Notice.

OFFICE COUNTY SUP'T PUBLIC INSTRUCTION, SALINE COUNTY, KANSAS, SALINA, January 15, 1879.

THERE will be a bimonthly examination for teachers' certificates, the first on the last Saturday in February, and the first ev'er on the same day in each alternate month. Exercises begin at 9:30 a. m., and close at 4:15 p. m., and will be conducted in writing. A fee of one dollar, required, by law, of each applicant, before admittance to examination. All are urged to be *prompt*, as no allowance can be made for loss of time.

The next examination will be held on the last Saturday in October.

BOARD OF EXAMINERS.

The Superintendent will be in his office every Saturday, except on examination days, in which case he will be found in his office on the following Monday. He would remind school officers to be prompt in sending reports as required by law.

Election Notice.

TO THE VOTERS OF LIBERTY TOWNSHIP IN Saline County Kansas:

Whereas, A petition signed by two-fifths or more of the qualified voters of said township, asking a vote be taken on the question of voting three thousand dollars ($3,000) bonds to help build a bridge across the Smoky Hill river, on the Northwest quarter of Section Seventeen, (17), Township Sixteen, (16), Range Two, (2), West, within eighty rods of a point known as Robinson's Ford; Therefore be it known, that on the

Fourth Day of November, 1879,

between the hours of 8 o'clock A. M., and 6 o'clock P. M., at the Star School House, in said township, an election will be held for the purpose of voting bonds for the building of said bridge at the point aforesaid, all those voting in favor of the bridge proposed, shall have written or printed on their ballots, for the "Bridge and Bonds," all those opposed shall have written or printed upon their ballots, against the "Bridge and Bonds."

Bridge Items.

Winter wheat looks promising for this time of the year.

Jonathan Tinkler and John Kingman intend soon to start West on a hunting expedition.

B. H. Kelley and Anson Miller go to Wichita this week to attend the Grand Lodge of I. O. G. T. to be held at that place.

A. R. Head, candidate for Sheriff, J. W. Amos, candidate for County Clerk and H. C. Grider, who wants a County Commissioner from Gypsum Valley, made rousing Republican speeches at the Bridge school house on Wednesday evening.

It seems that every locality has a man they would like to bring forth as a candidate to represent the second commissioner district at the County Convention next Saturday. We still contend that Gypsum Valley is entitled to the next County Commissioner from this District.

Messrs. Carlin and Scholl, Editor Stacey of Salina, took in Bridge last week looking over the high water bridge at this place. They found the bridge in worse condition than represented and will take no more responsibility for the safety of those crossing the bridge, and will, they say, replace the old one with a new iron one if they can afford it. There is no point on Gypsum Creek where there is more crossing than at this place.

Observations from Missouri.

WAVERLY, Mo., Sept. 30th, 1879.

MESSRS EDITORS:—On last Tuesday I left your city with my family to visit relatives at this place. We had a pleasant day's travel over the K. P. Railway and saw much of the country which we had not observed so well while going West. There were many passengers taking the train during the day, enroute for Kansas City and Neosho City to attend the fairs.

It rained on nearing Kansas City, but we had ample opportunity to eat a pleasant supper and get good seats on the Chicago & Alton, which would carry us to the point from which a stage would convey us to our place of destination.

As you understand, there are three lines of rail road from Kansas City to St. Louis. When the Chicago & Alton was completed, the fare from the former to the latter place, was reduced to fifty cents, but it is now at the regular rates; eight dollars and fifty cents. All three of these roads are in excellent condition so far as travelers can see. The coaches are fine, the floor of the parlor cars are beautifully carpeted, reclining chairs take the place of the old fashioned seats. But little dust or smoke is seen, the conductor and train men are courteous, obliging and attentive to the wants of every one on their trains, and the rate of speed of these lines is very high. Rivaly, healthful competition, between different roads greatly benefits their terminal points, and the town, or city, which expects to enlarge must use all legitimate means to have roads come to them, and treat the builders with just consideration of the vast benefit which every rail road corporation confers. The roads and the people are mutually interested in each others welfare.

This section of Missouri is highly productive. Corn, wheat and hemp are the staples. Fine stock, especially cattle, sheep and horses are produced in great numbers. Men from my neighborhood in Kentucky visited this section in my memory, and returned with a report very unfavorable to the country. Then the land was valued at some one to two dollars, now the owners ask thirty-five per acre. Apples grow here in great abundance. They can be bought from wagons at ten cents for a large water bucket full. I should think that the people of your part of the State need to plant out more fruit trees. A man could this Fall, set out his orchard and put a wind break around it. A short while would, with a little attention, produce a good return for his labor.

The sun flower, which grows so abundly with you, and presents such a bad appearance to strangers, is not known even here in Western Missouri. The drainage of this section, too, is very fine and adds greatly to the healthfulness of the inhabitants.

Considerable emigration has been going on from here to points further West. Much inquiry is made of a Kentuckian who has been to Kansas, relative to the richest sections of land, best place for farming, the most eligible city or town, localities for professional men and mechanics.

Hoping that your portion of the State may receive a large quota of the thousands passing West from every section of the East, South and North, and wishing great success to the distinguished bodies of christian ministers about to assemble in your city, I am with great respect,

Yours truly,
C. P. SHIELDS.

The grass is rapidly drying up, and farmers will do well to look at once to the preparing of suitable fire guards. Also road overseers will observe the following law relative to their duties as quoted from chapter 42, section 4, general stastes.

1st. It shall be the duty of each and every road overseer of the counties of Marshall, Washington, Republic, Jewell, Cloud, Reno, Rice, Woodson, Morris, Mitchell, Saline, Pottawatomie, Sumner, Osborn and Allen, within his road district, between the fifteenth day of September and the fifteenth day of October of each year hereafter, to cause to be plowed along both sides of every land out and traveled road, and which is not fenced, or along which a hedge row has not been set out, a trip of breaking at least three furrows in width, and the distance between the strips to be not less than three rods, and to cause the grass to be carefully burned along such roads between such strips of breaking.

2nd. The road overseer of each road district shall give three days notice to persons residing in his district, subject to perform road work, of time and place he will attend and direct the work to be performed as aforesaid, and may direct what implements each person or persons shall bring.

3rd. It shall be the duty of every person so notified, to perform two days' work, if so required, by the road overseer, exclusive of the road work now required of him, and in case of the refusal to perform said labor, shall be subject to the provisions of section twenty of chapter eighty-nine, general statutes, 4th. It shall be the duty of the road overseer to receipt to each person who performs the labor required of him aforesaid, and in case of said overseer failing to perform the duties required of him by this act, shall be subject to the provisions of section thirty-four, chapter eighty nine, general statutes.

An act to create a fire department for the prevention of the spread of prairie fires in certain counties herein named. Took effect March 27th, 1872.

Better than Gold.

The grand climax of success is at last achieved. The poor rejoice, the sick arise and walk, the rich bask in the golden sunshine of perfect health. CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear and Catarrh of the Throat.

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Treatments and constitutions vary in severity in individuals, varying in severity from a cold or a succession of colds, from sudden changes of temperature, heating perspiration, or exposure to damp weather, and becoming thoroughly chilled when the digestive organs are in a morbid or inactive condition, and the strength and vital forces exhausted. The disease may arise from a scrofulous condition of the blood, from Scarlet Fever, Measles, and Diphtheria, in which cases the eye and ear are generally involved and discharge quantities of matter. The discharge from the nose, the distinctive feature in all catarrhal cases from whatever cause it may arise, may be thin, acrid, and so acid as to cause redness and excoriation of the nose with which it become in contact, or thick and yellow, sometimes with but little odor, or clear and white like the white of an egg. There may be an entire lack of secretion, the membrane being dry and feverish, the nose, throat and nostrils, and the head feeling uncomfortable, as if it were confined by a tight, unyielding band. In the latter case is called Dry Catarrh. The eye may be affected, the consequence being that the nasal passages, rendering breathing through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate to throw it off; but in some instances it is dry and feverish, instead of passing freely down from the nose and throat, the mucus becomes hard and forms into scabs, incrustations, and hard lumps, which adhere so firmly to the nasal passages and throat as to require very persistent efforts to dislodge them. The eye in sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in more or less quantity. The ear also becomes seriously affected, the discharge quantities of matter, besides being visited by the most intolerable pains, ending frequently in inflammation, ulceration, and finally deafness. The throat, bronchial tubes, and lungs are in many cases affected by catarrh, and when prostration of the nervous system is superadded, such affections become alarming.

A brief survey of this most serious disease warns all who are afflicted with it to make specify preparation for its treatment before it becomes chronic. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Every step in its preparation, every line in the directions, each ingredient carefully calculated to meet every phase of the disease. The numerous testimonials from Ex-Governors, Senators, and United States officers, in which it is said by those who have been cured, to be the most effective and dangerous disease with which mankind is today afflicted.

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of symptoms and sympath. It discusses, together with minute directions for effecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Also observations on diet and the general health, of vast importance to all afflicted with catarrh. It is wrapped about each bottle of the RADICAL CURE, or will be mailed free on receipt of stamp.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaller, Ladle with full directions for use in all cases. Price, $1. Sold by all wholesale and retail druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

Kansas Pacific Railway.

LANDS! LANDS!! LEADVILLE!

KANSAS TO THE FRONT!

The Leading Wheat State in the Union in 1878, and The Fourth Corn State—The Great Kansas Harvest of 1878 was Sold for the "Golden Belt."

The celebrated Grain Belt of country, in the limestone section of Central Kansas, traversed by the Kansas Pacific.

The following statements are taken from the report of the Kansas State Board of Agriculture for 1878:

WHEAT! Kansas rises from the Eleventh Wheat State in 1877 to the First Wheat State in the Union in 1878, producing 26,518,956 bushels of winter wheat, and 5,796,442 bushels of spring wheat; otal,

32,315,381

Bushels of Wheat, with only one-eighth of the State under cultivation. The organized counties lying in the Golden Wheat Belt of the Kansas Pacific produced 13,355,324 bushels, or over 41 per cent, and, including the adjoining counties, fully 14,000,000 bushels, or 43 per cent of the entire yield of Wheat in the State, averaging 24 bushels to the acre, while the average for the State was 12 bushels per acre.

CORN! Kansas, the Fourth Corn State in the Union in 1878, produced 89,174,[illegible] bushels of Corn. Of which the Golden Grain Belt counties produced 27,340,055 bushels, or 31 per cent, nearly one-third, of the entire yield of the state, with an equally grand showing in all other departments of agriculture.

The foregoing facts show conclusively why 29 per cent of the increase in population in the state during the *past four years*; and 40 per cent of the increase in population during the *past year*; and 43 per cent of the increased acreage of wheat in the State in 1878, belonged to the "Golden Belt."

A Farm for Everybody. 62,500 farms—5,000,000 acres—for sale by Kansas Pacific—the best land in America, at from $2 to $6 per acre, one-quarter off for cash, or on 6 or 11 years credit at 6 per cent interest. It don't take much money to buy a farm on the Kansas Pacific; $20 to $80 will secure 80 acres on credit, or $125 to $500 in cash will buy outright.

Send to S. J. Gilmore, Land Commissioner, Salina, Kas., for the "Kansas Pacific Homestead," a publication which tells about Lands, Homesteads, Preemption, Soil, Climate, Products, Stock Raising, Schools, Wages, Land Explorers' Tickets, Rates, etc. It is mailed free to all applicants.

Read all you can gather about Kansas, and when you decide to start, be sure and start right by locating along the KANSAS PACIFIC RAILWAY.
