Alexandria Gazette

FRIDAY EVENING, MAY 20

A NEW SMOKE CONSUMER.—Mr. Mary E. Walton, who gained the prize of ten thousand dollars for deadening the noise on the New York elevated road, has invented a smoke and gas consumer. It is very simple, and the inventor has refused $25,000 for the right in four states. It consists of a round cap fitting the top of the chimney, but projecting on one side to allow a pipe to be inserted, which runs to the ground and ends in a water tank. In the cap above the pipe is a funnel-shaped opening, with a tube extending down the pipe. The cold air is drawn into the funnel shaped tube and forces the smoke to the tank. The water absorbs part of the gases, and the rest passes through a branch pipe to the furnace and is reburned. For private residences the smoke can be carried into the sewer.

A STRANGE FATALITY.—There is a man out West named John Hensley who has a strange affinity for the open cellars of buildings in the process of erection. He fell into a cellar in Indianapolis two years ago and broke his arm. In a suit against the city he recovered $1,500 damages. He then moved to Chicago, and again fell into a cellar, and sued the city for damages. He was awarded $2,500 for an alleged broken arm. A few days ago he was arrested for perjury, having sworn during the trial at Chicago that his arm had never been injured up to the time of the last accident, whereas his suit against the corporation of Indianapolis was founded upon the alleged fracture of the bones of the same arm.

JULIUS KING'S COMBINATION SPECTACLES

KINGS PERISCOPIC

PERFECT CONVEX & PERFECT CONCAVE SYSTEM FOR FITTING EYES

RANGE OF VISION — RANGE OF VISION

SOLE AGENCY AT

Alexandria, Virginia,
ROBERT L. ADAM,
(Successor to W. W. Adam,)
Jeweler and Optician,

WHY ARE KING'S COMBINATION SPECTACLES THE BEST?

1st. They are composed of a Combination Frame, set with the finest French polished lens; they do not rust, and are the most durable in use. 2nd. The lenses are of different shapes, so as to correct imperfect sight in youth as well as old age, both for reading and seeing at a distance. 3rd. They can be so adjusted that the cone of the lens will come before the pupil of the eye which is very important for distinct vision. 4th. They will neither confuse the sight, nor cause dizziness by long and continued use as is the case with common spectacles of unequal focus. 5th. They supply the deficiency that occurs from the flattening of the crystalline lens, and will enable one to see as well as in youth. 6th. They are recommended by the leading opticians of the country, are not expensive; over a million of them are now in use. As the need of glasses does not depend on age alone, it is very important to have the eyes properly tested and not fitted by guess. Beware of imitations. The genuine are marked KING'S PATENT, on the nose piece. *Peddlers cannot obtain the genuine.*

Don't trust travelling opticians and pay exhorbitant prices, but call on the only authorized Agent, who has King's new system by which defective sight can be corrected on scientific principles. my16-5.

SPECIAL NOTICE.

NOTICE TO CITY TAX PAYERS.

The time allowed for the collection of city taxes for the year 1880 expires May 31st, 1881. Those persons who have not paid are urgently requested to come forward at once and settle. All in arrears have been frequently called on and statements rendered. The Collectors in the settlement of their accounts for the years 1878 and 1879 were made to pay a very large number of bills then on hand. To do this or have suit instituted against their bond was the only alternative. The bills this year must be paid, and it is hoped that this notice may be, as it is, a final one. JNO. B. HIRST, Col.
