ROBERT OGDEN,

Plumber and Steam Fitter,

No. 63 JEFFERSON STREET, ABOVE THIRD,

DAYTON, OHIO.

HAVING been a resident of this city but a short time Mr. O. would take this occasion of soliciting one from among a score of letters he received from gentlemen for whom he did work in his former place of residence:

FORT WAYNE, IND., April 20th, 1859.

Having had occasion to use the services of a plumber, I was introduced to Mr Ogden, a gentleman who had just arrived in our city. The job that was to be done was very difficult, and required the nicest kind of mechanism. I am happy to add that the work was performed to my entire satisfaction, and as a master of his art, I take pleasure in recommending him to my fellow townsmen.

PHILO RUMSEY.

He would also take the privilege of giving one among several recommendations he has received since his residence here:

Mr. Ogden has done considerable work in the plumbing line in my house, which is very satisfactory.

J. R. YOUNG.

DAYTON, Aug. 10, 1859.

Survivors of the Wreck of the Indian.

BOSTON, Nov. 26.

A boat, containing five of the crew of the wrecked steamer Indian, was picked up at sea and the seamen have been brought to this port.

SECOND DISPATCH.

SACKVILLE, Nov. 26.

A boat containing thirty three ladies with their husbands, landed safely after knocking about for nine hours in the high sea—twenty seven are dead. None of the bodies have been recovered, and it is impossible to give a complete list of the names, but the following are known to have been lost: viz Leman J. Moses, wife and two children; Mrs. Eckman and infant; James Dickson; Wm. Ross, third engineer; Robt. Richie, fourth engineer; John Millan, fireman; Jas. Standwell, stewart; Alfred Wash, a boy; Thomas Lloyd, chief cook; James Lang, Joiner; John Herran and Henry Carroll, seamen.

STILL LATER.

WINDSOR, N. S. Nov. 26.

The cabin passengers of the wrecked steamer Indian were all saved. Their names are Hon. Mr. Potsford, Mr. and Mrs. Wedrum, Mr. and Mrs. Patterson, Mr. and Mrs. Street, and Mr. Elliot, eight.

(Signed) THOS. ROBINSON,

Late Purser of Indian.

SACKVILLE, Nov. 26.

The Schooner Gladiator has returned to Halifax with the remaining survivors of the steamer Indian. The steamer is totally broken to pieces. Very little of her cargo has been saved. The passengers complain of being plundered by the inhabitants. The mails were saved and forwarded. The Indian had eight cabin passengers, thirty steerage passengers, mostly Germans and Hungarians, seventy seven crew.

When she struck the sea ledge she was running eight knots—weather fine but slightly hazy. The Captain was deceived by soundings, and supposed he was off Sable Island. When she struck it tore off the bottom and filled instantly. The engineer opened the valves to prevent an explosion, and lowered three boats, when, with a sudden crash the vessel broke amid ships.—The steerage passengers rushed in and sunk two of the boats, drowning the engineers, several of the crew and passengers, including two women and two children. One boat under command of the second officer, Smith, was blown off thirty miles. The boat under the fourth officer, Smith, reached the shore. The boat under the third officer, Liggan, broke adrift leaky, and is supposed to be lost.

Arrival of the Overland Mail.

ST. LOUIS, Nov. 26.

The overland mail of the 4th arrived last night. Business was dull and prices unchanged. Money was in demand—the steamers of the 5th would not take a very heavy shipment. The rainy season had fairly commenced. Sailed on the first the ship "Horseburg," for Sidney; the whaleship Montezuma arrived at San Francisco on the 2d, from the Arctic Ocean—she reports an unknown ship ashore at Cape Lisbon; also the loss of the ship William Tell, of Sabbor, on July 25th, on the East Cape—ship and cargo a total loss—crew saved.

The ship Neva, of Greenport, was damaged off Cape Clear in September, and the Julian received injuries and put into St. Lawrence Bay for repairs.

The ship Levanter, loading with sugar for Valparaiso, would also take five hundred cases of lard.

Three thousand passengers arrived at San Francisco from Panama and from the North during the three days previous to the departure of the mail.

A telegraph was in operation 165 miles east of San Francisco, on the Butterfield route, and would reach Visilla (250 miles) by the first of January.

There were more improvements in San Francisco than at any period since 1854, and the city generally was more prosperous than since the revulsion of 1855. During October $1,348,000 worth of gold was deposited at the mint for coinage, among which was much Frazer River dust. Total shipment of gold in October $3,620,000.

Judge Terry was indicted and placed under $10,000 bonds for killing Mr. Broderick in a duel.

It is understood at San Francisco that C. K. Garrison had sold to Vanderbilt, his entire interest in the mail steamers of the Pacific, which is regarded as an indication of that competition would continue a long time.

The public administration were passing the suit in Probate Court to get control of the estate of Broderick, on application of Mrs. Lucy Brown, who claims the estate as Broderick's cousin.

The case of the Merced Mining Company vs. J. C. Fremont was under argument before the Supreme Court. The points at issue are of the highest importance as legal questions, independent of the immense pecuniary interests involved. They will doubtless go to the Supreme Court of the United States.

Accounts from the Weoshoe Valley gold and silver mines continued favorable—new discoveries were constantly made. Another large amount of ore had reached San Francisco, which assayed from two to six thousand dollars per ton. The Comstock vein was regarded as the richest silver mine in the world.

The Grand Jury of Carson Valley had submitted a report to Judge Cradlebaugh.—Among the subjects treated, are the outrages upon immigrants by Mormons and the impossibility of the latter living in harmony with the American citizens. The report also calls for remedial legislation on the part of Congress.

Arrival of the Africa.

NEW YORK, Nov. 25.

The Africa from Liverpool on the 12th inst., arrived this evening. Her advices are of the same date as those furnished by the Circassian, but the papers received furnish additional items of intelligence and interesting details.

The Daily News of Saturday, the 12th inst., publishes a dispatch from Paris stating that the report that the King of Sardinia had refused to grant Prince Cavignac permission to accept the regency conferred upon him by the States of Central Italy is false. All that is known is that France had formally counseled Sardinia to refuse such permission.

The answer of the King of Sardinia to this demand of Napoleon had not yet been divulged.

The Times' city article in showing the prevalent policy in France on the question of war with England, quotes as the chief authority for its opinions from a respectable French review published in London, in which it is stated that in France the prospect of a war with England is incessantly discussed in the high places of power, in the public offices of the army, in the navy, among the working class and men of business.

The army is reported as unanimous for war. In the navy a desire for it amounts to a phrensy, and the Church is as eager as either the army or the navy. The conclusions drawn are that in a war with England the French Empire has the power of satisfying the army and navy, gratifying the clergy, winning over the legitimists, and securing the suffrage of a united people.

CHARLESTOWN, Nov. 26.

All is now comparatively quiet. We have exciting rumors occasionally, but we are getting used to them—they have been so numerous that if a genuine attack were made the people would be likely to consider it a hoax. The howitzer company of Richmond who returned with Gov. Wise, arrived here to-day. Gov. Wise professes to have received information after his return which induced him to send them back. The barns of Thos. H. Millisa was set on fire yesterday and destroyed—loss $2,000.

Mexican Affairs.

NEW ORLEANS, Nov. 24.

The Tennessee, from Vera Cruz, on the 22d inst., with $36,000 in specie, has arrived at this port.

U. S. Minister McLane arrived on the 21. He remains on board the Brooklyn, his family being sick.

The report that Marquez had pronounced for Santa Anna is unfounded. His seizure of she Conducta is confirmed. Marquez says he is using the money to save the country from the Yankees; he promises to return the money from the first duties received at Tepic and Mazatlan which he intends retaking.

Miramon was at Quariaro awaiting the Liberal force. The Liberals are threatening the capital.

It is reported that Gen. Dablado had been defeated in Yusuo Justo with heavy loss. An American officer who was with him is said to have been either shot or assassinated.

NEW TREATMENT. PRIVATE

CONFIDENTIAL MEDICAL ADVICE!!

AT the Buffalo Private Hospital—Established for the cure of Syphilis, Seminal Weakness and the Secret Infirmities of Youth and Maturity by Dr. AMOS & SON, Buffalo, N. Y. Office, corner of Main and Quay streets, (up stairs.)

A MOST SCIENTIFIC INVENTION.

An instrument for the cure of genital Debility, or Nocturnal Emissions, more properly known as Seminal Weakness, etc. Can be permanently cured in from fifteen days to two months, by the use of this instrument, when used conjointly with medicine.

YOUNG MEN TAKE PARTICULAR NOTICE.

Dr. AMOS and SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London, Paris, Philadelphia and New York) it has been declared the only useful instrument which has ever yet been invented, for the cure of Seminal Weakness, or any disease of the genital organs, caused by the secret habits of youth. Price Ten Dollars, by Mail or Express.

A CURE WARRANTED.

Dr. AMOS and SON have devoted their attention exclusively to this peculiar class of maladies, and the relief they have consequently been able to render their fellow-creatures, fully testified and gratefully acknowledged by convalescent patients, and others daily arriving in town, from all parts of the country, for the express purpose only of consultations, while their exertions have been crowned with the most signal advantages; yet from what they have experienced in enquiring into the cause of these infectious complaints, (from their most simple conditions to that of the most dangerous and inveterate,) they have always entertained the possibility of their prevention and removal, and, therefore invariably found that the most horrible and malignant forms of disease could almost invariably be traced to one of the following causes—Ignorance, neglect, or the ill effects of unskillful or improper treatment, therefore Dr. AMOS and SON have succeeded in discovering, in the selection of their remedies, a safe, effectual and cautious course; omitting all combination of remedies which bear an equivocal character, as well as those whose premature or injudicious application might be productive of bad consequences in the hands of private individuals. In short, the tantalize and of their remedies is the lessening of a great mass of human misery by the alleviation, relief and prevention of those grievous afflictions that are in reality the secret [illegible] and which, while they so extensively surround us, call aloud for our skill and interference for their extermination.

COUNTRY INVALIDS.

Persons in any part of the world may be successfully treated by forwarding a correct detail of their case, with the remittance for medicines, etc.
