INSTANT DISCOVERY.—BONE AND [illegible] Cured without pain or the [illegible] of cutting, and without the least injury to the eye or appearance of the eye, by Dean's Chemical Plaster. It is now about [illegible] since the proprietor introduced this [illegible] in the possession of the afflicted. Its effects in some cases of deafness and [illegible] of every description, [illegible] both internal and external, at any stage of its existence. He believes it is unknown of cases abundantly [illegible], yet no medicine has been introduced to the public possessing such power to cure inflammation in cases of every kind, not excepting inflammation of the eyes, sore throat, fever sores, [illegible] or [illegible] in the eyes, as the plaster now of [illegible]. One very peculiar quality of it is, that it generally relieves the pain in a few hours after it is applied. For sore eyes this theory and put the plaster directly on the eye and [illegible] in twelve hours and washing off the plaster on the eye with [illegible] till the inflammation is entirely out, say from three to ten days. The proprietor never thought of applying it to sore eyes until about two years ago, when he applied it to a case in his family and was astonished at the result. Since then he has applied it in many severe cases and it has uniformly effected a cure and leaves the eye natural and free from any inflammatory appearance as though it had not been sore. He only believes that almost every case of sore eyes may be cured by it in a few days, except in cases of intemperance.

CERTIFICATES.

Mr. E. Dean.—Sir, I have used your Chemical plaster in six cases of fistulas, all of which I cured, also several cases of inflammatory rheumatism with like good success.

THAYER CUMINGS.

Maysville N. Y. August 28, 1837.

Mr. E. Dean.—Sir, Mr. Rodolphus Hyde, my father-in-law, some time last fall, had a severe attack of the inflammation in both eyes, so that he could not bear the light and scarcely see, after using various remedies for three weeks and his eyes still growing worse, and so painful that he could not sleep by day or night, he applied your chemical plaster and in two hours his eyes were easy, and began to discharge freely, and the inflammation began to disappear; we continued the plaster for one week removing the inflammation and his eyes assumed their former appearance. We also applied it in one of the worst cases of felon, which afforded relief in a few hours so that the individual had a good night's rest. For six days and nights previous he had not been free from excessive pain and some of the time he had been distracted, with pain that he had to be held by force.

CLARK GOULD.

Portland N. Y. Feb. 22, 1837.

Mr. E. Dean.—Sir, I have now sold or retail about 400 boxes of your Chemical Plaster and have heard from a great portion of them as producing the desired effect. Several important cases in this vicinity which came under my knowledge, where other medicines had been tried for years without effect, have been cured. In fact, I think it one of the most valuable medicines for curing inflammatory diseases ever invented, and do think the suffering of the afflicted demand that you should give it a general circulation, and make its virtues known.

ROBERT HOLLISTER, *Druggist.*

Buffalo, March 1, 1837.

Mr. E. Dean.—Sir, in May last, I put out two pieces in my instep, which had rot up for six months, so that I could not walk on my foot. I employed several physicians to no effect, and in October last I procured a box of your plaster, which cured my foot in a few days. I have applied it to my back also, and received immediate relief in a case of rheumatism.
