SEMI-WEEKLY MINER.

SATURDAY, AUGUST 26, 1882.

From the Daily of Thursday.

There are 25 patients at the St. James Home.

In future city prisoners will be kept in the basement under the Police court room.

The foot-race between Joyce and Regan will take place Saturday; go-as-you-please for five hours.

Mr. and Mrs. Wm. Read left this morning for the Warm Springs where they will remain for several days.

The next regular meeting of the County Commissioners will be held on the first Monday in September.

Edward McKeen, who died here nearly two months since, being a member of the Ancient Order United Workmen, his widow will receive $2,000.

The fire engine and hose has been sold conditionally, the condition being that it stands the proper test. Four thousand dollars is the price agreed upon.

Mr. Wm. Warfield and wife have been out at Dr. Mussigbrod's Warm Springs for several days. Mr. Warfield thinks that the most pleasant place in the Territory.

The Billings *Herald* of the 17th says: This afternoon at 5:30 o'clock the first passenger train will reach the bridge, and each day thereafter the trains will run regularly to Billings.

In our item in regard to the Rose mine, Park Canyon, we stated it had been bonded by the Parrot Company, but this was a mistake and should have read, "bonded by Tibbey and Midgeon."

A good house and a good performance at the the theatre Comique last night. Miss Millie Branscombe, the new serio-comic actress, has made a very favorable impression on Butte theatre goers.

Mr. J. Ross Clark, cashier of Donnell, Clark & Larabie's bank, was taken sick yesterday and the symptoms indicate fever. Mr. Clark's many friends will greatly regret this and we hope to see him out again soon.

Messrs. A. R. Converse, Thos Swan, E. Nagle, Tim Dyer, W. H. Hibbard and Wm. Jenks of the Lee Mountain syndicate, returned last evening from Helena and departed this morning for Cheyenne.

The M. E. Church South Annual Conference will meet in Butte on the 30th inst. Rev. Bishop R. K. Hargrove is now on the way and will preach in the Methodist church, this city, next Sunday, at 11 o'clock a. m. and 8 o'clock p. m.

We acknowledge a pleasant call from Mr. Robert Law of Cheyenne, who, under the change which soon takes effect, will be superintendent of the Union Pacific from Cheyenne west to Ogden, the Utah & Northern and the Oregon Short Line.

Mr. Sage, while digging a well at Gillett's camp, eighteen miles above Billings, came upon the remains of a large animal of the same general appearance as a buffalo. The remains were found at a depth of forty-seven feet below the surface of the earth.

Mr. James Renshaw, representing Fraser & Chalmers, Chicago, yesterday sent a large station pump up to the Mountain Con. The capacity of the pump is 230 gallons a minute. He also delivered a bolt cutting machine to the Lexington company.

A party consisting of Col. Stephen A. Estes, Mr. and Mrs. Bently, of Silver Bow, and Dave Mac, left yesterday for the Berry Patch on Lost creek, on a fishing excursion and will spend several days in this pleasant spot hunting and fishing.

At a meeting of the directors of the Silver Bow Water Company last evening the following officers were elected: John Noyes, President; W. M. Jack, Vice-President; J. Ross Clark, Treasurer; H. A. D'Acheul, Secretary; O. P. Blain, Superintendent.

Instead of stopping in Deer Lodge valley as heretofore announced, Arch Bishop Seghers will come direct to Butte on the cars. The committee of Catholic gentlemen will meet at Father Doll's residence at 8 o'clock Sunday evening to perfect arrangements to properly receive the Archbishop.

The following freight was shipped north over the Utah & Northern: To Butte, 2 cars of salt, 2 of coal and 2 of merchandise; to Dillon, 1 car of glass, 2 of beer and 5 of merchandise; to Blackfoot, 1 car of sugar, 1 of corn and 1 of merchandise; to Hot Springs, 1 car of coal.—*Pilot.*, 21st.

Birtie, the 12-year-old daughter of Mr. Chas. Fiske of the Virginia Chop House, had a very narrow escape from serious injury yesterday. She was riding down Park street and was thrown, bruising her chin and both limbs quite severely. Miss Bertie is a very bright little girl and it is hoped she will be all right in a day or two.

We had the pleasure yesterday of seeing a beautiful crayon portrait of a child, the work of Mrs. W. L. Vischer. The lady we understand, has decided to locate in Butte, and will devote herself to her art. The portrait we saw evidences the perfection which Mrs. Vischer has attained in her profession. Those who desire artistic work in crayon would do well to consult Mrs. Vischer.

A note received yesterday from V. A. Cook, of Boulder valley, informs us that James E. Riley late proprietor of the Boulder Hot Springs, died from small-pox, at the pest house in the valley, on the evening of the 21st. Mr. Riley was an old pioneer, well and favorably known, and came to Jefferson county in 1863. The other three patients are doing well and no new cases reported.

TIDAL WAVE.

Development of the Mines Proceeding Rapidly and New Discoveries Being Made Every Day.

Special Correspondence of the Miner.

If any mining camp in Montana deserves notice it is the Tidal Wave district. It is found to be one of the leading camps, and all that is necessary to bring it to the front is capital and a good, fair dealing smelting company. If there was a smelter put up near the mines it would inspire the mine owners to develop their mines more rapidly. As it is it takes about all the profits to have the ore freighted forty or fifty miles. There are three or four mines, however, that are shipping ore, but most of the mine owners here are men of small means, and are waiting for some company to put up a smelter. Prospectors are coming in rapidly, and they all express surprise that a smelter has not gone up long ago. An outfit consisting of five men, five burros and as many riding horses arrived here from Wood River, last week, and they say if we had our mines in Wood River, where there is California capital, we would have no difficulty in disposing of them for big money. Old Papa Swan, a California prospector, said to me to-day, "Butte would not make a spur of the High Ridge alone, and if the people don't believe it I'll swear to it."

The High Ridge is working six men, and it is the intention of the owners to put more men on immediately. They are taking out from five to six tons of ore per day which bears copper, silver and lead. In places the pay streak shows over three feet of solid galena. Considerable excitement was caused here today by A. A. Eno taking up a fraction between the High Ridge and Magnolia. Before he had run a cut in two feet he struck a body of high grade galena.

The Magnolia, which is the eastern extension of the High Ridge, is looking better than ever. On Saturday the miners struck a ten inch vein of solid galena, and are now taking out ore rapidly.

Orrin Stone has completed his Arastra in Wisconsin gulch, and will now begin to work his own ore. Heretofore he has been selling it to the Glendale smelter, and for the last lot he took in he received $124 per ton.

The Bilk lode is looking fine. There is about seven tons of ore on the dump that assays from 80 to 100 ounces in silver, and as soon as the windlass and car are placed in position sinking will be renewed.

The Wolverine is now being opened up in two places. One tunnel is in 55 feet, and as Sam Vanmeter discovered the ledge about 100 feet further up the hill he is now sinking there. He has an iron claim also, and if a smelter goes up he can furnish them with plenty for fluxing purposes.

The Two Dans, which is a gold mine, is still producing rich ore.

There is about 300 tons of ore on the dump which will average over $50 per ton.

The Pleasant View, which is the western extension of the High Ridge has some of the best ore in the camp. They are taking out from one to two tons per day of gray carbonate ore and galena, and its appearance and richness improves as they progress.

The Mineral Hill and Bald Mountain leads are attracting considerable attention, and they certainly deserve it. There is about 110 tons of ore on the dumps which runs from 27 to 190 ounces. They employ four men who extract on an average that many tons of ore per day. Hank Whitmore, one of the owners thought he was strong enough to hold a saw log from going down hill, and the consequence was that he was run over and injured internally. As he is unfit for work for the present, he intends going to the geysers next week.

The Fusilade is being opened up and improves as sinking progresses. It is being timbered now and as soon as that is completed sinking will be resumed.

The Illinois lead is panning out big and there are now about 15 tons of ore on the dump that runs from $40 to $140 per ton.

The Tidal Wave, from which the district takes its name is being rapidly developed. It is one of the most important mines here. It was at one time bonded by some Leadville capitalists for $20,000, and when the bond expired it was looking rather poor and so they threw it up at a loss of $2,000. On work being resumed by the owners they had not gone in six feet when they uncovered a nine foot ledge of solid ore. The capitalists then tried to get it again but the owners couldn't see it.

There is plenty of prospecting to be done here yet and plenty of good mines to be discovered. It seems that no matter where you sink a pick you are bound to get mineral, but capital is what we want, and capital we must have.

There are a great many more mines here that I have not mentioned but will in my next. J. G. S.

Salisbury, Madison Co., Aug. 20th.

OLD GRIZZLY.

Four Ladies Chased half a Mile by a Bear.

A party from this place nearly two weeks since went out to Willow Creek, upper Dear Lodge valley, for a pleasure trip; and it came near ending fatally for at least four ladies in the party. Mrs. Smith, Mrs. Duchan, Mrs. Staten and her mother were out berrying on the creek last week when a monster grizzly bear rushed out of the willows and made towards them. The nearest house was at least half a mile distant, and they started at once for Purcell's ranche. Then came a race for life and there is every evidence that although frightened nearly to death the ladies made pretty good time. Baskets, bonnets, hats, shoes; everything possible was thrown away that their flight might not be impeded, while the savage growls of the horrible monster told only too plainly that he had a deadly meaning. His mouth was wide open and he bounded forward with all possible confidence in his ability to get a delicate morsel, but such was not to be, at least at that time, for the entire party reached the house in safety, but fearfully exhausted. The bear was not over fifty yards behind when the party got into the house, and reared up on his hind legs and uttered savage growls at being robbed of his prey. Truly a narrow escape for the ladies, and as bears are quite plenty in the valley it behooves those visiting isolated places to be very careful or there will be a more serious ending of some pleasure excursion.

THE MAIDEN MINES.

A few Interesting Items From this District.

A prospector just in from this district gives the following account of the mines:

The placer mines of Maiden and Warm Spring gulches and tributaries are limited in extent. The gulches are narrow and where worked show that the pay streak is small. To one who has witnessed the mining out of Alder, Last Chance and Confederate gulches, the placers of Maiden seem small. The claims are large, the whole of the ground being owned by a few persons. The advantages of water for working are also limited, and on the whole the out-look is not such as would entitle the camp to any very great notoriety in placer mining, since the situation is such that very few men can be employed to advantage in working them. The depth to bed rock is shallow—from six to ten feet—and the work now being done is by means of reservoirs, enabling a few hours run each day, with a small head of water. If, however, the pay channel is so rich that it will yield $25 to $50 per day to the man, as has been represented in some eastern journals, the dirt will pay to be taken out and hauled to a point where water may be had for washing. This way would employ quite a number of laborers but the practicability is doubtful.

Gems of Art.

Mr. W. A. Clark has recently received portraits of his five children, now in Germany, that are really the finest works of the kind in West. The portraits are painted on porcelain and finished in the highest style known to the art. The painter, L. Sturm of Dresden, Saxony, is the recognized master in porcelain painting in Europe, and the beautiful gems which he has sent to this far off country attest that this distinction is rightfully bestowed. The portraits which are taken from life required months of patient toil on the part of the artist and innumerable sittings by the subjects. In viewing them, the beholder is almost constrained to believe that the sparkling eyes, the apparently speaking lips and expressive countenances of the beautiful little ones before him belong to living children, and he would not be surprised to see them walk out of the magnificent frames and greet him on the spot. Mr. Clark informed us that the duty upon the portraits was 10 per cent. of their cost and 35 per cent. upon their frames.

Appointments of Bishop Brewer.

The following are Bishop Brewer's appointments from this date until the 24th of September:

Sterling—Wednesday, August 30th 8 p. m.
Red Bluff—Thursday, August 31st, 8 p. m.
Bozeman—Sunday, September 3rd and 10th.
Hamilton—Monday, September 11th, 7:30 p. m.
Willow Creek—Tuesday, September, 12th, 7:30 p. m.
Harrison—Wednesday, September 13th, 7:30 p. m.
Pony—Thursday, September 14th, 7:30 p. m.
Gallatin—Friday, September 15th, 7:30 p. m.
Radersburg—Sunday, September 17th, 11 a. m.
Centerville—Sunday, September 17th, 7:30 p. m.
Bedford—Tuesday, September 19th 7:30 p. m.
Helena—Sunday, September 24th.
—*Independent.*

PERSONAL.

Mr. M. T. Carney, of Boston, arrived in the city last evening.

Mr. Ben Kimball, of Chicago, registered in the city yesterday.

Mr. C. Kroger, of Phillipsburg made a pleasant call at the MINER office yesterday.

Rev. E. J. Stanley from Bitter Root Valley, arrived in the city a day or two ago.

Misses Josie and Maggie Morris are visiting their uncle, Thos. Purcell, in Deer Lodge valley.

Mr. Geo. C. Fitschen and family and John P. Pfeifer and family will start for the National Park to-day.

Dr. C. F. Mussigbrod, who arrived here yesterday from the Warm Springs, claims to have been the first passenger to ride on the cars from Warm Springs to Butte.

As the time for the various Democratic conventions approaches, we desire to say to our friends in Jefferson county particularly, many of whom are readers of the MINER, that in Hon. T. J. Lowrey the Democracy has always had a staunch and able champion and a faithful and intelligent official, who is deserving of the continued confidence of the party by a re-nomination for the office of district attorney of the third judicial district.

REWARD OF MERIT.

A Monument to be Erected to the Memory of Dr. Anson Ford.

The subject of this article was born in New York in 1806 and died in Butte December 3rd 1878. In the former place he held a position in the postoffice for nearly eighteen years and came to Virginia City, Montana, in the exciting days of '63. After remaining there several months he heard vague rumors of this section and came to Butte in the fall of '64 or spring of '65. He was foreman of the first United States Grand Jury in Deer Lodge county, at which date, July 1865, Silver Bow was the county seat. When the postoffice was established here he was made the first postmaster, which position he held for ten or eleven years or up to the time of his death.

He was something of a prospector and located several very promising claims, some of which have yielded large amounts of good ore. Among the claims so located may be mentioned the Gem, Mastodon, Saukie and many others.

His confidence in the district was never shaken and from the earliest date he predicted a glorious future for Butte, and said the time was not far distant when large brick stores would be erected on Main street and the whistles of mills and hoisting works would echo through the canyons. And to-day the position of the district in point of wealth and standing as a bullion producer, shows conclusively that he spoke with a prophetic mind.

He was the only physician here for several years and many prospectors can testify to his great big heart in alleviating their sufferings without a dollar of reward.

Dr. Ford was a remarkably eccentric man and his dry jokes if repeated even at this late date would cause roars of laughter. He was a gentleman in every sense and notwithstanding his eccentricities all who knew him were his friends.

It is now proposed to erect a monument to his memory and to this end the friends of by-gone days are asked to assist in placing over his last resting place a tablet which will suitably record his merits, and at the same time testify the high esteem in which he was held by all those who found their way into Summit Valley district, identified themselves with its glorious record and stood successfully the test of the pioneers' life.

CURRENT NEWS NOTES.

Cattle are dying off in Arkansas from murrain.

Eastern Fishermen report lobsters scarce this year.

Grasshoppers are at work on the Texas cotton crop.

Augusta, Ge., will abolish the tax on commercial travelers.

Lieutenant Danenhower is slowly recovering at Capon Springs, Va.

The Iowa capitol, begun in 1871, is nearing completion. Estimated cost, $1,500,000, actual, $2,500,000.

The Texans are overjoyed at the shipment of 100,000 bushels of wheat direct to Liverpool and Florence.

The customs officers at Montreal have seized an invoice of 1,840 barrels of flour from Chicago, for an evasion of duty.

Friends of Yale College are endeavoring to raise $25,000 for the erection of a building in which to hold religious meetings.

At Benton, Marshall county, on the 1st instant, a veteran of eighty winters was married to a deaf mute of twenty summers.

Kansas City has organized an exposition company, with a capital stock of $500,000, and expects to open its display September 28th.

During one week, the free floating baths of New York were patronized by 221,216 persons, of whom 154,158 were males and 67,058 were females.

A birthday party at Kinmundy, Ill., held July 28th, was attended by thirty gentlemen and fifteen ladies, each of whom were over 70 years of age.

The will of the late Cornelius J. Vanderbilt, leaving the bulk of the estate, some $700,000, to George N. Terry of New York, has been admitted to probate at Hartford.

J. A. Reed, an auctioneer at Peoria, was horsewhipped on the street in presence of five hundred persons, by Mrs. S. B. Hayes, for reflecting upon her behavior at a revival meeting.
