The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.
Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.
As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.
As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.
***Dr. Pierce's Favorite Prescription* is a legitimate medicine,** carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.
"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, *prolapsus, or falling of the womb,* weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."
As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."
"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.
"Favorite Prescription" is the only medicine for women sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.
Large bottles** (100 doses) **$1.00, or six bottles for $5.00.

Cures Cancer, Scrofula, Eczema, Blood Poison, Malaria, Ulcers, and all Diseases Caused from Impure Blood

Cancer of the Tongue.

My wife, some three or four years ago, was troubled with an ulcer on the side of her tongue near the throat. The pain was incessant, causing loss of sleep and producing great nervous prostration. Accompanying this trouble was rheumatism. It had passed from the shoulders and centered in the wrist of one hand, she almost losing the use of it. Between the suffering of the two, *life had grown burdensome.* By the use of a half dozen small-sized bottles of Swift's Specific, she was entirely relieved and restored to health. This was three years ago, and there has been no return of the disease. H. L. MIDDLEBROOKS.

THE RESCINDING OF THAT ORDER.

New York Tribune.

Not a Drum was heard, not a fife, shrill Drum,
As the back track was taken by Grover,
Not a Bourbon but looked uncommonly glum
At the flags which they couldn't recover!

He took the back track of a Thursday night,
A penitent letter preparing,
By the beams of the blazing Northern light,
And Daniel softly swearing!

An angry growl from the President stole,
And he seemed to the calm beholder
Like a man that had put his foot in a hole
Clear up to the blade of his shoulder.

Formal and cold the epistle ran—
He exhibited little dejection—
But steadfastly gazed on the face of Dan
And thought of next year's election!

He thought as he finished and signed his name
And read his rescindment over,
That the boys in blue would tread down his fame
And make it quite lively for Grover!

Loudly they'll talk of his copperhead style,
And curse him both frequent and hearty;
Yet little he'll reck, retaining the smile,
Of the fine old Bourbon party!

But half of his heavy task was o'er
When the news from the country reached him;
And he knew as he read how the veterans swore,
That each loyal heart impeached him!

Slowly and sadly he bit his thumb,
On his brow was a cloudlet of thunder—
He spoke not to Dan, he beat not a Drum,
And they left him alone with his blunder!

DR. McGLYNN.

The Celebrated Priest Conceals the Cause of Poverty.

Chicago Tribune.

Like many quacks in medicine Dr. McGlynn proposes for the cure of poverty a nostrum that would only aggravate existing hardships and discontent. Stripping his preachment of its gaudy rhetorical decoration it amounts simply to a proposition that the industrious, economical classes, who by saving and self-denial have acquired real estate, shall be taxed to the point of confiscation and the proceeds applied to the relief of poverty in the large cities and towns—to the support and maintenance of the drinking, gambling, striking, roistering, improvident, impecunious classes, found in all centres of population. Three-fourths and more of the individual landowners whose property McGlynn proposes to confiscate are the sober, thrifty, hard-working people living in the country and in the smaller towns and villages, and the scheme is simply to divert their earnings, together with those of all owners of real property, into a fund for the relief of the rum-soaked, idle, and dissipated population of the large cities—classes whose poverty is the direct result and penalty of improvidence, idleness, and sensual indulgences.

The poverty McGlynn bewails with such pathos is that of the cities. Told that land can be had in Dakota for the asking, McGlynn replies that his followers "want instead the land of Chicago and New York," although they propose to confiscate *all city and country* real estate. Says McGlynn: "The teachers of this new philosophy love the pavements. We want the schools and the museums and the galleries. We want the gaslight, the parks, and the churches." Why should not McGlynn speak for the following as well as the teachers of the new doctrine and explain that they desire land in neither town nor country, but only greater means for indulging in the feverish dissipations of city life. They "love the pavements" indeed. They want the ruinous pleasures of the saloons, pool rooms, racetracks, and gambling dens unobstructed. They desire less work, more idleness, and greater means to indulge the thirst for alcohol and the appetite for the demoralizing excitements of the pavements. But for intemperance and attendant evils the very class whose misfortunes are loudly lamented by the Rev. McGlynn might be enjoying all the comforts and many of the luxuries of life. The chief cause of poverty and misery in the cities is open, manifest—clear as the light of day to an honest observer. Does the Rev. McGlynn counsel the poor of the cities to rid themselves of the curse which robs them of their earnings, impoverishes their families, deprives them of their ability to earn a good living, and finally wrecks the lives of multitudes? Not at all. He simply proposes a scheme by which they can tax to a full rental the thrifty, temperate, self-denying land-owners and thus secure at once for the impecunious, thriftless classes of the cities greater idleness and more money for drink, gambling, and licentiousness. But for these sources of ruinous waste poverty might be quickly driven from the cities without undertaking to levy on the sober and industrious, economical, and self-denying classes for the support of the idle and intemperate. Dr. McGlynn, *instead* of quenching the flame, proposes to feed it—to give the dissipated, dissatisfied classes of the cities less work and more money—to pile on the fuel and fan the blaze. He is beginning his reform at the wrong end.

That a man like the Rev. McGlynn can talk for two hours about poverty in cities and never mention its chief causes is certainly extraordinary. The people of the United States spend annually the enormous sum of $600,000,000 for alcohol, and seven-eighths of the tremendous waste is taken from the cities. City wage-workers contribute a frightful proportion of the total. Add to this the various attendant vices and sensual indulgences, and need there be any further inquiry respecting the cause of poverty in the cities or its cure? Seven hundred million dollars spent annually in the cities for intoxicating drink! Of this enormous sum (which exceeds all the National, State, city, county, village and school taxes expended in the United States) the drinking classes of Chicago contribute $15,000,000 per annum! Compute also the value of the time lost in drinking and sobering off after *spree*s, the impairment of working capacity, and the money value of ruined health, and the amount is at least doubled. The burden is appalling, and so long as the urban population voluntarily indulges this dissipation poverty in cities must prevail. Under such circumstances the George-McGlynn scheme of securing money by riot-confiscation to supply unthrifty people with more means for dissipation and more idle time in which to indulge appetite would only quicken the pace towards destruction. If the Rev. McGlynn were a true follower of his Master he would have told his hearers the chief cause of urban poverty, and exhorted them to practice abstention from alcoholic indulgences as the *surest, swiftest,* best way of getting rid of poverty and misery and giving competence and happiness.

DUTIES OF CATHOLICS

Made Clear by an Eminent Priest—The Authority of the Pope.

Philadelphia Press, June 27.

Rev. Dr. Ignatius F. Horstmann, chancellor of the Roman Catholic Archdiocese of Philadelphia, preached yesterday morning at the Cathedral on obedience to the Pope.

He made no reference by name to Dr. McGlynn or Henry George, but said his remarks were addressed to those who were disseminating by their speeches and writings a spirit of contempt of the papal authority. The speaker first quoted the Testament to prove that the inspired commands found there directed absolute obedience to the head of the church. The Council of Florence and all other ecclesiastical bodies belonging to the Roman Catholic Church have acknowledged his authority. Those who speak against him can never deceive the people unless they pose as good Catholics. And they cannot do this when they are disobedient.

The Church has threatened with excommunication those of the belief who join the Masonic Order. Those who defend such disobedience do not deny the authority of the Pope, but say he is disobeyed only because he does not understand the true inwardness of the matter. Those why are defying him now do not deny that he is absolute, but protest that he has been misinformed. Who is to judge in this matter—the private individual? The Pope is the last resort and appeal to him is final. These people say the Pope and the hierarchy have no right to interfere with purely temporal matters and that they have no right to declare certain acts illegal and contrary to peace and good order. They might as well say Jesus Christ has no right to interfere in the established laws and human rights.

The Pope not only teaches us what we ought to do in matters of faith, but what we ought to do in the matter of morals. Now, his care over our morality consists in letting us know *what is right and what* is wrong, and what is lawful or unlawful. It embraces man in every one of his relations as father, son, citizen, workman, capitalist, merchant and legislator. It runs through all states of society wherever a man has rights or duties, there morality is in question. The supreme authority in such matters is the Pope, the authority established by Jesus Christ; it is the Church speaking through its acknowledged head. He is constantly deciding just such questions. The Church through him condemns bribery, drunkenness, swindling, working on Sunday and keeping saloons open on Sunday, eating meat on Friday and abstinence days, divorce and a thousand other sins. It refuses the sacrament to those who disobey.

Trial by Jury.

Carson (Nev.) Appeal.

A few days ago there was a small civil suit tried before the Justice of Pizen Switch—the same man who decided the Anti-Treat law unconstitutional. It is always customary in such cases to have the winner of the suit pay the fees. The plaintiff—a big, raw-boned rancher—was called upon to pay the jury of six $2 apiece. He immediately stood up in Court and queried: "Pay the jury $12?" "Yes," replied the Court. "Look-a-here, Judge, ain't this sorter piling it on thick? I just paid *four* of them fellers $20 apiece. Do they want the earth, summer fallowed?" The dead silence in the room was broken by a slight snicker from defendant's attorney. The bailiff called everybody to order, and the jury filed out without asking for fees.

Cure of Grafts.

Exchange.

Grafts set this spring will need attention. It shoots start upon the stock where they will rob the graft, remove them. A graft should be treated as if it were a young tree, planted in the stem of another tree, instead of in the ground. Where there are several buds upon the graft, one will often get the start of others, and outgrow them. Check this by pinching the ends of the shoots of the rampant grower.

Using Them For Fifty Years.

ARKANSAW, PEPIN CO., WIS., Dec. 2, 1885.—For upward of fifty years I have used BRANDRETH'S PILLS. I am now nearly eighty years old and in good health. That my faculties are still intact is due to this fact, and this only, that I have almost relied on BRANDRETH'S PILLS to the exclusion of stronger medicines to restore me to health whenever seriously indisposed or in great suffering from colds, backache, &c., and am deeply grateful, next to my Maker, to the blessed man who originated and placed within reach of his fellow-beings so simple and efficacious a remedy. For billious derangements and kidney disturbances, their usefulness, in my experience, is particularly noticeable.

The Verdict Unanimous.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with *disease*, when there *is no occasion* for this feeling, as every sufferer can easily obtain proof that *Green's August Flower* will make them free from disease as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of *August Flower* will prove its wonderful effect. Sample bottles, 10 cents. Try it. DAW
