CITY OF LANCASTER.

THE ELECTION.

Wednesday Morning, 6 o'clock.—Dreary, wet and raining; returns come in slowly, enough however to prove that the American party are routed, horse, foot and dragoon." He is not we have fought, bled and—live to fight for the American cause, often beaten, but, never, conquered.—Huzza for old Fairfield, she will yet come to the rescue.

9 o'clock.—Still raining and the very heavens appear to be shedding tears—worse and more of it, Cleaveland, Columbus and Zanesville all Payneiully affected.

10 o'clock.—Still raining, all quiet, waiting for the Cincinnati news—there blows the white lie—and now for the conflicting statements of the Commercial and the Enquirer, it will take a Philadelphia Lawyer to get the truth out of either of them.

11 o'clock.—Cincinnati papers at hand, nothing definite, as to the election. But returns too meager to predicate any thing definite, Enquirer mum—a little ominous—nature still shedding tears and all for the good of the nation.

12 o'clock.—Dinner ready, roast beef and a good appetite; huzza for the looser, the winner can take care of himself.

1 o'clock.—Quite refreshed,—free from Payne—Chase is showing the white of his eye in the Northern Horizon. The rain subsided, look out for squalls.

4 o'clock.—Old Fairfield all in, Payn's majority 1635, we give it up, Col. Van Trump is beaten and no mistake; all is well that ends well. We must hand over to the Compositor, if any thing transpires in the next two hours, we will stop the press and post our friends.

Thursday, 11 o'clock.—Cincinnati papers received—nothing definite as to the election. The Commercial thinks Chase is elected by from 5 to 10 thousand majority. The Enquirer still mum. Time alone will settle the question. We must go to press.

☞ We learn from most reliable authority that Beaty, Shaws & Co., are making desperate efforts, (as they say) to "crush us out." Will some friend be kind enough to furnish us a pan to catch the *juice!* We expect to be in funds in a few days to pay all our debts. Our compliments are due to our creditors for their kind forbearance, and our thanks we return to those 21 new subscribers we have received during the last ten days.

MONEY.—We commend to the reading of our patrons, an article in to-day's paper upon the subject of *Assorting Brokers*, or the gentlemen with Black Carpet sacks.—We think the article is full of good common sense argument. We regret the spirit of the age—to make money at all hazzards, and we warn these gentry to beware of the feeling abroad, although the law protects them; yet an outraged community frequently make laws for themselves. We are the last man in the world to counsel opposition to law—but self-preservation is the first law of Nature.

☞ JOHN MASON, Esq., of Greenfield township, presented us with a bottle of Syrup made by himself, from the Chinese Sugar Cane, it was as clear as amber and resembles in taste, honey more than any other of the sweet family, (the Ladies always excepted.) Mr. Mason has a mode of clarifying peculiar to himself, and says, it yields abundantly, and it is destined ere long to knock the south into fits upon the sugar question.

☞ See Kansas news in another column. We rejoice at the triumph of the Free State party—it is as we anticipated and prophisied. In spite of the crooking and snarling of our opponents the people in Kansas have acted wisely in the end.

☞ We received from our old friend SAMUEL COFMAN, a few days since, four magnificent peaches; the Onondaga, the Louise Bondy Jersey, and the Virgaliew. Friend Cofman has a great variety of choice fruit trees; apples, peaches, pears, and every variety of shrubery for sale at his Nursery, near Carrol, in this county.

☞ BLACKWOOD'S MAGAZINE for Sept., is received, and as usual, is filled with interesting matter. It is published by Leonard, Scott & Co., New York. Price 25cts per copy.

SOME PUMPKINS.—Our old friend JACOB SMEYER presented us with a pair of pumpkins on Saturday last, and we guess they were about the size of the moon, according to our astronomical measurement. Jacob knows that its about time for thanksgiving and we being a Yankee and fond of pumpkin pies—he knew exactly how to please us. Huzza! for Jake and the American cause; he's one on 'em.

THE NEW TERRITORY OF DACOTAH.—The last Congress, it will be remembered, formed a new Territory under the name of Dacotah. The Independent, published at Sargeant's Bluff, says the Territory includes a great part of the valley of the Sioux, the valley of the James and Vermillion rivers, and large tracts of beautiful bottom lands lying on the Missouri. In regard to the climate, it becomes milder to the Westward, so much so that the winters in the northwestern parts of Dacotah are said to be not much more severe than in northern Pennsylvania. The prevailing want of this entire region is timber. Its chief attractions are fertile soil, pure air and water, an unusually healthy climate; and it is believed also to possess an abundance of mineral coal.

CALIFORNIA ELECTION.—From the steamer, Star of the West, we have election news from California. The Gubernatorial election resulted as follows: Weller (Dem.) received forty thousand votes, Stanly (Rep.) twenty-seven thousand and Bowrie twenty-seven thousand. The Democratic ticket fell short of the majority by fourteen thousand votes.

Since the Presidential election one year ago, the Democratic vote has decreased about twelve thousand, the American eight thousand, while the Republican has increased seven thousand. The falling off from the whole popular vote of last fall is thirteen thousand. A good Republican gain for one year.

Pennsylvania Legislature.

HARRISBURGH, October 9.—The Senate last evening, passed on the second reading bank bill number one, and on the second reading, sections two and three of Brown's original bill already published, being incorporated as section five.

Section four of Brown's bill also incorporated as section six. The title of the bill was amended to read, an act providing for a resumption of specie payments and relief of debtors.

A large meeting was held last night, ex Governor Porter presiding.

Resolutions were adopted urging the Legislature to pass a relief law. Mr. Roberts, of Pittsburgh; McMichael, of Philadelphia, and Pearson of Harrisburgh, spoke ably in favor of the movement.

The meeting is regarded by those in favor of such a law as a powerful demonstration.

This morning a special committee of thirteen reported to the House an act for the relief of banks and debtors, removing the penalties on suspension until next March. Permits the banks to discount and pay out their own notes at sixty days and after March must also pay their deposits, and not declare dividends above six per cent.

The Pittsburgh and Philadelphia banks to publish weekly statements like New York; and banks to receive the notes of other banks solvent prior to the suspension.

The President of any bank making oath that another bank is unworthy of credit, commissioners shall be appointed to examine the affairs of that bank. If the bank refuses the means of examination, it forfeits its charter, unless it resumes before the 1st of March.

Banks must redeem notes received for tolls and taxes, and all judgements shall have a stay of execution for six months longer than is now allowed, and where a party has a freehold a stay of execution shall not be granted for wages of labor.

Banks to certify an acceptance bill within thirty days, and pay half of one per cent. for the privilage. Ordered to be printed.

The bill for the relief of banks and debtors was taken up for a third reading. Mr. Straub moved as a substitute, a bill of three sections, providing for a suspension until the first of February, requiring the payment in specie of five dollar notes, providing a stay of execution for one year, and the repeal of the 47th section of the act of April 16th. This was discussed at length.

Amendments were made substituting the first section of the previous bill passed last night, extending the time of suspension to the second Monday in April next; also adding section four to the same bill, requiring the deposits of the State treasurer to be paid in specie.

Others amended by substitutes, but the bill finally passed.

☞ In Turkey, a gentleman who, twenty-five years ago, was a watchmaker in Portland, Me., has established himself, and the great object of his life is missionary work in that empire. He thought that Moderen Christian civilization was to take the place of miricals as evidences of Christianity, he studdied the natural sciences and took over the Sultan magnetic telegraphs and miniture railways and steam-engines. When the armies of England and France wanted bread, he constructed steam mills, ground up their wheat, and supplied their urgent necessities. Now the Sultan is most favorable to him and his mission. *This is the true way to extend civilation.* One man is thus, by schools and other means, producing greater benefit than has been accomplished by all the armies of the East.

A BLUNT CONCLUSION.—The New York Sun declares clearly, but with great calmness:

"We are, becoming a nation of vain, extravagant fools. From January 1st to this date, we have imported foreign merchandise to the value of one hundred and seventy-five millions of dollars—about fourteen millions more than our imports amounted to for the same time last year. The value of our exports since January 1st is about fifty millions of dollars, or four millions of dollars less than our exports for the same time last year. We have run into debt this year alone, about one hundred and twenty-five millions of dollars, and by the end of the year, our foreign debt for imported goods will be much larger."

The Reported Fall of Lucknow.

The New York Herald of Thursday, contains a Calcutta letter, or at least a letter dated at that city—the first paragraph of which we print:

CALCUTTA, Aug. 10, 1857.

The overland mail for England closed on Saturday, the 8th inst. I write this to send by the other packet, which goes down the river this morning and will overtake the mail Steamer (the Bentinck) off Saugor island. We received very bad news from the interior on Saturday, but as the Governor has kept it back from the newspapers, you will not probably hear of it, in the ordinary course of intelligence, until the next mail.

Lucknow, the capital city of Oude, has fallen; all the Europeans have been massacred by Nenajee Sahib; and the relief force unde General Haverlock has been obliged to fall back upon Cawnpore, terribly decimated by the cholera. There is every reason to believe that this news, discouraging as it is, is true. It is not stated on what day the garrison of Lucknow surrendered, or was overcome by the rebels; but it must have been about the 1st of the present month. That city contains a population of about 300,000 Mahomedans, who probably fraternized with the beseigers, and rendered the destruction of the Europeans speedy and certain. We have intelligence this morning that Gen. Havelock, at Cawnpore on the 4th inst., had a reinforcement and had moved on again towards Lucknow in pursuit of the rebel army.—The rebellion and carnage are now geting nearer and nearer to Calcutta. Dinapore and Berhampore have mutined, and a large number of the rebels are coming down the Ganges in boats. But the Dinapore rebels have been defeated, and five of the boats containing them have been sunk by our artillery, and five hundred of the rascals killed. Arrah has been relieved.

That Gen. Havelock had to fall back in his march from Cawnpore to Lucknow, in consequence of the cholera, and the swarm of Sepoys, and that he received reinforcements and relieved himself of his sick and wounded, and resumed his march for Lucknow, we learned through the English papers. It was stated too, in the last batch of Indian news, that Sahib, who massacred the English at Cawnpore, and was driven thence by Havelock, was hurrying toward Lucknow in advance of Havelock, with a formidable army of insurgents. He would arrive at Lucknow in advance of Havelock, and if the town fell, the event probably happened about the time of the arrival of the insurgent force under Sahib, who in that case would repeat the awful scenes of Cawnpore. But woe unto the monster if Havelock catches him.

Financial News.

NEW YORK, Oct. 9.—There is a tremendous run on the Park Bank to day. The Bank is said to have only one hundred and fifty thousand dollars in circulation, and nearly three hundred thousand dollars in specie.

Messrs. Callu lit & Wetmore, bankers have suspended.

The run on the Park Bank subsided before the closing hour this afternoon. The Bank paid all demands made upon it.

The Brooklyn Central Bank has been enjoined, and a receiver appointed. A meeting was held this afternoon at the Merchants' Bank, to devise means of relief It is reported that the Banks will provide a fund of $6,000,000 for the special object of forwarding produce.

The Bowery Bank, of this city, has closed its doors and suspended from the Clearing House. Its bills are abundantly secured, and will be taken by all the other city banks. The institution was but a small affair.

BOSTON, Oct. 9.—The following failures are reported here to-day; Messrs. Leaguey & Co., straw goods, Milton Gale, oil and leather dealers, and Nash & French, shoe dealers.

BALTIMORE, Oct. 9.—Rumors have been in circulation all day, relative to the Manufactures' and Farmers bank of Wheeling, Virginia, but it is impossible to trace it to any reliable source; our Brokers were buying its notes this afternoon at 10@15 per cent. discount. We have heard no rumors against any of the other Wheeling Banks, and well informed sources discredit the above report.

SECOND DISPATCH.—A dispatch received from Wheeling, says that the reported failure of the Manufactures' and Farmers Bank of that city, is entirely without foundation, as the rumor may find circulation in other quarters, this notice of its erroneous character may prove beneficial.

FROM DETROIT.

DETROIT, Oct. 9.—Produce is fast accumulating at this port, and very little is going forward, owing to the derangement of currency and the uncertainty of the eastern markets. The stock of Flour on hand is larger than at any previous period. The receipts by railroad yesterday, were 3,200 bbls of Flour and 10,000 bush. Wheat. The Michigan Central Railroad boats, between Detroit and Buffalo, will be laid up as fast as they arrive at this port. The momentary excitement has subsided and our banking institutions are looked upon with the utmost confidence.

ANOTHER SUSPENSION.

NEW YORK, Oct. 5.—Messrs. Harper & Brothers, extensive publishers have suspended. Their house is reported to have a surplus of upwards of $1,000,000.

Excitement Among Railroad Men.

NEW YORK, Oct. 9.—The New York & Erie Railroad Company did not pay their laborers at Bergen tunnel to-day.—There was great excitement, and the track was torn up.

☞ We notice the arrival of the Kershaw at Liverpool, which sailed some time ago from Lake Erie, for Liverpool, has arrived there, and is about to return with a cargo consigned to parties here; she reached Liverpool on the 5th of Sept., and was to sail again on the 20th.

REFORM SCHOOL FARM.—The Treasurer of State made the last payment on the Reform School Farm last week, and the one thousand acre of real estate in Fairfield county, six miles south of Lancaster, is now the property of the State. The sum total paid for the farm is $14,069—cheap enough in all conscience.—*Columbus Journal.*

☞ A Harrisburg paper gives the following case of absence of mind: "A girl who was one of our first lovers, was one night lighting us out, after having passed a delightful evening, and in bashful trepidation, she blew us out and drew the candle behind the door and kissed it."

Latest From Kansas.

ST. LOUIS, Oct. 9.—The officers of the Steamers Auxury and Cataract, which have just arrived at Booneville, furnish the following majorities: Leavenworth county, 250; Atchison, 60; Johnson, 1,700; Douglas, 1,400; and Doniphan 30 to 40 for the Republicans.

With the exception of Leavenworth, these returns are not entirely authentic.

Johnson county is said to contain not more than 2500 voters.

There was entire harmony between the Northern and Southern Democrats, who are almost entirely Administration or Walker men, and their action in the Legislature will be shaped after Walkers manifesto, provided he can control what he has organized. There is but little doubt that the Democrats have carried both branches of the Legislature.

LATER.—The Quindaro Chindowan of the 7th inst., says, that as far as heard from, the election passed quietly. At several places the polls were kept open until Tuesday evening. There are no official returns.

The following is the reported vote given: Gum Springs, 28; Monticello, 6; Oxford 9; Olotch, 18; Spring Hill, 12; Lawrence, 550; Lecompton, 108; Willow Springs, 270; Palmyra, 198; Lexington 40 and McQuick 6, for the Democrats.

Wyandotte gives Parrotte 66 majority.

SECOND DISPATCH.—Later and more reliable advices from Kansas state that the Democratic majority in Leavenworth county is 100: Atchison 47; Johnson 200, and Doniphan about even.

The same authority thinks that the Democrats have carried the legislature by a small majority, but a disinterested gentleman who has just arrived at Booneville from Santa Fe, and who passed through the interior counties of Kansas, and a resident of Booneville just from Lawrence, report that the Republicans have carried the legislature by a large majority.

ST. LOUIS, October 10.—From a gentleman just arrived from Kansas, we learn that Jefferson county is largely Republican, and Calhoun county doubtful.

Leavenworth county gives a Republican majority, Easton 45, Wyndotte 59, Leavenworth 200.

Delaware and Kickapoo give Democratic majorities of 50 and 450.

Johnston county is conceded to the Democrats, but it is thought Douglas county will give a sufficiently large majority to carry the district.

SECOND DISPATCH.—Advices from Leavenworth to the morning of the 8th inst. state that Leavenworth county is the only one thus far heard from that has given a Democratic majority.

Doniphan county gives a Republican majority of 23, Atchison 44 Douglas 1,600. These returns are given as authentic, Tecumseh township gives 160 Republican majority, Topeka 190, and Calhoun 159.

STILL LATER.—Later advices state that Parrott's majority will reach from five to eight thousand.

According to an estimate of the free Statemen the Legislature will stand—for the Council, nine Republicans and four Democrats; for the House, twenty-four Republicans and fifteen Democrats.

Johnson county gives a Democratic majority of two hundred and fifty.

Awful Shipwreck.

An extraordinary case of double shipwreck is reported in the St. Christopher, (West India) papers. The Rosabella left Dominica early in May for the Spanish Main. On the night of the 14th of May, a storm suddenly brewed up, a heavy sea struck the vessel, and she became a total wreck. Nothing was saved but a trunk of money, and with this the captain and supercargo got ashore. They then purchased a cargo of sugar, and chartered the Esther, of Curocoa. After embarking the second time, a fearful tornado struck the schooner, and she instantaneously went down. Twenty-one persons were washed off, and with great difficulty avoided the vortex of the sinking vessel. The boat fortunately got adrift, but the plug was out! For three hours they madly struggled to stop the hole, and at last it was done. But meanwhile the sharks had taken off several of the miserable men, and only thirteen succeeded in getting into the boat. They picked up the oars—it was quite dark, and when the morning came they saw no land in any direction. For four days and three nights the wretched men, without a morsel of food and scarcely a vistage of clothing, labored at the oars, on the morning of the 9th of July the boat reached St. Christopher, ten men being alive, but all in the last stage of exhaustion. One died almost immediately on being carried ashore. The rest were hospitably cared for.

A wag of the board of examiners a Apothecaries' Hall asked an applicant for his diploma: 'What government measure was like nitro-muriatic acid?' The candidate could not answer the question—gave it up. The examiner said, 'Why the Divorce Bill, to be sure, because it will dissolve a wedding ring.' The postulant went into convulsions of laughter. He passed of course.

To the Clerk of the Court of Common Pleas and District Court within and for the County of Fairfield and State of Ohio.

It appearing to the undersigned, Judges of the Court of Common Pleas for the Seventh Judicial District of Ohio, that certain changes in the times of holding the District Courts in said District, are required by the public interests and convenience, it is therefore ordered that the District Courts in the Counties of Lawrence, Scioto and Pike, shall hereafter be held as follows, to-wit:

In the county of Lawrence on the first Thursday after the Third Monday of April.

In the County of Scioto on the Fourth Monday of April.

In the County of Pike on the first Monday next after the Fourth Monday of April.

And for the reasons aforesaid, we do also order that the times of holding the Courts of Common Pleas in the said Seventh Judicial District, in the following named Counties, shall be changed, and that the Courts of Common Pleas, shall hereafter be held in each and every year as follows, to-wit:—for the Fall Terms.

In the County of Pike, on the Wednesday next after the second Tuesday of October, and

In the County of Vinton, on the first Monday next, after the second Tuesday of October.

In the County of Jackson, on the second Monday next after the second Tuesday of October.

In the County of Hocking on the second Monday after the fourth Monday of February, for the Spring Term.

And in said County of Hocking for the Summer Term, on the second Monday next after the second Monday of May.

In the County of Perry on the fourth Monday next after the fourth Monday of February, for the Spring Term.

And in said County of Perry on the fourth Monday next after the second Monday of May, for the Summer Term.

And in all other respects, the times for holding the Courts of Common Pleas and District Courts in said Seventh District, shall remain unchanged—and said Courts shall continue to be held as now fixed by Law.
