COMMON COLDS.

Every one is practically familiar with common colds. The chilness and shivering, the dulness and anger, the soreness of throat, pain in the head, stuffed nostrils, and still more, the irritability of temper and general discomfort, have not only been experienced by every one at some time, but it has been the misfortune of most people to pass through this unpleasant ordeal repeatedly and frequently. We would recommend a timely use of MANSFIELD PORTER'S CURATIVE COUGH BALSAM, because it always cures. A safe, reliable and pleasant remedy. Full directions on each bottle. A REMEDY FOR PILES.—It is a blessing the suffering to know that we have an effectual cure for this truly troublesome disease. Mr. J. P. Hazarde, of 184 Second street, Cincinnati, O., takes great pleasure in informing all who are suffering with piles that he used a small quantity of Dr Strickland's Pile Remedy, and it effected a permanent cure. This seems to be the case with all who make use of this splendid preparation. It is manufactured at No. 6 East Fourth street, Cincinnati, O., and sold by all Druggists.

March,4,3ol-w.

CHOLERA AND DYSENTERY.—We have received a great number of letters from some of the most prominent citizens of Cincinnati and Covington, etc., speaking in the highest terms of Dr. Strickland's Anti-Cholera Mixture for the cure of diarrhœa and dysentery. The letters are too long for this paper. Mr. Wade, of Covington, says he was once cured miraculously by the best doctors in Cincinnati, and one bottle of Dr. Strickland's Anti-Cholera Mixture effected a permanent cure after suffering for months with the worst form of diarrhœa and dysentery.

Soldiers—we think Dr. Strickland is quite right in offering you in this advertisement in our columns of to-day's paper, to take a bottle of his highly recommended Anti-Cholera Mixture in your knapsacks, it may save the lives of many of our best soldiers. Mothers, see that your sons do not neglect it. You can get it at the Drug Stores at 50 cents per bottle. It is the best remedy for Diarrhœa and Dysentery.

A SUPERIOR REMEDY.—We can conscientiously recommend to those suffering from distressing cough, Dr. Strickland's Mellifluous Cough Balsam. It gives relief almost instantaneously, and is without not disagreeable to the taste. There is no doubt but the Mellifluous Cough Balsam is one of the best preparations in use, and in all that its proprietor claims for it. We have tried it during the past week, and found relief from a most distressing cough. It is prepared by Dr. Strickland, No. 6 East Fourth street, Cincinnati, O.—From the Cincinnati National Union, Oct. 11.

THEATRE.—At Concert Hall—Richard III last night was played to a fine house, though not so large as its representation deserved. The company now here, and who remain but three nights longer, are all fine artistes and gentlemen and ladies in the social walks of life, and should if our citizens wish to take any pride in arts meet much better encouragement than they do now. The play tonight is HAMLET, and if it receives the house it merits the Hall will be crowded to overflow.

At the time this kindly shell made its grand entree into the magazine, there were about one hundred souls—officers and men—on board of the gunboat, every one of whom would, undoubtedly, have been blown to atoms had it exploded.

☞ From the proof sheets of the life of General Scott it appears he was born fourteen miles from Petersburg, Virginia, June 13, 1786. The General gives an account of the trial for high treason of Aaron Burr, at Richmond, at which he was present; and where he met Washington Irving, General Jackson, John Randolph, who was foreman of the jury, and other men of note. General Scott refers to it as "a striking fact, that three ex-Vice Presidents, Aaron Burr, John C. Calhoun and John C. Breckinridge, became, each in his day, a leader in treason."

New Regiments to be Raised.

STATE OF INDIANA,
ADJUTANT GENERAL'S OFFICE,
INDIANAPOLIS, Aug. 31, 1863

GENERAL ORDERS.

Under the President's call for 500,000 men dated the 18th ult., authority has been received to organize Eleven new Regiments in this State, in pursuance of which it is proposed to raise one Regiment in each Congressional District, to serve one year; and to be rendezvoused at the following places, to-wit:

First District.....Evansville,
Second " .....New Albany,
Third, " .....Columbus,
Fourth " .....Lawrenceburg
Fifth " .....New Castle,
Sixth " .....Shelbyville,
Seventh " .....Greencastle,
Eighth " .....Lafayette,
Ninth " .....Mich. City,
Tenth " .....Fort Wayne
Eleventh " .....Kokomo,

Orders have heretofore been issued for the recruitment and re-organization of the 23d Regiment Indiana Veteran Volunteers in the Congressional District, to rendezvous at New Albany under the superintendence of Geo. S. Rabbitt, Lieut. Colonel of the Regiment.

The following paragraph, from General Orders No. 13, series 1864, relative to Recruiting Officers, is inserted for the information of the public

1. In organizing new regiments or independent companies of volunteers, the Governors of States are hereby authorized to appoint, in addition to the staff officers heretofore authorized, one Second Lieutenant for each Company, who shall be conditionally mustered into service at the date of his appointment. Any officer thus appointed and mustered shall only be entitled to be paid on the muster and pay roll of his company; and should he fail to enlist an organized company within such time as the War Department may designate, the men enlisted by him shall be transferred to some other company; his appointment shall be cancelled, and he shall be discharged without pay, unless the Governor give a position in the consolidated company to which his men shall have been transferred

The provisions of this paragraph will be so modified, that instead of one recruiting officer for each company, three will be appointed, neither of whom shall be mustered into service conditionally, as provided in said paragraph, unless it shall be agreed upon between them which none shall be so mustered; and on the organization of a company, should the three succeed in enlisting a sufficient number of men, the company shall decide which shall fill the respective offices, or they may be commissioned with respect to the number of men each may have enlisted.

Recruiting Officers will be appointed on presenting to these Headquarters satisfactory testimonials that they possess sufficient ability and influence to insure the enlistment of companies, or such proportions of companies as will entitle them for commissions.

The Commandants of the camps of rendezvous will be expected to canvass the Districts and assist in raising the companies, and to render such services as may be necessary for the speedy organization of the regiments; but they are not to be regarded as having any special claims to promotion to any field office.

The Commandants will be supplied with transportation passes for recruiting officers and recruits. The passes show on their face the purposes for which they are to be used. Every person will be held strictly accountable for their proper use, any person improperly using them, will be severely dealt with.

Recruiting Officers, and others authorized to raise Companies, may contract for the subsistance and lodging of recruits at places away from the camps of rendezvous for a period not exceeding seven days, at not exceeding thirty cents per day for subsistence and twelve cents for lodging—and the accounts therefor properly verified by the recruiting officer, and approved by the commandant and Governor, will be paid by the U. S. Disbursing officer, provided the recruits so subsisted are received into the United States service.

Blank forms for making out accounts for subsistence will be furnished by applying to the U. S. Disbursing officer.

Every precaution should be used to prevent the enlistment of persons unfit for service from physical disability, or miners under 18 years of age; any one who shall recruit boys under 18 years of age will be charged with their transportation and subsistence.

Field officers of the regiment will be appointed by the Governor of the State when the companies have been raised and the regimental organization completed.

When one half of a company has been mustered into service the First Lieutenant thereof can also be mustered in, and when the organization of the Company is complete the Captain and Second Lieutenant can be mustered.

The bounty provided by law is $100, one-third of which will be paid when the Companies are mustered into service. No premiums for procuring enlistments will hereafter be paid by the United States.

From Buffalo

BUFFALO, N. Y. Aug. 8.—The afternoon's Commercial Advertiser has some particulars about the reported raid on Buffalo. The Provost Marshal of this city from various reports was led to believe the rebels in Canada had organized to burn Buffalo and destroy the Locks at Lockport. The Marshal laid the matter before Gen. Dix, who stated he was aware of the existence of such plot, but was unable to provide means to defeat it, but advised measures to be taken here as exigencies of the case required. The public are unadvised of any means of defense having been taken as yet reported.

Mayor Fargo protested against the removal of the 74th regiment from here, which has just been ordered for 100 days duty.

From Albany.

ALBANY, N. Y., Aug. 9.—As the Troy Steamer Vanderbilt was coming up the river this morning just before daylight and when a short distance above Kinderhook upper light, she ran into the tow of the Cable boats, sinking three of them and damaging herself, so much so that the water was soon several inches deep in her lower Cabin. The steam pumps were immediately set to work, but as the water seemed to gain on them, it was necessary to run her ashore, and it is feared her hull sustained additional injury thereby.

The Steamer St. John, which was a short distance behind her ran alongside and took her passengers off.

No one injured or lost, but it is reported that two brothers who were sleeping in the forecastle of one of the Cable boats were either killed or drowned.

A Propeller and Barge were sent from this city, this morning to bring up the freight which sustained but little damage.

From New York.

NEW YORK, Aug. 9.—The Commercial's Washington special says there is great exultation at the Navy Department over the news from Mobile.

The blockade running at Mobile will be broken up, and several of our most gunboats will be relieved from there. The Tennessee was supposed to be the most powerful ram in the world.

The sinking of the Tecumseh is entirely discredited.

Buchanan is only Admiral in the rebel Navy.

NEW YORK, Aug. 9,—The steamer Fulton, from Port Royal via, Fort Monroe arrived here. She brings the exchanged Union prisoners from Charleston.

Gen. Birney has made a raid in Florida, destroying several bridges, capturing locomotive, cars and a quantity of small arms.

We now hold Baldwin and Camp Milliken.

A blockade runner run into Charleston on Wednesday night.

Our released officers report since they have been confined in Charleston, five blockade runners had run in. Firing on Charleston and Fort Sumter continued.

NEW YORK, Aug 9.—The Commercial says the advance of cotton to $1 75 per pound has created some excitement, and demand good, jobbers who have been indisposed to buy cotton at high prices, are now ready to operate at late figures and on the same kind of goods, at even a slight advance. The common houses, however, are disposed to take advantage of the rise in new material. The rise of cotton appears to be based on a falling off of the supply during the past month.

The total receipts for July were 18,780 bales, which is less than the average receipts of the ten preceding months by 6,429 bales, such a large decrease naturally affects prices.

NEW YORK, Aug. 9.—A private dispatch from Washington to-day says:

Our news through rebel sources is all encouraging.

The capture of Mobile is confidently expected. Welcome from the front that great excitement exists among the rebels both at Richmond and Atlanta.

Military men here say that Sherman will undoubtedly take advantage of the confusion of the rebels, and we look for accounts of a battle at any moment.

Averill's victory in the Valley is confirmed.

His loss was very slight and he captured from 500 to 600 prisoners, and all the rebel artillery. This and the report from Mobile have made our Washington officials very happy to-day.

From Washington.

WASHINGTON, AUG. 9.—Information has been received here that Gen. Averill, after overtaking the enemy at Moorfield, attacked and utterly routed them, capturing between 500 and 600 prisoners, including Gen. Johnson, who subsequently escaped with his whole staff with their headquarter colors, all the rebel artillery and trains and a large quantity of small arms. Gen. McCausland, himself, barely escaped by flying into the mountains.

Gen. Averill pursued the scattered remnant of the rebel army for 24 miles, capturing many fugitives. His entire loss in killed was 1 man.

The pursuit was only abandoned when Gen. Averill's horses were too exhausted to follow the rebels into the mountains.

From New York

NEW YORK, Aug. 9.—The World's Washington special says the rebel movement on the Upper Potomac was a feint to cover the sending of reinforcements to Hood. It is supposed that not less than 30,000 veterans had been sent to Atlanta. Much apprehension is felt in the matter.

The Herald's Washington special says Grant and staff have returned from the Upper Potomac, and started for City Point.

The Tribune's correspondent, from Petersburg, says the armies on Potomac and James rivers were never in better condition, and important movements are on foot, from which you may soon expect news.

The following dispatches have been received by Gov. Borman from Gen. Kelly at Cumberland:

My forces repulsed the enemy again yesterday at New Creek, Gen's Mc
