TELEGRAPHIC NEWS.

[Reported for the Richmond Dispatch.]

ADDITIONAL BY THE NIAGARA.

HALIFAX, June 14.—The following is additional news by the Niagara, from Liverpool June 2:

Garibaldi's success is fully confirmed. He attacked Palermo at 4 o'clock on the morning of the 27th, and penetrated to the centre of the city, flag in hand, after a desperate combat of six hours, and during an active bombardment from land and sea.

The Royal troops retreated to the palace and other public buildings, where the combat was renewed. The palace was taken by the people and burnt. The loss in killed and wounded is very considerable.

Other towns in Sicily had risen.

The bombardment of Palermo by the Neapolitan fleet continued on the 31st. It is said the Government was considering a proposition for its discontinuance.

The Royal troops were concentrating in Gaeta, which Garibaldi was to attack on the 6th.

The English Admiral, in the Port of Palermo, had offered to extend his protection to American citizens.

There was great agitation in Naples. The ministry tendered their resignation on the 28th. A Liberal ministry was expected to succeed them.

Garibaldi had already instituted important administrational reforms at places in his power.

ENGLAND.

Parliament had re-assembled. Important documents, relative to the Chinese, were submitted, giving the ultimatum and the Chinese reply. The ultimatum demanded an simple apology for the Pei-Ho affair, the restoration of the guns and ships lost on that occasion, the ratification immediately of the treaty at Peking, and indemnity to the amount of 4,000,000 taels for the Canton affair.

The Chinese peremptorily refuse all these propositions, thus dispelling all hopes of an amicable adjustment.

Lord John Russell explained the nature of Russia's propositions relative to the Christians, and said that Prussia, Austria and England dissented from her views and preferred that Turkey herself should institute the inquiries which Russia wishes instituted for her. This proposition is being acted on.—France, he said, sided with the Russian view of the subject.

Advices from Vienna say that the Austrian forces in Italy will be concentrated in the fortresses of the Quadulateral Square.

It is again asserted that Russian troops are concentrating on the Turkish frontier.

LATEST.

The Americans at Marsala had sought refuge on the U. S. frigate Irequois.

The people everywhere were shouting, "Italy forever! Victor Emanuel forever!"

Telegram via Queenstown.—A Paris correspondent states that the news of the fall of Palermo created a deep impression on the people of Naples. Nevertheless, all remains tranquil at the capital and main land.

The Great Eastern will start on the day appointed. The number of British passengers engaged is very small.

Congressional.

WASHINGTON, June 14.—*House.*—The House considered the Pacific Railroad bill, which, with the amendment in favor of the Central and Southern routes, was postponed until December.

A bill was passed reducing the price of public printing 40 per cent.

The House referred the Senate's resolution, extending the time of adjournment until the 9th, to the Committee on Ways and Means.

Mr. Sherman said, if it should appear on Saturday that business cannot be completed before Monday, he would move an extension.

No agreement has been made on the Homestead bill by the Committee of Conference yet.

Political Speculations.

WASHINGTON, June 14.—The Douglas men are arranging for a grand mass meeting in Monument Square, at Baltimore, Saturday night, at which Slidell is to make a strong speech intended to help him out of the scrape. The Douglas men say several of the secedes will come into the Convention, and surrender to the Douglas wing. Some politicians say the Tennessee resolutions will be adopted at Baltimore, and profess to know that many of the Northern Douglas men are willing to vote for them. Dr. Geo. B. Loring, a Massachusetts delegate, is speaking in that State in favor of them.

Burglary and Probable Murder.

HAMILTON, C. W., June 13.—Four burglars entered the store of Joseph Henry & Co., jewelers, on James street, at one o'clock this morning. Mr. Henry being still up proceeded to ascertain the cause of the noise, and was stabbed several times. His wife and son coming to his assistance were also stabbed, and managed to hold one of the burglars till the police arrived. The rest escaped. Mr. Henry was in a precarious state. The prisoner's name is Brown, and is supposed to be from Seneca Falls, New York.

The Massachusetts Legislature.

BOSTON, June 13.—The special session of the Legislature adjourned at about 10 o'clock this morning. Two bills were adopted relative to the cattle disease; increasing the State Commission to five members; providing for a scientific investigation; giving power to town authorities to kill or isolate cattle, and make other regulations for the treatment and extirpation of the disease, and appropriating $10,000 for the purpose.

Railroad Casualty.

NEWARK, June 13.—Two girls, named Gallagher and Dillon, aged 9 and 13 years, were run over by the 7 o'clock train from N. York this morning, at East Newark. Dillon was instantly killed; Gallagher is still lingering.

Sailing of the Arabia.

WILL NOT BE CLOSED.—I take this method of informing my customers and the public, that my store will not be closed at half-past six o'clock in the afternoon, during the summer months, but will remain open till dusk. My reason for thus acting, are, first, that there are many persons who will not permit of their exposing themselves to the scorching rays of the sun, and therefore select the few pleasant hours before dark to make their purchases in. Second. To accommodate the working class, whose whole time is engaged throughout the earlier hours of the day, and who only have the short time before dark to purchase what they require. Third. Those in my employ are perfectly willing to remain in the store until dusk, as they are satisfied with having ten days in each week, (Saturday and Sunday,) which, with the time from dusk to the hour of retiring, they consider sufficient for recreation.

MONTGOMERY COUNTY, VA.

The proprietors having purchased this WATERING PLACE in October last, have thoroughly repaired and furnished it with entirely new furniture of the best class, and will open it for the reception of visitors on the 15TH DAY OF JUNE.

It is now considered a SPECIFIC for the worst forms of Dyspepsia, and a remedy for all Cutaneous Diseases, and for a disordered condition of the Stomach, Bowels and Liver, and for prostration of the nervous system. We might append a number of certificates from physicians and others acquainted with its merits, and to these might be added *ad infinitum*.

Persons leaving Baltimore, Washington, Richmond and Petersburg, in the morning, arrive at the Springs the same day; those from the South, will find the same conveyance on the arrival of each train.
