UNCERTAINTY OF LABOR PARLEY IS FELT ON MARKET

Trading Is Very Contracted, Old-time Favorites Making Up Fully Fifty per Cent of the Total Turnover.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

New York, Aug. 26.—Important stocks were under moderate pressure at the opening of today's brief session, overnight developments of the railroad situation providing the professional short interest with an excuse for renewing its attacks against the more speculative issues. Rails, like Reading, Union Pacific and Norfolk & Western receded a point, with reversals of as much or more in coppers, crucible steel and obscure industrials.

United States Steel also fell back almost a point and Bethlehem Steel was 16 points lower at one time. That period witnessed a general recovery in all quarters of the list, many shares closing at actual net gains of urgent covering of bear contracts.

Trading was exceedingly contracted, United States Steel, Reading and a few old time favorites making up fully 50 per cent of the total turnover of 252,000 shares.

General news, while mainly favorable, exerted little influence marketwise. Trade reports referred to continued activity in various lines of industry at higher prices.

Clearing house institutions showed only a slight expansion in actual loans and discounts and a nominal cash increase, but demand deposits increased by over $45,000,000, with a moderate decrease in excess reserves.

Today's bond market showed slight irregular changes in some of the active issues. Total sales, par value, $1,930,000.

United States coupon 3's declined ½ per cent on call during the week.

CHICAGO BOARD OF TRADE.

Chicago, Aug. 26.—Fear of a railroad strike was among the influences which sent the wheat market down for net losses of from ¾ to 2c today. Corn declined ¾ to 1c, and oats ⅛ to ¼c. December and January lard were exceptions to weakness in the provision pit.

The wheat market at the opening displayed a bit of strength on the export situation, but it was short-lived. A brief recovery punctuated the subsequent decline, but it failed to hold and prices sagged and closed close to the bottom. The Canadian Northern railroad's report showing some wheat where only desolation had been reported, weakening of cash premiums on Pennsylvania wheat at the seaboard, and the desire to even up trades over Sunday were among the bearish influences.

There was a lot of long corn for sale today, and the weakness of wheat deterred new investments in the coarser cereal for the time being. The selling pressure was particularly severe on December, which declined 1½c from the top and showed a net loss at the end of the session of ⅞ to 1c.

Oats declined with wheat and corn and rallied at the bottom.

Purchasers of December and January lard to eastern shorts sent those deliveries up.

September pork dropped 30c and December 15c.

September and October lard decreased 7½c, while ribs managed to survive the day with a gain of 2½c. December lard advanced 25c and January ribs 17½c. Parkers were sold to be sellers of the near deliveries.

Closing prices:

Wheat—Sept., $1.51¾; Dec., $1.53⅝.

Corn—Sept., 82c; Dec., 75c.

Oats—Sept., 46⅞c; Dec., 49⅝c.

Pork—Sept., $27.05; Dec., $23.25.

Lard—Sept., $14.15; Oct., $14.20.

Ribs—Sept., $14.40; Oct., $14.15.

STOCK DEALINGS BROAD AND REACH NEW HIGH LEVELS

In Spite of the Railroad Labor Situation, the Market for the Week Is Regarded as Generally Satisfactory.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

New York, Aug. 26.—The railroad labor situation, which assumed a more disturbing aspect with the progress of the conferences at Washington, was a drawback, or adverse factor, in this week's active market. Dealings were on a larger, if not a broader scale than at any time in the past three months and the average of advances placed leading shares at the highest levels for that period.

United States Steel was the feature. Steel yielded only 2¼ points of its gross gain of 8⅛ despite the extensive profit taking that accompanied its rise. Other stocks of the same class were more responsive to pressure.

Coppers regained much of their former prominence, active issues of that group rising one to two points. Conditions in the metal industry are unusually promising, refined copper being quoted at 28c for delivery in the last two months of this year.

Munitions and equipments were irregular, but mainly higher, with considerable activity in Bethlehem, which made an extreme gain of 22½ points on the week.

Bankers and financial institutions reported a moderate increase of investment demand, in anticipation, presumably, of September interest and dividend disbursements, which are estimated at almost $143,000,000, an increase of about $22,000,000 over the same period last year.
