OYSTER SUPPER.—The ladies of the Methodist Protestant Church are making preparations for giving an oyster supper, commencing on the morning of February 20th, and continuing until the evening of the 22d. The supper room will be open on the 21st and 22d from 10 o'clock a. m. until 10 p. m. Between those hours persons may obtain at the most reasonable rates any of the substantials and delicacies of life in the edible line. The room formerly occupied by McLean & Uhler, on King street, near Pitt, has been engaged, and will be fitted up for the occasion. Being on the main thoroughfare of the city, and central in location, and also on the line of the parade, it will be a matter of convenience and accommodation to both citizens and visitors on the 22d inst. It is hoped that the ladies will be liberally patronized, the object being to raise funds for the improvement of the church edifice, which will not only beautify the city, but will give employment to some of our mechanics.

THE MITCHELL LYCEUM.—This association celebrated its first anniversary at the First Baptist Church, colored, last night. There was a large crowd present and perfect order prevailed. The exercises were opened with a speech from A. W. Harris, the founder of the Lyceum, followed by some remarks from the Rev. J. H. M. Pollard, president of the association. The literary exercises consisted of essays, declamations and selections. All were well delivered and showed that the association is doing much towards cultivating a literary taste among the colored people of the city. At the close of the exercises Rev. S. W. Madden made some encouraging remarks.

THE COLD SNAP.—During the past twenty-four hours there has been a very marked change in the weather. The cold last night was intense, and the river was covered with ice from shore to shore. This was soon broken up by the steamers this morning, and there has been no impediment to navigation. The river steamers have run as usual, and the New York steamship, E. C. Knight, left at 11 a. m., having in tow the sloop Daniel Sheets, bound for the lower river. During the night there was considerable wind, and this prevented the formation of ice above Georgetown, where there is a heavy current.

CHICKEN THIEVES.—Susan Quander, colored, and her son, were arrested in Washington yesterday charged with stealing chickens from Mr. John Truex, of Fairfax county. Mr. Truex traced the parties to Washington and recovered the chickens. They will be brought to Fairfax and the usual punishment for petty larceny inflicted.

POLICE ITEMS.—Beverly Foley, colored, was locked up in the Station house last night for throwing stones at his school teacher.

George Swansbury was hauled to the Station house in a wagon, in a very drunken condition and was locked up to sober off.

A tramp, who came to the Station house drunk, was locked up.

CONVICTED.—Dr. Williams whose swindling operations at the Macsion house and other places in this neighborhood, have been fully noticed in the Gazette, has been tried in Boston for fraud, and sentenced to three years in the penitentiary. Williams seems to have been a professional fraud and swindler, especially in the matter of board bills.

WALKING MATCH.—The walking match between Mayo and O'Donnell, at the fair grounds, continues with the same vigor as at first, although the number in daily attendance is small. The men seem to be in good condition, save a swollen ankle on one of them. A large crowd is expected to night, and the walk will close tomorrow about noon.

SERIOUS ACCIDENT.—Mr. Horatio D[illegible], who resides on Wilkes street, between Lee and Fairfax streets, but who worked at the Washington navy yard, had his left foot almost shockingly crushed to-day by the falling of a pile of lumber. He was brought home, and the necessary surgical aid rendered.

VIRGINIA LEGISLATURE.

In the Senate, yesterday, a bill was passed for the relief of the sureties of S. F. G. Beale, late treasurer of Fauquier county.

Mr. Sinclair presented the petition of citizens of Hillsboro', Loudoun county, for an amendment to the charter of said town.

A resolution was adopted instructing the Committee on Roads and Internal Navigation to inquire and report, first, whether or not the Richmond and Allegany Railroad Company as at present organized intend to build the proposed road between the city of Richmond, Va., and Clifton Forge, or whether it is the purpose of said Richmond and Allegany Railroad Co. as at present organized to sell its franchises; second, the kind of road and gauge the said company propose to construct, and all other matters important and relative to this branch of the inquiry.

Mr. Grimsley moved to take up the report of the Joint Finance Committee and the proposition for the settlement of the debt made by the intermediaries of the bondholders and to make it the special order for Monday.

Mr. Lee hope that it would not be made the order for Monday, as in that case it would interfere with the consideration of the canal bill. He was afraid that if the canal bill was postponed it might jeopardize the measure. He did not fear that a postponement of the consideration of the debt question would jeopardize that.

Mr. Fulkerson did not see the use of postponing the canal bill to consider a proposition from the bondholders' representatives that would never amount to any thing. He thought that it might suit some of the weak kneed Senators who wanted to go home and tell their people that they had effected a settlement of the debt, even if it was on a basis that could never be met. He said that the committee had asked the representatives of the bondholders here (the Messrs. Carrington) to allow the State the poor privilege of excepting 10 per cent. on the $100 for school purposes. The chairman of the committee had received a reply from these gentlemen, saying that they would submit their proposition to their principals, but that they had no idea that they would accept it. The committee, he said, did not ask the opinion of the Messrs. Carrington on this proposition.

Mr. Marshall did not think the prospects were so discouraging as represented by Mr. Fulkerson.

The motion to make the report the special order for Monday, at 1 o'clock, was agreed to.

The county organization bill was further discussed.

In the House of Delegates bills were reported from committees to amend the act prescribing the duties, powers, liabilities, and compensation of certain county officers; to amend the Code in relation to interest on money; to provide for the assessment of property for taxation for the year 1879; and Senate bill to incorporate the Lynchburg Opera House Association.

An adverse report was made upon the bill providing for the collection of taxes and for the repeal of chapters 37 and 46 of the Code, &c.

The report of the Joint Finance Committee, in relation to the adjustment of the State debt, was submitted.

Mr. Mushbach moved to lay the report on the table and print.

The chair ruled that the motion was out of order, as the bill having been reported from the committee it must be placed on the calendar under the rules.

Night sessions were ordered on and after Monday.

The report of the joint committee on Constitutional Amendments was then taken up, the question being on agreeing to the amendment offered by Mr. W. B. Talisferro reinstating the old viva voce system of voting.

Mr. Starke spoke at great length in favor of it and Mr. Robinson spoke against the amendment.

The pending question being called for and agreed to, the House proceeded to vote on the amendment, which was adopted by a vote of 66 ayes to 36 noes—Messrs. Hunter and Mushbach both voted in the affirmative.

Pending the consideration of the subject, the House adjourned.

LONDON, Feb. 15.—A Vienna telegram to the Times says:—"Some days ago a large current of water penetrated into the coal pits of Dux in Bohemia, and this morning comes telegraphic intelligence that one of the mineral springs of Teplitz is gradually diminishing. Great alarm is felt lest all the springs of this noted watering place should be connected with the waters which found their way through a fissure into the coal pits. There seems to be some ground for apprehension, as the water in the pits, in spite of the efforts to keep it down, has been increased in bulk, while its temperature is also rising."

LONDON, Feb 15.—Bell's Life states that Rowell, the Cambridge athlete, will embark in the steamship Parthia to-day for New York for the purpose of contesting the pedestrian championship with O'Leary.

MADRID, Feb. 15.—Two British ships, for Barcelona from the East, are quarantined at Port Mahon.

A severe storm visited the coast of Galicia yesterday. Two vessels went ashore, and twenty eight persons were drowned.

MADEIRA Feb 15.—The steamer Dunrobin Castle, which brought the news of the disaster to the British troops in South Africa to St. Vincent, called here this morning on her way to Plymouth. It is ascertained from her officers that later advices received at Capetown, reported that subsequently to the disaster to Col. Glyn's camp the forces under Dartnell and Lonsdale had a victorious engagement with the enemy at Rorke's drift. Col. Pearson's column is safely established at Eksaye. There were no hostile Zulus in Natal.

LIVERPOOL Feb. 15.—The strikers' delegation this morning proposed arbitration to the ship owners, meantime resuming work on the old terms. This the owners rejected, but agreed to arbitration, provided the men resume at the proposed reduction. The matter now awaits the decision of the strikers. It is thought they must yield.

PATAPSCO BAKING POWDER.

ITS HEALTHFULNESS VINDICATED—THE LAW AND THE TESTIMONY.

A certain Baking Powder Company, of New York, assuming the attributes of royalty, and with the aid of a would be chemist of the Indian Department of the United States—save the mark—has, by a course, of persistent advertising dodges and false presentation of the facts in the case, undertaken to convince the public that Patapsco Baking Powder used in bread is injurious to health. These unwarranted and fallacious propositions have been fully exposed by such eminent chemists as Henry Pemberton, of Philadelphia, Dr. Doremus, of New York, Prof. Sharpless of Boston, and others we could name equally distinguished in the profession. They have also met severe and pointed adverse criticism by editorial notice in such leading papers as the Scientific American, New York Herald, Philadelphia Ledger, "Spice Mill" and others. But to place the healthfulness of Patapsco Baking Powder beyond question, we give below the clear and emphatic testimony of distinguished and well known chemists and physicians of Baltimore who have analyzed and thoroughly examined its ingredients.

I have analyzed Patapsco Baking Powder, and it is a thoroughly scientific combination. I use it in my own family in preference to all others, which fully expresses my opinion of its healthfulness. P. B. WILSON,
Analytical and Consulting Chemist,
No. 30 Second street, Baltimore.

I have examined the composition of Patapsco Baking Powder, and can certify that it contains nothing that can be in the least degree objectionable or injurious to health. It is simply impossible to detect the slightest trace of alum or any other deleterious substance in bread or any other article of food prepared with Patapsco Baking Powder.
W. E. A. AIKIN, M. D. & C.
Prof. of Chem. and Pharm. in Univ. of Md.

Messrs Smith, Hanway & Co.

Gentlemen: I do not see how I can add anything on the subject-question to the full and explicit opinions of Profs Wilson and Aikin, except to express my surprise that any chemist or other educated person could find anything injurious in the powder to which you refer, or in its effects and results as used. Yours truly,
G. W. MILTENBERGER, M. D.,
Prof. in Maryland University.

Dr. Mott in the interest of a rival Baking Powder Company says Patapsco Baking Powder would not be tolerated by the laws of England, since when the Dominion of Canada, governed by English laws, has granted letters patent on its constituent ingredients, which effectually dispose of that proposition. feb15-eolm

☞ A SOURCE OF MUCH BODILY EVIL.—If the habit of body becomes irregular, much evil is inflicted on the system. The stomach becomes dyspeptic, bilious symptoms develop themselves, the circulation is contaminated, and the nerves share in the general disorder. It is of the utmost importance that the bowels should be thoroughly and speedily regulated when they grow derelict. The corrective agent best adapted to this purpose is Hostetter's Stomach Bitters, a wholesome, non griping vegetable laxative, worth all the rasping cathartics invented since the time of Paracelsus. People who have been in the habit of using blue pill, calomel and other drugs and cheap nostrums for constipation, should abandon such hurtful and useless medicines, and substitute for them this pleasant and gentle aperient, which not only produces the purgative effect naturally, but also strengthens while it regulates the bowels, stomach and liver. It moreover cures and prevents intermittent and remittent fevers, gout, rheumatism, debility and urinary troubles.

☞ BY UNIVERSAL ACCORD AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by Physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use. In intrinsic value and curative powers no other Pills can be compared with them, and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild, but effectual, cathartic is required. E. S. Leadbeater & Bro., Agents.

And should this land not bring an amount sufficient to pay the debts secured by said deed, as ascertained by the court, costs of suit and expenses of sale, I will then offer that portion of the original tract contracted to be sold by Critcher to Miller.

Terms of Sale: One third cash; the residue in two equal instalments at one and two years, with interest from date, secured by bonds, and retention of title, subject to order of court.

The title is known to be indisputable, but selling as trustee, warranty is special.
