Linimentum.

WORTHY of the NINETEENTH CENTURY.
DR. E. CONWAY'S
LINIMENTUM
For the speedy and effectual cure of
RHEUMATISM
IN presenting the "Linimentum" to the public as one of the best and most curative compounds of the day, I do not wish to be understood as claiming for it the power of performing unheard of cures, but I do claim that for all the purposes of a FAMILY LINIMENT, it has no equal. The "Linimentum" has
Never been Known to Fail
In any case of Rheumatism, no matter of how long standing, where the directions were carefully followed, nor, in fact, in the case of any disease for which it is recommended.
In cases of acute pain, pains in the back, side and chest, or cramps in the stomach, sprains, spinal irritation, all weaknesses, chronic sores, burns, scalds, tired feet and limbs, toothache, headache, &c., it is a decided charm.
The "Linimentum" is the result of many years persevering experiment, and combines among its many excellencies the paramount virtues of
AN EXTRAORDINARY PENETRATIVE POWER,
Which no other Liniment possesses, and which is the secret of the unprecedented success which attends the "Linimentum" wherever it is used.
TRY IT ONCE, AND YOU WILL NEVER BE WITHOUT IT.
It is put up in 25 cent, 50 cent, and $1 bottles, with full directions for use, and may be obtained only by
Dr. E. CONWAY, Proprietor,

Amalgamation North and South.

It is claimed by the Abolitionists, in defense of their newly proclaimed doctrine of amalgamation, that it is only what the South have practiced for years. This, if true, would be no justification of such depravity by the Abolitionists. But what are the facts? Whenever any Abolition newspaper again essays this lame justification of the amalgamation doctrines upheld by the leaders of that party, the false excuse for an indefensible crime should be met with by such facts as these.

The census of 1850 shows that while MORE THAN ONE FOURTH *of the colored people of the North are mulattoes*, only ONE-THIRTIETH of the slave population are mulattoes. Among 3,204,313 slaves, 246,656 were mulattoes or had more or less white blood; while of the 195,500 colored people of the free States, over 66,500 are mulattoes. In Ohio, more than *one-half of the colored population are mulattoes*, or over 14,000 out of 25,000. In Indiana about 90 per cent. are mulattoes; in Wisconsin and Iowa, over 87 per cent; in Illinois, over 85 per cent.; in Michigan, 70 per cent; in New Hampshire, 54 per cent; in Maine, 51 per cent; Penn. (the residence of Mr Kelley) 40 per cent; in Vermont, 40 per cent; in Massachusetts, 34 per cent; in Connecticut, 30 per cent; in Rhode Island, 24 per cent, in New York, 19 per cent; while to only one slave State do the mulattoes rise to 16 per cent. of the whole number of slaves, and in only three do they amount to 10 per cent.

Among the cases of hardship inflicted by General Butler on the people of Norfolk, alluded to by Governor Pierpont in his letter to the President, is the following:

THE CASE OF MR BILISOLLY.

Mr Bilisolly resided in Portsmouth. Some of the neighboring women took some silver to his house, and put it in possession of the female members of his family without his knowledge. The old man is about seventy years of age, and was a director of the Savings Bank. He was summoned before Gen. Butler and interrogated as to his silver. The old man knew nothing of it, and so replied. General Butler told him he was a liar, and he would put him in Fort Norfolk, on bread and water, until he learned to tell the truth. The old man replied, "Sir, I am your prisoner, or you should not address me thus."

The old man was put into the fort without a blanket, on a cold floor, and is still there. I received a letter from one of his daughters, a good Union woman, in which she says:—"My dear mother went to Fortress Monroe with one new cotton mattress, a pair of blankets, one good comforter, one pair of sheets and one pillow, which were never delivered to father." At the time Bilisolly was arrested, they found in his house, deposited as above stated, in one bundle, a large soup ladle, two silver mugs, two pairs of sugar tongs, half dozen old-fashioned table spoons, nine other tablespoons and teaspoons; and one other bundle, somewhat large, consisting of 27 pieces, from soup ladle to salt spoon.

Bilisolly is an eccentric man; he laid in liquors at the birth of his children, as well as at their wedding. When his youngest daughter was born, not twenty years ago, he had a surplus of one dozen bottles of wine and eight bottles of brandy, which he corked up, and laid aside to break when she got married. But the wine and brandy went with the silver, and, I suppose, if not since separated, have gone into the provost marshal's fund together.

If such outrages help the Union cause in that section, the people must be differently constituted from the rest of mankind.

HOW TO GROW PEACHES EVERY YEAR.—The following, by a correspondent of the Ohio Cultivator, is worthy of trial by all lovers of delicious fruits:

"Procure your trees grafted upon the wild plum stock. The tree partakes of the nature of the plum, being hardy and will never winter kill, and putting out late in the Spring will never be injured by the frost. It is a certain preventative against the workings of the peach grub, while the natural life-time of the tree is beyond that of our own; so you may depend upon peaches every year, and for a long period of time, without the destructive and discouraging influences attending the growth of the common peach. They can be obtained at from fifty to seventy-five cents per tree, and you had better obtain them, being certain of peaches every year. Try it, and our word for it, you will be satisfied with the result."

Adam caused our evil ways, and McAdam mended them.

There is often quite as much to be educated out of young men as into them.
