CENTRAL NATIONAL BANK

Central, Not of Ocala, but the Entire State

Our New Financial Institution—One Which Would Not be Small in a Much Larger City.

The New Central National Bank of Ocala is indeed a thing of beauty and we sincerely trust a fiscal institution that will bring profit to its promoters, of which Mr. Herbert A. Ford is the head and front, and prove a blessing to the business world. There is only one Central National bank in Ocala, and thus it stands unique and alone. There are other features we could stress, but a separate article will tell all about the building, its promoters and why it should command your patronage and support. In this article we will simply say a word about its furnishings, the kind, and the man who sold the same to the bank, touched the electric battery of progress, and saw it put into place. That man was John S. Frantz, manager of the Jacksonville branch of the Diebold Vault, Safe & Lock Company of Canton, Ohio. This firm has been in existence so long they evidently celebrated their first birthday about the time Ohio was admitted into the Union, which, last May, was 100 years ago. They stand at the head of their business, and their work is known and used the world over.

The above firm furnished for the Central National bank of Ocala a vault lined with steel. Inside that vault is a banker's safe, weighing 8000 pounds, of drill-proof steel in which the money of the bank and the depositors will find refuge from fire and safe-blowers. The outside doors of this are locked by the Diebold automatic and three movement time lock. As already noted, the vault and safe are absolutely fire and burglar proof, backed by the word and bond of the manufacturers. The furnishings, consisting of counters, files, etc., are made entirely of steel by the Art Metal Construction Company of Jamestown, N. Y. The material can be bent but not broken. All parts are perfect in their placement, and are not only fire proof but roach proof. It is noteworthy to state the fact that this is the only bank in the commonwealth of Florida that is furnished with steel fixtures. They are as neat and attractive as they are durable.

President Ford is also supplied with a steel roller top desk, with filing crank, the only one of its kind in this section, if not in the state.

Mr. John S. Frantz is the state agent for the work of the Art Metal Construction Co.

The work indicated is the best art and skill can supply, and those who need supplies such as are here spoken of will find in Mr. Frantz a business man in every sense of the word, whose years of experience and thorough knowledge of the business, perfect reliability and genial manners make it a positive pleasure to do business with him. Mr. Frantz is no stranger to Ocala, having in the years that are gone been a frequent visitor to our town, and besides selling many safes to our business men, supplied all our banks with their vaults, safes, etc., and in every instance has given complete satisfaction.

Mr. L. W. Edwards, father-in-law of Mr. L. Horne, died at midnight at Horne's still. Dr. D. M. Smith attended him. His remains were taken via Juliette today to Williston for interment, of which place Mr. Edwards had been a prominent and highly respected citizen. D. E. McIver had charge of the funeral.

Mrs. Earl of Auburn, N. Y., who has a room with Mrs. C. A. Liddon and boards with Mrs. Spellman, is a late arrival in Ocala, and will spend the winter in the state. Mrs. Earl's husband, who is now in Europe, is shortly expected in Ocala. Mrs. Earl, in company with Mrs. Avery, paid Silver Springs a visit yesterday and were delighted with its wondrous beauties.
