SANDS' SARSAPARILLA

IN QUART BOTTLES
for Purifying the Blood
AND FOR THE CURE OF
SCROFULA, RHEUMATISM, STUBBORN ULCERS, DYSPEPSIA, SALT RHEUM, FEVER SORES
LIVER COMPLAINT, BRONCHITIS, CONSUMPTION, FEMALE COMPLAINTS, LOSS OF APPETITE, DEBILITY &c &c

This Medicine has acquired a very extended and established reputation wherever it has been used, based entirely on its own merits, which its superior efficacy has alone sustained. The unfortunate victim of hereditary disease, with swollen glands, contracted sinews, and bones half carious, has been restored to health and vigor. The scrofulous patient, covered with ulcers, loathsome to himself and his attendants, has been made whole. Hundreds of persons, who had groaned hopelessly for years under cutaneous and glandular disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now, with regenerated constitutions, gladly testify to the efficacy of this inestimable preparation. The testimony of those who have been cured by its use, with their residences, has been published from time to time; and were it desirable, a mass of the most overwhelming testimony could be brought forward, proving most conclusively its inestimable value. The afflicted, and those who have not used this medicine, are invited to make a trial of its virtues, and appreciate to themselves the benefits which it alone can bestow.

CANCEROUS ULCER CURED, OF SEVEN YEARS' STANDING.

This cure was effected in July, 1844; there have been no symptoms of a return, and her health still continues good, July, 1848.

New York, July 25, 1844.

MESSRS. SANDS:—Gentlemen—I consider it but an act of justice to you to state the following facts in reference to the great benefit I have received in the cure of an obstinate CANCEROUS ULCER on my breast.

I was attended eighteen months by a regular and skilful physician, assisted by the advice and counsel of one of our most able and experienced surgeons, without the least benefit whatever. All the various methods of treating cancer were resorted to; for five weeks in succession my breast was burned with caustic three times a-day, and for six it was daily syringed with a weak solution of nitric acid, and the cavity or internal ulcer was so large that it held over an ounce of the caustic solution. The doctor probed the ulcer and examined the bone, and said the disease was advancing rapidly to the lungs, and if I did not get speedy relief by medicine or an operation, the result would be fatal. I said at last, let me have the breast laid open and the bones examined; but finding no relief from what had been done, and feeling I was rapidly getting worse, I almost despaired of recovery, and considered my case nearly hopeless.

Seeing various testimonials and certificates of cure by the use of SANDS' SARSAPARILLA, in cases similar to my own, I concluded to try a few bottles, several of which were used, but, from the long deep seated character of my disease, produced no very decided change. Considering this as the only probable cure for my case, I persevered until the disease was entirely cured. It is now over eleven months since the cure was completed, and there is not the slightest appearance of a return. I therefore pronounce myself WELL, and the cure entirely effected by SANDS' SARSAPARILLA, as I took no other medicine of any kind during the time I was using it, nor have I taken any since.

Please excuse this long deferred acknowledgment, which I think it my duty to make, that your valuable Sarsaparilla might be instrumental in the hands of Divine Providence, when nothing else could; and I feel myself under lasting obligations to you. I can say many things I cannot write, and I do most respectfully invite ladies afflicted as I have been, to call upon me, and I will satisfy them fully of the truth as stated above, and many other things in reference to the case.

NANCY J. MILLER, 218 Sullivan-street.

LIVER COMPLAINT.

The following is an extract from a letter received from Rev. William Galusha:—

Berkshire, Vt., Oct. 22, 1845.

MESSRS. SANDS:—I have been afflicted with a severe pain in my side, occasioned by a diseased liver, for the last twenty years; suffering at times what language cannot convey; but since taking your Sarsaparilla I have been greatly relieved, so much so that I have been able to attend to my business, and preach occasionally, for the last fifteen months. I wholly discarded all other medicine, and thoroughly tried the Sarsaparilla, which I can recommend in truth and sincerity to all those who are in any way afflicted with any species of scrofulous complaints. There have been some remarkable cures effected by its use in this vicinity. Mrs. I Shaw, by the use of six bottles, was restored to better health than she had before enjoyed for ten years; and Mrs. W. Stevens, who had been severely afflicted with Erysipelas, was entirely cured by the use of a few bottles. Yours truly, WM. GALUSHA.

CURE OF A SCROFULOUS AFFECTION OF THE EYES.

South Kingston, R. I., October 11, 1847.

MESSRS. SANDS:—Gentlemen—My little daughter, when one year old, was attacked with a scrofulous humor on her face, which soon after extended into her eyes, causing almost total blindness in one of them, and disfiguring her whole face. I employed two physicians to attend her, who exhausted their utmost skill to give her relief, but it all proved useless, and finally one of them remarked to me that he had known of some striking cures effected by SANDS' Sarsaparilla, and advised me to try it. I obtained one bottle, which she commenced using, and before it was all used up it had effected an entire cure. It is now over four years since she was cured, and there has been no appearance of the disease, and we are satisfied that it is a perfect cure. It gives me great pleasure to add that I can recommend it to every sufferer from any similar complaint. Respectfully yours, GEORGE ROBINSON.

CHAPTER X.

HE was attired in the highest style of French fashion. A well fashioned paletot pelisse of the finest black cloth, richly braided and trimmed with sables, was partly open in front and disclosed a dark-blue frock buttoned closely round the slender waist; a waistcoat of stone-colored silk, and a cravat of light-blue brocade which suffered very little of the beautiful linen to appear.—These articles of dress fitted with exactness an elegant, somewhat undulating shape. The ample tube of the fancy trousers tapered down to the wondrously small French boots; gloves, couleur de paille, covered the femininely *small* hands, and the young gentleman carried a glass dangling at his breast and a little silver-headed black cane in his hand wherewith he played as he talked."

It need hardly be remarked that this gentleman procured his elegant dress at the

EAGLE CLOTHING STORE,

whither the enquiring mind is directed to look for

THE CLOTHS,

AND THE

ARTIST

who is now ready to mould them into shape, and give them a local habitation and a name.

In that great bazaar, in all their magnificence, lie heaps upon heaps
The lustered cloths of Germany;
And the finest fabrics of France;
The heavy goods from the west of England;
The coarser webs of America;
And the softest textures of Cashmere.

VESTINGS,

CONSUMPTION.

100,000 Pulmonary Complaints

HAVE BEEN CURED BY

BRANT'S INDIAN BALSAM.

HOPELESS, DYING cases of Consumption, can be cured by the use of this Balsam. It has cured hundreds of persons, who were so far diseased and so hopeless as to have been pronounced by Physicians and friends, in a dying state. It has cured thousands of confirmed cases; and tens of thousands in all the various incipient stages of that Fatal Disease. It has cured many of whom it were said they would not live a week, and some not a day longer.

For particular cases, and full and abundant proof, see our Pamphlets—all our agents have the pamphlets to give to all who ask for them.

Brant's Purifying Extract

Is another preparation of this Indian Medicine, which is expressly prepared and adapted to purify and cleanse the Blood. It contains the highly concentrated essence of several valuable and efficacious vegetable medicines—such as Sarsaparilla, Yellow Dock, Cherry Bark and Sassafras—also others, one of which is the most powerful and never failing Purifier of the Blood that was ever known to either Indian or white man. It neutralizes and destroys all the unhealthy, poisonous portions of the blood so promptly and certainly, that it cures the worst Scrofulous, Cancers, and all other impure blood diseases without fail. It cures diseases of the Heart, Liver, Kidneys, Uterus and Blood.

There is none alterative, purifying, healing efficacy in one bottle of this Purifier, than there is in ten bottles of any other medicine which purports to cure the same diseases.

The above Medicines are sold in almost every town in the state, and in this county by
31:1y W. P. RUSSEL, Middlebury.

'49 and 50.

Boston, Nov. 17th, 1849. 31:6m.

HEIDSIECK CHAMPAGNE.

The undersigned have been appointed sold Agents in this City, for the sale of "H. Piper & Co's" genuine Heidsieck Champagne. The merits alone of this name, (first imported in 1826) have given it a reputation unequalled by any other brand offered in this Country, and it now meets an annual sale three times as large as that of any other Champagne imported. Our prices will be the same as those of the New York agents, Messrs. Renauld's & Francois. FOSTER & TAYLOR,
161 Milk-St.—BOSTON.
Sole Agents for this City.
Boston, Nov. 19th 1949. 31:6m.

NEW MEDICINE.

DOCTOR MASTA'S GENUINE INDIAN VEGETABLE PURGATIVE PILLS.

For Bilious & Inflammatory Fevers, Indigestion, Chill Fevers, Headache, Dyspepsia, Liver Complaint, Costiveness, Piles, Jaundice, Cholic, Pain in the Stomack and Side, Heartburn, Perverted Appetite, Diarrhœa, Dysentery, Impure Blood, and all Derangements of the Bilious System.

THE rapid sale of these Pills in many sections of the country where they have been circulated, is a sure evidence of their great value as a medicine for the diseases they are designed. No other medicine of the kind has given that general satisfaction as these Pills, considering the shortness of time since they were presented before the public for trial.—Hundreds of persons throughout the New England States, the State of New York and the Canadas, have already pronounced them to be the best family medicine they have ever used. It is the general opinion of all who have used them themselves and seen their effects in their families, that they are the best operating cathartic they have ever taken, and proves the following advantages over all others.

1. They do not sicken and distress the stomach when taken. So little inconvenience, if any at all is felt after taking them, that it is hardly noticed that pills have been taken. Pills, in general, composed as they are of nauseous, irritating and inflaming ingredients, distress and irritate the stomach in a high degree, seeming more to aggravate and deepen the disease than to remove it.

2. Their effect upon the bowels is equally unattended with distress. They operate with perfect ease and safety, causing no griping or any other painful sensation. With the greatest ease, they evacuate the alimentary canal thoroughly, cleansing it from all putrid, irritating and fecal matters.

3. They relieve costiveness and not increase it. Pills as a general thing, instead of relieving, render this habit of the body more obstinate. The more they are taken the more it is confirmed. The reason is obvious. They move the bowels merely by the irritation they produce upon the membranes of the alimentary canal, and from this arise the uncomfortable consequences already alluded to. They are not composed of materials congenial to the system and in proper proportion to carry out the true principle of purgation. Consequently, they do not, and cannot remove the cause of disease, but liable also in many cases to increase it. They operate too harshly, overacting, and prostrating the vital energies of the system, upon which the resisting influences to disease are based. The reaction that follows this condition is a feverish excitement of the entire range of the alimentary canal, extending sympathetically by the agency of the nerves throughout the whole system. This deranges at once to a great degree the secretions of the liver, and other fluids, and in this manner constipation of the bowels becomes increased rather than relieved. A vast number of persons, who have taken dose after dose of various kinds of pills know this to be a fact, remaining ignorant, however, of the cause

4. They are composed entirely of vegetables, the productions of this climate; carefully extracted and concentrated; not a particle of mineral, or any other poisonous ingredient forms their composition. Made of materials that are natural and simple, their combination being judicious and exact, their congeniality to the system is more certain. They are far superior to Pills that have been in general use, milder, and more prompt, safer and more uniform in their operation. In using them no particular care is required. Peoples may eat and drink as usual, (intoxicating drinks excepted) work or travel, or eat immediately after taking them. They are not made to carry out the old doctrine that the sick must be made sicker before they are cured.

☞ Every family who are in the habit of keeping medicines for their own convenience, should never be without these Pills. After having once tried them and ascertained their good qualities, they would not be without them. Persons also who are in the habit of travelling much, and are often liable to be unwell, would also find them convenient to keep on hand. Their operation is so easy and yet efficient, so easily dispensed with, without any inconvenience whatever, that they ought to form one of the indispensable items or the traveller's outfit.

☞ Try them and know for yourself whether these things are true that are said of them. The old saying is true, where personal knowledge and experience is required, that "the proof of the pudding is in the eating of it." The first time you have occasion to need pills just give them a trial, and if in your opinion, they fail to do what is said of them, take the advantage of the following remedy.

All persons who may purchase a box of them, after taking one or two doses in accordance with directions should not be satisfied with them, the money paid will be refunded, or the charge for the same cancelled, by returning the box in a usable condition, with the remainder of the Pills. Agents selling them are requested to conform to this rule.

DIRECTIONS FOR USING THEM.

In giving directions for taking medicine designed for general purposes, much must always depend on those using it, suiting the dose and time of taking it to their own feelings and convenience. When medicine is offered which, while it can do no harm, is calculated to do much good, the most that the Proprietor can do is to give general directions in regard to its use.

The Dose.—The ordinary dose for an adult is from two to six pills, regulating the dose according to the habits of the patient; bearing in mind always the sicker the patient the larger and more frequent the dose, until thorough discharges are produced. The best time to take them is on retiring to bed at night. In inflammatory cases, attended with much pain, from 4 to 6 pills, every six or eight hours, should be taken until strong cathartic effects obtained.

As an Aperient—When taken merely to purge the bowels, from 2 to 6 are sufficient. Should they not operate freely in 10 or 12 hours, take the dose the following night from 1 to 3 or more pills; they will then be sure to purge. Those who are costive, and still apparently well in every other respect, should occasionally take a full dose, followed with 2 or 3 every other night, to produce constant action upon the liver and bowels.

The TIME—They should always be taken on the first appearance of disease. This is the time, and the most proper time for the benefit of the patient. Should cold have been taken, causing pain in the head or any portion of the system, attended with fever, take a full dose. They will open the bowels, remove the cause of pain and fever, carry off from the system all vitiated humors, relax the skin, bring on perspiration, allay thirst and in a short time, arrest disease.

☞ It is no uncommon thing for cathartic medicines to be condemned if an ordinary dose does not have the desired effect in all cases; but this is unjust and unwise, for every well informed person, as well as the physicians, knows that when the bowels are remarkably costive, or when there is a violent attack of fever, or any other disease, it often requires 5, or even 10 times the quantity to operate as a thorough purge. The dose therefore, in such cases, must be enlarged or repeated at proper intervals, until the bowels are moved and the symptoms removed.

☞ These Pills are now to be found at one or more of the stores in every town and village throughout the New England States, the State of New York and the Canadas.

☞ Call for MASTA'S INDIAN PILLS, and see that the name is on the box. Each box contains from 20 to 30 Pills and sold at 25 cents.
