng every third day with castile soap, and removing the scurf from the surface of the skin.

Have you a pain in your Breast or side? If so, apply this Balm morning and evening, rubbing it well with the flat of your hand, and you will soon be relieved.

Have you Sore Eyes? If so, wet a soft rag with the Balm and apply it on the outside of the eyes every night on going to bed.

Are your toes, fingers or ears frosted or poisoned? If so apply the Balm three times a day, and it will positively cure them.

Have you Corns on your feet? If so, cut them we apply the Balm, and it will generally cure them.

Have you itching or irritation of any parts?—Then apply this Balm thoroughly and it will cure you.

Have you fresh wounds of any kind? Spread the Balm on linnen and keep it bound on the parts, changing daily, and it will heal without proud flesh or inflamation.

Have you an old sore that wont heal? Keep the Balm bound on it, renewing it daily, and it will soon heal from the bottom.

Be sure you get the true Balm from COMSTOCK & CO. and none other.

Statements honest, plain and true. Will you believe and profit by them, or neglect and suffer.

This Balm or Salve will be found unlike any other preparation. There is no fiction or imagination in its qualities. It will cure any sore that can be cured at all. It will take out inflamation, and take down swellings; and by thorough friction over the parts externally, will by counter irritation, remove inward soreness to the surface.

A YOUNG WOMAN, for years afflicted with a running sore, called a fever sore, cured by the use of this Balm in about three weeks.

A CHILD, with great hoarseness and difficult breathing, relieved and cured by rubbing it well on the chest and stomach, and covering a flannel with the Balm and laying it over the breast.

A JUDGE of one of our courts had piles several months without knowing the name of his complaint; he used one flask of this Balm and was cured.

A GENTLEMAN who had an attack of the Piles every year regularly for ten years, cured himself five years since by this balm, and though plainly threatened at least fifty times since, has kept of an attack by rubbing on the balm when any uneasiness, or fullness is felt about the parts.

A PRISONER cut a frightfull gash in his foot with a piece of broken glass: he was cured in a few days by the Balm. The same bottle cured all the sore fingers, legs and feet in the prison.

AT THE ASYLUM for aged and Indigent Females, it has been used with signal success. One of the lady patronesses, Mrs Nixon, has left her name, and wished sufferers referred to these facts.

NO MAN OR WOMAN can possibly have the piles if they use this Balm well when they feel any uneasiness about the parts. It is far better to *prevent* than to cure any callamity or ailing.

This is worth remembering, for there is scarce an invidual in the community but what sooner or later has, or will have the Piles, if no preventative is used. It is a certain consequence of our mode of living—and no person should neglect to guard against them when any uneasiness is felt about the parts.

Certificates are so common, that at present I will not use them.

"Honesty is the best policy;" therefore, all who do not find this Balm of great benefit, and well worth the price, may return to the office and have anything in its place that they may prefer.

FACTS are what the Doctor relies upon. Those who use this Balm with pleasure and profit to themselves, and feel conscientious that they should aid in relieving human misery, are requested to send their names to Dr LIN, care of Comstock & Co., New York.

Entered according to Act of Congress, A. D. 1842. by Comstock & co., in the Clerk's Office of the Disrict Court of the United States, for the Southern District of New York.

TYSON FURNACE

CONTINUE to manufacture a great variety of STOVES AND HOLLOW WARE, and every description of Castings usually made at Cupalo or Blast Furnaces.

Having purchased the right for making and vending Spaulding's patent circular flue for elevated ovens and adopted it to the **IMPROVED YANKEE NOTION COOKING STOVES**, offer the same to the public.

All persons infringing upon said patent by vending or using will be promptly prosecuted—our rights will be maintained.

This *Improvement* as will be readily seen on inspection, obviates the objection to elevated ovens on account of giving out into rooms excessive heat, being so combined with the oven that at pleasure the heat is diverted from the oven into a separate flue which discharges it into the escape pipe without bringing it in contact with the large surface oven as in the old kind.

The oven is so placed upon the stove as not to interfere in the slightest degree with the boilers as in other elevated oven stoves The back fire room makes it one of the best

SUMMER STOVES,

ever invented. This will do all the cooking, &c. for a common sized family. It is capable of heating two boilers, or frying, broiling and baking at one and the same time, more conveniently and promptly; with less fuel and in less time than any stove or summer fixtures or furnaces on top of any stove now in use. This it will do without giving out heat to cause the slightest uplesant sensation to a lady in dog days. Ironing can be done with great despatch, six sad irons very perfectly heated at once, placed in flat heater over cooking fire room.

There are many good things enjoyed by those using this kind of stove over their neighbors using other kinds and it is confidently believed by good judges who have used it to combine more good qualities than any stove in market.—Withal it is simple and not liable to get out of order; it will not burn out, there being no inside plates

Political.

Old Prices vs. New Prices—Democracy vs. Federalism—A Revenue Tariff vs. A High Protective Tariff—Van Buren vs Henry Clay.

We propose to compare the prices of produce, &c, during the administration of Mr. Van Buren, with the present, under federal rule and ruin.—During the rule of democracy, and when Mr. Van Buren was President, the Farmer could obtain from $1 to 1 25 per bushel for his wheat, rye 50 to 75 cts, corn 25 to 75, oats 25 to 50, flax seed $1, clover seed $5, timothy $2, beeswax 37 to 40 cts feathers 40 to 50, white beans 75 to $1, dried apples $1 to 1 25, dried peaches $2, bacon from 6 to 10 cts per lb., beef from 4 to 9, eggs 8 to 10, butter 25 to 37, cheese 12 to 10, pork [illegible] hay $10 per ton, wood 2 50 per cord, coal 8 to 10 cts, per bushel, potatoes 50 to 75 per bushel, turnips 25 to 50, flour 6 to 8 dollars per barrel.

Now look on the other side of the pictura, since the election of Tip and Ty; since power passed from the hands of the democrats to that of the federalist, and since the adoption of a high protective tariff—the great panacea for the evils we labor under, and the long sought philosopher's stone, destined to turn all matter into gold.—How does it look, Behold the contrast!

Prices under Federal rule:

Wheat,	40 cts.
Rye,	20
Corn,	12
Oats,	15
Flaxseed,	46
Timothy-seed,	$1 00
Clover seed,	2 50
Beeswax,	25
Feathers,	25
White beans,	30
Dried apples,	37
Dried peaches,	75
Bacon,	3
Beef,	3
Eggs,	4
Butter,	6
Cheese,	6
Pork,	2
Hay,	5,00
Wood.	1 50
Coal,	8
Potatoes, no sale.	
Turnips, no sale.	
Flour, (dog cheap)	3 00

Every thing is down, down, and going down.—Laborers out of employ, and being desirous to do an active busines they will sell on favorable terms for *good pay or paper.* The subscriber most respectfully asks the continuance of the patronage of former customers of the Tyson Furnace, and call or orders from all who wish to purchase. AMERICAN WHEAT.

A late number of the European Times says: "The only bright spot in the surrounding gloom is the measure about to be introduced to parliament for admitting Canadian wheat and flour, by way of Canada, into England at a fixed nominal duty. Some doubts existed a short time back as to the sincerity of the Government relative to this measure, but Lord Stanly has cleared away all mist on the subject, by stating emphatically that the Government accepts the interpretation put upon his dispatch of last year by the Governor General and Legislature of Canada. The bill passed by the Provincial Parliament of Canada imposing a duty of three shillings per quarter on United States wheat going into Canada, only wants the receipts of some information from Sir Charles Bagot to receive the royal assent and then a bill will be introduced into the British Parliament virtually repealing, as far as Canada and the United States are concerned, the Corn law of last year. This is regarded in England, as a very important measure." A duty of three shillings per quarter, is equal to seven and a half cents per bush.

The Canadian duty on American flour is much higher in proportion; the object being to cause the milling to be done on the Canada side of the line.

Immense quantities of our wheat and flour now reach the English market, through the Canada channel, and paying the same duty as Canadian flour.

If that is reduced, as Lord Stanly promises, to a fixed and merely nominal amount, the agriculture of the West will receive an immediate and powerful stimlus while equally important advantages, will result to Great Britain.

Some other consequences will follow, which it is worth while to consider. If the Western farmers can have access to the English markets, they will at once become as ultra free trade men, as the cotton planters. It was the operation of the English corn laws, confining their market to the New England manufacturers, which made all the friends of protection to be found in the West. When they have the English market to sell in, they will insist upon buying everything in the same market which they can buy cheaper than at home. They will insist upon the reduction of our tariff to a free trade revenue standard If they fail in this, they will break it down though the aid of the smuggler. No revenue police can maintain the monstrous exactions of our present tariff against the continued efforts of the population on both sides of the Canada line. The Michigan, Ohio, Indiana and Illinois farmers, who will sell their crops to the Canadian merchants will in some way bring back British broadcloths, without paying duties.

Treated with liberality by the British Government and no longer looking to the New England manufacturers for their support, they will create a public sentiment, which will protect contraband traffickers in the chief manufactures of England. All this is inevitable if the tatiff be not reduced. But its reduction is, in fact, inevitable if the promised modification of the English corn laws be made.—The wheat growers of the West, the planters of the South and the navigation intrests of the East, would present a combination of political power, which the Lowell spinners and the Pennsylvania miners could not resist.

ASSUMPTION OF THE STATE DEBTS.

There is probably no question before the American public at the present time, fraught with more danger to the interests and welfare of the Union, than the proposition which has been before Congress for the General Government to assume $200,000,000 of the state debts. It is a question which appeals directly to the interests of the indebted states; and, urged on by the power and influence of foreign and domestic bond-holders, it is designed to agitate great questions now before it.

When Alexander Hamilton recommended his scheme, assuming the state debts in 1790, although it met with a spirited opposition upon the ground of its unconstitutionality as well as some defects in its details, such was the indebtededness and embarrassment of the states, that interest prevailed over patriotism, and the measure was adopted on the 4th of August by the assumption of $21,500,000 of the State debts. Although the debts had been incurred for the common defence in the Revolutionary war, yet it was held to be an unconstitutional act on the part of the general government to assume them; and the Virginia Legislature, in 1791, passed their famous resolutions, declaring the assumption to be "a violation of the constitution, and a most flagrant invasion of the plainest principles of justice."

It is a remarkable fact that New Hamshire and Virginia occupied the same ground upon this question at that time, although they were upon opposite sides in the general politics of the day. If the people of New Hampshire were then generally disposed to favor too great a concentration of power in the hands of the general government they were upon this question as they are now strongly attached to the democratic principle, and the doctrine of state sovereignty. In June 1791 the Legislature of New Hampshire unanmiously adopted a remonstrance to congress against the assumption in which, after setting forth the manner the debt had been incurred by contributing
