public journal we feel that a responsibility rests upon us to exert all the energies we possess, and all the influence which through the instrumentality of the press we can command, in wresting the reins of government from the hands of those unscrupulous rulers who by a daring usurpation of power have involved us in difficulties and perils more fatal than the country has ever before experienced. A vast amount of human blood, and mountains of treasures drawn from the hard earnings of our people are being expended upon the fields of Mexico to gratify the cruel ambition of men invested with office whose flagitious measures are designed to perpetuate the giant curse of slavery, and seriously threaten to end in the dissolution of this glorious republic.

Should not every good whig place himself in a position to effectually cooperate in the great work of expelling from the seats of power those who are thus preying upon the very vitals of the common wealth? and should they not feel that the circulation of good whig papers are intimately connected with success in this momentous enterprise? Should they not endeavor to give the widest possible circulation and a decided preference to those whig journals which for years have proved true to whig principles, and sustained them with inflexible steadiness and unyielding fortitude. We have every reason to be thankful for the steady and constantly increasing patronage which the whigs of Addison County and elsewhere have yielded the Galaxy. But while our opponents and especially the abolitionists are straining every nerve as they express it to "*circulate the Documents*," of error, let every whig be equally zealous to propagate the truth.

PRACTICE OF LAW.

By a law of New York recently enacted all persons of good moral character although not admitted as attorneys, may manage a suit for any other person if specially authorized by the party for that purpose, and such person is entitled to the same fees as regularly admitted attorneys. The Regulars and other high minded gentlemen in the empire state think this is quite a return to Barbarism. But all this has been enacted in Vermont from the beginning of the government and yet not one case in five Hundred is managed by the interlopers.

☞ Do n't fail to read the extract we have given on our first page from Mr. GALLATIN'S Pamphlet on the war. More deception never was embodied in any public document than the last President's Message, which Mr. G. has exposed to admiration.

☞ The Telegraph office in Middlebury is being prepared by Mr. J. Stewart, in the room over the Post Office. It is expected that the wires will be completed within a week or ten days to this place, when we shall be put in immediate communication with all states south.

☞ Later advices from Mexico say that Gen. Pearce is on his way to the United States, and will resign his commission as soon as he arrives. But these advices mention very little that is important. Now and then a guerilla attack upon some trains of supplies nothing more.

☞ The Green Mountain Freeman talks as if its party elected John P. Hale to the United States Senate. We had the impression that he was elected by some 120 Whig, 15 Independent and 10 Liberty votes. Had the Whigs believed as have the Liberty leaders on almost every occasion when they could do good, no doubt P. Hale would have been in the Senate—but some Paul Dillingham, Peck, or such like character would now fill his place.

PIANO FORTES.

It will be seen that Messrs. Hallet, Cumston and Allen, in their advertisement refer to us in relation to their instruments. That they have done so has arisen from the circumstance that we have recently purchased a Piano Forte of their manufacture, which is now in our possession, and which we cheerfully recommend as possessing superior excellence. Others far more capable of judging than ourselves, and several who are esteemed real amateurs, rank it among the very best Pianos to which they have ever listened, and its powers of melody quite equal if not far superior to those which have hitherto enjoyed the highest popularity in this quarter. We invite those who contemplate purchasing to call and examine for themselves.

THINGS IN WASHINGTON.

It will be seen by our Congressional record that Mr. Calhoun has made a bold and eloquent speech in the Senate on his anti-war resolutions. There is nothing equivocal in his language, no mincing in his unqualified condemnation of the war against Mexico. He denounces it as a scheme for conquest and annexation which will bring nothing but disaster to the country and its institutions.

Gen. Cass the most unprincipled and hollow hearted office seeker in the Union, has published a letter in which he denounces the Wilmot Proviso. In doing this he has imitated the examples of Dallas and Buchanan in betraying the North to secure the suffrages of the South. There is nothing so humiliating to a true hearted republican, as to find men of high rank, and of the first intelligence, betraying the cause of the people, and with the professions of Democracy on their lips, so deserting its true principles, as to advocate the extension of perpetual slavery. If there is a thunderbolt in Heaven more fiery than any other, it would seem as if it should be hurled against such base apostates from freedom's cause. But these despicable dough-faces will at last be rejected by the people and despised by the South herself, who will fully appreciate the flagitiousness of their betrayal of the North.

A vote has at length been taken in the House of Representatives, which pronounces the judgement of the people against Mr. Polk and his plea of justification for involving the country in this bloody, expensive and protracted war. The occasion was the introduction into the House of Representatives, by Mr. Houston of Delaware, of a resolution of thanks to General Taylor and his men, for the battle of Buena Vista. Mr. Henly moved an amendment by adding these words, "*engaged as they were in defending the honor and rights of the nation*," when Mr. Ashmun moved to amend the amendment by adding the words, "*in a war unnecessarily and unconstitutionally begun by the President of the United States.*" This amendment was sustained: Yeas 85, Nays 81.

THE BURLINGTON SENTINEL & DEMOCRAT.—Mr. Winslow, the editor of the Sentinel, in his last paper announces a sale of the establishment to George Howard Paul & Co. by whom it will hereafter be conducted. Under the auspices of Mr. Paul whom he pronounces to be a young man of fine attainments, he says he has no doubt the Sentinel and Democrat will take rank among the ablest Journals of Vermont, if not in New England. It will also be enlarged.

We are gratified in being able to say, that although we have never had the pleasure of having a personal acquaintance with Mr. W. and are *toto coelo* opposed to him in politics, we award to him the praise of very respectable talents, intelligence, and tact, displayed in conducting his journal for a year or two past, during which we have more particularly noticed its contents.

THE BEAT ALL.—Job Lane, Esq., of Cornwall a few days since killed two weathers, whose tallow alone weighed 83 1-4 lbs. The same sheep last year sheared 16 3-4 pounds of wool.

Where can fatter things be made than in good old *Cornwall*, and who among her farmers can excell our friend LANE.

We are gratified to learn that the Hon. G. P. Marsh has been appointed a Regent of the Smithsonian Institute, in the place of Robert Dale Owen. No better appointment could have been made. It is well that one of the ripest scholars of the country should be placed at the head of this great national institution. And again it is well that he is to supercede such a man as Robert Dale Owen, a zealous co-worker with those revolutionary fanatics in politics and religion who would prostrate all the civil and ecclesiastical institutions of the country.

SPECIE.—The amount of specie carried out in the steamer Hibernia, which sailed from New York, 24 inst. was something over $378,000. This, with the exports by sailing vessels, will make the amount cleared at the New York Custom House last week above $576,000

THE TELEGRAPH.

The work on the Telegraph Line, we are glad to announce, is making rapid progress. We are permitted by one of the Trustees, Col. PECK, to publish the following extract of a letter from the indefatigable Mr. CORNELL, the constructor, dated the 3d inst:—

"The wire is in position for forty miles from Troy, and by to-morrow night [last Tuesday] the offices may be opened, for the transaction of business, at Bennington and Manchester. The work, thus far, looks finely. It is, beyond question, the best line of Magnetic Telegraph yet erected.

"The Wire is on the Poles as far as Rutland, and by next Saturday [to-morrow] night, I hope to be able to place the Telegraph in operation at Whitehall; and I can see nothing that can prevent our having the *entire Line* in perfect operation about the 20th inst."

FROM MONTEREY.

The *Gazette*, published at Monterey, of the date of Dec. 4, gives the following descriptions of a fight which occurred between a small party under the command of Lieut. Col. Randolph of the Virginia Regiment, and a party of Rancheros, armed with lances and pistols, and believed to be commanded by a deserter from our ranks, between Saltillo and Monterey.

On Thursday, the 2d inst. as we were on our way to this place, and when near the deserted rancho, five men, who formed our advance, rode back and stated that they had been fired on. Immediately, Capt Deas, of the 4th artillery, rode up when the rancheros charged us from both sides of the road, and our party, unfortunately not anticipating an attack, were taken quite unawares. Capt. Deas, with his usual daring and gallantry, charged them on horseback with only a drawn sabre, and, when in the act of cutting at them, his horse shied, and he, I am sorry to say, received a severe wound from a lance in the back. Immediately, Capt. Barbidale of the Mississippi regiment, seeing the position of Capt. Deas, jumped from the waggon, having seized his rifle, and taking deliberate aim at the scoundrel who lanced Deas, he fired at him, and he reeled in his saddle, no doubt mortally wounded.

They immediately retreated. I think they numbered between thirty and forty. Our party consisted of Col. Randolph, Capt. Deas, Capt. Barbdale, Lieut. Mason, myself and ten men.

In the town of Palermo, in the state of New York, resides a gentleman by the name of Gardner a well known and highly respected minister. Elder Solomon Gardner's daughter, in the month of October 1845, was taken with dropsy and went through the successive stages of that disease and was at last given up by the first medical men of the vicinity, at this stage, writes Mr. Gardner, as we heard of your Lithontriptic—sent in great hast for a large bottle—she took it in 9 days was better, sent for 4 more, and at this date, May 10th 1846, my daughter is now at work and free from that dreadful disease—to all human appearance, as well as ever.

Read the following.—It is really astonishing to see what wonderful cures are preformed by the use of the Sarsaparilla and Tomato Bitters.

[Extract of a letter from Dr. Williams of Vt.]

Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of scrotulous humor and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should like to have it so soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons.

A. Boyden, Esq of Cambridge, cured of the dyspepsia of a year standing, after trying a hundred remedies without the least effect.

UNITED STATES. ARSENAL,
Fayetteville, N. Carolina, March 2. 1847.

Dr FOWLE,

Dear Sir:—Having used several bottles of Wistar's Balsam of Wild Cherry in my family, for the complaints for which it is recommended, with decided beneficial effect, I cheerfully advise my friends and all others who may need a medicine of that kind, to try it. G. A. SCHWARZMAN.

N. B. We do not ask the public to rely solely upon recommendations produced from states far distant, where the persons cannot be known; but having testimony from every State in the Union, we refer all who have any doubts about the efficacy of this highly popular and useful medicine, to their own neighbors who have used the article.

Beware of counterfeits and imitations—Syrups, and all other preparations of Wild Cherry. Remember, they only imitate in name, without possessing the virtues. Buy none but the genuine and original.

APOPLEXY.—this dreadful complaint is generally preceded by pain in the head, giddiness, especially on turning suddenly round, dimness of sigh, stupor, loss of memory, and other unpleasant symptoms, which indicate a loaded and corrupt state of the blood.

Wright's Indian Vegetable Pills are a direct purifier of the blood, and are therefore a certain preventive from apoplexy, because they expel from the body those stagnant and corrupt humors, which are the cause of every malady incident to men.

Wright's Indian Vegetable Pills also aid and improve digestion, as well as purify the blood, and therefore not only drive disease of every name from the body but are one of the best, if not the very best medicine in the world for the cure of colic, dysentery, cholera morbus, and other diseases of the intestines.

Beware of Counterfeits of all kinds! Some are coated with sugar, others are made to resemble outward appearance the original medicine. The safest course is, to purchase of the regular agents only, one or more of whom may be found in every village and town in the State.

W. P. Russel, and S. Moody, Agents.

GRAIN—As usual at the beginning of the week, there is but little doing. New yellow flat Corn, we quote 76 a 78c, and po white 53 a 70c per bu. Oats, Northern, 52c do.

WOOL.—Duty 30 per cent.

There have been some sales of fleece Wool during the past week, at a little under our former quotations. Pulled wool begins to come in more freely; but we do not hear of any large sales. The amount of domestic wool in market at the present time is not large, but is tho't to be quite sufficient for the wants of manufactures until another shearing. The large factories are generally supplied, with a full stock, and owing to the low prices obtained for woollen goods, some considerable portion of the machinery in the smaller factories has been stopped, and will not run again until the decline in wool, or advance in goods, shall afford a fair prospect of remunerating prices.

Notice.

To my subscribers in Hinesburgh and Huntington: Gentlemen, it is nearly four years since I commenced delivering to you the Galaxy and some of you have paid every year, some a part and some not one cent. Now I find no fault with any of you. I find myself considerably in arrears to Mr. Bell, who has been very lenient towards me, which has enabled me to show you the same leniency. But the time has now come when I must make payment, which I intend to do to the extent of my ability. The sickness in my family the past season has exhausted my other resources, or I should not call upon you at this time. I hope you will one and all lend me a helping hand. All agreements will be adhered to on my part, and no one has had or shall have any just cause of complaint.

FARM FOR SALE.

THE subscriber, having recently bought a farm in Monkton, and having altered his calculations, offers said farm for sale if application be made between this date and the first of April next. Said farm contains 115 acres of good land, beautifully watered, well calculated for a dairy, lying one mile and a half from the Borough, and one mile south of Monkton Ridge. There is on the farm a good house, wood house, two barns, sugar works and orchard; is well fenced and timbered with hard wood and pine. Refer to NATHAN HARDY or DANIEL SKIFF of Monkton, or the subscriber in Middlebury.
