(Correspondence of the Age.)

CHARLESTON, S. C., April, 8th. 1844.

The letter of Mr Clay, against the propriety of annexing Texas with the United States, was published here two days since, in which he says, that, "Mr Jefferson expressed the opinion, and others believed, that it never was in the contemplation of the framers of the Constitution, to add foreign territory to the Confederacy, out of which new states were to be formed;" and Mr Clay's argument would seem to support the same opinion.

But we are to-day informed, by the federal letter writer at Washington, that Mr Clay "sees no difficulty in the Constitution," on this subject, although Mr C. has argued differently himself. And finally, he insinuates that Mr Clay has left the way open, to favor this measure on the arrival "of such a change of circumstances as will render annexation proper and necessary." And it appears from this writer, that Mr Clay is only waiting for a favorable opportunity, to seize upon Texas, and annex it to the United States; or in other words Mr C. is the champion of annexation with his partizans here, only two days after the publication of his letter denouncing this measure. SCRIPSI ILLAM.

The public will be pleased to see the reduction of the stage fare from this place to Nashua, on referring to the advertisement of the Agent. They may be assured that on this route they will find gentlemanly Agents, clever drivers, good coaches and a quick and safe passage.

WORTHY OF RECOLLECTION. Mr Clay has been twice before the people and received *fewer* votes than any regular candidate that ever run.

TOO FAST.—One day or other, we may look for some great accident in pushing locomotives to the extent of their speed. The distance from London to Bristol is 118 miles, and yet wonderful to relate, if it be true, the Great Western Locomotive passed over the distance in *one hour and a half!!* It is like flying.

CAPITAL PUNISHMENT. Sharman Crawford lately presented in the British House of Commons a petition from the two thousand citizens of Rochdale, praying that hanging may be done by "a *clergyman of the state church.*"

Extraordinary discovery. Professor Von Grusselbach, of Stockholm, has very lately brought to a state of perfection the art of producing a torpor of the whole system, by the application of cold of different degrees of intensity, producing from a lesser to a greater, so as to cause the human body to become perfectly torpid, without permanent injury to any organ or tissue of the frame. In this state they may remain a great number of years, and again, after a sleep of ages, be awakened to existence, as fresh and blooming as they were when they first sunk into their frigorific slumber.

Magazines for May,—The Lady's Book, Columbian Ladies and Gentleman's Magazine, Ladies National Magazine, Graham's, &c. &c., are received. All good as usual.

NOTICE.

Gentlemen visiting either of the Reading Rooms are respectfully requested not to mutilate the papers or abstract them from the Rooms.

BEAUTIFUL COON ORGANS.—Greely, of the New York Tribune, called Webb of the Courier and Enquirer, an *"escaped State Prison Bird!"* Col. Webb "retorts courteously" thus:

The *Fourier Organ* in this city should bear to receive hard blows with the equanimity it dispenses them. On the morning after the election, smarting under the rebuke which the whigs of this city had passed upon it, the organ of infidelity and a *social* system based upon an indiscriminate intercourse of the sexes, *sneered* very complacently at the *Commercial*, the *American*, and this print; and when in reply, the Commercial and Courier spoke of it in the terms which every advocate of its infamous doctrines merits, he flies into a passsion and makes himself ridiculous. For want of something better to say, he calls us an *"escaped State Prison Bird!"* and then denies that he is the tool of a certain *clique* of office seekers!

"Well, time will show; but we deliberately assert, that a set of young men in this city have already, very foolishly, divided among themselves, all the important offices in the city under Mr Clay's administration!! A greater insult to the great leader of the whig party, could not have been perpetrated; and we shall shortly give the precise arrangement to the public, in order that they may hereafter judge, whether Mr Clay is one who can thus be dragooned into doing the bidding of an irresponsible and self-constituted club of would-be-dictators.

"The *Tribune* was very conspicuous in its labors to defeat the nomination of Mr Clay in 1839, and very successful too: and judging from its columns since the election it is aiming at the same result in 1844, by seeking to drive from our ranks many honest whigs who voted for Harper on Tuesday. This time, however, the people cannot be deceived or cheated."

We were not fully satisfied before what it was that made many of the whigs so anxious that Greeley's principles should be adopted. They circulate his paper by thousands; it seems, the reason is, that his paper is "THE ORGAN OF INFIDELITY and a SOCIAL SYSTEM BASED UPON AN INDISCRIMINATE INTERCOURSE OF THE SEXES!" This then seems to be the ultimate object of *Tribune* coonery! The whig fathers and mothers, and sons and daughters, who read Greeley's paper, must be in a fair way, according to Col Webb, the very man what christened the federal party the "whig party." *Ohio Statesman.*

Love Sickness.—This obstinate disease is said to be very prevalent in Brooklyn.—An old widow lady there has one son and two daughters, all suffering with it. She says it is and *epidemic* that used to rage most awfully *when she was a girl.—N. Y. Mercury.*

Death of another member of Congress.—The Baltimore Clipper of May 3 says—"We were informed yesterday of the death of Mr Brinkerhoff, of Ohio, who, from indisposition, had been prevented from taking his seat in the present congress."

TEXAS, TARIFF,

AND THE TERRITORY OF OREGON!!!

How to settle these Important Questions!!!

It is of the utmost importance for the welfare of our country that these exciting subjects, now in negotiation, be amicably and equitably adjusted; and, under the management of a profound statesman like our present Secretary of State, we hope for such a result. But, whatever may be the turn of affairs, we are confident that the honor of the United States will be sacredly guarded, and that the rights, not only of our citizens but of all nations concerned, will be respected. We shall hail this event as a cause of gratulation, and so will all the well thinking part of the community—for Peace can only be productive of blessings—War of direful and calamitous results.

As regards the annexation of Texas—of a Protective Tariff—or of the Boundary of Oregon—we confess our inability to judge of the advantage and disadvantage to the "high contracting parties;" but one part of the subject we can judge of as *well* and *better* than all the negotiators—for our experience *better enables* us to take a calm and deliberate view of the financial part than they can—and whether the 'Lone Star of the West" be attached to these States or not, it cannot be concealed she is heavily burthened with debt; and we assert boldly that the only and effectual means of payment to her public creditors, and ensuring a revenue in future, is by adopting *SYLVESTER'S old system of Voluntary Taxation.* Let that great plan but be resorted to, and the Debt of Texas can be paid in a year. It was from this plan that our currency became equalized after the panic of 1837, and this beautiful financial scheme cannot fail to present itself in bold relief, and immortalize its projector.

SYLVESTER, at all times ready and willing to lighten the burthern of the people, will feel happy in affording assistance to Texas, or any other country requiring his aid, but *only after* his friends and patrons are served—they *claim his first* consideration—in confirmation that such is the case, the schemes for June are submitted. Of their extent, diversivereation, and brilliancy, it is unnecessary to say one word—a mere glance will suffice—and after requesting attention to the half dozen prominent Lotteries described as under, it remains but to remind the public, that first come will be first served—and that early application is indispensably necessary to secure an opportunity of participating. "A NIMBLE SIXPENCE

BETTER THAN A

SLOW SHILLING!"

THE Subscriber has on hand and is constantly receiving additions to the

Most splendid assortment

Of Goods ever offered to the people of this vicinity, which he will sell cheaper than

Any other Concern in the Town or County.

"It was the remark of a Roman Consul," that small profits and quick returns are better than large profits and slow returns, wherefore the subscriber has resolved, not only for his own but for his customers' benefit, to adopt, as far as possible, the cash system.

The subscriber hardly thinks it worth while to enumerate all the articles he has on hand, and will only say, that

ANY MAN WOMAN OR CHILD WISHING TO PURCHASE

Any description of Goods usually kept at a country store, had better call before purchasing elsewhere, as they can be

ACCOMMODATED WITH ANYTHING

From a Shingle nail to a Balsorine dress.

DENTISTRY.

Dr. H. S. CHASE, Dental Surgeon,

RESPECTFULLY informs the inhabitants of Woodstock and vicinity, that he will remain here a few days, for the purpose of performing any operations on the Teeth, which may require his professional skill.

It is hardly necessary to urge the importance of the various operations in Dental Surgery, as almost every one has had an opportunity of witnessing their beneficial results, when well performed.

Dr CHASE pledges himself to perform every operation in the most skillful and careful manner, and to the entire satisfaction of the Patient; otherwise his services will be considered *gratuitous.*

PLUGGING.

Particular attention paid to plugging decayed teeth with Gold, and other indestructible metals, which operation, if well performed, will positively *arrest decay,* and restore the diseased member to its original health and usefulness. Many who suppose their teeth perfectly sound, would do well to have an examination made by him, as it will be done with pleasure and without charge.

EXTRACTING.

Teeth extracted with "Chevalier's" splendid Forceps, with far less pain than is usually experienced from the use of the Turnkey, and without any danger of injury to the gum, or alveolar process.

SCALING.

When salivary caculus or tartar collects upon the teeth, they should be immediately subjected to an operation for its removal, as it can be done without pain, or the least inconvenience to the patient; for when a deposit of this disgusting substance takes place it causes irritation of the gums, absorption of the alveolar process, and premature decay.

ENGRAFTING.

Elegant incorruptible teeth of the NATURAL SHAPE AND COLOUR, engrafted on the fangs of teeth whose crowns are so much decayed as to preclude the possibility of restoring them to usefulness in any other manner.

Whole or parts of sets of teeth, inserted on gold in the neatest manner, with or without artificial gums as the case may require.

Charges according to the circumstances of the case, but in every instance they will be reasonable.

Professional visits made to any part of the town without extra charge.
