LOCAL MATTERS.

WEATHER PROBABILITIES.—Jan. 20, 1879.—For the Middle States partly cloudy weather, westerly winds, shifting to westerly and southerly to-night, with higher temperature, and stationary or slowly falling barometer.

PERSONAL.—The Richmond Sun of Friday last says:

"Hon Lewis McKenzie, of Alexandria, is in the city stopping with Rev. Dr. Judkins. He comes here on railroad business, an interest which has cost him about as much anxiety, trouble and money, in the past, as would suffice to run a line of first class European and American steamships for an indefinite period. Whether his dream of making ancient Belle Haven, (now Alexandria) what she bid fair to be when George Washington was Worshipful Master of the Lodge of Alexandria Masons, and the pater patriæ used, occasionally, to "caper nimbly to the lascivious pleasings of a lute," at the City Hotel (still standing, and, we hope, yet performing the useful office of furnishing provender for man and beast,) it is beyond our ken to pronounce; but that the Hon. Lewis McKenzie wishes this for the city of his nativity, and has so directed his energies and placed his money, (without good result to him so far,) we truly know. There are few better men than Lewis McKenzie, and none have excelled him in honesty of purpose and intent."

THE AQUEDUCT.—The Washington correspondent of the Baltimore Sun says:

"An effort is now being made to divert the appropriation which the House of Representatives has already agreed upon to construct a bridge over the Potomac at the Three Sisters, above Georgetown, to the establishment of a free bridge at the aqueduct, where the lessees of the Alexandria canal have now a toll bridge. These lessees (the Canal and Aqueduct Co.) have a lease of the Alexandria canal and the aqueduct for a long term of years from the owners, the Alexandria Canal Co., in which the State of Virginia and the city of Alexandria are the controlling stockholders. The lease, for which the lessees pay $1,000 per annum, is conditioned upon keeping open the canal and aqueduct, and any destruction of the water way at the aqueduct would forfeit the lease. It is beyond the bounds of probability to suppose that either the State or city would consent to such a use of the aqueduct as would cut off the canal, but a free bridge upon an improvement of the present structure might be maintained."

THE ARLINGTON CASE.—As heretofore noticed in the Gazette the case of Gen. G. W. C. Lee vs. Kauffman et als., involving the right of possession of the Arlington estate in Alexandria county, is set for trial in the U. S. Circuit Court, in this city, to-morrow. Judges H. L. Bond and R. W. Hughes are both expected to be present and sit in the case. The illness of Mr. J. Hanson Fairfax, a very important witness in the case may, however, interfere with the trial and render a continuance necessary. Judge W. J. Robinson and Major Leigh R. Page of counsel in the case were in the city to day while others are expected to night or in the morning. Gen. Lee has been in the city for several days past.

G. H. ROBINSON, ESQ.—The many friends of Mr. George H. Robinson will regret to learn that he was stricken with paralysis last night, about 11:30 o'clock. The stroke affected his entire right side, and considerably interfered with his speech, but he remained perfectly conscious. This morning his condition was somewhat improved. Mr. Robinson has been for several years one of the most prominent merchants of this city and has a very large number of friends both here and in the surrounding country, who will be pained to hear of his illness.

YESTERDAY.—The churches yesterday were well attended in the morning, and fairly so in the night, considering the weather. Rev. Mr. Stuart, of Georgetown, preached in Christ Church both morning and night, he and Rev. Mr. Suter having exchanged pulpits. Rev. Father O'Kane, of St. Mary's Church, officiated at Falls Church. In the M. E. Church Rev. Dr. Chichester preached in the morning, and there was no preaching at night. Rev. Mr. Johnson, of Herndon, preached in the Methodist Protestant Church at night on Temperance.

DEATH OF DR. T. I. ADAM.—Dr. T. I. Adam whose illness from an attack of apoplexy was mentioned last week, died yesterday afternoon, at his residence on King street near Columbus. Dr. Adam has been long and favorably known as a member of the medical profession in this city, and had hosts of friends who will regret to learn of his sudden death. He was about fifty-two years of age, and leaves a wife and several grown children. He was, in early life, connected with the naval service. His funeral will take place to-morrow evening at three o'clock.

FOR THE POOR.—Mayor Kemper has received from Messrs. Riggan Bros. & Co., of Baltimore, $13 for the benefit of the poor of this city. The sum is the amount realized from the sale of beans exhibited by that firm at the fair in this city in October last. It was divided by the Mayor between the Society of St. Vincent of Paul and the Ladies' Union Relief Society.

CITY COUNCIL.—As announced on Saturday there will be a called meeting of both Boards of the City Council to-night, to consider the memorial from the representatives of the banks and bankholders, regarding a new funding of the corporation debt. The subject is a very important one, and there will no doubt be a full attendance of members.

ROBBERY.—Justice Benjamin Austin, of Alexandria county, was waylaid by robbers and beaten very severely, in Washington, on Saturday night. The assault was made near the entrance to the Agricultural grounds, and Mr. Austin, when found, was insensible from its effects. The squire was robbed of a revolver, some money and other small articles of value.

ANOTHER COLD SNAP.—The weather commenced yesterday evening to turn decidedly colder, and last night quite a lively wind from the northwest sprung up, which increased during the night, accompanied by severe cold. The river and water courses are all frozen as solidly as ever, and the prospects of an early thaw are all dispelled.

VESSEL ROBBED.—The schooner Kitty Ace, Captain Laycock, had her cabin broken open on Friday night and a large lot of groceries, bed clothing and other articles stolen therefrom. No trace of the thieves has been discovered nor have any of the goods been recovered.

MINSTRELS.—The New Orleans Minstrels will give a performance at Sarepta hall to-morrow night as heretofore announced. The troupe is a first class one, as testimonials and will no doubt give a very good performance. The managers hope to have a large audience.

THE LARGEST SAFE WORKS IN THE SOUTH.—Mr. L. H. Miller, Baltimore, proprietor of the Miller Safe Works, adds his testimony concerning the invaluable qualities of Keller's Roman Liniment.

THE GREAT SALE STILL CONTINUES.—We are selling off every yard of our immense stock of dry goods at prime cost. Pure Wool Blankets reduced to $2.50. Pure Wool Black Cashmere reduced to 50c. Colored Silks and Black Silks reduced from $1 down to 75c. Pure Wool Blankets reduced from $8 down to $4.50. (Carter's, 711 Market Space, Washington, D. C.) Our real Satin finished, sublime quality Black Silks reduced from $2 down to $1.25. All of our beautiful Silk and Wool dress goods reduced from 50c to 25c.

FROM WASHINGTON.

[SPECIAL TO THE ALEXANDRIA GAZETTE.]

WASHINGTON, D. C., Jan. 20.

Previous to the congressional recess a few members of the Virginia delegation in the House determined that Virginia's claim for money advanced to the General Government to rebuild the Capitol should not be presented in the form of a separate bill, but should be attached to the Sundry Civil bill. As some northern States have similar claims it is not improbable that Virginia may be enabled to get her due.

A caucus of the democratic members of the Senate was held this morning. No quorum was present, but the few who were in attendance determined to report a substitute for the Edmonds resolutions, the purport of which is that Congress can only take action regarding the infringement of the 13th, 14th and 15th amendments to the Constitution when such infringements are committed by a State; and that when committed by an individual or individuals cognizance of them can only be taken by the States in which said infringements occur.

The Senate Committee on the District of Columbia held a meeting this morning and resolved to report bills requiring all the street railroad companies in Washington to make the tickets they issue good on all the street cars running in that city and interchangeable one with another, and to relieve the Louise Home from the District tax. It also heard that a committee of citizens of Capitol Hill support a memorial for a more ample supply of water.

In the Senate to-day Mr. Withers presented a petition from the citizens of Accomac county, Va., for the improvement of navigation near Chincoteague Island, Va. Mr. Dennis, of Maryland, offered a petition for the same purpose from citizens of Maryland, and also for the erection of a light house in Accomac Co. Mr. Withers also presented a petition for the relief of W. P. Burwell.

Mr. Johnson has sufficiently recovered from his long continued indisposition to enable him to be in his seat to-day.

The Senate Committee on the Census held a meeting this morning, and has fixed to report the Cox bill.

Opinions continue to differ concerning the probable action of this session of Congress upon the bill to reduce the tax on tobacco. Some of those best informed upon the subject believe that the reduction to sixteen cents a pound will be made, with a drawback to those who have stocks on hand when the law goes into operation, but others, equally as well posted, confidently assert that nothing will be consummated.

In the House to-day Mr. Tucker introduced a bill regulating the transfer of mails on railroad routes; Mr. Hunton, one for the relief of G. W. Flood, and Mr. Goode, one for the relief of Wm. Lavering.

Professor Cabell, of the University of Virginia, was in the city to-day on business connected with the National Health Association.

Intelligence here from Petersburg is to the effect that no bloodshed will result from the recent hostile action of Mr. Glass, of the Petersburg Post, and Mr. Histen, the State Senator from that district.

It is understood to-day that a vote of the bill for the payment of arrears of pensions for services rendered in the civil war, which will take unknown millions from the Treasury is possible. If this be so the President will be one of the few who are unwilling to let themselves be excelled in demagoguism.

It seems to be the prevailing opinion that Mr. Conkling will be unable to get enough democrats to support him in his opposition to the confirmation of the New York Custom House appointments to make that opposition effectual.

PROCEEDINGS OF CONGRESS.

WASHINGTON, Jan. 20, 1879.

SENATE.

Messrs. Conkling and Kernan, of New York, presented the preamble and resolution of the New York legislature opposing the passage of the bill to reorganize the army, or at least that portion of the bill relating to the ordnance department of the United States arsenals and ordnance stores. Laid on the table, the bill having been reported to the Senate.

Mr. Cockrell, of Mo., introduced a bill to provide a uniform national currency; to retire the notes of the National Banks and prohibit their incorporation and their issue of notes; to utilize silver and silver coin, and provide for the issue of gold and bullion certificates; to provide for the redemption or payment of the bonds of the United States and the issue of bonds bearing a lower rate of interest, and to provide for the expansion and contraction of the paper currency to meet the business interests and wants of the country. Laid on the table at the request of Mr. Cockrell, as he desires to submit some remarks in favor of the measure.

Mr. Morgan, of Ala., submitted a series of lengthy resolutions as a substitute for those recently submitted by Mr. Edmunds in regard to the 13th, 14th and 15th amendments to the Constitution of the United States. The substitute declares that the 13th, 14th and 15th amendments to the Constitution of the United States are as valid and binding as any other part of the Constitution; that the people of the United States have a common interest in the enforcement of the whole Constitution in every State and in the territories of the United States. The second resolution declares that the government of the United States and of the several States are distinct and each has citizens of its own owing it allegiance, and whose rights within its jurisdiction it must protect; that the government of the United States is a limited power alone. Its authority is defined and limited by the constitution. The third resolution declares that the constitution of the U. S. has conferred the right of suffrage upon no one, and the U. S. have no citizens of their own creation to the States, but the 15th amendment to the constitution has invested the citizens of the U. S. with a new constitutional right, which is exemption from discrimination in the exercise of the elective franchise on account of race, color, or previous condition of servitude; that Congress may exert by appropriate legislation the right to prevent the denial or abridgement by a State of the right of a citizen to vote when such denial or abridgement is on account of the race, color or previous condition of servitude. The final resolution declares that when such right to vote is denied or abridged by the conduct of a person who is not so acting by the authority and in obedience to the laws of the State, the jurisdiction to punish such conduct is in the State government and is not in the Government of the United States; was laid on the table to be considered hereafter.

Mr. Bruce, of Miss., from the Committee on Pensions reported a bill granting Dr. Mary E. Walker an increase of pension.

Placed on the calendar. It increases her pension to twenty dollars a month.

At the expiration of the morning hour, the Senate resumed the consideration of the bill to amend the patent law.

HOUSE OF REPRESENTATIVES.

The House was occupied in the reference of bills introduced under the call of States.

A BAWL FROM SECOND BASE.—Harry Shafer, the second base of the Boston Club, fell and dislocated his knee cap a little while ago.—He says that he owes his almost immediate recovery to Giles' Liniment Iodide Ammonia. Sold by E. S. Leadbeater & Bro. Trial size 25 cents. Dr. Giles, 120 West Broadway.

For upwards of thirty years Mrs. Winslow's Soothing Syrup has been used for children. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, cures dysentery and diarrhœa, whether arising from teething or other causes. An old and well tried remedy. 25 cents a bottle. o 22-ti

LETTER FROM RICHMOND.

[Correspondence of the Alexandria Gazette.]

RICHMOND, Jan. 19.—The River usurpation is one of the many to present subjects that will be thoroughly discussed in both Houses of the General Assembly. Gen. Johnson, in the Senate, and Mr. Fauntleroy, in the House, have given much of their time in the preparation of the report, which is one of the most able and complete exposes of the unwarrantable coup d'etat. Some persons are endeavoring to give more credit to General Johnson than he is entitled to for the work, and learning to a great extent other efficient gentlemen of the two committees. Col. Fauntleroy, for instance, as I understand, furnished the principal material for the report, especially that portion of it relating to the law and the facts. It is the same old story however, "some do all the work and others get the credit."

I regret to find that after all that has been said about the advantages to accrue to the Commonwealth by the proposed railroad scheme up the canal, so many are still to be found in both the Senate and the House who are waiting for an opportunity to obstruct the passage of the now much doctored bill, reported by the committee. The bill, no doubt, will eventually pass; but how, in what shape and under what considerations? is a matter which is disturbing the cherished hopes of the earnest advocates of the scheme. Already there are, to my knowledge, some eight or ten amendments to be tacked on it. If these "riders" are agreed to by the General Assembly the promoters of the plan will abandon it entirely.

The sudden death of Dr. E. L. Robinson, of Norfolk, member of the House of Delegates, was a sad event which shocked his brother members and a large circle of friends in this community, to whom he had become endeared by his amiable disposition and irreproachable traits of character. "To know him was to love him." On Saturday he was in his seat as usual, in the full vigor of health. After the adjournment of the House he went to his room, ate his dinner and afterwards took a nap. He and his room mate, Senator Nash, had a long and pleasant conversation, and after this said he would go out and make a call. At 9½ o'clock in the night, he was brought to his room senseless. He had been found on the sidewalk near his boarding house, evidently endeavoring to reach his room, and as soon as he was recognized by kindly parties he was carried to his home. Physicians were summoned to his assistance and everything done to restore him to life, but in vain. He died shortly afterwards. Dr. Robinson was a dentist by profession, and was about 70 years of age. He had been several times a member of the General Assembly, having seen service in both bodies. He presided over the conservative caucus of the House which nominated the present members of that body, and was chairman of an important committee of the House. He was a widower, but leaves several children. A deputation consisting of Senator Nash, Messrs. Mushbach, W. T. Fitzhugh, his colleague, Fauntleroy, Johnson and Ryland, of the Legislature, a host of friends, and a committee from the order of Odd Fellows, escorted his remains to Norfolk this morning. The General Assembly will, to-morrow, pay sincere tributes to his memory.

The course pursued by the readjusters last Thursday in calling a convention of readjusters throughout the State to meet in Richmond on the 25th of February in the face of the contemplated conference with the creditors of the State is a topic of a great deal of comment among politicians. It is thought by some that this step, taken by a large portion of the conservative element, will have far off effects in the disruption of the conservative party—a thing much to be dreaded. Unless a settlement of the public debt is arrived at before the meeting of this convention many difficulties will be thrown in the way and preclude an honorable adjustment.

The Committee on the Chesapeake and its Tributaries have had under consideration a large number of propositions relating to fish and oysters, and several bills looking to the protection of the same.

The House Committee on Schools and Colleges have prepared a bill, it is understood, providing for the reorganization of the Board of Visitors and Faculty of the Virginia Agricultural and Mechanical College of Blacksburg. This action on their part, it is said, growth of the dissensions existing in the Faculty.

STRONGBOW.

☞ SUFFERING FOR A LIFE TIME.—Persons afflicted with rheumatism often suffer for a lifetime, their tortures being almost without remission. The joints and muscles of such unfortunates are in most cases shockingly contorted and drawn out of shape. To afford them even temporary relief, the ordinary remedies often prove utterly useless. Hostetter's Stomach Bitters, on the other hand, is avouched by persons who have used it, to be a genuine source of relief. It keeps the blood cool by promoting a regular habit of body, and removes from it impurities which, in the opinion of all rational pathologists, originate this agonizing complaint and its kindred malady, the gout. Besides this the Bitters remedy disorders of the stomach, liver and nerves, prevent and eradicate intermittent and remittent fevers, promote appetite and sleep, and are highly recommended by physicians as a delicable medicinal stimulant and tonic.

MAKE NO MISTAKE.—In DOOLEY'S YEAST POWDER you get the best article of the kind in the world. ☞ IN THE WHOLE HISTORY OF MEDICINE no preparation has ever performed such marvelous cures, or maintained so wide a reputation, as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords by its timely use in the throat and lung disorders of children, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, physicians use the Cherry Pectoral extensively in their practice, and clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible. For sale by all dealers. E. S. Leadbeater & Bro., Agents.
