OFFICE—In Tallmadge Block Third Story—First door to the Left at head of Stairs.

CITY OF LANCASTER:
Thursday, November 17, 1859.

Remember that the Gazette Office is now in the Tallmadge Block, entrance one door east of Wygum's provision store; office first door to the left at head of the stairs.

The Tallmadge and Shaeffer houses have been consolidated. Mr. A. E. Cook, former proprietor of the Shaeffer House, having purchased the Tallmadge House furniture, has consolidated the two. Hereafter his office will be found in Tallmadge block. This arrangement, though not very creditable to Lancaster, will nevertheless prove very advantageous to the travelling public, by furnishing more room and better accommodations than heretofore had. Mr. Cook, the present proprietor is an accomplished landlord, and a most thorough-going business man. He will refit in part both houses, keep them in better style and give more general satisfaction than the public have ever had in this city.

New Invention.—We noticed a few days since, on one of the cars of the C. W. & Z. Railroad, a new invention in car coupling, owned by Mills, Carpenter & Co., of this city, and are much pleased with its operation; being self-coupling and is uncoupled from the top of the car by the trainmen. It is simple and effective in its construction, and deserving of special attention by all railroad men, as a means of protecting the lives and limbs of men, who are daily sacrificed by passing between the cars for the purpose of coupling or uncoupling the same, as well as a great labor-saving invention. We predict for the ingenious inventors not only a handsome remuneration, but also the comforting assurance, that if adopted, their labor will be rewarded by the consciousness that their effort will merit the approval of all philanthropists, who will hold responsible all those who refuse or neglect to procure the best means to prevent the many accidents which are so frequently occurring on our railroads.

New Time Table.—On and after Monday last, the trains on the C. W. & Z. Railroad will be run as follows: Freight and accommodation will leave Morrow at 6 A. M., passing Willmington at 9:56 A. M., Circleville at 3:18 P. M., Lancaster at 5:47 and arrive at Zanesville at half-past ten in the evening.

The No. 2 passenger train will leave Morrow at 11:35 A. M., on arrival of the express from Cincinnati, passes Wilmington at 12:35 P. M., Circleville at 2:57, Lancaster at 4:06, and arrives at Zanesville at 6:55 P. M.

Returning, the passenger train leaves Zanesville at 9 A. M., passes New Lexington at 10:15, Lancaster at 11:26, Circleville at 12:59, Wilmington at 3:33, and Morrow at 4:36, connecting there with train arriving at Cincinnati at 6:35 P. M.

The Freight and Accommodation leaves Zanesville at 7:30, Lancaster at 10:05, Circleville at 2:50 P. M., Wilmington 80:4 and arrives at Morrow at 10:20 P. M.

Mr. Geo. L. Sicking, at his confectionery, on the corner of Columbus and German streets in this city, is manufacturing an article he calls "London Butterscotch," which is highly recommended for coughs, colds, asthma, &c., &c. Having tried it, we are "satisfied" of one fact, that it is "not bad to take."

Public Sale.—Special attention is directed to the advertisement of Wesley Peters, Esq., in another column of to-days paper, who will offer at public sale on the 30th of this month, some valuable property. Stock speculators, "pitch in."

Thanksgiving Day.—The Banks of this city will be closed on Thanksgiving Day, (Thursday 24th inst.) Parties having paper maturing on that day will please attend to it the day before.

Notice.—The Pleasantville Literary Institute has reorganized, and will continue a series of discussions, in the school room in Pleasantville, on Wednesday evening of each week during the winter, subjects for discussion, to be selected one week previous to discussion.

Later for the Gold Mines.—The Rocky Mountain News, of Nov. 3d, contains the following item of news:

On the morning of the 21st ult., the mining settlement at Gold Hill was attacked by a party of Utes, who succeeded in driving off three head of horses, two of which they killed before proceeding far, & wounded one man named Barker, with a shot through the hip. The day following, a party of thirty miners started in pursuit, and followed the trail of the Indians to the Snowy Range, when, deeming further pursuit useless, they returned home. Mr. Barker is recovering from his wound.

Chain Gang.

A writer in the Lancaster Gazette, says, "Butler has been raising the wind again, and let us have a chain-gang for him and numerous other such characters." So he has, and so he will continue to do, just as long as there is a man in Lancaster who has a bottle on the shelf with whiskey in it, to retail, and Butler has five-cents to buy it with: And just so often, in return for this five-cents, will $5 or $10 be returned to the tax duplicate to be footed by those who follow honest professions.

When will men learn to reason correctly? So long as the poisonous Upas has its roots fixed in the soil, so long will it continue to shoot forth branches, and infest all with its influence. Do men attempt to fell trees by lopping off the branches? It only increases their number. I hold that the citizens of Lancaster, have the power, and that it is their sacred duty, to shut up the liquor shops "according to law," and then we shall not need either the jail or chain-gang, for "Butler and numerous other such characters." And I challenge contradiction that in no other way can this end ever be attained.

I have seen Butler often, when entirely sober, and I regard him as a man of excellent common sense, and perfectly civil, when his passions are not inflamed by drink. He is a man of blighted earthly happiness, and when intoxicated, like all drinking men, reason is dethroned. The idea of his seeking an asylum in the jail, is simply preposterous.

What judgment under the circumstances, will the public pass upon the man who takes the five-cents. L.

Trial of Cook.

Charlestown, Nov. 9.—The trial of Cook attracted a great crowd in the Court room, both yesterday and to day. Gov. Willard and Mr Crowley, the brothers-in-law of the prisoner, occupied seats beside him. His counsel are, J. E. McDonald, Attorney-General, and Mr. Voorhies, District Attorney of Indiana, and Messrs. Lawson, Botts, and Thomas C. Green, of Virginia. The prisoner was well dressed, and maintained a firm and dignified demeanor. He plead guilty to all the counts of the indictment, except that charging treason. The demurrer to the count of treason was argued by the counsel and overruled by the Court. A jury was obtained, the questions put to them being about the same as in Brown's case.

Mr. Green, for the prisoner, admitted the fact of the prisoner conspiring with slaves to rebel, which is punishable with death, or imprisonment for life.

Mr. Hunter then rose and read the confession of Cook. It is written by himself, and fills twenty-five foolscap pages. It elicits nothing new, except the fact that he implicates Fred. Douglass and Dr. Howe. The confession is to be published in pamphlet form, for the benefit of Samuel C. Young, one of the wounded men at Harper's Ferry.

The session of the Court to-day was spent in taking testimony and opening the argument for the State.

The feeling against Cook is stronger than against any of the other prisoners. He is regarded as having been a spy for the insurrectionists. Strong efforts will be made by Governor Willard to save his life.

New Jersey Election.

Trenton, N. J., Nov. 9.—The returns from the various sections of the State, indicate the election of Chas. A Olden, Republican, as Governor, by about 2,000 majority. The Senate will be Democratic, but the complexion of the House is doubtful.

Salem County—Olden, Opp., for Governor, has about 100 majority. Newell, the Democratic candidate for Clerk, is elected.

In the first Legislative District, Lippincott, Opp., is elected by a small majority, and Habarmeyer, Democrat, is elected in the Second District.

Trenton, Nov. 9.—Charles A. Olden, Opp., is without doubt elected Governor by 1,600 majority. The Legislature will stand as follows:

Senate—Democrats 12, Republicans 8; Americans 1.

House—Democrats 29; Republicans 28; Americans 3.

There are still doubts as to the House, the vote in some districts being very close.

FROM WASHINGTON.

Washington, Nov. 3.—While the Cabinet was in session yesterday, the President received a dispatch, showing the pressing necessity for military assistance at Brownsville. The Secretary of War, within half an hour thereafter, issued instructions to Captain Rickets, commanding the artillery company at Baton Rouge, to place his men in readiness for a march and at the same time the Quarter master at New Orleans was telegraphed to make arrangements for transporting the troops to Point Isabel, to which place they are now probably on the way.

A private letter from El Paso, dated Oct., 4, says:

"The new law of the Juarez Government, the making marriage by the civil authorities imperative, has created much excitement in Northern Mexico. At Durangoa pronunciamento was issued against the law, In Chihuahua petitions are in circulation, calling upon the Government of that state to suspend the execution of the law.—The clergy are at the foundation of these disturbances."

The President has commuted the sentence of Captain Holmes, who was convicted some time since of the murder of a sailor upon the high seas, and sentenced to be hung on the 25th inst.

Rev. David Junkin has been appointed Chaplain in the Navy.

The first number of Hon. Thomas B. Florence's Democratic Quarterly Review will be issued on Saturday.

The Postmaster General returned from the South. He has not yet opened the bids for the transportation of the mail between Portland and New Orleans.

J. P. Thomas, the special delegate from Brownsville, had an interview with the Secretary of War to-day, and fully explained to him the alarming condition of the frontier of the Rio Grande.

The loss by fire during the month of October in New Orleans was $255,500

D. W. Comstock of Chicago; for improvement in railroad gate.

C. Bird Pate, of Moor's Hill, Ind.; for improvement in stump extractor.

Oliver P Moran, of Hynesville, Mo; for improvement in corn planters.

Another Insurrectionist Arrested.

Washington, November 12.—A man calling himself McDonald, was arrested here last night on Seventh street, by officer Allen, to whom he made such admissions as to lead to the belief that he was one of Brown's party, and had escaped from the Armory at Harper's Ferry. He was disguised, assuming the appearance of an old man. He said he was originally from Boston. His breast and chest were well peppered with wounds as from short. Governor Wise being telegraphed, returned an answer instructing the officers to send to Harper's Ferry for persons to identify the prisoner, and to inform the President.

German Celebration.

Philadelphia, Nov. 9.—The Germans celebrated the centennial anniversary of Schiller's birth with a procession, in which all the German volunteer, singing societies, and beneficial societies participated. Each man carried a torch, and displayed numerous devises and transparencies, including a large bell and a printing press in operation. Many houses were illuminated along the route, brilliant displays of fire works and salutes were fired during the march. On reaching Broad street the torches were thrown into a heap and consumed. After listening to an appropriate address the crowd dispersed.

The Mammoth Balloon.—The inflation of Professor Lowe's balloon, the City of New York, still continues. The Grounds were visited on Thursday by about 4,000 spectators, and on yesterday by nearly 5,000. About 80,000 cubic feet of gas, it is said, have been already admitted. The car or basket is now carpeted and surrounded with a wall of canvass, presenting on the whole a very snug and comfortable appearance Mr. J. A G nin, the Broadway hatter, has presented Professor Lowe with a splendid outfit of furs, consisting of a robe, coat and gloves, all of which are on exhibition within the tent. There are besides, blankets, fur covered boots, &c., for the use of the aeronauts. The United States Government have presented, through Lieut. Maury, one aneroid and one mercurial barometer, as well as charts of the Atlantic ocean. The grounds were thronged all day yesterday by visitors.—[New York Herald, 5th.

All wanting farms in a delightful climate, rich soil, and secure from frosts, see advertisement of Thomas Malone, Hammonton, New Jersey.

New Agricultural Settlement.

TO ALL WANTING FARMS.

A Rare Opportunity for Delightful and Healthy Climate, 35 miles Southeast of Philadelphia, on the Camden and Atlantic Railroad, New Jersey.

A Real estate consisting of several thousands of acres of productive soil, has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the Middle States and New England, have settled there the past year, improved their places and raised excellent crops. The price of the land is at the low sum of from $15 to $30 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The upland perfectly secure from frosts—the deadly enemy of the farmer. Compost grass, grass and fruit are now growing and can be seen. By examining the place fully, a correct judgement can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been that within the past year, some three hundred houses have been erected, five mills, one steam, four stores, some forty vinyards and peach orchards planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may perceive from its location, is THE BEST OF THE UNION.

Produce bringing double the price than in locations away from the city, and more than double the price in the west. It is known that the earliest & best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here the settler has many advantages.—He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement and comfort is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the west this is reversed.) he has school for his children, divine service, and will enjoy an open winter and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market, and without these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt meet persons from their own neighborhood; they will witness the improvements, and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held one week.

There are two daily trains to Philadelphia and to all settlers who improve, the Railroad Company issues FREE TICKETS FOR SIX MONTHS, AND A HALF-PRICE TICKET FOR THREE YEARS.

THE TOWN OF HAMMONTON,

in connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufactories. The shoe business could be carried on in this place and market to good advantage, also cotton business, and manufacturer of agricultural implements, or foundries for casting small articles. The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell small ones as it would affect the improvement of the place, can be had at from $100 and upwards.

THE HAMMONTON FARMER, a monthly literary and agricultural sheet, containing full information of Hammonton, can be obtained at 25 cents per annum.

Title indisputable—warrantee deeds given clear of all incumbrance when money is paid.—Route to the land: leave Vine street wharf, Philadelphia, for Hammonton by Railroad, at 7½ A. M., or 4½ P. M. Fare 99 cents. When there, inquire for MR. BYRNES—Boarding conveniences on hand. Parties had better stop with Mr. BYRNES, a principal, until they have decided as to purchasing, as he will show them over the land in his carriage, free of expense. Letters and applications can be addressed to LANDIS & BYRNES, Hammonton, Pt. O., Atlantic county, New Jersey, or S. S. COUGLAR, 202 South Fifth Street, Philadelphia. Maps and information cheerfully furnished.
