Bull Sentiment Dominates Market And Sends Up Nearly All Stocks

SHARP ADVANCES IN SPECIALTIES

Gain of Over Two Points in Westinghouse Electric.

NEW HIGH RECORDS MADE

Commission Business Fairly Well Distributed—Improvement Partly Due to Lower Wheat Quotations.

NEW YORK, Aug. 29.—The stock market opened generally stronger. The features were the coal and iron stocks, on the re-formation of the pool, and the vastly improved reports of the lake ore trade. Dealings in Steel preferred were comparatively heavy and ¼ to ⅜ higher.

The market fulfilled the expectations of the majority of the traders, displaying strength and good distribution of dealings. The cheerful reflection from London of the beginning of the fortnightly settlement found favorable interpretation here, and lower quotations in wheat stimulated further improvement. At the start St. Paul, Reading, and Copper made new high records on this movement. Early gains ranged from ¼ to ¾ per cent in Union Pacific, Missouri Pacific, Pennsylvania, Tennessee Coal and Iron, Amalgamated, Canadian Pacific, St. Paul, and Ontario and Western. St. Louis Southwestern preferred rose over a point. The weather map showed lower temperatures, with general rains in the West. Government bonds unchanged; other bonds quiet.

During the last half-hour many specialties moved up sharply, including Colorado Southern 1st preferred, 1¾, Canada Southern 1⅛, and Westinghouse 2½. Many houses reported that commission business was indifferent, but others had a large increase in amounts to distribute at the opening. The advance in Reading brought out about 10,000 shares of good profit-taking, but the stock was well absorbed. Dealings in Amalgamated Copper were well scattered.

WASHINGTON STOCK MARKET

Sales—Washington Street Railway 4's, 1,000@83⅞, 1,000@83⅞, 3,000@83⅞, 1,000@83¾, 1,000@83¾.

COTTON OPENS STRONG WITH GOOD BULL SUPPORT

NEW YORK, Aug. 29.—Cotton opened strong, 9 to 17 points higher. Decreasing stocks influenced the market at Liverpool this morning, and in turn promoted a stronger opening here than expected. Good bull support appeared throughout the list. The selling was light and mostly by wire houses. Late cables showed continued advances.

THREE MEN FORFEIT SEVENTY DOLLARS' BOND

Collateral amounting to $70 was forfeited in the Police Court today by Bert Harris, Michael Falliard and John Casey, who are said to have engaged in a fight at 905 E Street northwest last evening about 9 o'clock, necessitating the calling out of the reserves from the First precinct station and attracting a crowd of about 400 persons.

Casey forfeited $10 on a charge of engaging in an affray with the other two men, and $20 on a charge of assault. The other men abandoned $20 each on charges of engaging in an affray.

NEWS AND GOSSIP OF STOCK MARKETS

WASHINGTON.

The local stock market appears to keep step with New York's, in point of strength and activity. Features in today's business were Capital Traction and Washington Gas, in both of which there was considerable trading.

On rumors of an increase in the dividend, Capital Traction advanced over a point, closing at 125¾ bid, and 126 asked, the highest figures of the day.

Of Washington Gas, 50 shares were sold at 57¾, and 100 at 57⅝, which was the closing bid price. After call 50 shares were sold at 57¾.

Mergenthaler sold at a small fraction advance over Friday's bid—185—and closed at that figure.

Washington Street Railway bonds sold at a fractional advance, $5,000 at 83⅞ and $2,000 at 83¾. There was no trading in the preferred stock, but the closing bid was a full point in advance of Friday's closing, and the offering ½. Fifty shares of the common sold at 17.

Lanston showed in a sale of 100 shares at 9¾, a fractional advance over Friday's closing.

NEW YORK.

The London market is generally higher for Americans.

The Erie annual statement, published this morning, shows a surplus, after charges, improvements, dividends, etc., of about $1,100,000, as against a surplus last year of nearly $6,000,000.

Whatever fault may be found with the stock market of the past week on the ground of its professionalism it can not be said of it that it did not respond handsomely to such encouragement as was given it. Every one of the stocks that were conspicuous for their activity rose from one to five points, and their lead was so well followed by the stocks further down the list in point of activity that no less than 105 stocks rose a point or more while only sixteen fell that much.

It is the way of the stock market to discount the future. Stocks began their last long decline months before indications of lessening business activity were discernible to the public's eyes. The stock market has now for several months been advancing, and it would not be surprising if that phenomenon were found to be the forerunner by not a long space of time of a country-wide quickening of business activity and entrance upon a cycle of prosperity more brilliant than has ever yet been enjoyed by these United States.

The inception of the crop moving demand finds our banks facing factors largely novel. This year the crop must be moved without direct help from the Treasury, a situation without precedent since the Treasury began to accumulate a surplus before the war with Spain. A year ago the early demands were met by an increase of United States deposits of internal revenue funds in Western banks. The Treasury this fall has no surplus to devote to such uses, and it is yet an open question if a call must not be made on Government deposits in the banks, although this will be averted, if possible. The only assistance of which there is a promise this year lies in the possible use of the device of "stimulating circulation" by the substitution of other than Government bonds to secure deposits, the Government bonds withdrawn serving thereafter as the basis for increased circulation.

AMERICAN NATIONAL BANK INCREASES ITS CAPITAL

At a meeting of the board of directors of the American National Bank this afternoon it was unanimously agreed to increase the capital stock of the institution to $500,000. In the comparatively brief period of its existence the bank has met with remarkable success, and the increase in the stock is deemed desirable and advisable for the purpose of extending its activity and enlarging its operations. The deposits have now reached the figure of $1,125,000.

The directors also decided that the bids for the alterations in the future home of the bank—the Sun Building, on F Street—must be in by September 15. The contract is to be awarded with the least possible delay, in order that the new quarters may be occupied, if possible, before the new year.

CONTEMPT OF COURT EARNS JAIL SENTENCE

Ferdinand A. Cook was today committed to jail for thirty days by Justice Stafford for contempt of court. The action of the court was taken in connection with the proceedings of Olive E. Cook against Ferdinand A. Cook for maintenance, and the refusal of the latter to obey the order of court to pay her alimony.

NEWS OF GEORGETOWN

UNKNOWN MAN IN CANAL.

Word has been received here of the finding of the body of an unknown man in the Chesapeake and Ohio canal, in the upper levels. The remains were so badly decomposed that identification was impossible. The man was well dressed, but had no papers on his person to assist in his identification. He is thought to have been employed by the Western Maryland Railroad Company, as one of their men had not reported for work for several weeks. After the coroner had issued a certificate of suicide by drowning, the remains were interred by the county authorities.

FATHER HARLIN'S SERMON.

The Rev. Father Thomas S. Harlin, S. J., the new pastor of Holy Trinity Catholic Church, who succeeded the Rev. Father James Francis X. Mulvaney, S. J., yesterday conducted his first service at the church. Father Mulvaney also celebrated his first mass at his now charge at Bowie, Md., yesterday.

Father Harlin is well known to the members of the congregation of Trinity Church on account of his several years of service at Georgetown University, where he was a member of the faculty. Father Harlin was also for several years stationed at St. Aloysius Church, Washington. He was born in Brooklyn, N. Y., in 1853, and was educated at St. Francis Xavier's College, New York city. He was ordained a member of the Society of Jesus sixteen years ago, his first assignment being to St. Aloysius Church. He was ordained at Woodstock, Md., by Cardinal Gibbons. Father Harlan also had charge of St. Joseph's Catholic Church in Philadelphia, Pa., from which place he comes to Trinity.

JUSTICE PAINE RETURNS.

Gen. Halbert E. Paine, justice of the peace of the Seventh district, of 1323 Thirty-second Street, will return in a few days from Eastern Pennsylvania, where he has spent the past month. During his absence H. Randall Webb has been presiding in the Georgetown Court.

W. C. Duvall, the Georgetown deputy marshal, will also return to duty September 1, after a month's vacation. Deputy Marshal Virgil G. Williams, of the Sixth district, has been serving the papers here during Mr. Duvall's vacation.

"THE BOYS" OUT CAMPING.

"The Boys," one of Tenleytown's popular organizations, left this morning for Occoquan, Va., on a two weeks' camping trip. They were accompanied by Prof. William B. Ireland, principal of the Tenleytown Public Schools.

ALLEN'S CONDITION SERIOUS.

Frank Allen, son of Ferdinadd Allen, is suffering at the Providence Hospital with concussion of the brain. His condition is critical. The unfortunate boy fell down an elevator shaft several days ago. His recovery is doubtful.

MR. RILEY RETURNS.

John Riley, of Grand Rapids, Mich., who has been here for the past ten days on a visit to his sister, Miss Sarah Riley, of Thirty-fifth Street northwest returned to his home yesterday.

NO TRACE OF ITALIAN.

The Virginia authorities have no clue to the whereabouts of the Italian boy who shot William White at Dunn Loring, Va., Saturday afternoon. White is under treatment at the Emergency Hospital. The wounds received are not dangerous. From the accounts of the shooting given by the eyewitnesses, the act was done in self-defense. White, who was said to have been intoxicated, struck the boy in the face with his fist, knocking him down, and it was while down that he drew his revolver and fired.

B. & O. EARNINGS SHOW SMALL DECREASE

Due to Large Permanent Improvements and Increased Cost of Maintenance. Expenses Are Less.

BALTIMORE, Aug. 29.—The Baltimore and Ohio July gross earnings from traffic were $5,274,542, a decrease of $589,925.

The expenses decreased $116,619, leaving a net decrease of $473,308.

The net earnings from traffic were $1,848,885, the largest of any month since last October, and show a fraction over 6 per cent as having been earned on the common stock. The net earnings would have been very materially increased but for the fact that the management is continuing reasonably heavy expenditures in the line of permanent improvements, which it was deemed wise to complete before cold weather, in order to expedite the handling of an expected increase in traffic this fall.

Increase in Maintenance.

Maintenance expenses were increased, it being the policy to put the track up to a high standard and keep it there. Material decreases were effected in conducting transportation and motive power expenditures.

An analysis of the revenue shows that 75 per cent of the decrease is chargeable to the condition of the iron and steel business. Coke shipments were lighter, but the coal tonnage increased. Passenger traffic contributed $1,379,538 in revenue, an increase of $60,476. Last year, immigration was exceedingly heavy from Baltimore and this loss was more than overcome, although a great portion of the increase cannot be directly credited to St. Louis business.

COPPER SULPHATE WILL RID POTOMAC WATER

(Continued from First Page.)

within ten to twenty feet of the previous path. In this manner about 100 pounds of copper sulphate can be distributed in one hour.

"By increasing the number of boats, and, in the case of very deep reservoirs, hanging two or three bags to each boat, the treatment of even a large reservoir may be accomplished in from four to six hours. It is necessary, of course, to reduce as much as possible the time required for applying the copper, so that for immense supplies with a capacity of several billion gallons it would probably be desirable to use a launch, carrying long projecting spars to which could be attached bags each containing several hundred pounds of copper sulphate."

FIVE NEW CASES REPORTED TODAY

"Four new cases of typhoid fever reported yesterday. Five more reported up to noon today."

This bulletin issued by the Health Department today shows the steady increase of the disease in the District.

During the twenty-nine days of this month 213 cases have developed, the great bulk of them having occurred since the outbreak of the epidemic the 5th instant at Mount Savage, Md., which town is drained by a creek that empties into the Potomac River near Cumberland.

The rapid increase of typhoid here during this month is shown by the following figures:

Last year, from January 1 to August 29, the total of typhoid cases was 627. This year, from January 1 to August 29, the total was 473. That is, of all the cases that have occurred in the District within the last eight months, almost half of them have occurred within the last twenty-nine days.

Figures Highest This Year.

While last year was one of exceptionally high averages in typhoid, this August has excelled the last year August record, although up to this month this year has been marked by unusually few cases of the disease.

In spite of published explanations that the Potomac water is not the cause of the sudden huge increase in the disease, and that the cool nights have been the real reason for it, the Health Department, after a careful study of the conditions now existing, reiterates its warnings that it is essential, in order to keep down the inroads of typhoid, to boil all Potomac water that is used for drinking purposes.

It has been pointed out by persons well up on typhoid fever that last summer cool nights were almost as common as they are now, and yet there was no such sudden increase in the disease as has been discovered this summer. The general opinion is that the water is the cause of the spread of the disease.

Boiled Water Harmless.

In saying that it is important to the health of the community to have all Potomac drinking water boiled, the explanation is made by the Health Department that boiled water is not at all injurious to the human system. The only disagreeable effect of the boiling is to give the water a certain flat taste.

This can be prevented in two ways, according to the officials of the Health Department. Either let the water stand in an uncorked bottle after it has been boiled, thus giving the air access to it, or else after the boiled water has cooled, pour it from one vessel into another, thus making it pass through the air. Either of these methods will deprive it of the flat taste, and will render the consumer of it certain that it is perfectly healthy and free from germs.

ALEXANDRIA NEWS NOTES.

ALEXANDRIA, Va., Aug. 29.—Eva Baker, Fannie Kimball, Rose Roberts, Anna Fisher, Mamie Wood, Rose Finley, and Emma Bond, seven women from North Lee Street, were arrested last night, charged by Policemen Bettis and Beach with selling liquor on Sunday. In the police court this morning they forfeited $20 collateral each.

VISITING MINISTERS PREACH.

Owing to the absence of the regular pastors, who are taking their vacations, several of the Alexandria churches yesterday heard sermons from visiting ministers.

At St. Paul's Protestant Episcopal Church the Rev. Mr. Dollaway preached in the morning.

At Christ Church the Rev. C. E. Woodson occupied the pulpit in the morning.

The Rev. Mr. Marshall preached in the morning and the Rev. Mr. Bell in the evening at Grace Protestant Episcopal Church.

At the Second Presbyterian Church the Rev. J. E. Brown conducted all the services.

THIEVES FRIGHTENED AWAY.

The store of J. W. Goods, on the corner of King and Payne Street, opposite the western office of the Electric Railway, was entered Saturday night by robbers and some goods piled up preparatory to be taken off. The thieves, however, were evidently frightened before they could remove their plunder.

POLICEMAN HOWSON BETTER.

Policeman James L. Howson, who was struck with paralysis while on duty at the station house several weeks ago, has recovered sufficiently to move about his house, and Saturday paid a visit to the station house.

It is hoped that he will be able in a few months to return to duty.

MANY NEGROES ATTEND DEANWOOD CAMP MEETING

Some of the most prominent negroes in the country will take part in the exercises incident to the twenty-second annual camp meeting at Deanwood Park, which opened yesterday.

Among those who have signified their intention of attending the meeting are Bishop Henry M. Turner, of Georgia; the Rev. Charles T. Walker, of New York; Bishop George W. Clinton, of North Carolina; Bishop A. Waters, of New Jersey; the Rev. Isaac L. Thomas, of Baltimore; the Rev. J. Allen Kirk, of Boston, and the Rev. B. E. Stroud, of North Carolina.

Nearly 3,000 negroes attended the opening service yesterday.

Small Cost of Insurance
"The damage to our house in the recent fire was comparatively slight, but the furniture on the first and second floors was nearly a total loss from fire and water together. I don't know what I would have done without the insurance." Let us protect your furniture at small cost in the largest local insurance company doing business in the District.
