THE NATIONAL SONG.

My country, 'tis of thee,
Sweet land of liberty,
Of thee we sing;
Land where Tom Reed is Czar,
Land where Jim Blaine's a star,
Where Kilgore kicks the tar
From everything.

Let music swell the breeze,
And ring from all the trees,
Sweet freedom's song;
Let old man Barnes awake,
Let Amos Cummins take,
While Senate speeches make
The session long.

My native country thee,
Land where all speech is free
For him who talks;
I love thy Roger Mills,
Insane on tariff bills;
My heart with rapture thrills
O'er Richard Vaux.

DEATH OF GENERAL SULLIVAN.

His Military Career in West Virginia—A Son-in-Law of General Kelley.

On the 21st instant, the following Associated Press dispatch from San Francisco appeared in the INTELLIGENCER:

"Gen. J. C. Sullivan, who commanded a division under Rosecrans, and who fought the battle of Iuka, died at Oakland this afternoon from a hemorrhage. He was brevetted Brigadier General after the battle of Kernstown. He leaves a wife and daughter."

The following facts concerning the career of the deceased will be interesting to West Virginia soldiers:

General Sullivan was a gallant officer of the Army of West Virginia. He came into Western Virginia in June, 1861, in command of the Thirteenth Regiment of Indiana Volunteer Infantry. In the following month of July his regiment took a prominent part in the battle of Rich Mountain under General Rosecrans. Subsequently, in the months of September, October and November, he was engaged in the Cheat Mountain and Elk water pass under General Reynolds against the Confederate force commanded by General Robert E. Lee in person. After Lee's repulse and retreat, Sullivan, with his regiment, was ordered to report to General B. F. Kelley, at Romney, in December, '61. In March, 1862, after the death of General Landey, who had relieved General Kelley, General Shields was ordered to assume command of the troops of the Army of West Virginia. In the movement east into the valley of Virginia, General Sullivan's regiment lead the advance into Martinsburg and Winchester, and participated in the battle of Winchester, in which Shield's troops defeated Stonewall Jackson. His regiment was subsequently ordered to the Army of the Tennessee, and served with distinction under Grant and Rosecrans. He was appointed a Brigadier General in 1863. After General Kelley was assigned to the Department of West Virginia, General Sullivan was ordered to report to him. He was assigned to the command of a division with headquarters at Harper's Ferry. He commanded a brigade in General Hunter's movement on Lynchburg, Virginia. General Sullivan's widow is the daughter of General B. F. Kelley.

Personal Liberty vs. Physical Slavery.

We are all free American citizens, enjoying our personal liberty; but most of us are in physical slavery, suffering from scrofula, salt rheum or some other form of impure blood. Hood's Sarsaparilla is the great blood purifier which dissolves the bonds of disease, gives health and perfect physical liberty. 2

THESE ARE THE ISSUES.

Don't Let Them Be Neglected, Misrepresented or Misunderstood.

Shall Congress be a deliberative assembly wherein public measures may be properly considered, duly debated, and then, without waste of time, actually voted upon; and wherein the American principle of "majority rule" shall be respected, or shall it be a mob, incompetent *to act, powerless to carry out the* public will, with a majority so overcome by its own rules that it is dependent upon the minority for its authority and power?

Shall we allow the Capitol to be filled up with men who obtain seats in Congress not as the result of a free ballot *and a fair count, but by the forcible sup*pression of franchise rights, by wholesale frauds, by murder, arson, brutality, and other crimes?

Shall we abandon the policy of protection, after all it has done for us, to enter upon a policy which we have tested many times to our immediate, unfailing and tremendous *loss?*

Shall we again rob ourselves of the rewards which have so richly come from the restoration of silver, and once more play into the hands of foreigners who have been for years buying our silver at low prices and using it against us in the grain markets of the world?

Shall we pay our money, $150,000,000 a year, to build up the merchant marine of England, to increase her strength upon the sea and her hold upon the *foreign markets of the world, when we* might as well as not be paying it for our own advantage in all of these respects?

Shall we keep our plighted faith to the loyal men who offered their lives in defense of freedom and union, and to the protection of whose families from want and misery we gave our word as a nation?

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with abscess of lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung troubles. Was given up by doctors. *Am now in best of* health." Try it. Sample bottles free at Logan Drug Co.'s drug store. 5

A Remarkable Letter.

The following letter from Mr. W. A. Thomson, of Columbus, Wis., is peculiarly interesting: "My wife," says he, "has been treated for her head, stomach and nervous prostration by three doctors in New York, two in Chicago, one in Philadelphia, one in Cincinnati, and at the large Institute in Buffalo for 16 months. They all failed. But one bottle of Dr. Miles' Restorative Nervine helped her wonderfully." An Atchison man has a checker board which he constructed out of 3,000 separate pieces of wood.

REV. J. O. R. CORLISS, pastor of the Methodist Church at New Gretna, Burlington county, N. J., writes very encouragingly as follows:

Dr. G. W. Kirk, Dear Sir—About four years ago I took a heavy cold that resulted in a stubborn catarrh. It increased in severity, gradually extending downward to the pharynx and larynx, thence to the bronchia. The back part of my throat was covered with ulcers; my voice lost its strength and resonance, sometimes fading away into aspirations. To go out into cool air was to be filled up with phlegm and mucous until it was no pleasure to leave the house. I tried remedies officinal and remedies patented, with no relief, the disease still increased in malignance. Radam's Microbe Killer was suggested to me, and had some one other than yourself had charge of it I should have dismissed it from my mind. Having confidence in your judgment, I felt "there must be something in it." A faithful use of the *remedy has convinced me that there is* salvation in it for every catarrhal sufferer. I feel improved in every way; health much improved, voice strong, discharges *much less profuse, ulcers healed, hoarse*ness gone, can get a full breath of air—in short, can say the remedy is all that is claimed for it. Yours,

J. O. R. CORLISS.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, Oct. 28.—Money on call easy, ranging from 4 to 6 per cent; last loan 4½ per cent; closed offered at 5 per cent. *Prime mercantile* paper 6a8 per cent. Sterling exchange quiet and steady at $1 81a1 85. Sales of stocks were 120,627 shares.

There was very little in the stock market today outside of the few leaders, but the transactions in them, while not as large as usual of late, rolled up a respectable volume of business at almost steadily declining prices. Sugar was again the leader, and while there was a disposition to await developments, on the part of the majority of holders, the traders again took advantage of such a situation to hammer the stock down. There was no let up on the stock from the opening to the close, and while the decline resulting was not so large as last week, it amounted to over 4 per cent. Union Pacific was also attacked and shows a decline.

The Granger stocks, with Louisville and Chicago Gas, were prominent in the dealings, but only the last named sympathized with the downward movement to any marked extent. There were a few strong spots in the list, but they were all in the active specialties. The market was extremely dull after the bulk of the hammering was over, and closed heavy at about the lowest prices reached. The final changes are mostly for small fractions in the direction of lower figures, except Sugar, which is down 2½ per cent.

Railroad bonds dull. Sales $810,000.

Government and State bonds dull but firm.
