STOCK EXCHANGE PRICES DECLINE; TRADING LIGHT

Cause of Depression Apparently Is Due to Overloading by Bull Speculative Interests Generally.

BY MORNING JOURNAL SPECIAL LEASED WIRE.

New York, Feb. 16.—Increased pressure was brought to bear on the stock market today with further depreciation of values. Selling was more obviously of a professional character with here an there a sprinkling of liquidation. Declines were orderly, however, except in a few isolated instances, where prices yielded precipitately.

The market's failure to respond to good news which was not altogether lacking, seemed to result more from its technical weakness or over extended position on the bulls' side, than from apprehension concerning impending events. Announcement that Washington had received Berlin's reply in the Lusitania matter was accepted with mild interest.

Canadian Pacific and shares of other companies operating in the dominion were conspicuously weak in consequence of the heavy war tax which it is proposed to levy on corporations in that country. Canadian made an extreme decline of 5¾ at 166½. Domes Mines lost 6¼ at 23½.

Mexican issues, especially Mexican and California Petroleums, Texas Company and American Smelting were heavy to weak on reports affecting the stability of the existing government in the southern republic.

Rails in general registered only moderate losses, but United States Steel denoted unceasing pressure, while the active war issues, with the noteworthy exception of Crucible Steels, were 1 to 3 points down. Coppers as a class gave a good account of themselves until the final hour. Weakness prevailed at the close. Total sales aggregated 600,000 shares.

Bonds were lower, with dealings more diversified. Total sales, par value, $3,200,000.

United States coupon 4's declined ½ per cent and the registered 3's declined ⅛ per cent on call.

CHICAGO BOARD OF TRADE.

Chicago, Feb. 16.—Wheat prices bulged to a considerable extent today influenced largely by talk of urgent need for supplies in Great Britain. The market, although somewhat unsettled at the close, finished 1½@⅝ to 2c net higher, with May at $1.30¼@⅜ and July at $1.23½.

Other leading staples, too, all scored gains—corn 1⅛ to ¼, oats ⅜ to ½ to ⅝ and provisions 17½ to 35c.

Assertions that the British government was buying wheat at the seaboard did a good deal to force the trade to notice.

According to dispatches from Liverpool the stock of wheat there was insufficient.

The effect of such bullish advices was little offset by New York reports that big clearances were expected.

Many unfavorable crop reports that were received from the southwest and the central west formed a handicap on the bears in wheat.

Corn advanced mainly as a result of receipts being smaller than expected.

Oats derived their firmness principally from the strength of other grain.

Higher prices on hogs and cereals carried provisions up grade. In addition, the market was affected by news that the French government had bought 12,000,000 pounds of fat backs.
