## AFFAIRS IN THE STATE.

### THE WEATHER AND THE CROPS.

The Sumter News says: "Since our last issue we have suffered much from the intense heat of the weather, but this has been a benefit to the cotton crop, and will mature the fruit earlier than it would otherwise have done. We think the corn crop will be fully equal to that of last year, and, if the cotton is not much better, it will be because of some early frost or other misfortune yet to happen to it. Rice wants rain, so also do the peas and potatoes; of turnips the stand is not good."

### THE AUGUST TERM OF COURT FOR CLARENDON COUNTY.

The same paper also says: "This court convened at Manning on Monday of last week, and continued for four days, two of which were devoted to the sessions and two to the civil business. There were no cases of any magnitude on the criminal side of the court, and but few convictions were had. On the civil side, the most important decision made was on the homestead law—his Honor, Judge Green, deciding that no exemption of homestead could be claimed where the execution had been lodged before the passage of the new constitution.

### ANOTHER ROBBERY—AN ESCAPE.

The Darlington Democrat, of the 25th, has the following items:

"We learn that Mr. Ezekiel Hill, living three miles from Timmonsville, was robbed on Tuesday night last of two hundred and fifty pounds of bacon, some lard, salt, &c. This is quite a serious loss, and as these robbers are known to be among us in every vicinity, our people should keep watch upon their smokehouses and barns, for they do not intend to work as long as they can find anything to steal.

"The notorious thief Jack Hewitt, colored, that was arrested a few days since by Mr. H. L. Morris, by shooting him down, made his escape while being carried to Marion jail by the deputy sheriff, Calvin Josey. This is not the first miraculous escape from this deputy, and it is not unreasonable to suppose that Hewett paid for his escape. How a man can escape from a vigilant watch with fourteen buckshot in his side, is very strange to us."

### DISASTROUS DROUGHT IN EDGEFIELD.

The Advertiser says: "For two weeks, ending on Sunday last, this section suffered from relentless drought. In July we had a drought; in August we have had another and a worse one; and in neither case has it been so much the length of time in which no rain has fallen, as the fearful and unparalleled intensity of the sun, that has caused damage to the crops. As regards the late drought—and we think it prevailed extensively—there can be no doubt that all the square and blooms which have appeared within a period of ten days have fallen or will fall completely parched. Certain planters of this vicinity with whom we have conversed, assert that their cotton crop has been cut off by half; others say they cannot now, in any event, make more than two-thirds of an average crop. No doubt about cotton in Edgefield being badly injured either from rust, or from the effect of intense heat and want of rain. On Sunday last, however, there fell a fine rain, and as we write, (Monday afternoon,) there is every prospect, from the appearance of the heavens and the state of the atmosphere, that rains will speedily become general and abundant."

### KILLED BY ACCIDENT.

The Columbia Phoenix says: "Passengers by the Greenville Railroad yesterday, state that Deputy Constable G. W. Allen was killed in Abbeville on Tuesday last, by the accidental discharge of a gun which he was examining—one of the new-fangled arms recently obtained for the use of the 'loyal militia' of the State."

## Financial and Commercial.

## Plantation Bitters.

A GLORIOUS CHANGE.

THAT ANY SICK MAN SURVIVED THE treatment of fifty years ago, must be considered a proof that human beings are very hard to kill. The lancet, calomel, cantharidies and drastic purgatives were then the order of the day. The physician played into the hands of the apothecary, and the unfortunate patient was drenched morning, noon and night with prostrating medicines. We live in a more rational and conscientious era. The importance of supporting Nature in its conflict with disease is now understood. Complaints in themselves weakening are no longer aggravated by artificial depletion. They are met with TONICS that rally the vital powers and enable them to defeat the enemy. Chief among these allies of Nature, in its battles with sickness, is

PLANTATION BITTERS.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a cordial for the aged and decrepid it has no equal among stomachics. As a remedy for the nervous weakness to which the tender sex are especially subject, it is superseding every other stimulant and nervine. In all climates, tropical, temperate or frigid, its acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits. Wherever it is introduced it becomes a standard article—a medicinal staple. Druggists, although their profit upon it is small, find it absolutely necessary to keep a preparation for which everybody inquires, and for which nobody will accept a substitute. It is to-day the most popular medicine in the civilized world. Extensively as it is advertised, its best advertisement is the beneficial result which uniformly follows its use. Every bottle sold insures the sale of at least half a dozen more. Unlike other stimulants it braces and fortifies the system without exciting undue cerebral action. The cheering effect which it produces upon the mind is not momentary, but permanent. There is no subsequent depression. It does not, as is the case with all other stimuli, beget a craving for excitants. On the other hand, it soothes and calms the nerves, combining, strange as the anomaly may seem, the qualities of a sedative and gentle anodyne with those of a tonic and invigorant. The perfect purity of all its ingredients, their admirable adaptation to the purposes they are intended to subserve, the judicious proportions in which they are combined, and the scientific skill with which they are blended, render this famous article at once the most potent and the most harmless of all known tonics and alteratives.

## Drugs, Chemicals, Etc.

BE CAREFUL WHAT MEDICINES YOU TAKE.

WHEN YOU ARE EXHAUSTED BY OVERWORK of head or hand, and feel the need of something invigorating, don't drink whiskey or any intoxicating thing, whether under the name of bitters or otherwise. Such articles give just as much strength to your weary body and mind as the whip gives to the jaded horse, and no more. Alcoholic stimulants are injurious to Nerve health, and are ALWAYS followed by DEPRESSING REACTION.

Dodd's Nervine and Invigorator

is a TONIC and GENTLE STIMULANT which is NOT attended by REACTION. What it gains for you it maintains. When it refreshes body or mind, it refreshes with natural strength that comes to stay. We are not recommending teetotalism to the interest of any faction; but long and extended observation teaches us that he who resorts to the bottle for rest or recuperation, will find, as he keeps at it, that he is kindling a fire in his bones which will consume like the flames of perdition. Turn from it. Take a tonic that will refresh and not destroy. DODD'S NERVINE is for sale by all Druggists. Price One Dollar. See Book of Certificates that accompanies each bottle. 7mos June 25
