Turkish Jests.

Khojah Effendi was once invited to a banquet; he went in an old, dirty, and tattered garment, and, of course, found no one paid him the slightest attention. Quietly slipping away, he decked himself in a splendid pelisse and new trousers, and returned to the scene of festivity. He was received with honor at the door, saluted with a shower of compliments, and conducted to the highest seat. As the dishes were presented to him, he dipped in each the sleeves of his pelisse.

"Khojah Effendi!" exclaimed the astonished guests, "what are you doing?"

He replied, "Since all the respect shown me is owing to my garments, it is but fair that they should participate in the feast."

A man once came to Khojah, saying, "Effendi, I have need of an ass to-day; have the kindness to lend me yours."

"I have no ass here," said the Khojah; at the same moment the animal began to bray in the stable.

"Ho!" said the man, "do I not hear your ass bray in the stable?"

"What!" exclaimed the Khojah, "would you take the word of an ass in preference to mine?"

It happened once that the Kazi (a judge) of Sarry Hissar (a village near Constantinople) got drunk and fell asleep in his vineyard; the Khojah, walking with a friend, passed by the place, and seeing the Kazi's condition, stole his gown and placed it upon his shoulders. When the Kazi awoke and missed his gown, he summoned his attendants and sent them in different directions, commanding them to arrest the person with whom it should be discovered. One of the officers recognized the gown on Khojah's back, and seizing him, dragged him to the Mollahmeh (the public tribunal.) When the Kazi saw him, he demanded—

"Khojah Effendi, where didst thou find this gown?"

The Khojah answered in a loud voice, so that all the spectators might hear—

"As I was walking out this morning with a friend, we saw a Kazi, so reckless of the holy law he was appointed to administer, that he lay in an open field, dead drunk and asleep. My companion, in indignation, spit upon and kicked him; I took his cloak and put it upon me. If it be thy property, I am willing to resign it to thee."

"No, no, Khojah!" cried the Kazi, alarmed for his reputation; "it is none of mine; it is none o' mine!"

If you do not hear reason, she will surely rap you on the knuckles.

A fat kitchen makes a lean will.

If you would be rich, think of saving as well as of getting.

What maintains one vice would train up two children.

Beware of little expenses—a small leak will sink a great ship.

A man is never irretrievably ruined in his prospects until he marries a bad woman.

If you would know the value of money, go and try to borrow some.

A Literary Kiss—Alain Chartier was esteemed the father of French eloquence; he spoke as well as he wrote. He flourished about the year 1430. Margaret of Scotland, first wife to the Dauphin, afterwards Louis XI., as she passed through the Louvre, observed Alain asleep, and went and kissed him. When her attendants expressed their surprise that she should thus distinguish a man remarkable for his ugliness, she replied, "I do not kiss the man, but the mouth that has utered so many charming things."

To finish the moment, to find the journey's end in every step of the road, to live the greatest number of good hours, is wisdom. It is not the part of men, but of fanatics, or of mathematicians, if you will, to say, that, the shortness of life considered, it is not worth caring whether for so short a duration we were sprawling in want, or sitting high. Since our office is with moments, let us husband them. Five minutes of to-day are worth as much to me, as five minutes in the next millennium. Let us be poised, and wise, and our own to-day.

A relic of the olden time has been discovered in Southwark, by the census takers, in the person of Mrs. Hannah Turney, who was born at Salisbury, New Jersey, May 23, 1746, and was therefore, one hundred and four years of age last May. Her maiden name was Hannah Poole; she is the widow of Henry Turney, a soldier of the revolution, and lived near Monmouth Court House, where the battle of that name was fought. She has been the mother of ten children—six boys and four girls—all of whom, with their descendants, she supposes dead. Three of her sons fought in the war of 1812, and one was killed at the Battle of New Orleans. She is supported by a Government pension and the kindness of the family with whom she lives.

Storing Trains by Electricity.—Messrs. H. Freeman and J. Patterson, at the Commercial Exhange, Cortland st, have invented a means of *stopping railroad cars by electricity*, so as to dispense entirely with the services of brakemen, and thus enable the engineer to stop the train himself by a motion of the hand, and thus obviate the delay, irregularity and misunderstanding now encountered or hazarded, as well as the disagreeable and dangerous motion now encountered in the process of "breaking up" a train, part of the car-beam held more tightly than others. The plan contemplates the arrangement of a Galvanic Battery on the Locomotive, under the eye and hand, and a response in the ground running along the Interior, in the shape of a recommendation of the purchase of a farm by the National Government, upon which to scattar the guano. The report of the Secretary of the Interior has the following paragraph:

"The purchase of a farm in the vicinity of the national metropolis, to be tilled and managed under the direction of the bureau, has been suggested. Those interested in railroads are invited to be annise it.

Henry Heine, the famous German Critic of Literature and Art, and for the last quarter of a century, one of the most distinguished *litterateurs* of Paris, where he has long resided, is dictating the Memoirs of his Life. Disease has disabled him entirely, except his brain, and with more than one foot in the grave, he tells the tale of his time, doubtless with all the sparkling satire and wise wit, that has always flashed along his lines.—This book, with Madame George Sand's "*Memoires de ma Vie*," will form a most exciting history of modern literary and artistic life in Paris.

The present bridge across the Ohio, at wheeling, having been declared a nuisance by the highest judicial authority, it is now proposed to build another 100 feet above the highest known water mark, or 132 above low water.—*Cen. Courier.*

Does this mean that Chancellor Walworth, to whom this question had been referred, gave this as his decision?

Railroad Iron.—The ship Italy arrived at New York a few days since with 1001 tons of T Rail, for the second division of the Galena and Chicago Union Railroad.—*Chi. Trib.*

The suggestion has been made, and it is thought Congress will sanction it, to send out the big ship Pennsylvania with the products of our country intended for the industrial fair in London, next June. Her appearance on the great occasion would reflect credit upon our country.—*Ex.*

The *N. O Picayune* says that the accounts of damages to the Sugar crops by frost, are coming in daily worse and worse. It is feared that half the crop will be spoiled before taken in.

Plank Roads.—Canton, Fulton Co., is building two lines to the river, one to be free. Beardstown has completed three miles of the plank road to the bluff, and will next season extend it to Virginia. "The facilities for marketing which this road and others in contemplation, will give," says the Gazette, "will enhance the value of the land of the county, *fifty per cent.* as soon as they are built."

Pittsfield, Pike Co., is building a plank road to the river, at Florence.

Burlington, Iowa, is building thirty miles of plank roads.—*Ch. Trib.*

Hotels.

United States Hotel.

By William B. Fowler, *Peru, Illinois*

The house, a stone building (the first fire proof building used in northern Illinois as a hotel), and the furniture has cost over, at a heavy expense, to furnish it in a style to compare with the building. The rooms are large, and admirably arranged for convenience and comfort. Travellers and their baggage taken to and from the boats free of charge. 43-tf

American House,

Ottawa, Ill.

(Lately kept by R. Thorn)

Corner of Water and Columbus st., near Fox River.

THIS subscriber respectfully informs the people of Ottawa, and the travelling public generally, that he has purchased the above commodious establishment, and having undergone a thorough repair and renovation, it is now opening for the accommodation of travellers and boarders, in as good style as any other house in town can afford, and on the lowest terms. Ample stabling is attached to the premises. The public are asked to give him a trial.

☞ No one need pass the house through fear of being disturbed by the noise of drays, as none is kept about the establishment.

JACOB MILLER.

Fox River House,

Ottawa, Ill.

THIS popular establishment continues in full operation, and its accommodations are inferior to none in the country. Travellers will always find the table supplied with choice game, and every delicacy the country affords. A continuance of the liberal share of public patronage heretofore extended is solicited. aug 6, 19-tf

Prairie House.

At the Great Sulphur Springs, Half-way between Ottawa and Peru, on the bottom road.

NEAR STARVED ROCK.

Travellers will find as good accommodations at my house as any other in the country, and stages to make it an object to stop. Excellent stabling attached to the establishment. A. P. REED

Hardware, Iron, Nails

TIN, SHEET-IRON, AND COPPER WARE.

WE are now receiving the largest and best selected stock of *Hardware* ever offered for sale in this market. Our stock of stoves comprises every variety of the late improved patterns to be found in the Eastern or western markets, among which are the "*Queen of the Prairie*," double oven air-tight cooking stove, manufactured at the Phoenix Furnace, Chicago; also the *Vulcan* air-tight, made by S. H. Ransom & Co., Albany; either of which stoves, for economy of fuel or convenience in cooking, are not surpassed by any stove in use. We can furnish EXTRA PLATES to either of them to order to replace any that may burn out, and we will *warrant* the stove to work well in all cases when properly put up.

We have also four sizes of the *Premium*, and three sizes *Elevated Oven* cook stoves, together with every variety of air-tight parlor, plate and box stoves, at prices to suit purchasers.

We are prepared to fit out stoves with Pipe and fixtures at the shortest notice. *Also*,

Heavy and Shelf Hardware,

Blacksmiths', Carpenters', and Coopers' Tools, House Trimmings, &c. &c.

In short, every thing pertaining to the Hardware trade, which we will sell forready pay at prices that cannot fail to give satisfaction.

Job work done to order.

Ottawa, sep 14, '49 JOHN MANLEY & Co.

Coal Cooking Stove.

WE would call the attention of our customers to *Cushman & Co's Air-tight Cooking Stove*, manufactured in Ottawa. This is the most perfect stove for burning either coal or wood that has been yet offered to the public. It is so constructed that when either of the plates burns out, it can be replaced at a trifling expense.

We keep a supply of these stoves on hand, and will warrant them to work well and give satisfaction in all cases where properly put up.

We also keep for sale three sizes Premium cook stoves, as well as all sizes plain and fancy coal stoves made in Ottawa, which we sell at the Foundry prices. sep 14 JOHN MANLEY & Co.

Miscellaneous.

The World Challenged!

S. P. EMERSON'S

Improved Atmospheric Churn.

Patented April 24, 1850.

THE attention of the public is respectfully solicited to an examination of the above churn, which for efficiency, cheapness, and facility for cleaning, stands unrivalled and alone.

The numerous certificates which have been received, corroborative of its unrivalled performances with the different churns now in use, and the united testimony of all who have witnessed its operation, furnish ample proof of its being the most approved churn ever exhibited to the public. In it the greatest theoretically philosophical principles are fully embodied, viz: the agitation of surface portion of the cream or milk, and the introduction of atmospheric air. This mechanical and philosophical action upon the cream or milk has the effect to separate and bring into contact the minute particles of butter, requiring only a proper temperature to promote their adhesion. The process of collecting the butter is not equalled by any previous invention, it being rapid and complete. It has in all cases where used with other churns, proved itself the quickest, and at the same time a more perfect separator, and consequently a larger quantity of butter. On name and the amount produced, the world is challenged. S. P. EMERSON, *Patentee.*

N. B.—Persons desirous of purchasing County Rights or Churns, by directing a letter (post paid) to or calling in person on, William Pearson, Ottawa, Ill., will meet with prompt attention. Mr. Pearson also manufactures and keeps constantly on hand a supply of the above churns.

WILLIAM PEARSON,
Agent for the state of Illinois

Ottawa, Sept. 11, 1850.

FIRE, MARINE, AND LIFE

INSURANCE AGENCY.

OTTAWA, ILLINOIS.

GEO. S. FISHER, *Agent.*

NEW YORK PROTECTION INSURANCE COMPANY.

OF ROME, N. Y.

Capital, $250,000!

THIS company is organized under the General Insurance law of the state of New York, requiring the companies to deposit stock with the Comptroller for the amount of their capital. Having no old losses to make up, they will insure property on as reasonable terms as any responsible company in the United States. Losses have always been, and will be liberally and promptly adjusted.

CONN'T. MUTUAL LIFE INSURANCE COMPANY.

CAPITAL $500,000

And now numbers 10,000 members. The dividends of profits among the insured seem a attractive feature of this company's business; and last year, besides paying upwards of $102,000 in losses, declared $106,000 among the insured. These dividends are larger than those of any other company, and are paid yearly after three years, drawing interest at the rate of six per cent.

☞ Pamphlets and other papers illustrative of the system of Life Insurance, may be had on application to the agent at Ottawa.

Ottawa, sept. 21-'50. GEO. S. FISHER, *Agt.*

KENTUCKY MUTUAL

Life Insurance Company.

At Covington Ky.

W. B. ROBBINS, President.
A. LOCKER, Vice President.
J. R. PAYSON, Secretary.

Board of Directors.

W. B. Robbins,	J. S. Morgan,
A. L. Green,	J. B. Casey,
C. A. Withers,	S. E. Mack,
R. M. Stevens,	S. J. Walker

J. T. Mossbeard, *Solicitor.*
R. Pulton, M. D., *Physician.*
J. B. Casey, *Chairman Com. on Finance.*

The terms upon which this company insure Life are peculiarly favorable to the insured—much more so, it is believed, than the terms of any other Life Insurance Company, to wit:

The great security afforded in a Guaranty Fund of $100,000, $20,000 of which has been paid in cash, and $80,000 secured in the safest manner, by Bond or Mortgage of Real Estate;

Rates of Premium greatly reduced from the rates of other Companies and more equally graded;

Insurance for the benefit of married women secure from the creditors of their husbands;

The insured not liable to assessments for losses;

No extreme hazards taken by this company;

An annual dividend to all policy holders, payable in cash; also, dividends made to life policies every five years;

Notes taken in part for payments;

Policies issued upon application without delay, causing no loss of insurance of the parties.

Loans of either sex insured, between the ages of fourteen and sixty inclusive, for one year, or for life.

The pamphlets and tracts published by the company will be found to contain much valuable information respecting the nature, principles, application, and benefits of life insurance. Also, an examination of the plans of the other mutual companies of the country, and a full explanation of the plan proposed by this company, together with various tables, showing the rates of premium for the term of life, of several companies compared with the rates of this company, for all ages and terms at which insurance is made. Pamphlets and tracts furnished gratis, and applications received and forwarded by

D. D. Thompson, M. D., *Medical Examiner.*

Dayton Woollen Factory.

THE above Factory has now been in successful operation for eight years past, and the undersigned deem it unnecessary to make any promises or pledges for their good conduct or liberal bargains, and would merely say, that they have a good assortment of

Failed Clothes,

Cassimeres Sattinett, Tweed, Jeans, Hard Times, Flannels of various kinds, Shawls, Blankets, and Stocking Yarn, double and twisted.

And will have, by the time the new cigs comes off, a larger stock of goods than they have ever before offered; and they are getting on another set of machinery, by the middle of May next, of the best and most improved kind, which will enable them to turn out double the number of yards that they have ever done before, and they now feel confident in saying to wool growers, farmers, and merchants, that their wants can be fully supplied on the most reasonable terms, in exchange for wool or cash.

Carding and Spinning.

They will card, spin and roll at 16 cents per pound in lots of 30 lbs. or over.

Custom Carding at 5 cents per pound.

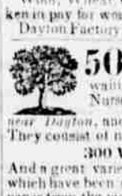
They have two sets of Cards expressly for country work, which will be fitted upon good order, and if wool is put up in proper condition, they will warrant their work to give satisfaction. Persons coming from a distance who may have to stop over night, shall be to no expense.

CLOTH DRESSING

Will be done at the usual price and in the best manner, and warranted to give satisfaction, as none but the best workmen are employed.

Wool, Wheat, Corn, Lard, and Soap will be taken in pay for work. J. & D. GREEN

Dayton Factory, April 27, 1850-39-tf



50,000 Grafted Fruit Trees are now awaiting purchasers at my Farm and Nursery on the *west side of Fox River near Dayton*, and five miles north-west of Ottawa. They consist of nearly

300 Varieties of Apple,

And a great variety of Pears, Plums, and Cherries, which have been selected, with care and great expense from the most popular and approved Nurseries in the Union, embracing nearly all the standing varieties in the eastern and southern states, the fruit of which it is confidently believed, cannot fail to suit the most delicate and refined palates.

The subscriber assumes with confidence that he has the *greatest variety and most splendid assortment* to be found in northern Illinois. The trees are from 1 to 3 years of age, and ranging from 3 to 7 feet in height, and well proportioned.

It is believed that the lamentable remissness on the part of farmers, every where observable in planting fruit trees, is mostly attributable to the almost total failure, in most cases, where trees have been transplanted from a distance, and the fibrous roots on which the tree relies for its nutriment have become dead from too long exposure to dry air or severe frosts after taking them up, either of which is fatal to its growth. But these embarrassments no longer exist. The farmer can now be supplied in his own vicinity with the number and variety he wishes, grown in the same soil and climate in which they are to be transplanted.

If the trees are taken up in the spring, it should be done soon after the frost is out of the ground—at all events, before the leaf begins to put forth. If taken up in the fall, they should be buried until spring.

Apple trees at the Nursery 124 cents; all other kinds, 25 cents. WELLS WAIT.

The premises are rented for $52 a year, and will be sold for cash for about what the improvements have cost, or are now worth. A bargain for some one.

ALSO, 80 acres of good land 2 miles from the court house, with timber on a part of it—a good stone quarry, well watered, and good land for grain. A desirable location for any one who wants to make a small farm near town. This will be sold cheap for ready money, and the remainder in 3 annual payments. Inquire of the subscriber. A. H. HOWLAND.

Lime! Lime! Lime!

100 BBLS. No. 1, Aiton Lime for sale by apl 27 P. E. CHANDLER.

Medicines.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM has been pronounced by distinguished physicians both in Europe and the United States to be the *most valuable medicinal discovery of the Age.*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and FALSE DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely,

A Derangement of the Nervous System

☞ In NERVOUS COMPLAINTS, Drugs and Medicines tend to disorder, for they weaken the vital energies of the already prostrated system; while under the strengthening, life-giving vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weak-ened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure diseases by outward application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the repletion, and restore the slightest impairment of any organ. Since their introduction in the United States, only three years since, more than

75,000 Persons

including all ages, classes and conditions, among which were a large number of ladies who are peculiarly subject to Nervous Complaints have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the **GALVANIC BELT**, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken which, by their action on the nerves and mucous of the stomach, afford temporary relief, but which leave the patient in a lower state, and with impaired faculties, after the effect thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous galvanic circulation throughout the system. Thus almost every case of DYSPEPSIA can be PERMANENTLY CURED. A FEW DAYS IS ALSO SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Undoubted Character,

From all parts of the country could be given, sufficient to fill every column in this paper.

AN EXTRAORDINARY CASE,

which conclusively proves that

"Truth is stranger than Fiction."

CURE OF

Rheumatism, Bronchitis and Dyspepsia.

REV. DR. LANDIS, A CLERGYMAN

of New Jersey, of distinguished attainments and extended reputation:—

Sussex, New Jersey, July 12, 1848.

Dr. A. H. Christie—Dear Sir: You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about twenty years I had been suffering from Dyspepsia. Every year the symptoms became more severe, and I obtain permanent relief from any course of medical treatment whatever. About fourteen years since in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me indescribable anguish. Further, in the winter of '48 and '49, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. My nervous system was now thoroughly prostrated, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System. In the whole pharmacopoeia there seemed to be no remedial agent which could reach and recuperate my Nervous system; every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1848. To my great astonishment, in two days my Dyspepsia was gone; in eight days I was enabled to resume my pastoral labors, nor have I since omitted a single service on account of the Bronchitis, and my Rheumatism has entirely ceased to trouble me. Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affections. They have tried them, with happy results, in every case.

I am, dear sir, very respectfully yours,
ROBERT W. LANDIS.

DR. CHRISTIE'S GALVANIC NECKLACE

is used for all complaints affecting the Throat or Head such as Bronchitis, Inflammation of the Throat, Nervous and Sick Headache, Dizziness of the Head, Neuralgia in the Face, Buzzing or Roaring in the Ears, Deafness, which is generally Nervous, and that distressing complaint, called Tic Doloreux.

DR. CHRISTIE'S GALVANIC BRACELETS

Are found of vast service in cases of Convulsions or Fits, Spasmodic Complaints, and general Nervous Affections of the Head and upper extremities. Also in Palsy and Paralysis, and all diseases caused by a deficiency of power or Nervous Energy in the limbs or other organs of the body.

Tic Doloreux and Neuralgia.

These dreadful and agonizing complaints are immediately relieved by the application of the Galvanic Belt, Necklace and Fluid. The Belt diffuses the electricity through the system; the Necklace has a local effect, and the Fluid acts directly upon the affected nerves. In these distressing afflictions the application NEVER FAILS.

☞ Many hundred Certificates from all parts of the country of the most extraordinary character can be given, if required.

☞ No trouble or inconvenience attends the use of *DR. CHRISTIE'S GALVANIC ARTICLES* and they may be worn by the most feeble and delicate with perfect ease and safety. In many cases the sensation attending their use is highly *pleasant and agreeable.* They can be sent to any part of the country.

Prices:

The Galvanic Belt,	Three Dollars.
The Galvanic Necklace,	Two Dollars.
The Galvanic Bracelets,	One Dollar Each
The Magnetic Fluid,	One Dollar.

☞ The articles are accompanied by full and plain directions. Pamphlets with full particulars may be had of the authorized Agent.

PARTICULAR CAUTION.

☞ *Beware of Counterfeits and Worthless Imitations.*

Medicines.

Price Reduced!

VAUGHN'S

LITHONTRIPTIC MIXTURE!

Large Bottles—Only One Dollar.

The Proprietor of the Great American Remedy "Vaughn's Vegetable Lithontriptic Mixture," induced by the urgent solicitations of his Agents, throughout the United States and Canada, has now

Reduced the Price

of his popular and well known article; and from the date, henceforth, he will put up but one size only,—his quart bottles—the retail price will be

ONE DOLLAR.

The public may rest assured that the character of the Medicine, its strength, and curative properties will remain unchanged, and the same care will be bestowed in preparing it as heretofore.

As this medicine, under its reduced price, will be purchased by those who have not hitherto made themselves acquainted with its virtues, the proprietor would beg to intimate that his article is not to be classed with the vast amount of "Remedies of the day;" it claims for itself a *greater healing power, in all diseases, than any other preparation now before the world*, and has sustained itself for eight years by its superior medical virtues, and, until this reduction, commanded double the price of any other article in this line.

Notice Particularly, this article acts with great healing power and certainty, upon the

Blood, Liver, Kidneys, Lungs,
