HEADACHE, SLEEPLESSNESS, NERVOUS PROSTRATION.

Dr. Miles Medical Co., Elkhart, Ind.

Gentlemen: I take pleasure in informing you of the very beneficial results which have followed the use of DR. MILES' RESTORATIVE NERVINE in the case of myself and wife. For a year I was subject to a distressing pain at the base of the brain and upper portion of the spinal cord. I lost flesh and was greatly troubled with sleeplessness. Your Nervine was highly recommended to me. My case had been so obstinate that I had no confidence in the efficacy of any medicine. Yet as a last resort I consented to give it a trial. Much to my surprise, I experienced marked benefit; my sleeplessness disappeared; my headache was removed; my spirits and general health greatly improved. I soon gained twenty pounds. All this occurred after I learned and well known physicians had failed. My wife is taking the Nervine with the best of results. LOUIS D. VANDERVERE.

REVELRY TO RIOT

But a Step From One to the Other at the Carmencita Ball.

DISGRACEFUL NEW YORK AFFAIR

For Which a Drunken Policeman was Responsible—A Skirt Dance in a Box and the Attempt of An Officer to Stop It—One Man Killed in the Melee and Several Badly Wounded.

NEW YORK, April 3.—From revelry to riot was but a step, and a short one at that, at the masque ball of the Carmencita Club in Tammany Hall at about 3 o'clock this morning. There were upon the floor and in the boxes *not far from 1,500 persons*, and though the bar was closed there was no lack of intoxicants, so that when the disturbance began many persons were crazed with drink. Roundsman Shay precipitated the trouble by undertaking to stop the performance that was going on in a box occupied by Eddie Hirsch, keeper of a Coney Island dance hall, and a party of his friends. The officer was told to mind his own business, whereupon he tried to pull Hirsch from the box. Instantly a rush was made for the officer. Other policemen in the hall went to Shay's assistance. Bottles and chairs were made use of by the crowd. Clubs were swung lustily and many heads were made sore. In the midst of the affray the lights were extinguished, but the struggle did not even then abate.

When the lights were again turned on one man was lying dead upon the steps leading to the street. His name was Terrence Gallagher, aged thirty-three years, a race track man whose residence was 122 East One Hundred and Twenty-fifth street. Mark Buckner, a Baxter street puller-in, had his head cracked and may die. George Bernetein, a bar-keeper, was badly cut in the hand. The fight lasted until a call sent to the nearest police station had brought to the hall a detail of officers strong enough to overawe the frenzied crowd. The police say that Gallagher's death was caused by heart disease. It is alleged that roundman Shay, whose effort to stop a skirt dance in Eddie Hirsch's box brought on the row, had been drinking and was in fact drunk.

The organizer of the Carmencita club is Edward A. Corey, an ex-detective and a former partner of Billy McGlory, of dive fame. Corey now has a saloon at 115 East Fourteenth street. The programme shows that among the honorary members are the leaders of several east side political clubs.

WEATHER CROP BULLETIN.

Report of the West Virginia Weather Service For the Week Ending March 31.

U. S. DEPT. OF AGRICULTURE,
WEATHER BUREAU.
PARKERSBURG, W. VA., April 2.

The month of March, 1894, will long be remembered as a remarkable one in many respects, more especially because of the fact that both the highest and lowest temperatures on record occurred. Up to and including the 24th the conditions were markedly in favor of the growth of all forms of vegetation and farming operations were pushed accordingly. Temperatures from the first of the month to the date mentioned were above the normal.

At Parkersburg the temperature reached 86 degrees on the 20th. This abnormal state of temperature was followed on the 25th by conditions decidedly the reverse, and from that date to including the 30th temperatures were below the normal, very low temperatures occurring on the 26th, 27th and 28th, the unusual temperature (for March) of 16 degrees occuring on the 27th. These low temperatures were accompanied by a hard freeze on the morning of the 26th, hear frost on the 27th and a killing frost on the 28th and proved very destructive to all forms of vegetation, in many instances being almost fatal as far as a future crop was concerned. The amount of precipitation was, as a rule, below the normal, the last week showing a slight increase to above. The percentage of sunshine was about average.

CEREALS AND GRASSES—Owing to the rather open winter wheat was not as well protected by snow as generally, but some is up and looking fairly well. Clover and grass had started nicely but much damage was done by the freeze and frosts. Some wheat and oats were also frozen. In some localities the fall of snow that accompanied the freeze protected the wheat to a very great extent. Oats not all planted, but some is up. Some rye sown.

VEGETABLES—Garden truck was doing nicely until the 26th. Early planted potatoes and onions were badly injured by the cold and gardens generally will be affected.

FRUIT.—Up to the 24th the prospect for a good crop was very encouraging. From all sections comes the information that immense damage was done by the severe cold. Apples, pears, peaches, apricots, plums, cherries, quinces and grapes were all injured to a more or less extent. In some districts many of the fruits mentioned were killed outright, especially peaches, cherries and early apples.

FARMING OPERATIONS.—Plowing and preparing ground for corn well along but was retarded somewhat by the recent cold snap owing to the fact that the ground was frozen.

H. W. RICHARDSON,
Observer, Weather Bureau, Director.

NOTE: The conditions enumerated in the foregoing bulletin were compiled from reports received from 100 correspondents, representing a territory covering fourty-four counties, the ten counties being in mountainous districts.

Pennsylvania Forest Fire.

LANCASTER, PA., April 3.—A spark from a locomotive on the Lancaster & Downington railroad set fire to the Welsh mountains near Bareville, last night. The flames spread rapidly, and by morning several hundred acres of timber were destroyed. The fire burned itself out having spread to clearings in all directions. All attempts made to stay its progress were futile.

Steam Barge Sunk.

MACKINAW CITY, MICH., April 3.—The steam barge, William H. Barnum, laden with 55,000 bushel of corn, struck an iceberg and foundered about six miles from Mackinaw City. Her masts can be seen above water. The crew were rescued by the tug Crusader.

Fresh Cows—$20@30; calves, 3½@5c.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, April 3.—Money on call easy at 1 per cent; last loan and closed 1 per cent. Prime mercantile paper 5@5½ per cent. Sterling exchange dull but firmer at $4 85¾@4 89. Silver certificates 61½c. Total sales were 162,600 shares.

The movement of the stock market to-day was not interesting to the street at large. The speculation was spiritless and was largely confined to the room traders who worked with less concert of action than usual. The market was of that halting, hesitating character which often precedes a decided movement in the direction of lower prices. The grangers made a fractional gain during the morning, but sagged off in the afternoon, closing at a decline of ⅛@½ per cent. There was some covering of shorts in Reading. The industrials were comparatively neglected and moved irregularly. In the final dealings the market was improved in tone and closed generally firm. Comparing the closing figures with the close of yesterday as many stocks are to be found below the line as above it.

Railroad bonds were strong all day.

"Was there no one to sympathize with the poor wretch who was being lynched?" "I believe a voice did call out and tell him his necktie was up behind."—*Puck.*

The Puzzle Solved.

Perhaps no local disease has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal it is among the most nauseous and disgusting ills the flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the many modes of treatment until the introduction of Ely's Cream Balm a few years ago. The success of this preparation has been most gratifying and surprising. No druggist is without it.

For Over Fifty Years.

MRS. WINSLOW'S SOOTHING SYRUP has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhœa. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. M WFAW
