GOV. ANTHONY VS. THE NEWSPAPERS.

Only the lowest orders of creation eat their offspring or their kind. Gov. Anthony, a newspaper man, wages warfare on the newspapers, just as whilst editing the Kansas *Farmer*, he made bitter onslaught on the farmers' organizations. His disposition leads him to destroy what he cannot control.

There are about two hundred newspapers in Kansas—nearly all Republican. In 1877 there were over one hundred and fifty. They had dealt fairly by George T. When there was an attempt to remove him from the Collectorship nearly all came to his support. What thanks from him?

Without cause or provocation these papers received at his hand, soon after, the grossest insult. They had been publishing his circulars as President of the Centennial Board. They had saved the appropriation of $25,000—(and saved him) when his unpopularity had defeated it. And yet within a month of that service he made a speech against them in the Centennial Board, attacked them wantonly, said they could not be believed concerning Kansas and procured an order prohibiting their circulation in the Kansas Building at Philadelphia. This is not idle hearsay. Mr. Crawford, who replied in defense of the press, made this charge against the Governor in his "Interview" and challenged denial. No friend of the Governor has dared an answer or denial. These papers are now asked to sink their self-respect and give him their support while he continues his abuse. It is gratifying to know that only about sixteen papers so far forge themselves as to kiss the hand that smites them.

The sixteen pocket the insult and turn the other cheek for its repetition. They take their "cue" from the Governor and all shout in chorus that "*newspapers have no influence.*" Thus "eating dirt," wearing sackcloth, and putting ashes in their hair they are ready to apologize that they live to cumber the ground and to be an unnecessary tax on subscribers. Why not be excluded from existence as well as from the Kansas Building at the Centennial? This whole argument of their's is a repetition of his outrage on Kansas journalism.

But as if to heap further indignities, it is meanly insinuated that the general hospitality of Atchison towards the Kansas Editorial Association was a bribe, a bait, for their support of an Atchison editor for Governor, and that the regular annual meeting of editors was a conclave in the interests of Col. Martin. Could insult go further?

Yes, it has gone further. For Judge McFarland, a confidential friend of Governor Anthony, at whose house in Topeka we believe the Governor makes his home, insinuated a few days ago in a letter to a Cincinnatti paper that the newspaper opposition to the Governor, grows out of the fact that the Governor would not buy their support. The Judge is a conscientious and prudent man. The fact of buying or not buying is of a private nature—confidential between the parties—the Governor and the editors. Judge McFarland is a man who will not originate a lie. It must have been palmed upon him, and by whom? Not the editors, surely. Then only and surely by the Governor. There is no escape. The brand of the infamous lie points towards Governor Anthony.

Does the Governor imagine the many who oppose by the few who support him? Does he infer that because he gets the support of the *Commonwealth* by selling out the interests of the State in sending Baker to the Paris Exposition, and secures the *Ottawa Republican* by giving its proprietor a State appointment—distributing alms to some others—that therefore the great body of the high-toned press of the state are only sore because no crumbs come to them.

If Geo. T. could measure other men by other than his own narrow and selfish standard, he would no longer conduct a canvass upon the basis of perpetual insult to the press, without whose support his nomination is improbable and his election impossible. The Republican party, borne to repeated success on the pen points of the Republican press, cannot afford now in this hour of personal independence to ratify and "rub in" this wholesale outrage on Kansas editors.

FOR MARTIN.

Primary meetings were held in Topeka last Saturday, and the delegates elected to the State Convention were chosen to support Col. Martin. The dispatch sent out by the *Commonwealth* in regard to the result of the primaries failed to state this important item. The fact that nothing was said about it was sufficient evidence to us that the delegation was against George T., for the press business at that place is under his control. By private advices we learned the truth of the matter, and sent a dispatch from this point stating the facts. This dispatch was contradicted next day by one from Topeka saying that the primaries had not been held, though the *Commonwealth's* local column that very morning contained a report of the meetings. The North Topeka *Times*, a paper that is known to be fair and truthful, has the following item in its issue of the 26th:

SATURDAY'S PRIMARIES.

The Primary election, last Saturday, in the 63d district resulted in a decided victory for John A. Martin. The candidates for delegates to the State convention were pledged to his support before the election, and in consequence received no opposition. T. M. James and W. N. Angle were chosen delegates and Jas. Burgess and F. C. Bowen alternates.

The Congressional delegates elected in this district are all pledged to Hon. Thos. Ryan, and are as follows: D. A. Harvey, E. T. James and John Hornbeck; alternates, J. B. Evans, H. Kline, and Sharon French.

Now, the simple truth of the whole matter is, that the delegates to the State convention, from the district referred to (which has been regarded by the Governor's friends as one of his strongholds) are solid for Col. Martin, and the *Commonwealth* attempted to keep this fact from the people by downright lying. What must be thought of a cause that resorts to such means to support itself.

COMMITTEE MEETING.

The Republican County Committee, at its meeting yesterday, determined to have delegates elected to the State and Congressional Conventions by the district primaries, instead of by a county convention. The friends of George T., and the enemies of Col. Phillips, staked all their hopes on their ability to manipulate a county convention, and the action of the committee, yesterday, is accepted by them as a signal defeat, and is so regarded by the people.

HUNT'S REMEDY is not a new compound; it has been before the public 25 years, and extensively used by all classes with and without the advice of physicians. HUNT'S REMEDY has cured from a lingering disease each hundreds of our citizens. HUNT'S REMEDY never fails to cure Dropsy and all Diseases of the Kidneys, Bladder and Urinary Organs.
