NEW YORK, September 14.—Money on call loaned from 5½ to 10 per cent., closing at 6@7 per cent. Prime mercantile paper 4@5 per cent. Sterling exchange steady at 484½ for sixty day bills and 484½ for demand.

Bonds—Government bonds were dull but firm. State bonds dull and steady.

Stocks—The general disposition this morning was to take such profits in stocks as the existing prices afforded; at the same time there was a wide spread feeling that some sort of reaction was due and realizations throughout the day kept prices down, although the undertone of the market was strong. The market just after noon advanced sharply upon buying by the Chicago party and the foreigners, but the advance was not maintained and the selling for the rest of the afternoon caused a slow but steady depreciation of values. The news of the day was most favorable, the only element against the market being the lack of agreement among the managers at Chicago in disputed points. A rumor was started at one time that the trouble regarding balances in the old pool had been settled, which materially helped the grangers. London buying was principally in the Southwestern, and there was considerable purchasing of Union Pacific and San Francisco stocks for Boston account. The market was firm to strong at the opening, a majority of stocks showing advances over the closing prices of last evening of from ½ to ¾ per cent. There were some few further slight advances in the early trading, but the market soon gave way and prices were carried down small fractions below the opening, and during the remainder of the morning hour fluctuated within narrow limits, noon prices generally showing slight declines. Purchases by Chicago, London and Boston then rallied the market sharply, and prices attained the highest range yet shown, but upon a cessation of buying the market became quiet and prices resumed their slow and steady decline, closing heavy. Sales, 277,281 shares; St. Paul 43,930, Lackawanna 26,540, followed by Kansas and Texas, Oregon Transcontinental, Union Pacific and Canada Southern in the order named, each of which furnished over 10,000 shares. Almost every thing on the active list is lower, but in no case for more than fractional amounts; Omaha common being down ¾, Western Union ⅝ and others smaller fractions. Canadian Pacific was a notable exception, showing an advance of ⅞. The business in railroad bonds was somewhat more widely distributed, but the total transactions, which foot up $1,326,000, are nearly $200,000 less than those of yesterday. Prices sympathized with the trading in shares, and were irregular throughout the day, final changes being generally for insignificant amounts. Northwestern registered debentures rose 3½, to 108½, and Southern Pacific of California fives 2, to 114

The total sales of stocks today were 277,781 shares, including Canada Southern, 11,985 shares; Delaware, Lackawanna and Western, 26,540; Delaware and Hudson, 4470; Erie, 5850; Missouri, Kansas and Texas, 17,530; Lake Shore, 9175. Closing quotations:
