Sheep dull, but unchanged; about 250 head sold at $1 50 to $3 25 each; Lambs, $1 50@2 50. The Hog market has been extremely dull and quite unsettled. Throughout the week the demand has been limited and irregular, and prices declined from day to day until they reached $6@6 15, but drovers seemed indisposed to sell for less than $6 25, so that they have not been offered freely below this rate, yet the want of confidence which exists makes packers quite timid, and had there been a pressure to sell, even at $6, the market would not have stood up under it; at the close, packers were offering $6@6 15, and drovers asking $6 15@6 30, though even for Hogs averaging 230 to 240 pounds, they have not been able to obtain over $6 25.

GRAIN—Wheat has been greatly unsettled, and prices declined 14c. per bushel on white, and 18c. per bushel on red, and the market closed dull at the decline; the demand being quite limited at 90c. for prime red, and $1 for prime white. Corn has been dull, and prices 1c. lower—closing at 32@35c. for prime. We would say that our quotations are always for Ear Corn, except when otherwise specified. There is no Shell in the market, nor has not been for some time, and prices for it are nominal. Oats have not changed in value, during the week, the demand has been moderate, and the market closes dull at 28c., in bulk. Rye dull and rather lower—closing at 63@64c. Barley dull, during the week, and prices unsettled and lower, and malsters not buying. The brewers are paying 80@85c. for prime. Inferior grades sold at 50 to 70c., but are nominal at the close.

PROVISIONS—An unsettled and dull market all the week, and prices generally lower and irregular. Mess Pork declined to $16, with sales on the spot and for December delivery, at this rate, but at the close it could have been bought at $15 75, on the spot, and $15 50 for December delivery, but without buyers. Lard has been in fair demand at 10½c., but toward the close it was offered at 10¼c., without buyers. Some sales of Bacon Shoulders were made in the fore part of the week at 8¾@8⅝c., but no demand for them the last few days. Green Meats declined to 5, 7 and 7½c., and were nominal at these rates Saturday and Monday, owing to bad weather, but yesterday 11,000 pieces Shoulders and Hams sold at 5c. for the former, and 7¾@8c. for the latter—the weather being better the ham-curers bought more freely.

SALT—The market has not changed; the demand has been but moderate. We quote:

WHISKY—A dull market and prices 1c. lower, closing dull and unsettled. The current rate each day was as follows: for raw, Thursday and Friday, 16½c.; Saturday and Monday, 16c. and yesterday 15½c., with some sales at 15c.

MONETARY AND COMMERCIAL.

Financial Affairs.

Financial affairs underwent a marked change yesterday, and for the worse, too; the unsettled feeling and the demand for Money increasing. The market became quite close, and all the Bankers reported a demand in excess of the supply. A good deal of undoubted Paper was rejected at the Banks, and forced into the street. Interest-rates were quoted at 10@12 per cent. in the regular quarters, but there was no trouble in using capital on excellent securities at 15@18 per cent. There was little disposition to discount for any one who could be put off, and the aggregate negotiations of the day were limited.

Rumors prevailed of several failures. Other suspensions will doubtless occur; but the large and strong houses will have no trouble, as they are in excellent condition.

Eastern Exchange was steady and in good demand, and New Orleans lower, owing to the announcement that New York Checks had advanced there to ¼ prem.

Gold was in better demand at previous rates, and Time-bills were without change.

Uncurrent Money was quite unsettled, and the rates of some of the Bankers were augmented, as will be seen from our quotations:

Indiana Stock ½; Pennsylvania (interior), ¾; Virginia (except Wheeling City and branches), 2; Missouri, 3; Iowa and Wisconsin, 5; Illinois, 10; Maryland (interior), ¾; Tennessee 10@½; Michigan and Canada, 2 discount; Alabama, Georgia and the Carolinas (except interior Alabama which is 10), 5 discount.

The six Banks thrown out at Chicago, and also the upper Bank of Canada, when purchased at all, go at 25 discount.

The present rates of Exchange and Coin are:

	Buying.	Selling.
New York Sight	¼ prem.	½ prem.
Philadelphia	¼ prem.	½ prem.
Boston	¼ prem.	½ prem.
Baltimore	¼ prem.	½ prem.
New Orleans	½@¾ dis.	¼@¼ prem.
American Gold	8@40c. prem.	½@1 prem.

The New York telegram to the Chamber of Commerce yesterday was again unfavorable to operations in Produce, and our city market was, as for many days previous, decidedly dull. Flour remained dull and unsettled, superfine selling moderately at $4 50. Whisky was likewise, with sales of 1,225 barrels, closing dull at 15c. Groceries were unaltered, and in limited request. Red Wheat had further declined, and Rye was lower; but Barley, Oats and Corn were unchanged in price.

The weather was very favorable for cutting Hogs, and in the morning there was a better demand for them, but the market was again dull at the close. Buyers and sellers were still unable to agree; the latter asking $6 15@6 30, and the former offering $6@6 10 usually. Nearly 8,000 head were received, and some 1,500 sold at $6 20@6 25. The receipts during the week ending last evening were 50,000 head against 30,000 last year.

Provisions were very dull; mess Pork being nominal and purchaseable at $15 75. Green Meats—1,100 pieces were disposed of at 5c. for Shoulders, and 7¾@8c. for Hams, a slight advance. Lard remained quite dull, and several lots offered were not taken.

The following are the Imports and Exports of the various articles during the twenty-four hours ending yesterday noon.

Imports—Apples, 3,068 brls.; Barley, 3,315 bushels; Butter, 185 pkgs.; Corn, 5,515 bushels; Cheese, 1,867 boxes; Coffee, 250 bags; Flour, 1,793 brls.; Hay, 185 bales; Hogs, 7,700 head; Lard, 81 brls. and 3 kegs; Molasses, 5 brls.; Malt, 348 bush.; Oats, 4,481 bush.; Pork and Bacon, 2 hhds.; Potatoes, 350 barrels; Rye, 652 bushels; Salt, 268 brls.; Wheat, 556 bushels; Whisky, 1,121 barrels.

Exports—Apples, 129 barrels; Barley, 40 bush.; Butter, 17 packages; Candles, 118 boxes; Cheese, 1,027 boxes; Coffee, 262 bags; Flour, 357 brls.; Lard, 105 brls. and 50 kegs; Molasses, 31 brls.; Malt, 560 bush.; Pork and Bacon, 112 hhds., 195 barrels, and 129 boxes; Potatoes, 197 barrels; Rye, 286 bush.; Sugar, 40 hhds.; Salt, 118 barrels; Whisky, 1,067 barrels.

Yesterday's Louisville papers say of Provisions:

The Provision market has been very dull during the week, and we note a declining tendency in most articles. Hogs have declined; and the last sales reported were at $5 for four months. The weather has not been very favorable for slaughter until yesterday, when it became cold and clear; and all the packers, with the exception of a single house, were busy. Owing to the disordered state of finance and the failure of the corn crop, the slaughter this present season around the Falls will exhibit a falling off from the business last year. Indeed, we think it would not be unadvisable on the part of farmers to kill their own Hogs, so far as they will be enabled to do so.

We annex a statement of the Exports of Foreign Dry Goods and General Merchandise from New York to foreign ports, for the past week and since January 1:

For the week.	1858.	1859.	1860.
Dry Goods	$811,734	$1,227,031	$1,295,644
General Mdse	1,180,341	2,720,949	1,233,255
Total for week	$1,992,095	$4,066,871	$2,468,939
Prev. reported	129,122,581	204,827,058	202,558,061
Since Jan.	$131,120,476	$208,835,929	$204,027,000

Monday's *Tribune* thus speaks of Saturday's New York Money Market:

The agitation continues at the Stock Exchange, and at the First Board there was a further decline, especially marked in State Stocks, which have been shaken out from places of hypothecation by the Money panic. Tennessees, Virginias, and Missouris went down from three to seven per cent. The sales of various State Stocks during the day reach an aggregate of $177,000—an unusually large business. There was but little doing in bank Shares, for the few transactions reported show a marked depression. The business in railway shares was very large, and to an unusual extent, for cash. The downward movement in railway shares was very large, and to an unusual extent, for cash. The downward movement was quite general, but at the close of the session, a firmer feeling was developed, and between the sessions there was a smart rally in New York Central, and a moderate improvement also in other leading stocks.

There was an unusual scarcity of Stock in the street, and deliveries were very difficult. Stock in some cases being borrowed at a per cent. until Monday. This was especially the case with New York Central and Hudson River, the former of which sold as high as 73, for cash. At the Second Board there was a moderate improvement over morning prices with rather a heavy tone at the close. The question of values has but little to do with the present decline. Stocks are thrown overboard at the best prices they will bring, to relieve holders of pressing necessities, and there is little or no discrimination in the mode of slaughter. There has been a large absorption of Stock for outside investment, and the amount in the street has, no doubt, been considerably reduced, but the demand has not been enough to take Stock as rapidly as it comes out of the hands of speculative holders, who have been obliged to pay up Loans.

The same number of the *Tribune* observes concerning Saturday's New York Monetary matters:

The Money market to-day shows no improvement to Paper. Rates are rather higher, and it is just as difficult to make negotiations. Money-lenders are either hoarding or using their money in Stocks; at any rate, they have nearly disappeared from the Discount-houses, notwithstanding the temptation of 12@24 per cent. per annum interest. Prominent names at short dates have been passed to-day at 18 cent., with a few exceptional transactions at lower figures, while names which three months ago went freely at 6@7 per cent. are offered, without buyers, at 18@24 per cent. On demand, Money is 7 @8 cent., and very scarce.

The Mint offers to-day rock $75,000 in California bars for Paris. About $250,000 in gold was shipped to the South, mostly, we understand, to Baltimore. From Boston there are still some moderate amounts coming. Sand-y arrants are heavy and nominally 6@6½c. a sacre.

Uncurrent Money is very active, and the rates for Western are high. Illinois, Wisconsin, Iowa, &c. Bank-notes are selling at 10 per cent.; Indiana 5 per cent.; Southern 3 to 10 per cent.

After the close of the foreign mail, the market for Exchange was quiet, but with no improvement on the Friday's rates. First-class commercial Sterling was forced off at par and 1@2 per cent. premium, and France at 5.45@5.40. The price for City Bankers' Sterling was nominally at about 105. The wants of shippers of Produce are very urgent, and they are forced to accept any rate offered for their Bills. If this state of things continues, it must very seriously check the movement of Produce until the holders of foreign Bills of Exchange here can receive Gold from the other side. Several parties have already given orders for Gold to be sent forward.

Daily Produce Market.

TUESDAY EVENING, November 20.

HOGS—About 7,000 head were received during the last twenty-four hours. The market remains unsettled. Holders ask $6 15 to $6 30, but these rates seem to be above the views of buyers, who pay anything over $6@6 10 reluctantly. There was a little more disposition to buy in the morning, but after the arrival from New York was made public, this disposition disappeared, and the market closed flat and heavy. The sales were 400, averaging 229 pounds, $6 25; 200 averaging 240 pounds, $6 20; 340 averaging 210 to 215 pounds, $6 25; 122 averaging 230 pounds, $6 25.
