Divine service, by Rev. DANIEL STECK, every Sunday at 10½ o'clock A. M. and 7 P. M.

Services also every Wednesday evening, at 7 o'clock.

ST. JOHN'S CHURCH LECTURES.

CLEGG'S HALL.

The first regular Lecture of the season will be read at Clegg's Hall, on Thursday Evening, November 2d, by Hon. C. L. VALLANDIGHAM.

Subject—The Bible as a Literary Book.

Doors open at 6 o'clock—Lecture to commence at seven.

By order of the LECTURE COMMITTEE.

THE FAIR.—Beckel Hall was again crowded last night, and everything went off pleasantly. The managers of the Fair understand their vocation well. Notwitstanding the immense crowd that nightly assembles, the best order is presented, and those who attend once are sure to go again. To-night many additional attractions will be presented, and another good time is anticipated. Those who expect to see the inside of the hall had better be on hand in time

DEWER'S PREMIUM WASH BLUE.—Ladies who use this article for blueing, recommend it above all others. It is superior to any indigo for blueing and is superseding it wherever introduced. Can be had at No. 1 Potomac Street.

RACE.—Another race over the Pocahontas Course is announced to come off to-morrow afternoon at 3 o'clock. The competitors entered, are black mare "Coley," bay gelding "Dan," and dun gelding "Prince." An exciting trial of speed may be anticipated.

BOOTS AND SHOES.—Jo Hantgen on Jefferson street, is now receiving additions to his already large stock of Boots and Shoes. His assortment is one of the most complete in the city, embracing all the new and most desirable styles. His customer work is not to be surpassed by any other establishment. Persons desiring to purchase Boots and Shoes of first rate style and quality should not fail to call at Jo Hantgen's.

FRESH SHELL OYSTERS AND VENISON.—Just received at Cotterell's, Atlanta House, Market Street. oct26tf.

TO-MORROW NIGHT.—The contest for the palm, as elocutionists, between Messrs. Davisport and Beattie, will doubtless be a very pleasant affair at Clegg's Hall to-morrow evening. Both gentlemen are said to be well skilled in their profession, and those who attend may look for an interesting intellectual treat.

GOOD JOKE.—A hotel landlord, not long since, hearing of the whereabouts of a guest who had decamped without going through the usual formality of paying his bill, sent him a note: "Mr.——, Dear sir: Will you send the amount of your bill, and oblige," etc. To which the delinquent made answer: "The amount is $80.52½. Yours respectfully."

☞ The Cleveland Plaindealer states that one day last week, a justice of the peace of a certain brand on Superior street, Cleveland, summoned a negro as a juryman, to sit on some important case with white men. The white jurors, some of whom actually voted for the Negro Suffrage candidate, Cox, refused out-right to take their seats with him. After a couple of hours spent in quibblings, requestings and refusals, the redoubtable justice discharged the negro and summoned a white man in his place.

SONS OF TEMPERANCE.—The semi-annual meeting of the Grand Division of the Sons of Temperance of Ohio commenced at Massillon on Wednesday, to continue in session two or three days.

An Abolition paper says the Constitution has survived four years of war against traitors. We are glad to hear it has survived. As it has not been used of late it ought to be in good condition.—*Louisville Journal.*

Hostetter's Bitters on the Battle-Field.

It is satisfactory to know that our field hospitals are no longer unsupplied with this life-saving preparation. Soldiers who, as private citizens, had become acquainted with its properties, have in many instances made a special request that HOSTETTER'S STOMACH BITTERS might be added to the medical stores of their regiments, and their wishes have not been unheeded. As a means of sustaining wounded men on the battle field, and of enabling troops to bear fatiguing marches under a blazing sun, it has been strenuously recommended by distinguished medical men, and the prospect is that it will eventually supercede all the adulterated tinctures, liquors and dangerous Tonics that have heretofore been considered medicinal staples. The fact that a small quantity of the Bitters mixed with water from any of the Southern or South-western rivers will prevent it from affecting the bowels or the liver, should be borne in mind by Army Physicians, soldiers, and all who have occasion to visit those portions of our country. The man who uses HOSTETTER'S BITTERS in conformity with the directions, may set at defiance Intermittent Fever and all other diseases generated by the action of an unwholesome atmosphere upon an overtaxed frame.

☞ DR. HALL'S BALSAM.—Every intelligent man or woman who is suffering from CONSUMPTION, or any disease of the *Throat* or *Lungs*, and wishes to find the best remedy, will be amply repaid for examining the certificates and statements of esteemed citizens, attesting the efficacy of DR. HALL'S BALSAM; a remedy which has the sanction of scientific men.

LATEST NEWS.

From Washington.

WASHINGTON, October 26.—Secretary McCulloch has stirred up a formidable opposition against returning to specie payments.—He is denounced by some, and plied by arguments and prayers by others, but he stands firmly by his Fort Wayne speech. These parties will now turn to Congress, which will be importuned not only to deny authority to the Secretary to continue his policy of funding legal-tenders, but to extend the present limit of National Bank notes from three to five hundred millions.

The President has taken no action as yet on the findings and sentence of WIRZ by military commission.

It is probable that the Southern States will now be attended to in rotation, Virginia taking the lead.

The President to-day gave audience to a delegation of gentlemen representing the interests of the Union Pacific Railroad Company.

The Secretary of the Treasury, the Secretary of Interior, and Colonel Simpson, of the Topographical Engineer Corps, were present at the interview in connection with the business which brought the delegation to Washington.

From New York.

NEW YORK, October 26.—The Commercial says the stringency in Money continues, but with a slow tendency toward lower rates of interest. The Western cities have not only ceased to draw Currency from New York, but the current has set in in the opposite direction, the Chicago banks having now to remit Currency to meet their maturing obligations. The Government has disbursed liberally during the past few days at Cincinnati, which will tend to produce ease at that point. The Western demand for Money may therefore be considered past, but the South continues still to require large amounts in payment for cotton.

DAYTON, September 16, 1865.

Fellow Travelers:

Believing as I do that every man should be useful in his day and generation, and by request of thousands of persons of this community, I have made preparation again, and will manufacture my Excelsior Vermin Destroyer, and will have it sold by agents in every part of the habitable globe. It is perfectly innocent in its effects and will not destroy anything but that which it is designed to destroy—Rats, Mice, Roaches, Bedbugs and Ants. It can be used in pantrys, cupboards, graineries. It can be laid or set along the side of food for persons, or useful animals with perfect safety. It contains no poison, and is better than any other preparation now before the public. And you may ask why it is better than other preparations? I will tell you. It contains attractive oils, that other preparations here not got in them; this will bring vermin where the preparation is laid, and they will eat of it as often as you place it where they can get it, while there is any to eat. The preparation contains a different ingredient for the destruction of each named vermin mentioned above. For cockroaches a small peice of bread spread over with the preparation and laid on the floor in a room, or in pantrys, the preparation being covered with flour of three nights, successively, they will entirely disappear. In old houses, or bedsteads where bugs infest, take a peaknife, or stick and spread a small portion of the preparation along the cracks of the wash and chair boards, and on the bedsteads where they infest let the preparation stay on one or two days, then wash off the dead bugs; then put on a small portion of the preparation again, and you will not have to clean more than once a year. Persons using the preparation to destroy rats need not fear that they will go in wells, as it is the best of the preparation that destroys, and they will come out of enclosed places to get the air by getting the air they will die, at best they will leave the premises and go where they can get water, and then will die immediately after getting the water. It can be used any time in the year. Rats will not die under the buildings to leave a stench. By using from two to three dollars worth of this preparation a year, rats can be kept out of any mill, warehouse, or grainery in the United States. Private families will not need over two to four boxes per year. It should always be used three nights successively to clear them out. All other preparations now in for the public, contain nothing but phosphorus to destroy, mixed with corn meal and grease, colored with vermilion red. My boxes shall contain twice the amount that the others contain, and be sold for the same price. Country merchants and pedlers can be supplied by the dozen at $2; single boxes 25 cents, at my residence, Nos 107 and 109 Jefferson street, between 6th and 6th.

Directions for using on each box.

Success in Business.

No business can be truly successful which does not founded on a real business of things. The article made or sold must have intrinsic merit and supply a public want. Success issuing from the clap-trap of advertising, or the tricks of trade, or mere pretension and display, will be only apparent and, in the end, but deceive the operator and those who trust him. But if an article supplies a public want and fairly meets its reasonable expectations, its success and general adoption is merely a question of time. It may be retarded by a jealous influence, or spoil by premature gales, but in the end it is sure to win.

HUMPHREY'S HOMEOPATHIC SPECIFICS had their origin in a great public want—medicines for all the common wants of enlighted life—curatives that father, mother, nurse, or traveler could always have with them, and always rely upon—so simple that mistake could not be made in the selection, so harmless that all might use them with impunity, and so efficient that all might rely upon them with safety. Such they have proved. Thousands of families use them daily for all the ailments and sicknesses of life, and rarely are seriously sick, or have need to call a physician. Thousands, taking some single Specific, have cured themselves of chronic diseases which have been the bane of their lives, and upon which they have spent hundreds in vain, and among the millions who use them, none are found to question their purity or efficacy.

HUMPHREYS' SPECIFICS

combine all the advantages of the best Homeopathic treatment, without its uncertainty or uncertainty. They are prepared by a physician of over twenty years Homeopathic experience; they have been tried in every conceivable manner, and they have been endorsed and recommended in the highest terms by the hundreds of thousands who daily use them.

With a case in your house,

you may prevent sickness, prevent suffering, prevent expense, and loss of time, or the children having the Measles, or Scarlet Fever, or Whooping-cough, or even Fever, by using preventives in the case.

You may cure your Children

Of Croup, or Colic, or Toothache, or Headache, or Sleeplessness, or Suffering from Teething, or Worms, or Indigestion, or Wetting the Bed, or Catarrh, or Measles, or Whooping-Cough, or Scarlet Fever, or Diphtheria, or a Bad Cold, or Hoarseness, or Running of the Ears and Deafness, or even Scrofula, as thousands have done and do daily.

You may cure yourself

Of Headache, Weak Stomach, Indigestion, or Billiousness, or Catarrh, or a Bad Cold, or Sore Throat, or Hoarseness, or Liver Complaint, or Piles, or Constipation, or Rheumatism, or Sore or Weak Eyes, or Salt Rheum, or Kidney Disease, or General Debility, or even Asthma, with these Specifics.
