denburg has resumed his effort to reach Dvinsk, which town has been denied him so many times. The Germans announce that the Russians have been driven from two successive lines of trenches to the southwest of Dvinsk.

Except for Field Marshal von Mackensen, who is held in the Prjeut marshes, all the German generals lately unknown, even General von Linsingen whose army was handled rather roughly by the Russians in Volhynia, having, with the aid of strong reinforcements, been able to give the offensive again. In addition to recapturing Lutsk, he has crossed the Styr river below that fortress.

In Galicia the Russian General Ivanoff is still holding the Austrians fast and is himself gaining ground.

Montenegro Takes a Hand.

Montenegro, the smallest of the allying nations, is taking a hand in the general attack on the central powers. She has launched an energetic offensive, according to an unofficial telegram which secured for her the possession of some Austrian positions.

Sir Edward Grey, the British foreign secretary, in the house of commons today made statements concerning the Balkan situation, which should tend to clear the atmosphere.

While saying that Bulgaria had assured the powers that she had no aggressive intention against her neighboring states, Sir Edward took occasion to warn that country that any aggressive would bring to the assistance of any friend of the allies attacked the whole power of the British empire.

The enthusiasm with which the Greeks are answering the call to a mobilization is considered in London circles being likely to affect the Balkan situation.

FRENCH CONTINUE TO GAIN OVER GERMANS

Paris, Sept. 28.—(10.10 p. m.)—The French troops, fighting on the western front have made further gains of ground east of Souchez and north of Massiges, the prisoners taken including Germans recently brought back from the Russian front, according to the official communication issued from the French war office tonight.

A heavy artillery action is in progress in the Argonne.

The text of the statement follows:

"During the day of September 28 our troops continued to gain ground foot by foot in the direction of the ridges 1 the east of Souchez. We took about a hundred prisoners, among whom were men of the guard corps brought back a few days ago from the Russian frontier.

"In Champagne likewise, new progress has been realized particularly to the north of Massiges, where we have taken an additional eight hundred prisoners.

"The enemy has directed against our trenches in the Argonne violent bombardment to which we have efficaciously replied, but he has attempted no infantry action.

"Engagements with grenades have enabled us to regain some parts of our first line where the enemy had maintained himself yesterday.

"There has been intermittent cannonading in the forest of Le Prestre and in the region of the Ban de Sapt.

GERMANS HAVE STOPPED ALLIES' DRIVE, IS CLAIM

Berlin, Sept. 28, (via London, 4:55 p. m.)—The Germans not only have stopped the general offensive of the allies on the western front, but by counter attacks have gained considerable territory for themselves, according to today's official statement by army headquarters.

The text of the statement follows:

"Western theater. The enemy continued yesterday his attempts to break through our lines without achieving any result. On the contrary he suffered in many places very considerable losses, besides bringing us an appreciable gain in territory.

"Our counter attack resulted in our capturing twenty officers and 750 men, increasing the number of prisoners taken in this locality to 2,197 men, including a number of officers. Nine additional machine guns were captured.

"At Souchez, Ageres and Hohensart and also along the entire front from the Champagne to the Argonne, attacks by the French were repulsed without a break.

"On the hill at Combres the enemy positions were blown up and blocked up yesterday and the day before by extensive mine explosions.

"The operations by the army of General von Eichhorn in the battle of Vilna, which led to the enemy's being repulsed across the Lake Maryde-Smorgon-Wisnikow line, resulted in the capture of a total of seventy officers, 21,303 men, three cannon, seven machine guns and large quantities of baggage which the enemy was forced to leave behind. An inventory of this booty could not be taken until now because of our quick advance. The figures previously reported are not included in those given here.

"South of Smorgon our attack is making progress. Northeast of Wischnew we have broken through enemy positions. On this occasion 14 officers and 3,200 men were taken prisoner and nine machine guns captured."

NORWEGIAN STEAMER TOWED INTO NEW YORK

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Savannah, Ga., Sept. 28.—The Norwegian steamer Mellerskin, bound from Brazilian ports for New York with a cargo of coffee, was towed into port today by the British steamer Afrewright. The Mellerskin has her propeller and part of the shaft where she struck a submerged obstruction, according to Captain Jacobsen. All on board are safe.

RAILROAD BLAMED FOR LOSS OF LIFE BY EXPLOSION

Death List Now Placed at Forty-four; More Than One Hundred Are Injured; Property Loss Above $500,000.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Ardmore, Okla., Sept. 28.—Proceeding to fix the responsibility for the disaster of yesterday in which a tank car explosion caused the death of forty-four persons, injured a hundred others, and property loss of more than half a million dollars, were started today by the municipal authorities who charge the Gulf, Colorado and Santa Fe railway officials with criminal carelessness. This was announced tonight by Russell Brown, city attorney of Ardmore.

The death list tonight stood at forty-four according to a statement from police headquarters. Early official statements had placed the number of victims at fifty-five.

Eleven Missing Found Alive.

This discrepancy was explained tonight by the fact that several persons previously reported dead were found either in hospitals or in their homes alive after a close police check with the physicians of the city and hospitals.

The announcement is to contemplated charges against the Gulf, Colorado and Santa Fe railway came after an almost continuous all day session of the Ardmore city commission. The city attorney said tonight the Santa Fe officials would be charged with failure to comply with the regulations of the Interstate Commerce commission respecting the loading and handling of gasoline.

The city officials, it is said, will allege that the railroad company should have left the "bad order" cars in which the gasoline was contained at some isolated siding, according to the Interstate Commerce commission regulations; that the railroad company failed to do so, after it had been warned by City Commissioner W. C. Dewitt, that the car was leaking, that the railroad company failed to deliver the car to the Ardmore Refining company, the consignees, after it had been urged to do so, and further that the railroad's failure to comply with these requests after it was discovered that the tank was leaking, necessitated the action of the Ardmore Refining company in sending a man to repair the leak, which is believed to have resulted in the explosion and the loss of at least forty-four lives.

Of the forty-four dead, according to the police list tonight, twenty-five are white and nineteen negroes. A number of the bodies were burned beyond recognition.

ITALIAN WARSHIP BURNS; ADMIRAL AMONG THE DEAD

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Paris, Sept. 28, (10.15 p. m.)—A dispatch to the Havas agency from Brindisi says:

"A fire which was followed by an explosion has occurred on board the Italian battleship Benedetto Brin. Eight officers and 219 marines have been saved thus far.

"Rear Admiral Ernesto Rubin de Cervin is among the dead.

"The fire was purely accidental."

The battleship Benedetto Brin was a vessel of 14,215 tons and 40 pieces of ordnance, carrying a complement of 749 men. She was completed in 1904 at a cost of $5,750,000.

The battleship, which was of the pre-dreadnought class, carried four twelve-inch, four eight-inch and twelve twelve-pounders, two one-pounders and twenty-five mitrailleuses. She was armed with four torpedo tubes. The vessel had a speed of sixteen and one-half knots.

Rear Admiral Ernesto Rubin de Cervin was in command of the vessel.

JOHN D., JR., TAKES 'RUBBER NECK' RIDE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Denver, Sept. 28.—Working like a dog," was John D. Rockefeller, Jr.'s characterization of the way he had spent the day at the offices of the Colorado Fuel & Iron Co. After a series of conferences with company officials considerable attention was made toward formulating plans for industrial betterment, growing out of Mr. Rockefeller's recent inspection of southern Colorado mining properties. Not only were stationed at the general headquarters here, but several officers from the southern Colorado field were called into consultation with the young millionaire. It is understood that the conferences dealth with plans for industrial improvement and also with various business and financial subjects connected with the company's operations.

As a means of relaxation after his day of business, Mr. Rockefeller, just before dinner, chartered a "rubber neck" automobile and took his party for a drive near the city. After the amusement was ended there was a long wait. Nobody knew why the machine did not start. Finally the chauffeur was discovered in earnest conversation with Mr. Rockefeller's secretary, C. O. Heroit, who had enticed the "cop" from the chauffeur's cut some money in his pocket and the car started.

MIDGE TO CONTINUE WITH ROCK ISLAND

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Chicago, Sept. 28.—President B. L. Midge, who yesterday tendered his resignation as an executive of the Chicago, Rock Island and Pacific Railway company, is to continue in charge of the operation of the road in accordance of the federal court and the appointment of the receiver. He will be chief executive officer of the receiver. This announcement was made by Joseph M. Dickinson, the other receiver, who arrived here today.

Summary of War News of Yesterday

Furious fighting still characterizes the united efforts of French and British to break through the German lines on the western front. The allied forces, the French war office announces, continue to make gains of ground and to add to their captures of men, guns and stores.

Foot by foot, so the official communication reads, the French are making progress to the east of Souchez and likewise have continued their advance in Champagne. It contains the significant statement that among the prisoners taken prisoner were men of the guard corps who had been brought back from the Russian front a few days ago. This would seem to indicate that the Austro-Germans have been compelled to weaken to some extent their eastern lines from in order to reinforce those sections of the western line.

Field Marshal Sir John French reports the capture of powerful Germans defences around Loos, where the number of prisoners taken by the British has reached fifty thousand, forty machine guns being taken and many destroyed. The British have captured the first and second lines and are heavily engaged in an effort on the third.

The allied trenches in the Argonne are being violently bombarded by the guns of the German crown prince. Some of the first line trenches taken from the French by the Germans on the front Monday have been retaken by means of hand grenades.

Details from unofficial sources of the heavy bombardment which preceded the ailing attack Saturday, show on the German lines as smothered in dust under the hail of shells, their parapets melted away and the barbed wire entanglements disappeared. So thunderous was the onslaught that persons forty miles distant were awakened from their sleep. When the French ceased their pinching of the trenches in Champagne and charged the German trenches, they found the Germans stupefied by the effects of the artillery fire, gunners being mixed with infantrymen and all of them huddled around the field pieces.

On the eastern front the Russians near Dvinsk are declared by Berlin to have attempted to recapture ground lost to Field Marshal von Hindenburg Monday, but their effort was unavailing.

Progress is recorded for the Germans who still are driving the Russians from the Vilna sector and for those engaged in Volhynia.

In this latter region, Berlin says, the army groups of General von Linsingen have crossed the Styr river below the fortress of Lutsk and the Russians north of Dubno are retreating.

Various reports are in circulation concerning the trend of events in the Balkans. One of these is to the effect that Greece had informed Serbia that she will resist the passage for foreign troops through Greek territory. Another says Bulgaria and Greece are reported to have agreed to the establishment of a neutral zone between the two countries.

The attitude of the British government with regard to the possibility of Bulgaria entering the war has been plainly stated by Sir Edward Grey, the British foreign secretary. Sir Edward has told the British parliament that in case Bulgaria assumes an aggressive attitude on the side of the central powers the allies will give their support to "our friends in the Balkans in a manner that would be most welcome to them."

American bankers have agreed to loan Great Britain and France $500,000,000 to replenish a credit fund in the United States.

Dr. Constantin T. Dumba, the Austro-Hungarian ambassador to the United States, finally has been recalled at the request of the American government.

Mr. John Gaffney, the American consul general at Munich, Bavaria, has been asked to resign his post because of his alleged partisan attitude in the European war.

BERNSTORFF DEFENDS TURKISH POLICIES

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Washington, Sept. 28.—Count von Bernstorff, the German ambassador, today sent a communication to the state department saying reports of Turkish atrocities against Armenians were greatly exaggerated and defending in part the action of the Turks, as having been provoked.

"Since Turkey has let it be known that no foreign interference with her Armenian policy will be permitted, the United States will probably avoid the matter as a subject for any formal protest unless Americans become involved.

GERMANY STILL FAR FROM END OF RESOURCES

Major Maraht Declares Teutonic Allies Have Not Called on Younger Classes, as Have Their Opponents.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Berlin, Sept. 28, (by Wireless, to Sayville.)—Germany has not yet reached the final of her millions of men, while her foes are drawing near the end of their resources, declares Major Maraht, the military critic of the Berliner Tageblatt, in a review of the present status of the belligerents.

In his review, an abstract of which is given by the Overseas News agency, he points out that Germany places the military age limit at 45 and has not even mobilized younger than 18, while Russia, he says, is preparing to send to the front in December 18 years old boys and is unable to release from service on the Carpathian lines soldiers who are much more than 45 years old. Boys of 18 years are already fighting in the Russian front and, mixed with other troops, he declares, while England, fearing that Russia might make a separate peace, recently landed additional troops on the continent.

"All this means," continues Major Maraht, according to the news agency abstract, "that the utmost efforts are now being made by the allies to improve their situation by desperate measures.

The military writer declares that German army headquarters has determined to continue the prosecution of its campaign against the retreating Russian armies.

WARNING GIVEN TO BULGARIA BY GREAT BRITAIN

Sir Edward Grey Declares England Is Ready to Make Common Cause With Serbia in Case of Mobilization.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

London, Sept. 28, (12.55 p. m.)—If Bulgarian mobilization should result in Bulgaria assuming an aggressive attitude on the side of our enemies we are prepared to give our friends in the Balkans all the support in our power in a manner that would be most welcome to them in concert with our allies without reserve and without qualification, was the pregnant announcement made by Sir Edward Grey, the British foreign secretary, in the house of commons this afternoon.

Premier Asquith, who also addressed the house, made an urgent appeal to all his hearers to refrain from making speeches concerning recruiting for the national service.

"We are at a critical moment in the history of the war," he said. "We are watching with most intense sympathy and hope the gallant combined efforts of the allied forces.

"I do not think a greater observance could be rendered this country and the cause of the allies than that at this moment a disposition should be forth to the world that there is any division of opinion here."

Allies Are Agreed.

After making the authorized announcement that if Bulgaria should assume an aggressive attitude on the side of Great Britain's enemies the government would take action, Sir Edward continued:

"We are of course in consultation with our allies on the situation and I believe the view I express is theirs also: our policy being to secure an agreement in respect to the Balkan states, which will ensure each of them not only independence but a brilliant future, based as a general principle on territorial and political union and kindred nationality.

Would Preserve Independence.

"To secure this agreement," the foreign secretary continued, "we recognized that the legitimate aspirations of the Balkan states must find satisfaction. The policy of Germany on the other hand has been to create for her own purposes division and war among the Balkan states. She made use of Austria-Hungary to precipitate the European war with the result that the empire is completely subjugated to Germany and dependent upon her.

The Position of Turkey.

"Turkey, whose future it would have been preserved if she had remained neutral, has been gratuitously forced by Germany into this war to realize Germany's ambitions and influence from Berlin to Bagdad.

"In the same way it would naturally be Germany's policy so to use any of the Balkan states with the inevitable result that that state eventually would be subordinated to her and that, though territorial gains might be promised, she would lose her independence.

"This is directly contrary to the policy of the allies, which is to rather the national aspirations of the Balkan states without sacrificing the independence of any of them."

BRITISH SUBMARINES TO ASSIST RUSSIA

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

London, Sept. 28.—The silence of the admiralty in regard to the work of British submarines in the Baltic was explained in the house of commons today by Thomas MacNamara, financial secretary of the admiralty. Mr. MacNamara said, in response to questions, that these submarines were under the orders of the Russian commander-in-chief.

"The house will realize that much valiant and successful work is being done by these vessels," Mr. MacNamara said. "But the responsibility of deciding what shall be made public of their proceedings in the Baltic must rest with the Russian admiralty.

"Commander Noel Lawrence is the officer who was decorated by the Russian government for the successful torpedo attack on the Moltke."

The German battle cruiser Moltke or a warship of that type was said by the Russians to have been sunk in the Gulf of Riga last August, although this report was denied in Germany.

MURDERER OF EDITOR IS HIDING IN MINE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Walsenburg, Colo., Sept. 28.—Renewed efforts to capture the murderer of Robert Mitchell, editor and politician of this place, who is believed to be hiding in abandoned portions of the Walsen mine, were made tonight when thirty miners familiar with the underground workings joined the posse engaged in the search. Early today members of the posse said the hunted man attempted to escape through a drift connecting the Walsen and Robinson mines, but fled back into the labyrinth of old entries when he saw guards. Again during the day a party of searchers declared the fugitive was sighted but when the party closed in about the place where he was last seen he had disappeared.

Sheriff J. B. Farr and Superintendent Kimball, of the Walsen mine, announced that tonight searchers would be stationed at the heads of various cross cuts as well as at the entrances to the Walsen and adjoining mines.

THREE MORE ARRESTS IN LAND FRAUD CASE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

San Francisco, Sept. 28.—Three more men, one of them a minister, were arrested today in the Oregon land fraud case in which the federal grand jury returned a blanket indictment last week against eighteen attorneys and land agents. These arrested were: The Rev. Richard Fysh, at Fresno; William B. Declarmo, real estate agent at Los Angeles, and Sidney L. Sperry, hardware merchant at Gardena, near Los Angeles.

All three were arrested in their offices of residence. Six others were arrested previously.

The men were charged with conspiring fraudulently to induce clients to file claims on land along the Southern Pacific railroad in Oregon.

MEXICAN COLONY ACROSS RIVER A MENACE, IS FELT

Feared Large Party of Potential Raiders Will Cross Rio Grande at First Suitable Opportunity.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Brownsville, Tex., Sept. 28.—The presence along the south bank of the Rio Grande of a large colony of Mexicans, who are believed by the Mexicans on the south side of the river to be waiting an opportunity to cross to the American side and begin an attack on the border patrol, was reported to army officers here tonight. The colony is believed to extend along the Rio Grande a distance of several miles with the southwest end being resting on a point about Harrisburg, miles from this city. Mounted guns have been ordered from El Paso for use by the American troops in the event of an emergency, it is announced.

Col. A. P. Blocksom, commanding at Fort Brown, and Major Edward Anderson, of the Twelfth cavalry, inspected the posts in the Brownsville district today. Colonel Blocksom has been permitted to return to Brownsville.

The Rio Grande at Brownsville is out of its banks, inundating the American side of the river more than originally expected, to the landing of a Mexican expedition on the American shore. With south Mexicans might easily cross the river where American patrols could not get a view of them and pole their boats through shallows to secret landing places in the thickets.

Four alleged Mexican bandits were arrested today and taken to jail at Brownsville. They were believed to be connected with the recent attack on the McAllen ranch near Edinburg.

ADMINISTRATION AIMS TO AVOID POST-WAR SLUMP

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Washington, Sept. 28.—Legislation is being considered by the administration to prevent the "dumping out" of cheap foreign products on the American market after the European war.

The subject will be taken up by Secretary Redfield and members of the federal trade commission in their annual reports, which will be sent to congress at the opening of the next session.

There is believed to be serious danger that after the war in Europe concerns will attempt to recover lost ground by flooding the United States with goods to be sold at less than the cost of production.

TO SELL PROPERTY OF BANISHED ARMENIANS

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Washington, Sept. 28.—The state department announced today that it had been informed by the American consul at Tripoli, Syria, that a commission had been formed there to take possession of and sell the property of the Armenian population banished from the province.

Persons having claims against Armenians, said the department announcement, are invited to present the same to the commission in order that they may be examined and, if found to be valid, cleared. There will be a local bank, Armenian property lots and commission agents in Tripoli and some of whom had extensive dealings with Germany, Holland and England.

RESALE PRICES NOT ALLOWED BY UNITED STATES

Kellogg Toasted Corn Flakes Company Loses Suit in Federal Court Under Operations of Anti-trust Laws.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Detroit, Mich., Sept. 28.—The Kellogg Toasted Corn Flakes company of Battle Creek, Mich., is permanently enjoined from fixing the resale prices on its products, by a consent decree announced today in United States district court here in the government's anti-trust suit against the Kellogg concern. The decree takes effect after October 15 of this year and is considered today important because it establishes a precedent against the firms of resale prices on food products.

The government brought suit against the Kellogg company in December, 1912, alleging the defendants had by most authentic to fix the resale price of their products or to engage or warn jobbers that if they refused to carry out the fixed price agreement they would be cut off from further supply of toasted corn flakes.

The defendants contended they were not violating the law, inasmuch as the notice of jobbers concerning the resale price was printed on a carton containing the product which had been patented, with the rights thereon. The patent, they claimed made it legal for them to handle their product in that way. According to the decree, however, the company is not only permanently enjoined from fixing the resale price but it must also refrain from using on its cartons or in its the notice concerning the fixed price.

Dr. Osler on Tuberculosis

Sir William Osler, Regius Professor of Medicine at Oxford, says in his "Practice of Medicine" (1909), on page 710: "The healing of pulmonary tuberculosis is shown clinically by the recovery of patients in whose sputa elastic tissue and bacilli have been found. " In the granulation products and associated pneumonia a scar tissue is formed, while the smaller caseous areas become impregnated with lime salts. To such conditions alone should the term healing be applied."

"The success of Eckman's Alterative in pulmonary cases is due partly to the application of a drug well in good combination with other valuable ingredients as to be really complete.

"It is such a fact which other treatment cannot be approached. We refer to testimony concerning it and more than the regular physicians, even their prescriptions, but since it contains no alcohol narcotics or habit-forming drugs it is safe. Please call discount or direct.

LADY, BLINDED BUT CONSCIOUS

Said She Would Turn Blind and Fall When Nervous Spells Came on, Yet Remained Conscious.

Odessa, Fla.—"About 2 years ago" writes Mrs. J. D. Powell, of this place, "I took several bottles of Cardui as a tonic, for I was run down in health. In fact I could hardly do anything at all, could only drag around and couldn't do my work. Life was miserable to me and I knew I must have some relief, as I was so very weak. I would suffer with aching pains in my right side, back and shoulders. I would have such terrible nervous spells, which would come on me, and I'd fall down wherever I was nearing me. I would turn blind, as though I had fainted yet kept my consciousness. My friends would rub me . . . circulation was extremely poor, and the arms, hands and limbs would be cold.

"My friends . . . recommended that I try Cardui. . . . I began using it and soon both saw and felt a great improvement. . . . My appetite became good. I ate so my husband teased me about it. . . I could rest well at night and got so I could do all my housework in a short time. . . . I praise Cardui to all my friends."

If you suffer from any form of female weakness or irregularity, try Cardui, the woman's tonic. For sale by all druggists.

IF YOU WANT TO SEE BARNES SHOWS, KIDDIES, ENTER THIS WILD ANIMAL PRIZE CONTEST

"AL G. Barnes Wild Animal Circus Prize Contest."

Are you in it?

Then get busy and send in a list of wild animal names to the Wild Animal Editor of the Journal.

Remember, though, that in spelling the wild animal names, you are to use only the letters in the words in the first paragraph of this notice. There's eighteen of them—different letters, and you may use them as often as desired.

The first prize will be $5.00, the second $2.00, the third $1.00 and the fourth $1.00.

There will be five fifth prizes of two reserved seat tickets and five sixth prizes of one reserved seat ticket to the Al G. Barnes Wild Animal Circus, now is to exhibit in Albuquerque Monday, October 4.

Performances are to be given at 2 and 8 o'clock and the show's going to pass a parade of circus grandeur will parade the down town streets at 10:30 in the morning.

But to get a good start in this contest, you'll have to hurry, because there's going to be a lot of kids in for these prizes. Of course, you'll want to see the circus, and if you don't succeed in winning one of the cash prizes you have a good chance to win some tickets and they will well repay you for the effort spent.

So get on the job. Ask a lot of questions. And, here's a tip for you: There's a lot of wild animal books at the library.

All youngsters, but over 12 years of age are eligible to compete.

AL G. BARNES CIRCUS PRIZE CONTEST.

To Wild Animal Editor the Journal:

I hereby certify that I am not over 15 years old and I hereby submit ..... names of wild animals in your Prize Contest.

Name.....

Address.....

All lists submitted must be accompanied by one of the above coupons.
