DR.'S JOHN BULL'S COMPOUND CEDRON BITTER

The Latest and Most Important Discovery of the 19th Century

No man's name is more intimately [illegible] with the history, or Materia Medica literature of this country, than that of Dr. John Bull. His celebrated preparations, the fruits of his indefatigable labors, are daily about at the bedsides of thousands of our fellow-citizens. Year after year the demand increases, and extends to every part of the United States, and to the West and S. Indies. The reputation so widely spread of the remedies of Dr. Bull, has induced many to imitate the original, but the discerning have ever shown a preference for the genuine preparations of Dr. Bull. Among the recent discoveries of Dr. Bull, which is likely to be the most popular of any ever before known to the public, is the Cedron Bitters, which he offers to the public as a remedy, not to be equalled by any other, for the cure of Dyspepsia, Liver Complaint, Fever and Ague, Fever and Ague, and all diseases arising from a disordered state of the Stomach, Bowels, Liver or Kidneys.

Dr. Bull's Cedron Bitters have been before the public for the last two years, and have gained a reputation as wide as the country, and have been used by thousands, who have testified to their efficacy in the most decided manner. Dr. Bull does not claim to be the discoverer of Cedron, which is known to have been used in the Indies for many years, but he does claim to be the discoverer of the best method of using it, and of producing a medicine which will be found to be the most powerful remedy for all diseases arising from exposure either to changes of weather or climate, or to the miasmatic influences, it stands without a rival, and justly deserves the reputation it has so long in Central America and the West Indies.

DYSPEPSIA,

And its attendant train of symptoms, is one more like a charm than a medicine. There is nothing in the range of the Materia Medica, that can for a moment bear a comparison with it in this disease.

A full account of this wonderful plant may be found in the 11th edition of the U. S. Dispensatory, pages 1287 and 1288.

A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of Cedron with other appropriate tonics, the whole preserved in the best quality of copper distilled Bourbon whiskey, which he is confident has no equal in the world.

He might furnish a volume of certificates, but the public have long since learned to estimate such things at their true value. The safest plan is for every one to test for himself the virtue of a new medicine. Give the

CEDRON BITTERS

One trial and you will never use any others.

It is not necessary to publish a long list of diseases for which the Cedron Bitters are a specific.

In all diseases of the Stomach, Bowels, Liver or Kidneys;

In all affections of the Brain depending upon Derangement of the Stomach or Bowels;

In Gout, Rheumatism and Neuralgia;

And in Fever and ague, it is destined to supercede all other remedies. It not only cures these diseases but it prevents them.

A wine glass full of the Bitters taken an hour before each meal will obviate the ill effects of the most unhealthy climate, and screen the person taking it against disease under the most trying exposure.
