SENATOR HOAR IS MAD

(Concluded from First Page.)

to-day, they say, does not express the sense of the committee on the subject of options, and they feel confident that a measure drawn to break up this practice, and not affect legitimate futures will receive a favorable report.

The House Committee on Banking and Currency to-day voted to proceed immediately to the formation of a general banking bill to be presented to the House, and to meet Mondays and Wednesdays until such a bill is reported. The general banking bills drawn by members of the committee will be first considered and disposed of in order.

Cardinal Sacolli Arrives in Chicago

Chicago, Ill., March 11.—Cardinal Satolli arrived in this city from Omaha at 9 o'clock this morning. He was met at the depot by Fathers Thorne and Debaldi, of the Italian Church, and escorted to their residence.

LEVY BROS., 174 Main street.

NEWS OF BALL PLAYERS

Prose and Poetry Concerning the National Game in All Parts of the Country.

KAGEY, FOSTER AND CAVELLE PRAISED.

Manager Claud McFarlan's Brother To Head the Little Rock Team—A Game With the Phillies on April the First—Virginia Leaguers in Other States—Rules Changed.

In the spring the "rooter's" fancy,
Swiftly turns to baseball lore;
And on every hand he'll query,
"How's the game?" or "What's the score?"

In the spring the manager's busy
Assuring all the saints and sinners
That the men he's signed this year
Are sure, dead easy-pennant winners.

• • •

Arthur Irwin's most decidedly favorable impression at the start in Jacksonville was received from Ed. Kagey's work in the box. When that ex-Lynchburg twirler pitched last Friday Irwin was calling balls and strikes and stood in a position where he could see, and the boy's work pleased him greatly. Reddy Foster's snap throw to bases also pleased Irwin and O. P. Gaylor, who is with the Giants, says he shouldn't be "surprised to see the red-headed Virginia gentleman, sah, doing steady work for the Giants." Cavelle's clever work at bat and on the bases also impressed Irwin very favorably and it is a matter of pride among the Virginia fans to notice that the ex-Virginia Leaguers are making such a good impression. Gaylor describes Reddy Foster's throwing to bases as "a dream in straight lines."

• • •

Mell Whitehill, the promising young second baseman, who recently signed with Roanoke, is lying at the point of death at his home in Brookville, Pa., with dyptheria.

• • •

Pitcher Tannehill threw his shoulder out last week in Cincinnati while playing basketball and will be unable to do any pitching for a month at least.

• • •

"Shang" Kissenger dosen't seem to know where he is at in the St. Louis team. He is in doubt as to "der poss'" intentions as regards himself.

• • •

Third Baseman Bert Myers, well known here, is Arlie Latham's rival for third base on the St. Louis team.

• • •

Cavelle, now of the Giants, has made a record as a sprinter, with a dash of 100 yards in 10¼ seconds.

• • •

The report that Scranton had signed Pitcher Mullarkey is unfounded. It is the Washington pitcher's brother.

• • •

Fall River has signed Third Baseman Finke, who was released from Portsmouth early last season, and made a fine record in the New York State League.

• • •

William Sweeney, infielder, and Dobbins, catcher, are the latest additions to Jake Wells' aggregation of ball tossers.

• • •

Al. McFarlan, Manager McFarlan's brother, will manage the Little Rock team, of the Southern League, and has signed "Pop" Tate as one of his team. The position of manager of this club was first tendered to Jack Wentz, who has signed to play second base for Norfolk.

• • •

McGinnis, of Roanoke, has signed to play with Toledo, this year.

• • •

The Phillies' first game this season will be with the home club. In this city, on April 1st.

• • •

Ed. Clarke, formerly umpire in this State League, is an applicant for a position in the Southern League. Gus (Turkey) Land is also desirous of holding the indicator in that league.

• • •

Ernie Hodge, Harry O'Hagen, "Foxy" Fry, "King" Kelley and Sherer, of Roanoak, will represent the Virginia State League on Ted Sullivan's New Haven club.

• • •

Manager Smith, of Lynchburg, says his men will report not later than March 27th.

• • •

One of the changes in the rules is going to cause the pitchers lots of trouble. The new section reads: "A balk is any delivery of the ball to the bat by the pitcher while his (pivot) foot is not in contact with the pitcher's plate, as defined in Rule 29." Old section 2 is made section 4.

• • •

The rule requiring the home club to have at least one dozen new balls on the grounds ready for use will put an end to the tiresome and unnecessary interruptions of the game, so common last year. Provision is also made that the game can not be started until the required number of balls is placed at the umpire's disposal. BAT N. BALL.

• • •

Pitcher Hutchison will not be found in league company this season, having signed with Minneapolis.

• • •

Cincinnati rivals the Phillies in having catchers who are good hitters. Vaughan, Gray and Pietz are all handy with the bat.

• • •

The Western League has legislated against the practice of "farming" out of desirable young players, and only those having releases from the National League will be eligible to play in that organization.

• • •

Catcher Otten has been released by St. Louis.

• • •

St. Louis has signed Pitcher Wood, of last year's Atlanta Club.

• • •

Captain Nash has practically decided on the make-up of the Philadelphia team. Hulen will play short, Delahanty centre and Sullivan left field. Nash has implicit confidence in Hulen being able to hold his end up as a short stop.

Don't fail to see the Dauntless Bicycle before purchasing. It's a beauty.

FILIBUSTERS OUT ON BAIL.

They Pleaded Not Guilty of Violating the Neutrality Laws.

New York, March 11.—General Callxto Garcia, Captain Lawrence W. Brabazon, Captain Samuel Hughes, Bernardo G. Guerra and B. J. Bueno, charged with violation of the neutrality laws, in connection with the alleged attempted filibustering expedition on the steamship Bermuda, were before Judge Benedict, in the Criminal branch of the United States Circuit Court to-day to answer an indictment found against them by the grand jury. They pleaded not guilty and their trial was set for Monday, March 23d.

The accused were under $1,500 cash bail each, but the United States Assistant District Attorney asked that the bail be increased to $2,500 each, and General Garcia and the rest were taken in charge by United States Marshal McCarthy and his deputies pending the furnishing of the additional bail. The indictments under which the accused are held relate only to the "Bermuda" expedition. No indictments have yet been found in connection with the "Hawkins," but it is said that will be brought before the new grand jury sworn in to-day.

Thomas Nelson, chief engineer; James Howden, second engineer, and C. C. Taylor, steward of the Bermuda, who were witnesses before the grand jury, were retained under $500 bail each to appear at the trial.

Shortly after 5 o'clock this afternoon the full amount of bail demanded for the several prisoners was furnished.

A BIG CLOTHING FIRM ASSIGNS.

Liabilities Are Between Three and Four Hundred Thousand Dollars.

Rochester, N. Y., March 11.—The assignment of the firm of Rotschild, Baum & Stern, one of the largest wholesale clothing firms in this city, was filed today. Liabilities are between $300,000 and $400,000; no preferred creditors. The failure was a great surprise to business men, who had regarded the firm as one of the staunchest in the city.

The firm possessed ample means and enjoyed unquestionable credit until recently. Last summer they took an interest in a large retail incorporated clothing concern in Chicago, which was their debtor to a considerable amount. The retail business generally in Chicago was unprofitable last year and their establishment, "The Sterling," was among the heavy losers.

THE KENTUCKY GIANT.

Having Visited Most Countries of the World He Enjoys Rest.

Captain M. V. Bates, whose remarkable height at one time attracted the attention of the world, has recently retired from his conspicuous position and lives in comparative obscurity on his farm in Guilford, Medina county, Ohio, half a mile east of Seville.

Captain Bates is familiarly known as the "Kentucky Giant." He was born in Whitesburg, Letcher county, Kentucky, November 9, 1845. He enlisted in the Southern army in 1861, and though but sixteen years of age was admitted to the service because of his size. In a short time young Bates was a Captain, and it was recorded that he "grew considerably after rising from the ranks." At the close of the war Captain Bates had attained his great height of seven feet two and a half inches. His body was well proportioned, and his weight increased until it reached 450 pounds.

About this time the gigantic Captain concluded to put himself on exhibition, and traveled as a curiosity from 1866 to 1880, being connected with various amusement organizations. He visited nearly all the large cities and towns in the United States, Canada, Great Britain, France, Spain, Germany, Switzerland, Austria and Russia. Many favors were extended to the great man by the hand of royalty. While in England, in 1871, the gallant Captain met Miss Anna H. Swan, known as the "Nova Scotia giantess," who was two years the junior of her giant lover. Miss Swan was justly proud of her height, 7 feet 5½ inches. Their combined height of 14 feet 8 inches marked them as the loftiest pair known to mankind.

During their travels they visited Seville and purchased a farm. A handsome dwelling was erected—a veritable home for giants. The doors are over 8 feet in height; the furniture was manufactured to order, and is remarkable in its proportions. The Captain's bed is 9 feet in length, and the springs are of double strength. A child was born to the couple which seemed likely to eclipse his great parents, but death soon claimed the little one.

Mrs. Bates' health declined, and she died in 1888. Two years later the Captain was wedded to Miss Anna Laron Weatherby, daughter of a Baptist clergymen in Columbus, O., who was formerly stationed at Seville, where he was Capt. Bates' pastor. The new Mrs. Bates is a trifle over 5 feet high and weighs 130 pounds.

Capt. Bates' parents were of medium size. His father, a native of Virginia, was 5 feet 10 inches high, and weighed 160 pounds pounds. His mother was 5 feet 3 inches tall, and weighed 125 pounds. The height of the father of Mrs. Anna Swan Bates was 6 feet, and her mother was 5 feet and 2 inches high, weighing but 100 pounds.

It Seems That We Are Sensitive.

(From London Truth.)

In daily life, if you know a man to be thinskinned you guard your tongue accordingly, unless you deliberately desire to provoke his resentment or enmity. It would be well if our journalists and public writers would remember that the Americans are in their sensitiveness to foreign criticism more like the French than ourselves. We ought also to bear in mind that the Americans are far more sensitive to English criticism than to that of Frenchmen, Germans or other foreigners. This means that they set a special value on our good opinion. When a man desires your good opinions he pays the best of compliments to your judgment; and the least you can do under such circumstances is to justify his compliment by refraining from expressing opinions founded on ignorance.

The Paris Exposition.

Paris, March 11.—Twenty-two countries have given notice of their intention to take part in the exhibition to be held in Paris in 1900.

The Question.

"To see, or not to see—That is the question." Dr. Weck can answer it.

WITH HEART AND SOUL

Our Ministers Proclaim a Gospel of Health.

Show to Weak, Tired and Debilitated People How Health and Strength Can Be Easily Obtained.

There are no words so strong as these spoken by the true minister of the Gospel. One knows and feels, instinctively, that such words come from the heart, and are uttered only with the earnest purpose of doing good to humanity.

The boundless influence for good for those who are weak, nervous, debilitated and run down in health, of the strong and powerful words of these well-known clergymen is an assurance of cure for sufferers. These great preachers thus proclaim a new Gospel of Health to the sick and discouraged, which means renewed health, hope, happiness. Their good tidings are doubly welcome at this season, for in the spring almost everybody is run down or ailing and needs just such information in regard to what to do.

Rev. F. H. Buffum, of Winchester, N. H., who is Grand Army Chaplain for the State of New Hampshire, says:

"The remedial effect of Dr. Greene's Nervura Blood and Nerve Remedy on the weaknesses and nervous prostration of my wife, was so positive and speedy that we can heartily testify to its undoubted merits."

Rev. G. L. Wells, of Hardwick, Vt., writes:

"I have used Dr. Greene's Nervura Blood and Nerve Remedy with most excellent results. It did great good for my wife. We think highly of Dr.

REV. G. L. WELLS.

Greene's Nervura Blood and Nerve Remedy, and cordially recommend it."

Rev. C. D. R. Meacham, pastor Baptist Church, Townshend, Vt., states: "I am very glad to say in regard to Dr. Greene's great remedy that when my blood was badly impoverished and my nervous system greatly impaired, Dr. Greene's medicine gave me wonderful relief. At the present time my health is as good as at any time in my life, and my confidence in Dr. Greene's remedy is constantly increasing."

Rev. Henry Langford, of Weston, W. Va., says: "I became so nervous I was unable to hold my head steady in the pulpit, nor could I hold or handle my books and papers without great trembling and weakness of my hands and arms. I was so nervous that I could scarcely feed myself. In fact, my nervous system was wrecked.

"I took Dr. Greene's Nervura Blood and Nerve Remedy, and am wonderfully improved in health and strength. Dr. Greene's Nervura did it. I can heartily and truthfully recommend it to the sick. Too much cannot be said in praise of this splendid medicine. I say this for the good of other sufferers from nervous and prostrating diseases who can be cured by this remedy.

Clergymen strongly recommend the people to use Dr. Greene's Nervura Blood and Nerve Remedy because they know it cures, and because it is a physician's prescription, the discovery of the most successful specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West Fourteenth street, New York city, who can be consulted free, personally or by letter.

The Virginia Freight Association.

Fort Monroe, Va., March 11.—The Virginia Freight and Traffic Association held a meeting here to-day to discuss matters in which the different lines are interested and to reconcile existing differences. Among the prominent officers present were W. L. Guillaudeu, vice-president Old Dominion Steamship Company; George W. Stevens, general manager Chesapeake and Ohio railway; Joseph H. Sands, vice-president Norfolk and Western, and J. M. Culp, of Washington, representing the Southern. The meeting was harmonious and satisfactory to the interests presented.

An American Schooner in Distress.

London, March 11.—The British steamer Lord O'Neil, at Dublin from Baltimore, reports having spoken on February 22 in lat. 38 north, long. 71 west, the American schooner Melvin, which sailed from Beaufort, S. C., February 2 for Philadelphia. Her masts had been carried away and she signalled that she wished to be taken in tow. The Lord O'Neill offered to take off the six persons on board, but Captain Gaskill, the schooner's commander, refused to abandon his vessel and the steamer proceeded on her voyage.

Locusts Make Life a Burden.

Rome, March 11.—The members of the agricultural colony which established itself upon the Godofellassi plateau, in Abyssinia, have returned to Massawah. They express themselves as glad that the war in Abssinia has compelled them to quit their agricultural life, which was made terrible arduous by locusts, etc.

Orient Lodge K. of H.

An important notice regarding the meeting to-night, which all members should read, will be found elsewhere in The Virginian to-day.

TO LOCATE A SCREW.

Thomas A. Edison to Try X Rays on Norman Barney.

(New York Times.)

Norman Barry, a reporter, may shortly be taken to Thomas A. Edison to have a shadowgraph taken of his body by X rays to determine the location in his right lung of a screw one and three-quarters inches long, which has been there twenty years.

Barry is a native of Massachusetts. When he was 3 years old, in playing with the screw, he put is in his mouth, and a spasm resulted in his drawing the screw into his throat. His father, in trying to remove the screw, pushed it into his winpipe, and it went into his lung. His parents refused to have an operation to extract it performed.

The boy suffered from hemorrhages, but he was fairly robust. He went to Yale College. He was a student at the General Theological Seminary, but recently, because of hemorrhages, was compelled to give up his course. He placed himself under the care of Dr. E. N. Brandt, who has a pulmonary hospital at 3 East Forty-seventh street, two months ago.

Dr. Brandt detected a cavity in the lung. The patient expectorated blood and pus. There were physical signs of the presence of a foreign body in the lung, and occasionally there was great pain.

Treatment with Dr. Cyrus Edson's asceptotin gave relief and Barry is now much better in health, but is anxious to be rid of the screw.

If the Rontgen rays detect the screw, a rib will be resected, and a Paquelin knife of platinum, at white heat, will be used to cut into the lung to the screw and extract it.

Oddities in Fact and Fiction.

Commenting upon the passage of the Cuban belligerent resolutions, a powerful Cuban belligerent resolutions, a provincial newspaper in the south of France says that President Cleveland will dissolve Congress for its action, and "call for the election of an entirely new set of members," who must pledge themselves in advance not to recognize the insurgents.

The baby boy of Amos and Abigail Snodgrass, of Hurleyville Mo., has been christened "Dunraven," because he is such a kicker.

To amuse his musically inclined children, William Hassan, a blacksmith of Emporia, Texas, has made a wrought iron frame, over which he strings his luxuriant whiskers, and waits for the wind to blow. In a half gale it is said that the melody produced by this hirsute harp of his face is harmonious and pleasing.

In consideration of $5 and a suit of clothes a street Arab in Chicago was induced by the Jolly Boys' Club to place himself in a large wooden bowl, and be covered with baked pie crust. He gorged himself to such an extent while waiting for the signal to emerge that he fell asleep and spoiled the entertainment.

A patient in the Kankakee (Ill.) Asylum for the Insane possesses the queer delusion that he is a silk hat. He is kept confined to prevent him from sitting on the heads of his fellow-patients.

A bush of raspberries in full bloom was discovered three feet under the snow in Metwin, Alaska, on Christmas day. An immediate search was made in the snow bank for cream and a silver spoon, but without success, and greatly to the disappointment of the finder, an English missionary.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents five for $1. Sold everywhere, or sent by mail.

HARRIS LITHIA WATER.

Read what the noted Dr. Thomas S. Powell has to say for Harris' Lithia Water:

MR. J. T. HARRIS,

Dear Sir—I have found the use of the water from your Lithia Spring in South Carolina so efficacious in the case of a young lady patient of mine, who has suffered for years with Diabetes, with all its different attendants, that I want to add my testimony to the many you already have. The patient I refer to has used the water freely at home for scarcely a month now, with more beneficial results than from months spent at the different noted lithia springs in different parts of the United States, besides long continued use of the same waters at home. Other of my patients and friends are now using the same with best results. I cordially recommend it to all suffering from similar diseases. Very respectfully yours,
THOMAS S. POWELL, M. D.,
President Southern Medical College, Atlanta, Ga.

Harris Lithia Water Co.,

Harris Springs, S. C.

FOR SALE BY

M. I. DODSON.

Tanner's Creek Tax-payers.

NOTICE—For the purpose of receiving the taxes of Tanner's Creek District, I will have the tax-books of that district for the year 1895, at 42 Bank street, (A. Wilson & Co., Shoe Store), each Saturday from now until the end of the term. Those still owing taxes in that district will come forward promptly and settle their accounts. Under the law recently passed, the returns will have to be completed and certified three months earlier than heretofore. Be prompt, therefore, and save any further costs or levy, distraint or other process of law.
