[Entered at the Postoffice at Wheeling, W. Va., as second-class matter.]

WHEELING, SEPTEMBER 20, 1889.

A WHEELING sunset in these Autumn days is worth a king's ransom to look upon.

NATURAL gas is such a comfort and convenience that Wheeling yearns for more of it. Natural gas has been disappointing in nothing save the promise of its abundance.

MRS. JOHN A. LOGAN says she would not think of becoming the Commissioner of Pensions. If she had the title, you may bet your last nickel that you can name the person who would run the office. That's the kind of woman Mrs. John A. Logan is.

IF Congress will find a way to stop undervaluation of imports, the average percentage of protection will come much nearer to what Free Traders say it is. *This would be well for the country*, and it would enable the Free Traders to get nearer the truth than is their habit in these matters.

ROBERT RAY HAMILTON was not disenchanted when his coat was ripped up the back and his countenance was in danger of being damaged by a whisky bottle. It was necessary that the police force of New York should pry his eyes open with the evidence of a conspiracy to plunder him, probably to murder him. Mr. Hamilton is one of our remarkable men.

PROFESSOR KROGH, the instructor secured by the Wheeling Turners, writes on the always important and much neglected subject of physical culture. Fortunately for this generation of Americans and for the generations to come, physical culture is attracting something like the attention that belongs to it. Is it too much trouble to be well and strong and live long and be able to laugh at all the blue devils that torture the dyspeptic and the nervous?

The World's Fair in 1892.

France gave four years to designing and constructing the buildings for the present great Exposition. Two years remain to do all that must be done before our World's Fair can be ready for business. And yet the place in which the fair is to be held is not fixed upon. For some reason Washington seemed to be preferable, but in the contest between New York and Chicago Washington has dropped out, and the prize will go to one of the two great cities.

If New York had acted promptly, put up a handsome guarantee, selected a site and shown that she meant business, her prestige would have decided the question in her favor. It would have been another case of "Eclipse ahead, and the rest nowhere." New York has done practically nothing but talk, and her talk has not been of a character to convey the impression that she is in earnest. From all that comes from New York it is a fair inference that the few who really want the World's Fair in that city have been unable to arouse those who hold the purse-strings.

The course of Chicago has been very different. That city has gone into the World's Fair business as though she had nothing else to do at this time. Her moneyed men have come forward and shown the color of their gold. Naturally this dashing confidence wins friends for Chicago, which is several good lengths ahead of New York at this writing.

Chicago has all the room that can be asked, and then she will not be crowded. She can take care of the people, and she will do it as well as it can be done in any city of the Union, perhaps a little better. She is a marvel among cities, a great commercial center, a wondrous hive of industry; in short, if a foreigner were to ask for an illustration of the progress of this country in the past fifty years, Chicago would be the answer. Fares from the Atlantic seaboard will be so cheap that no visitor from abroad will take them into consideration; and for that matter, foreigners who come to this country do not think they have seen it until they have been to Chicago. For the millions at home, Chicago is infinitely more convenient than New York; and it is from these home millions that the World's Fair is to draw its crowds.

All aboard for Chicago!

New England Woolen Manufacturers and the Wool Tariff.

The Boston *Journal of Commerce* prints interesting interviews with New England manufacturers of woolen goods, who have been supposed to be rushing in head over heels for free wool. Views of carpet men were not asked, for these manufacturers are presumed to be friendly to the free importation of wool. The *Journal of Commerce* thus summarizes the interviews:

We do not place the free trade sentiment in the majority, at present, but it seems fair to assume that the time is not far distant when this will be the case. As near as we can estimate the prevailing sentiment of the woolen manufacturers of New England concerning the tariff on wool, we should put it at one fourth to one-third in favor of free trade, and two-thirds to three-fourths in favor of protection. Our replies would seem to give a larger proportion in favor of free wool than even one-third, but it is our impression that if all of our letters requesting the views of manufacturers had been answered the estimate set by us would have been found not far from correct, including only those using wools of the first and second classes.

It should be remembered that the crystallization of the sentiment favoring free wool is of recent origin, though it has been in a sort of plastic state for many years. This has been largely due to the long continued depression in the woolen manufacturing business. A few years ago, we will say two, probably not more than one manufacturer out of ten, would have been willing to announce himself positively in favor of free wool, while to-day we feel confident in our estimate that one in every four or three is willing to so declare himself. Were it not a matter of policy to hold the active co-operation of the wool grower in all legislative work, we think a large majority of manufacturers to-day would declare themselves in favor of free wool.

The INTELLIGENCER is not prepared to say that the estimated proportion of manufacturers in favor of free wool is too high, not that there is not an increasing number of manufacturers who would like to have free wool. There is, however, reasonable room to doubt whether the drift in favor of free wool is as strong and rapid as the *Journal of Commerce* thinks. Some of the manufacturers interviewed are wise enough or fair enough to be willing to give the wool-grower a chance to live. To show the feeling of this element we quote from the interviews in the *Journal of Commerce:*

J. Phillips, Jr., worsted and cassimeres: "I strongly believe in the continuance of an ample protective duty on both wool and woolen goods. Congress should, by careful investigation, fix the duties on wools and the duties on yarns and cloths in harmony."

E. A. Wheelock, Pres., cassimeres: "I believe in protection because of its advantage to both manufacturers and wool growers. I know of no reason that would make any change in our present tariff laws on wool desirable to me."

Ottaquechee Woolen Company: "We are heartily in favor of protective duties on wool and the manufacturers of wool. Free wool means higher wool abroad and lower wool at home, also cheaper goods here and higher goods abroad."

Hartford Woolen Company: "We believe in protection to every industry in our country as a principle, and we are satisfied with the present tariff laws correctly construed and honestly applied."

Another reply says "We are in favor of a protective duty on wool, for the reason that we believe that when you admit wool free, as a natural and reasonable consequence the farmers are going to ask for free goods, and they can outvote us and will really bring an era of free trade, which is not desirable, in our opinion."

A cassimere manufacturer replies: "I believe wool should be subject to protective duties. I believe in protection for the mutual advantage of both grower and manufacturer, and with a protective tariff in force their interests are identical."

A knit goods manufacturer says: "I am a protectionist from principle, and know of no reason why the manufacturer should be protected on his goods and the wool-grower not protected on his product."

A cassimere manufacturer replies: "I favor a duty on wool for the reason that the wool-grower has just as good a claim for it as the manufacturer."

A hosiery manufacturer says: "I firmly believe in a duty upon wool. I believe in protection both upon the broad and equitable ground that the wool grower is as much entitled to it as the manufacturer."

If the manufacturers who express these sentiments can do business successfully with a duty on wool, why cannot those who are demanding free wool? Be this as it may, the argument in favor of protecting wool along with woolens is unanswerable. The manufacturer who thinks it possible to abolish the duty on wool and sustain it on the manufactured product, has read to little purpose the book of human nature. The experiment will not bemade very soon.

THE METHODIST PREACHERS.

The West Virginia Conference Convened Wednesday at Point Pleasant—Reports Showing Great Prosperity.

Special Correwondence of the Intelligencer.

POINT PLEASANT, W. VA., Sept. 18.—The West Virginia conference met in its forty-third annual session at this place this morning at 8:30 o'clock. Bishop I. W. Joyce conducted the religion exercises. He read the fifty-third chapter of of Isaiah and a part of the twenty-sixth chapter of Matthew, and announced the 835th hymn. The preachers sung the hymn fervently. During the singing the Presiding Elders were called about the altar, and after prayer assisted the Bishop in administering the Sacrament of the Lord's Supper. This service was very impressive and pervaded by a deep spirit of devotion. The secretary of the last session called the roll of the conference, and about one hundred answered to their names. This would indicate an unusual number of absentees. Many of these, however, will arrive to-day.

Rev. W. G. Ribeldaffer was chosen Secretary by acclamation. C. B. Graham was elected Statistical Secretary. The usual standing committees were appointed. Rev. George Shaw, suspended last Conference for one year, was restored to his former place and reclothed with full ministerial functions. The Kentucky Conference being now in session at Ashland, fraternal greetings were sent to that Conference. At this juncture the following resolution was presented:

"WHEREAS, There seems to be some difference of opinion or misunderstanding as to the position of this Conference concerning campmeetings and Sunday school conventions of our church, which keep open gates, collecting tickets and fees of admission on the Lord's day, therefore,

"*Resolved*, That the Committee on Sabbath Observance be and is hereby instructed to so frame its report as to place this Conference at once with the action of the late General Conference on this as well as all other points touching the Sabbath."

Dr. Homer, of Pittsburgh, was introduced and addressed the conference.

The following transfers were announced: D. A. Dixon, to the Virginia Conference; Charles Bolinger to North Dakota; D. Cool to Central Illinois; R. F. Randolph to New York; S. B. D. Prickitt to New Jersey. The following ministers were transferred to this conference: G. R. Copeland and Dr. Cushing. Rev. M. F. Dryden, recently transferred to Portland, Maine, will in all probability, be transferred back to West Virginia, this step being necessary on account of family affliction. Rev. Dryden's own health has been bad for some weeks past. He is now at Clifton Springs recuperating.

Your reporter saw to-day a letter from Bro. Dryden, in which he states that he is rapidly improving, and expects in a few days to return to Wheeling almost as well as ever. He will take work in this Conference, and the church that secures his services will be a fortunate church.

The call of the districts was begun. The character of L. H. Jordan having been passed, he reported his district. The reports of the preachers from this district showed a good condition of church life.

J. M. Warden, Presiding Elder of Charleston, after his character passed, reported his district. His report exhibits a prosperous state of things in some parts of the territory embraced in this field.

Now railroads are being projected through this part of the State and new mines are being opened up, bringing a great many Northern people, capitalists and wage-workers into the State. The people of the State have suffered great loss by the floods during the past year.

Brother Jones, of the Wheeling district, reported his work, showing a steady improvement in most charges.

Within the bounds of this district there has been an unusual activity in church building and improvement. The benevolent collections are in advance of last year.

Dr. J. A. Fullerton reported the Parkersburg District, of which he is Presiding Elder. He reported a steady improvement in most of the charges. Perhaps this county has suffered more than any section of the State by the terrible rainstorms of the past summer. More new churches and church improvements have been built and made within the Parkersburg district than any other in the conference.

Rev. H. H. Miles was given a superannuated relation and requested to locate at the next session. Rev. J. Lee reported the Clarksburg district. His field has been well cared for. Methodism is apparently in vigorous health.

Rev. J. S. Hess will preach the mission sermon to-night at 7½ o'clock.

Chaplain McCabe is expected to be present and address the conference.

Catarrh Can't be Cured

with local application, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you have to take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucus surface. Hall's Catarrh Cure is no quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucus surface. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free.

F. J. Cheney & Co., Prop., Toledo, O. Sold by Druggists, price 75c. DAW

ROANE COUNTY DEVELOPMENT.

On the Verge of a Big Boom—Spencer Getting Out of the Woods—Political Points.

To the Editor of the Intelligencer.

SIR:—Roane county feels herself to be on the verge of a tremendous boom. When we have communication with the outside world we will rejoice in a prosperity hitherto unknown.

Immigration, Development and Republicanism will follow the opening of the railroad to Spencer, just as surely and just as naturally, as light follows darkness.

Hail to the day when the crust is broken!

Work on the Asylum is being pushed steadily forward.

Though the Spencer fire of two years ago can hardly be called a blessing in disguise, the town is bigger, better and handsomer than it would have been. Old ramshackle buildings have been replaced by structures worthier of a place of Spencer's aspirations.

I believe many Democrats are secretly glad of the change in the National Administration. Though a certain class still comfort their hearts with the howl of "hard times." A prominent Democrat, a county official and dealer in live stock, told me a few days ago that "prices are a little better than last year and the demand is good."

The truth is, our farmers have had to sacrifice so much of their stock during the low price Cleveland administration, to meet taxes and other pressing demands, that few have anything to sell when prices improve.

The work of decapitation goes merrily on. "Heads off" has been whispered into the ears of most of the Cleveland appointees in this county. General Clarkson handles the axe like an adept. Democrats threaten all kinds of retaliation if they elect a President in 1892. That is all right, but it will take a goodly assortment of miracles to get over that big, big "if."

Roane county has two Grand Army posts, Curtis Post, at Mt. Union, and Cleavenger Post, at Spencer. Both are in a flourishing condition and growing rapidly. If the good work goes on the old defenders of the Union will be welded in a solid mass of patriotism and fraternity. There will be organized at Spencer in a few days a Camp of Sons of Veterans, for those of us who are barred by boyhood from entering the G. A. R.

Spencer must have next year a grand reunion of all the boys in blue of Roane, Jackson, Wirt and adjoining counties, with Gov. Goff and other good speakers to address the people.

Of course, if he desires it, the Hon. C. B. Smith deserves a renomination, for the handsome manner in which he overcame the miserable gerrymander in the "shoe string" district, but many friends of Senator Woodyard, of this place, are wont to think of his name in connection with Congressional honors in the near future.

The Senator, however, is young and his friends can afford to wait a few years.

The *Record*, a staunch Republican journal planted at Spencer last years, has made itself a power in local politics and is prospering mightily. So mote it be.

ROSCOE.

Easiest Thing in the World.

Judge.

Jones is of a benevolent turn of mind, and is always willing to give his advice freely, even when not asked.

"Now, my good man," he remarked to a countryman he met on his vacation, "you should, by all means, put your money in a savings bank."

"Yes; but how could I get it out again?"

"Oh, easy enough—the very next day, in fact, that is providing you gave them a fortnight's notice."

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. We know of no remedy for dyspepsia more successful than Hood's Sarsaparilla. It acts gently, yet surely and efficiently, tones the stomach and other organs, removes the faint feeling, creates a good appetite, cures headache, and refreshes the burdened mind. Give Hood's Sarsaparilla a fair trial. It will do you good. 4

JACOBS & ISENBERG closing out retail stock. Now is your time to buy bargains.

A wise man embraces an opportunity, the fool hugs a delusion.

The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold, or any throat, lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial bottles free at Logan Drug Co's drug store. 6

It is astonishing how rapidly the feeble and debilitated gain strength and vigor when taking Ayer's Sarsaparilla. For what are called "broken down constitutions," nothing else has proved so effective as this powerful but perfectly safe medicine. DAW

Sick Headache.

Loose's Red Clover Pills cure sick headache, dyspepsia, indigestion, constipation, 25c. per box, 5 boxes for $1. For sale by Logan Drug Co., Bridge Corner Druggists, Wheeling, W. Va. DAW

Property Owners!

A Volume of Information On Tin Roofs Free of Cost!

If you have decided to place a tin roof upon your house you should, in justice to yourself, obtain the best possible information in regard to tin for roofing purposes. No property owner can afford to remain ignorant when a whole volume of information devoted to the selection, laying and painting of a tin roof, can be had for the asking. Messrs. Merchant & Co., of this city, are conceded to be authority on tin roofs. They have devoted much time, labor and money in presenting, in readable shape, a mass of facts upon this subject, which are of great interest to property owners. The constant inquiry from property owners for these books evinces the fact that there is considerable quiet thinking being done just now by a large number of gentlemen, who have heretofore given the subject very little consideration. What the outcome will be, almost any one can anticipate. A better class of roofing is sure to follow, as a natural consequence. A wise property owner will send for Merchant & Co.'s new book; and, after reading it, he will certainly conclude that there was much that he did not know upon the subject of tin roofs.—*Philadelphia Real Estate Record, September 11, 1889.*

THE UP GRADE

Hear the engine blow and puff; it's up grade. It's worth a little struggle and some puffing and blowing to get up to the top. Pile on the coal, fireman; shake her up, engineer; you're bound to get there. We are going to puff and blow a little—pile on the coal and get up steam—all because of our

Way-Up Grade Goods.

They're worth puffing and blowing about. Now, for STYLE, for QUALITY, for VARIETY, for GENERAL EXCELLENCE OF WORKMANSHIP AND MATERIAL there isn't any other stock to be compared with ours. Tall talk we admit, but we fall back on our goods. If they are not "up grade" and way up at that, you may call us blowhards. Metaphorically

WE STAND ON OUR STOCK.

You can't laugh at a snake story when the man who tells it produces the snake. We produce the snake (otherwise the stock we tell about) and if it isn't as big and as wonderful as our tale makes it out, you can laugh till you're tired. It costs you nothing, remember, to see the best and biggest stock in town, and

IT WILL COST YOU LESS

to buy out of this stock than out of any other; cost you less in the start, in the actual cash, and very much less in the long run when wear and tear get into the account. Our advice to everybody is: "Buy the best" and at the same time we intimate that you will find THE best at

Trustee's Sales.

TRUSTEE'S SALE.

By virtue of a deed of trust made on the 18th day of October, 1884, by Reason Mazingo to the undersigned trustee, and of record among the public land records of Ohio county, West Virginia, in deed of trust book 21, folio 469, I will on

FRIDAY, OCTOBER 4, 1889,

beginning at 10 o'clock a. m., at the front door of the Court House of Ohio county, West Virginia, in the city of Wheeling, proceed to sell at public auction the following described real estate, to-wit: A certain lot or tract of land situate in the town of Clinton, in Ohio county, West Virginia, and bounded as follows: Beginning at a post in a fence on the bank of Short creek; thence S. 7½° E. 12 poles to a stake; thence S. 69° E. 5 22 poles to a stake; thence N. 21½° E. 56 poles to a stake in the Potomac turnpike; thence with said turnpike N. 69° W. 12 poles to a stake; thence N. 86° W. 7-94 poles to a locust post in fence; thence S. 18° W. 8.8 poles to the place of beginning, and containing 80 perches more or less.

TERMS OF SALE—Cash.

The title to this property is believed to be good, but selling as trustee I will convey only such title as is vested in me as such trustee.

WM. H. CALDWELL, Trustee. J. C. HERVEY, Auctioneer. au5

Legal Notice.

OFFICE OF THE CLERK OF THE County Court of Ohio County, West Virginia.

In the matter of the probate of the will of Catharine Durst, deceased.

This 20th day of August, A. D. 1889, John Atbenz named executor, filed his petition asking for the probate of the will of Catharine Durst, deceased; and it appearing by said petition and affidavit therewith filed that Barbara Pfefferman, Edward Durst, George Durst, Jacob Durst, and Louis Durst, are non-residents of the State of West Virginia, it is therefore ordered that the aforesaid parties do appear within one month from the first publication hereof and do what is necessary to protect their interest in this matter. Published the first time August 30, 1889.
