# FARMER'S DEPARTMENT.

## Mules vs. Horses.

The mule properly attended to, will live the ordinary life; the allotted time of man, three score and ten years. His labor can be confidently calculated on for forty years.

The following figures show the comparative gain of working mules, instead of horses, for forty years:

| | |
|---|---|
| Cost 5 horses every 10 years, making 20 at $100 each..... | $2,000 |
| Cost 5 mules each $120..... | 600 |
| Balance in favor of mules, first cost | $1,400 |

Leaving the interest out, and the trouble and expense of breaking or training to work, and the money sunk by false horses, leaves a first cost in balance of employing mules of fourteen hundred dollars. This fact is unconvertable. Many are opposed to mule labor from thinking they are stubborn and difficult to manage. This is an error, for, if properly broken and matched, they are easier managed, can pull as much, or more, and are more to be depended on than horses; for when one has a well matched team of mules that all pull together, which is the great desideratum in all teams, they are fixed in this respect for life; whereas almost every year, from the death of one or more of your horses, you have to supply a new one.—This destroys the unity of action of your team, and often it is a long time before they act in concert. They set with difficulty, not regularity; sometimes refuse to start, and again to quick, &c. This often ruins the older part of the team, and destroys the unity of action so necessary in a long, steady pull; consequently the weight of the load they are able to carry is one third less than they should haul.

But independent of the first cost, the saving of food will show a greater disparity between the expenses of mule labor and the employment of horse power. The mule does not eat more than one third of the grain that the horse requires, and can be fed on fodder or coarse hay not averaging more than half the price of timothy; so putting the support of each horse at the very low sum of $40 per year, the five horses will cost $200, so that to rate the mule at one-half the cost of the horse, will make the five mules cost but $100 per annum. So here is a clear gain of $4,000 in the forty years from the saving of food alone. To this add the $1,400 saved in first cost, makes a certain saving of $5,400; to this should be added the interest on half this amount for twenty years, which is the fair average, $3,249. The whole, added together, leaves at the end of the forty years the handsome little fortune of $8,640—often more than a man in a lifetime realizes from a large farm.

The data on which the calculations are based is made purposely low and in favor of the horse, and I am convinced that the mule will not cost more than one third per annum that the horse does; and I am also certain that no horse can be kept in proper working order on less than $60 per year. This leaves a large margin, sufficient to supply the accidental loss of two or three mules in the forty years.

The moral of the above is, that all farm work and heavy hauling can be better done at one fourth the cost for motive power, and less than one-half the price of food, by mules than horses; therefore, prudence and economy would seem to dictate that every farmer should employ mules in preference to horses.

## Chinese Sugar Cane.

We were shown on Friday a sample of molasses made from the sirup of the Sugar Cane, raised by E. L. Moore, of Mount Joy. He states that he planted about four thousand canes on a quarter of an acre of ground, and from each cane he got one half pint of sirup. Taking 16,000 canes, on an acre, there would be one thousand gallon of molasses; therefore, from one acre of cane, one hundred and twenty-five gallons of molasses can be made. It will easily be seen from the above estimate, that, that it is far more remunerative for farmers to raise the cane and from it make molasses, than to raise corn or wheat.—Besides, the stalks, after they have been used, can be fed to the cattle, which relish them much more than corn; besides these are much more nutritious. The sirup shown us has a fine flavor and is equal to the best molasses. As this has been the first attempt that Mr. Moore has made, it is not as clear as the best molasses. Several farmers around Mr. Moore have planted the cane with the same result, and some have been more successful than he has.

*Lancaster Times.*

TO BE THOUGHT ABOUT.—Can a farmer find any better investment for his money above what is required for the support and education of his family, than to expend it upon his farm, in the improvement of his stock, in planting trees, in draining, enriching, improving and ornamenting the place he has chosen as the scene of his labors and the centre of his comforts?

GATHER fruit in dry weather, and when the sun shines, and place them as carefully in the basket as if they were glass. The smallest bruise commences a decay.

☞ Farmers look to your stock.

CATAWISSA, WILLIAMSPORT & ERIE RAIL ROAD.

*Direct Railroad connection between Niagara Falls and Philadelphia. Shortest, Quickest and Cheapest Route from Western New York to Philadelphia, Harrisburg, Pittsburg Baltimore, Washington city, and the South.*

PASSENGER TRAINS leave Elmira daily (except Sundays,) at 7 A. M. passing Williamsport at 12 15 A. M. connecting with Road up Rail Road at Port Clinton, and reaching Philadelphia at 7 20 P. M.

Returning, leave Philadelphia from corner of Broad and Vine streets, at 7 30, A. M. reaching Williamsport at 5 15, P. M., and arriving at Elmira at 9, P. M.

PASSENGER TRAINS WILL LEAVE

PORT CLINTON FOR HARRISBURG

Direct, via Dauphin and Susquehanna Rail Road on the arrival of Catawissa Train, at 4 45 P. M. reaching Harrisburg at 8 P. M.

Returning leave Harrisburg at 7 15 A. M. connecting at Port Clinton with Catawissa train bound west forming the most direct route to Harrisburg, Pittsburg, Baltimore and the South, connecting these points with all Northwestern Pennsylvania and Western New York.

Connecting at Elmira with trains on New York and Erie Rail Road; also, with the Elmira, Canandaigua, Rochester, Buffalo and Niagara Falls.

Connecting directly with the Great Western Railroad at Suspension Bridge for Detroit, Chicago, St. Louis, &c., thus making the shortest, and the cheapest route from Philadelphia to these points.

A FREIGHT TRAIN.

Will leave Williamsport DAILY, at 6 30 A. M. for Philadelphia.

Freight trains to and from Philadelphia without transhipment, from Reading Rail Road Freight Depot, corner of Broad and Cherry streets.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of disturbed action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood, Irregularities; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, restore the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed the pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar wrapped, they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box.

PREPARED BY

DR. JAMES C. AYER,

Practical and Analytical Chemist,
LOWELL, MASS.

Price 25 Cents per Box. Five Boxes for $1.

AYER'S CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. Not only in formidable attacks upon the lungs, but for the milder varieties of Coughs, Colds, Hoarseness, &c.; and for CHILDREN it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—

HELMBOLD'S GENUINE PREPARATION

OF

HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT BUCHU.

*For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Obstructions, Secret Diseases, Female Complaints, and all Diseases of the Sexual Organs.*

Arising from Excesses and Impudencies in life, and removing all Impure Discharges from the Bladder, Kidneys, or Sexual Organs, whether existing in MALE OR FEMALE.

From whatever cause they may have originated, and no matter of how long standing, giving health and vigor to the frame, and bloom to the pallid cheek.

*JOY TO THE AFFLICTED!!!*

It cures Nervous and Debilitated Sufferers, and removes all the symptoms among which will be found Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Urinal Excretions, Appetite, with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance, and Eruptions on the Face, Pain in the Back, Heaviness of the Eyes, Life, Frequently Black Spots flying before the Eyes, with Temporary Suffusion and Loss of Sight; want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more dreadful to such Patients than solitude, and nothing the more enhances their misery in themselves, so repugnant is their mind, so careless are speculation, but a Hurried transition from one question to another.

These symptoms, if allowed to go on—which this medicine invariably removes—will inevitably follow Loss of Power, Patsmy, and Epileptic Fits—in one of which the patient may expire. Who can say that these excesses are not frequently followed by these direful diseases—Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and vacant, neither mirth or grief ever visits it. Speech is a sound of the voice occur, it is rarely articulate.

"What awful measures man despair
Low sullen sounds his grief beguiled."

Debility is most terrible! and its broad and lamentable shadow extends to infancy, prevents the hoping the ambition of many noble youths. It can be cured by the use of this

*INFALLIBLE REMEDY.*

If you are suffering with any of the above distressing ailments, the Fluid Extract Buchu will cure you. Try it, and be convinced of its efficacy.

Beware of quack Nostrums and Quack Doctors, who injure you of all strength and money, and expose you to all the pains and miseries of Chronic Disease, and avoid them and save long suffering, misery, and expense, by sending or calling for a bottle of this peerless and especial remedy.

It adds all pain and inflammation, is perfectly pleasant to its taste and odor, but immediate in its action.

HELMBOLD'S EXTRACT BUCHU

Is prepared directly according to the rules of *Pharmacy and Chemistry.*

With the greatest accuracy and chemical knowledge and care devoted in its combination. See Professor Dewees' Valuable Works on the practice of physic, and most of the late Standard Works of Medicine.

ONE HUNDRED DOLLARS REWARD

One hundred dollars will be paid to any physician who can prove that the Medicine ever injured a Patient, and the testimony of thousands can be produced to prove that it always did good. Cases of from one week to thirteen years' standing have been effected—The mass of volunteer testimony in possession of the proprietor, vouching its virtues and curative powers, is immense, embracing names well known to Science and Station.

100,000 bottles have been sold and not a single instance of a failure has been reported!

Personally appeared before me, an Alderman of the city of Philadelphia, H. T. Helmbold, Chemist, who being duly sworn does say, that his preparation contains no Narcotic, Mercury or injurious Drug, but is purely vegetable.

H. T. HELMBOLD, Sole Manufacturer.

Sworn and subscribed before me this 29 day of November 1854. WM. P. HIBBARD, Alderman.

*Price $1 per bottle, or six for $5, delivered to any address, accompanied by reliable and responsible certificates from Professors of Medical Colleges, Clergymen and others.*

Prepared and sold by H. T. HELMBOLD,

SALAMANDER FIRE AND THIEF PROOF SAFES.

THE LARGEST ASSORTMENT in the United States.—Warranted to be equal to any now made, and will be sold on as good terms, as can be obtained from any other house in the country, at

EVANS & WATSON'S,
99 S. 4th st., Philadelphia.

TRUTH IS MIGHTY AND WILL PREVAIL!

*Report of the Committee appointed to superintend the Burning of the Iron Safes, at Reading, February 27, 1857.*

READING, March 4, 1857.

The undersigned, members of the committee, do respectfully report, that we saw the two safes, originally agreed upon by Farrelle & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrelle & Herring, and the Safe in use by B. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers, entirely alike.

The fire was started at 2½ o'clock, A. M., and kept up until four cords of green hickory, two cords oak and half a chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened, and the books and papers taken out by the Committee and sent to B. A. Lantz's store for public examination, and marked by the Committee—The books and papers taken from the Safe manufactured by Farrelle & Herrings were, in our judgment, damaged fully fifteen per cent. more than those taken from Evans & Watson's Safe.

We believe the above to have been a fair and impartial trial of these respective specimens of Safes.

JACOB H. DYRDER,
DANIEL S. HUNTER.

Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.

G. A. NICOLLS,
D. M. SCHULLENBERG,
JAS. MILHOLLAND.

March 28, 1857.

NEW AND USEFUL.

OLEUM LIQUOR.

*A Substitute for Linseed Oil.*

PATENT APPLIED FOR!

THIS undersigned offer to the public their Oleum Liquor as an efficient substitute for Linseed Oil as a vehicle for all sorts of Paints ground in Oil, except Venetian Red.

When combined with the Oleum the Paint will cover better, dry quicker and will be more durable, and when varnished, the paint will have and retain the most glossy appearance; and the addition of the Oleum will enable the paint to yield to the varnish and the cracking and peeling off, so common in ordinary varnished oil paints is entirely avoided.

For painting Tin Roofs it is equal cannot be found.

The Oleum can be used by the paint, or in combination with Linseed Oil. Varnish, Japan or Turpentine at the option of the Painter.

It is not to be about one-half of that of Linseed Oil, thus considerably reducing the expense of painting.

We confidently recommend it for all purposes to dictated and warrant it to give satisfaction. A liberal discount to the trade.

DIRECTIONS—Thin the paint with the Oleum Liquor and work it well, until it flows freely from the brush.

The brush must be free from all moisture and invariably ought to be soaked well with the Oleum Liquor, previous to painting.

Instead of placing the brushes in water over night, as painters generally do, they ought to be put in the Oleum Liquor, which will greatly facilitate the work.

The paint mixed with the Oleum Liquor will work better if it be allowed to stand from 12 to 24 hours previous to its being used, and then thinned to such a consistency as to work free and easy under the brush.

By the use of Japan, the paint will be rendered quite firmer. Mix the Japan free with the paint and then thin it with the Oleum Liquor to the manner mentioned above.

☞ 400 pounds of Paint thinned with the Oleum Liquor, will cover a larger surface than 50 pounds thinned with oil.

The Oleum Liquor is not to be used with Venetian Red, nor with Paint containing any proportion of it.

BRENIG, GATTMAN & BRENIG,
American Paint and Color Works,
Corner Germantown and Green Sts., Philadelphia.
Office—N. E. corner Third and Wood sts., Philadelphia, Pa.

☞ We also manufacture Chrome Yellow, Chrome Green, Chinese and Prussian Blue, Vermilion and Scarlet Red in various shades and qualities, either in oil or dry, and warrant them to stand well in color, either here or abroad.

OLEUM LIQUOR.

CERTIFICATE.

WE, the undersigned House Painters, hereby certify that we have given the newly invented Oleum Liquor, manufactured by Brenig, Gattman & Brenig, in Philadelphia, an impartial trial and have found it a sufficient substitute for Linseed Oil—for experiment we painted a house with it, it only about half as much as that we concurrently coloring the expense of painting. We would therefore recommend the public to its general use, and after it has been tried its superiority over Linseed Oil will be attested to by all.

CHARLES GUIER,
AMOS UNGER,
WILLIAM WOLLE,
EDWARD DENBARD

June 13, 1857.

I HEREBY certify that I have had House Painting prosecuted lately with the above named Oleum Liquor, and course in all respects with the recommendation of the above named gentlemen, and will here add, that in future I will have no painting operations performed without the admixture of the above named Oleum Liquor. Those who may desire to view its effects, will call at my residence, where they can convince themselves of its fitness as represented of the Oleum Liquor in regard to beauty and durability.

June 13, 1857. J. ISAAC BRENIG.

CENTRE STORE.

SPRING & SUMMER GOODS.

THE undersigned take pleasure of informing the citizens of Centre and vicinity, that he has just received a large and select assortment of

SPRING & SUMMER GOODS,

Comprising the heaviest stock and most varied assortment of fashionable, useful and substantial Merchandise that have been offered in the public since my kind and quality, which they will offer readily pay, at very reasonable prices.

☞ Country produce taken in change for Goods including Grain and Lumber and the public custom respectfully asked.

SAMUEL LAMBACK.

Dr. J. S. Houghton's

GREAT CURE FOR DYSPEPSIA.

THE True Digestive Fluid, or Gastric Juice. Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

THIS is Nature's own Remedy for an unhealthy Stomach. No art of man can equal its curative powers. It contains no Alcohol, Bitters, Acids, or Nauseous drugs. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of Dragged imitations. Pepsin is not a Drug.

☞ Call on the Agent, and get a Descriptive Circular, giving a large amount of Scientific Evidence from Liebig's Animal Chemistry; Dr. Combe's Physiology; Dr. Pereira on Food and Diet; Dr. John W. Turner, of New York University; Prof. Dunglison's Physiology; Prof. Shannon, of Yale College; Dr. Carpenter's Physiology, &c., together with reports of Cures from all parts of the United States.

Sold by H. B. Hale and J. S. Moyer, Bloomsburg; S. B. Bowman, Berwick. Oct 3, 1855 1 1y.
